Building and Engineering News

Devoted to the Architectural, Building, Engineering and Industrial Activities on the Pacific Coast

Issued Every Saturday

SAN FRANCISCO, CALIF., JULY 1, 1922

Twenty-second Year No. 26

No. 560 Mission Street,
San Francisco, Calif.

MRS. L. A. LAUSEN, Publisher
J. P. FAHRELL, Managing Editor

Devoted to the Engineering, Architectural, Building and Industrial Activities of the Pacific Coast.

Official Paper of Valitje Builders' Exchange

Subscription terms payable in advance
U. S. and Possessions, per year, \$4.00
Canadian and Foreign, per year, 5.00
Single Copies 15c

Entered as second-class matter at
San Francisco Post Office under act of
Congress of March 3, 1879.

W. P. FULLER & CO. TO IMPROVE HOLDINGS

Further emphasis of the continued industrial development of San Francisco is shown by the purchase of more than ten acres of water front land in South San Francisco by W. P. Fuller & Co. from the Steiger Terra Cotta & Pottery Works. The entire holdings of the latter company have been acquired by the Fuller corporation. The land is valued at \$10,000 an acre.

The W. P. Fuller Co.'s factory investments in South San Francisco have been augmented by 200 water front feet of land. Extensive improvements are planned on the property purchased. The cost of the contemplated work will run into hundreds of thousands of dollars, officials of the Fuller Company announce. The Steiger Terra Cotta & Pottery Works will be dissolved.

ENGINEER'S MODEL HELPS SALE OF BONDS

A novel method of showing investors and others what the purchase of bonds of an irrigation district represents has been used for the first time by R. C. Starr, of Thebo, Starr & Anderson Inc., of San Francisco, chief engineers of the Merced Irrigation District. An exact working model, scale 20 feet equals one inch, of the Merced Irrigation District dam, pipe lines and power house, together with a model, same scale, of the Claus Spreckels Building, San Francisco, has been placed on display in the window of a Market Street bond firm. This method of visualizing a dam and power house and comparing the same to an office building is a distinct advance in the engineering art.

1897.2
ENGINEER TOURING U. S. TO STRESS IMPORTANCE OF INDUSTRIAL RESEARCH

To stress the importance to the nation of industrial research, which, engineers hold, is necessary on a huge scale if America is to retain its industrial supremacy and profit by the lessons of the war, Alfred D. Flinn, secretary of the Engineering Foundation, and chairman of the Division of Engineering, National Research Council, has begun a speaking trip of several weeks in the cities of the Far West and Canada. Flinn, of the best known figures in organized engineering in the East, will first visit Salt Lake City, Utah, where he will arrive Monday, July 26, and spend three days, speaking before the Salt Lake engineering groups.

Flinn will explain to the engineers of the West the aims of the Engineering Foundation, which was established in 1914 through a gift of \$500,000 by Ambrose Swasey of Cleveland, O., a past president of the American Society of Mechanical Engineers, as a nucleus of a large endowment "for the furtherance of research in science and in engineering, or for the advancement in any other manner of the profession of engineering and the good of mankind."

The Foundation is administered by the Engineering Foundation Board composed of members from the American Society of Civil Engineers, American Institute of Mining and Metallurgical Engineers, American Society of Mechanical Engineers and American Institute of Electrical Engineers, and members at large. The Board is a Department of United Engineering Society with headquarters in New York City.

The National Research Council, founded in 1916, works in cooperation with the Foundation and with governmental departments. It has broad national and international connections in the mathematical, physical and biological sciences and their related technologies, including all branches of engineering.

The Council is supported by gifts from large benevolent foundations, other organizations and individuals, chiefly by a \$5,000,000 endowment fund given by the Carnegie Corporation and more than \$1,000,000 given by the Rockefeller Foundation and the General Educational Board for research fellowships and other special purposes. It is erecting a permanent building near the Lincoln Memorial, Washington. Among the research projects now being carried out by the Council and the Foundation is a movement to drive from American ports the ship worm, which has caused billions in damage to marine property on the Atlantic and Pacific Coasts.

Flinn's itinerary includes Los Angeles, San Francisco, Sacramento, Riverside and Davis, Cal.; Portland, Ore.; Seattle and Bellingham, Wash.; Vancouver, B. C.; Prince Rupert, Jasper Park, Alberta; Winnipeg, Duluth, Minneapolis and Chicago.

Like Dean Dexter S. Kimball, president of the American Society of Mechanical Engineers, now touring the Far West, Flinn will appeal for engineering unity between the East and the West in co-operation with Canadian engineers for the attainment of both national and international aims.

CONCRETE AND "BLACK BASE" PAVEMENT TEST SCHEDULED AT PITTSBURGH

The quarter-mile concrete test highway built at Pittsburg, Calif., a year ago by the Columbia Steel Company is to be torn up and reconstructed for new highway tests that will start about October 1 under the joint supervision of the California Highway Commission and the Federal Bureau of Public Roads, according to an announcement of Lloyd Aldrich, engineer in charge of the experiments.

The new highway will be constructed of ten sections and will embody both concrete and what is known as "black base" pavement. Many engineers who have visited the test road have expressed themselves as desiring to see a comparative test of "black base" and concrete, and it is to further the minute highway research work that is being carried on by the State and Federal Governments that led to decision to construct the new oval reinforced concrete pavement will also have a section in the new highway.

The test road was built by the Columbia Steel Company a year ago and subjected to a severe test under the direction of steel company officials. Several months ago, the State and Federal Government took over the road and a month ago started a new test after the highway had been rebuilt. Forty-six heavily laden Government trucks have been circling the oval for four weeks. Aldrich said the trucks would be retained at the highway for the new test.

The present test will cease temporarily about July 15, but will be resumed during the week of July 24, for a final checking up of data, which is to be published and submitted to engineers. The data will be ready for publication about September 15.

As soon as the present test stops work will be started constructing the new highway. The third test will be started not later than October 1 and will be continued until the highway is destroyed. The experiments, it is said, may last for a year.

Construction and maintenance costs are being borne equally by the State and Federal Governments.

OAKLAND REALTY BOARD TO LAUNCH "OWN YOUR OWN HOME" CAMPAIGN

A model homes exposition, augmented by an "own your own home" campaign, is under way in Oakland with the endorsement of the Oakland Real Estate Board, which acted following a brief talk by J. C. Downey, chairman of a committee of business men who recently got together to discuss ways and means of stimulating business activities in the East Bay district. Downey outlined the ideal homes exposition which will be officially known as "California Complete Homes Exposition." The program outlined will embrace every detail of home-making from architectural design to the final touches of finishing, furnishing and landscaping. The exposition is modeled after the ideal homes exposition, held biennially in London.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

The Western Iron-ite Sash Weight Co., with plant at 2448 E-11th St., Los Angeles, is the name of a new firm formed to manufacture and distribute the Iron-ite Sash Weight. George W. Roberts, Alex. R. White, Thomas R. Merry and Wilbur F. Hulette are the members of the firm. They have acquired from the Concrete Sash Weight Co. the rights for the Pacific slope to manufacture "the weight with the pulley," which is the invention of "Charles L. Martin of Los Angeles.

P. M. Sanford has been re-elected president of the Richmond Builders' Exchange. Other officers are: F. A. Mero, first vice-president; J. L. Collins, second vice-president; E. H. Higgins, treasurer; L. M. Dexter, secretary; (re-elected); E. M. Tilden, P. M. Sanford, R. J. Ballantyne and E. A. Marshall were re-elected to the Board of Directors and the following new members were named for the directorate: E. H. Higgins, F. A. Mero and J. L. Collins.

William A. Newman, San Francisco architect and first vice-president of the Society of Constructors of Federal Buildings, will leave for New York July 1, for an extended European tour. He will be accompanied by Walter C. Falch, architect. Newman will stop at Washington to confer with other officers of the Society and will extend an invitation to hold the next convention in San Francisco. Newman and Falch expect to return to San Francisco by November.

Otto Dane, an employee of the Dinwiddie Construction Co. of San Francisco, who fractured seven ribs and incurred other serious injuries in a fall down the elevator shaft of the Golden Gate Theater last October when that building was under construction, has been awarded compensation of \$624.90 and a weekly payment of \$20.33 until the termination of his disability, by a ruling of the Industrial Accident Commission.

A. F. Kessing and A. J. Hubert, two former departmental heads of the Holt Manufacturing Company, have leased the building at 144 Main St., Porterville, and will operate a machine shop, with a capital of \$50,000. The company will specialize in cylinder re-grinding, installation and repair of pumps, in addition to operating a general machine shop for jobbing.

Announcement is made of the sale of the Bain Wagon Company of Kenosha, Wis., to Dixon and Griswold of Los Angeles, Calif. The Bain company has a capital stock of \$400,000. Geo. A. Yule, for the present, will remain as president of the company in an advisory position. The plant is one of the largest wagon-making plants in the United States, and has been in business since 1840.

Plans for a city-wide membership campaign to strengthen the Sacramento Builders' Exchange and to complete the organization of crafts not now organized was decided upon at a recent get-together meeting. The campaign will be carried on in conjunction with the membership drive of the Master Builders' Association already under way.

Filing on land located eighteen miles east of Napa and two miles north of the main road to Monticello, a year ago and exploring most of 600 acres in that section, a company headed by R. R. Norton of the Liberty Asbestos Company of Coalinga has located what is believed to be one of the best fields in California for rock from which the finest grade of asbestos fiber is manufactured.

The National Stone Tile Company of San Francisco is conferring with the Santa Clara Chamber of Commerce regarding the establishment of a plant in Santa Clara. The concrete Lumber Co. of Los Angeles also plans the erection of a plant in that city, as does the firm of Ogier Bros., apple growers, who plan the erection of an evaporator.

Fresno County Grand Jury recommends that Eugene Mathewson, Fresno Architect, be commissioned to prepare working drawings for the proposed additions to the Fresno County Court House. About \$280,000 will be expended in the improvements.

The Fulton Co., Knoxville, Tenn., has issued a new catalogue which contains useful information on Syphon specialties. The issuance of the book is a direct selling plan recently adopted by the company in place of sales through a general distributing agency.

San Rafael Board of Education proposes to call election to vote bonds of \$190,000 for school improvements. Program includes the erection of a \$200,000 elementary school and a \$200,000 high school. A site for the latter building will cost about \$90,000.

The Pacific Lumber Agency of Aberdeen Wash., has purchased the site plant of the Hewitt-Lea-Funck Corp., at Sumner, Wash., and plans improvements costing \$25,000, according to C. C. Harris, manager of the Pacific agency.

Gay Engineering Company of Los Angeles is conferring with the Oakland Chamber of Commerce regarding the establishment of a plant in that city. The company manufactures refrigerators and re-frigerating machinery.

Monterey Union High School District, Monterey County, at a recent election authorized the issuance of \$250,000 in bonds to finance school improvements.

Shell Oil Co. plans erection of \$25,000 distributing plant in Yuba City.

The Hammond Lumber Company's mill at Mill City, Ore., is cutting 185,000 ft. daily. A 5-mile stretch of logging road is being built.

Contra Costa County has 152 miles of paved highways, according to a report compiled by County Surveyor R. R. Arnold.

Exeter Union High School District, Tulare County, votes bonds of \$150,000 for a new high school building.

Western Screen & Sash Co.'s lumber plant at Long Beach, Calif., suffers \$20,000 fire loss.

ALONG THE LINE

Thompson Bros., street and road contractors of Fresno, have purchased a 17-acre site in that city and will erect a number of warehouses and sheds to house and repair equipment. Included in the improvements is a twelve-mile spur track.

Chas. Evans Fowler, noted bridge engineer of New York, is in San Francisco to confer with authorities on plans for the construction of a suspension bridge at Carquinez strait. The proposed bridge is to be 3100 feet long, with a middle span of 1500 feet.

The Arizona Willite Paving Co. of Tucson, has been incorporated with \$500,000 capital stock. Julius Kruttschnitt Jr., 297 N. Main St., Tucson, is president of the company and George B. Singleton, Santa Rita Bldg., Tucson, is secretary.

F. L. Henderson, architectural designer, formerly of Pasadena, has opened an office at 1321½ Central Ave., Los Angeles, and desires catalogs and samples of building material and appliances.

Pacific Gas & Electric Co. will spend about \$150,000 in improvements and additions to the Sacramento gas plant. Two 250 horsepower boilers and one 200 horsepower steam driven compressor will be installed.

C. E. Grunsky Sr., San Francisco engineer, has been placed in full charge of the Gordon Valley water project by the Vallejo City Council. Bonds of \$1,230,000 were voted to finance the project.

Western Building and Loan Association of Salt Lake City, Utah, has opened an office in Marysville with Clarence F. Galligan, Secretary-Treasurer, in charge.

The Visalia Planing Mill, Visalia, Calif., recently destroyed by fire, will be rebuilt at a cost of \$20,000, according to B. U. Heherling, owner and manager.

C. P. Helpman, Los Angeles representative for the Union Blind & Ladder Co., of Oakland, has moved his offices to 722 Story Building, Los Angeles.

J. N. Lentell of Eureka will be a candidate for the office of Humboldt County Surveyor at the coming election.

Fred S. Barnhart, 52, one of the architectural heads of the Diamond Match Company in Chico, died at his home in that city June 26.

C. R. Greenough, contractors and builder, formerly of Porterville, Calif., has located at San Gabriel.

Lundberg & McMahon, Tacoma, Wash., Architects, have opened a Seattle office in the Lyon Building.

Shell Oil Co. will construct a \$150,000 Trouble still unit at Martinez.

U. S. HOUSING SHORTAGE ESTIMATED AT TWO AND A HALF YEARS' PRODUCTION

Despite the increased building activity in the United States during the last six months, the housing shortage for the country as a whole is estimated at somewhat more than two and a half years' production by John Ihlder, manager of the Civic Development Department of the Chamber of Commerce of the United States. According to Ihlder, the situation is not the same in all American cities. In some cities the shortage is estimated as nearly four years, he says, while in others it is approximately one and a half years, or even less.

"This means," he explains, "that many thousands of American families are still living in cramped quarters, well-to-do families as well as poor. More significant, it means that a considerable proportion of these families are becoming accustomed to this cramped living, accepting it as normal. I have heard of an Admiral of the Navy who, with his wife and two sisters, occupies three rooms in an expensive apartment house and has his meals prepared on an ingenious little electric stove in the hall; of a comparatively well-to-do woman who occupies one room and bath and has her laundry washed in the bathroom. When one goes from such people to the poor, he finds the old overcrowding accentuated and insanitary conditions worse than they were before the war."

Ihlder points out "that while we cannot expect house building to continue long at its present speed, we may hope that it will continue to exceed present increase of need, and so gradually reduce the shortage. Coincidentally we may expect that building prices will come down, not steadily—just at present they are rising from the lower level of the winter—but with occasional flats and accents. This means that we may hope for dwellings produced and sold at smaller cost and so put within the means of a constantly larger proportion of the people, until the day comes when the old procession is once more started from poorer houses to better houses, and so make available to families of small means the old but adequate houses that are still habitable. At present there is an hiatus between the expensive houses under construction and the dwellings of the unskilled wage earner. At present and for some years in the future, there will be little or no building of new dwellings, at least in the East, for unskilled wage earners."

"Desire for such dwellings is likely to expose us to an insidious danger—the attempt to cheapen construction by diminishing the space put at a family's disposal or by encouraging shoddy construction. The short cut of shoddy construction which has been, and still is to a lesser degree, one of our greatest menaces, promises to offer earlier relief, but at a cost which our children and grandchildren will pay. The short cut of diminished space has amply proved its fallacy in tenements in New York. Its ultimate results will be higher rents for a population so crowded together that it cannot live, but merely exist."

"From the housing point of view, the most encouraging development of the past two or three years is the extension of zoning regulation in the United States. Begun just before the war, zoning gripped our imagination and as soon as peace returned American cities began to apply it. Today some sixty cities have or are drafting zoning regulations. Because of these zoning regulations they are keeping in their residence districts the open spaces which are the fundamentals of good housing."

Master Builders of Sacramento Are Opposed to American Plan

The Sacramento Master Builders' Association, in a statement issued by L. S. Patterson, Secretary of the organization, goes on record against any trial of the American Plan of industrial relations in Sacramento. The statement was authorized by the organization after a meeting June 26 when the matter was discussed by members of the association.

At this meeting A. W. Norris, President of the Builders' Exchange, reported upon his investigations of the working of the plan in San Francisco and elsewhere. Norris declared the plan discriminated in favor of certain classes of employers.

Patterson's Statement

The statement issued by Secretary Patterson is as follows:

The American Plan as operated in San Francisco and other cities of the State is not generally understood by the public and in many cases by the members of the building industry. The plan as put forth by the Industrial Association of San Francisco, which organization has undertaken to guide the progress of the plan in the Bay district, is different from the old time open shop plan, which usually provided for an entire absence of restraint upon employers with respect to wages, hours and other conditions of employment.

Public Interest First

The American Plan, as now advocated, is designed to be of benefit to not only the employers and the employees, but also to the public. The Industrial Association takes the viewpoint that the interest of the public is more important than that of any other element and that no group or class should be permitted to jeopardize the public interest.

Various rules and detailed regulations have been designed to cover all possible wage, hours and working condition problems.

Since the adoption of the American Plan in other cities of the State varying success in complete application of the plan has been obtained. Labor and the employers have usually been at variance in their statements with respect to its success or failure.

Results Not Desirable

Sacramento is one of the largest cities in the State that has so far failed to at least try the American Plan. Individuals and committees of the Master Builders' Association have gone into the matter as thoroughly as possible, and, after weighing the evidence obtained from both sides have taken the stand that Sacramento does not want the plan as it is operated in other cities.

At a meeting Tuesday noon, June 26th, those members of the Master Builders' Association who were present individually expressed themselves as seeing no reason for changing the stand already taken on the matter. A. W. Norris, President of the Sacramento Builders' Exchange, stated his investigations have shown that the American Plan, under conditions in effect in other cities, tended to discriminate in favor of certain classes of employers with respect to wages and conditions of employment.

Conditions Here Satisfactory

It was brought out at a discussion presided over by George D. Hudnutt, President of the Master Builders' Association that Sacramento is exceptionally well situated with respect to wages, hours and other matters that concern the employer and employee. Employees are busy and employees on the average are satisfied with the conditions wages and hours under which they are working.

Wages with one or two exceptions are on a par with those paid in other cities and in those cases where a higher wage obtains in Sacramento the proper adjustment will be made amicably between the proper committees of the Sacramento Builders' Exchange and the Labor Council.

Under existing conditions the building public may be assured that Sacramento is not paying a higher wage scale than other cities of the State and recent reports according to compilations made by Master Builders' Association show that Sacramento is paying on the average 1-1/2% than other cities in the country more favorably situated with respect to transportation and source of supply.

NEW METHOD FOR MANUFACTURE OF ROOFING TILES

In several countries in Africa it has been suggested that roofing tiles should be made locally, and search has been made for suitable materials. Specimens of clay and sand, collected in Uganda, and of clay and diatomite from Kenya Colony, have recently been examined at the Imperial Institute in order to ascertain possibilities in this direction. The bulletin of the Imperial Institute states that tiles of good quality can be made with a suitable mixture of the clays and sand from Uganda, while good tiles can also be made from mixtures of the washed clays with "grog," i. e., clay which has been burnt and finely ground. The clay from Kenya Colony were also found to be suitable for making roofing tiles. "The results obtained with the infusorial earth of diatomite (which contained a certain proportion of clay) are of special interest, as this material, which does not appear to have been employed previously for the purpose, furnished tiles which were much lighter than ordinary roofing tiles, this being a great advantage.—Engineering, London.

LONDON MAN LAYS 700,000 BRICK IN TWO YEARS

The championship in bricklaying, from the standpoint of the amount of work done by one man, is claimed by a British workman, Hotham Browne. Single-handed he has just finished laying all the bricks, 700,000 of them, in the Oxford Theatre at Worlington, Cumberland. The job took two years. Had he worked under union rules he would have laid only 150,000 bricks in this time.

The magnitude of this undertaking is shown by the fact that the building is 150 feet long and 50 feet wide, and will accommodate 1400 people. Browne ignored all trade union rules and regulations and just went ahead laying brick after brick, day after day. When he had laid the first 100,000 people christened the building "Browne's monument," but it is now known as "the house that Browne built."

Bids will be opened by Napa County Supervisors on July 11 to construct Browns Valley highway. Road will be 3.16 miles long of concrete, 6 inches thick and 18 feet wide.

Decree Prohibiting Restraint Practices Consented to by Bricklayer's Union

It has been held by the United States District Court, New York City, that the Sherman Act is Violated by contracts between certain labor union and associations of employers. The following abstract of the consent decree recently issued in the bricklayers' case appears in the April issue of Law and Labor.—Editor.

Contracts between a trade union controlling from 75 to 90 per cent of the labor in a particular trade and associations of employers, whereby the members of one agree to work for, and the members of the other to employ only, the members of the other, and rules enforced by the union prohibiting work on non-union made materials and limiting output, restricting thereby trade in commodities moving in interstate commerce, violate the Sherman Act. The entry of a decree prohibiting such practices was consented to by the bricklayers' union.—United States v. Bricklayers', Masons' & Plasterers' International Union (United States District Court, New York City.)

The United States brought this action against the Bricklayers', Masons' & Plasterers' International Union of America, a national officers, and several of its local unions in and about New York City to enjoin agreements and understandings made by the members of the national union and its locals in violation of the Sherman Act.

The bill shows that the union has entered into agreements with the Marble Industry Employers' Association of New York and its members, whereby the employers agree to employ only members of the union and the members of the union agree to work only for members of the association, thereby preventing competition with the members of the Association in the sale, shipment and installation and interstate commerce of marble and similar products. The Government alleges a similar understanding between the union and the Tile and Mantel Contractors' Association. It is further alleged that the union made an understanding with the Journeymen Stonecutters' Association whereby the union bound its members to refrain from cutting stone or working on any building where stone was to be installed, except in conformity with the following restriction:

"That contracts for not over 6,000 cubic feet of cut stone shall be cut and dressed in the yards of the city in question by recognized cut stone contractors, and contracts for over 6,000 cubic feet may be shipped in from outside yards or quarries ready cut and dressed, provided it is cut and dressed by the members."

Non-Union Materials Prohibited

It is further charged that the union promulgated and enforced rules whereby the members of the union were forbidden to work for any employer who utilized non-union quarried marble or stone or non-union made brick or tile, thus preventing the interstate shipment into New York of these products. The Government also set forth a tripartite agreement between the defendant union, the Journeymen's Stonecutters' Association and the International Cut Stone Contractors' and Quarrymen's Association, whereby the union offered the services of its members to members of the Contractors' Association in preference to others. The bill finally charges that the union promulgated rules limiting its members in the quantity of marble, tile, cut stone or brick which they should cut, set or install in a definite period of time, thereby restricting substantially the amount of material worked upon by the members and interfering with the performance of a normal day's work.

The bill also shows that the union controls the activities of from 75 to 90 per cent of all mechanics and artisans engaged in the trades of cutting and setting marble, stone and tile in New York City and that these contracts and restrictions restrain interstate commerce in the marble, stone and tile products, both union and non-union. It further shows the rights of independent contractors and workmen in limiting or entirely cutting off their opportunities to deal in these products.

Action Not Contested

The Bricklayers', Masons' & Plasterers' International Union and the several local unions made defendants did not contest the action, out consented to the entry of a decree in the terms prayed for by the Government, except for the provision against working on convict made materials (see hold face below), inserted at the request of the union. The decree, entered February 28, after setting forth that the rules, regulations and agreements complained of in the Government's petition are illegal and in violation of the Sherman Act, restrains the defendants from hereafter making agreements similar to these complained of and more particularly restrains them from:

Practices Restrained

"a.—Entering into, making, adopting, or enforcing any contracts, understandings, agreements, rules, regulations, provisions, or resolutions which in anywise, directly or indirectly, prescribe, determine, limit or curtail the productive capacity of any defendant member within any given time. This decree recognizes the principle that labor is not a commodity, and that different human beings are capable of different productive capacities within the same time, and nothing contained shall be construed as preventing the defendants from regulating the hours of labor or the conditions of labor as to wages, health, sanitation, safety, or advancement of the defendant members, save and except that each individual defendant is to be enjoined from restricting such services that will confer such special advantages, in kind, quality or quantity as he may be capable of performing within the hours of labor that may be determined by or under the conditions as to wages, health, sanitation and the like that may be prescribed.

"b.—Entering into, making, adopting or enforcing any contracts, understandings, agreements, rules, regulations, provisions, or resolutions of any kind or character of a mutually exclusive character, i. e., whereunder any trade or employers' or contractors' society or association or its members engage the service exclusively of the defendant members, and where the defendant members in turn agree that they will confine their services exclusively to the members of such trade or employers' or contractors' society or association.

"c.—Entering into, making, adopting or enforcing any contracts, understandings, agreements, rules, regulations, provisions, or resolutions of any kind or character which restrain, prohibit, hinder or otherwise prevent any of its members from engaging their services to any employer by reason of the fact that such employer is utilizing stone, which has in any other building material which has been directly quarried or purchased at the source of its production, or at any other point or place, the service of the defendant members is to be said, that in so far as the service of the defendant members is concerned, the employer shall be at liberty to utilize any building material wherever the same may have been directly quarried, cut, finished, manufactured, produced or purchased from whatever source except that nothing herein contained shall be construed to apply to materials produced or manufactured by convict labor.

Right of Employment

"d.—Entering into, making, adopting or enforcing any contracts, understandings, agreements, rules, regulations,

provisions, or resolutions of any kind or character in anywise restraining, hindering, prohibiting or otherwise preventing any of its members from engaging their respective services to any individual, firm, copartnership, or corporation engaged in the various industries mentioned by reason of the fact that such individual, firm, copartnership or corporation is not a member of such society, association or organization.

"e.—Entering into, making, adopting or enforcing any contracts, understandings, agreements, rules, regulations, provisions or resolutions of any kind or character, respecting the services of the defendant members, which in anywise accords or grants a preference respecting such services to any individual, firm, copartnership or corporation by virtue of the fact that such individual, firm, copartnership or corporation is a member of or belongs to any trade, employers' or contractors' society, association, or organization.

"f.—Entering into, making, adopting or enforcing any contracts, understandings, agreements, rules, regulations, provisions or resolutions whereby or whereunder the defendant members or any portion of them agree or are obliged to confine their respective services exclusively to any group of individuals who constitute or belong to a trade or employers' or contractors' society, association or organization.

"g.—Entering into, making, adopting or enforcing any contracts, understandings, agreements, rules, regulations, of any kind or character whereby and whereunder the defendant members are restrained, prohibited, hindered or otherwise prevented from engaging their services upon any structure, or building in or about which they are to force the collection of a debt, or an alleged indebtedness due from the owner, architect or builder to any individual, firm, copartnership or corporation, or any defendant member, save and except that nothing herein contained shall be deemed as restraining or enjoining the defendant members from releasing their services for or in behalf of any firm or corporation, which has, or which is alleged to have defaulted in the payment of such debts, or services for services rendered by them.

Append Decree to Union Constitution

The decree also directs the defendants to furnish each local union with three copies of the decree and to read the same at the next regular meeting, and further that a copy of the decree be printed and appended to the constitution and by-laws of the Bricklayers', Masons' & Plasterers' International Union of America and to all constitutions hereafter adopted, printed or promulgated."

This is the first time since 1893, when the Government enjoined a general tie up of interstate traffic in the port of New Orleans and 1894 when it enjoined the railroad carriers that a district attorney has bestirred himself to restrain combinations of workers and of workers and employers which restricted free flow of the products of other workers and employers in the markets of interstate commerce. It is a good sign that the Government has taken action. It is a good sign that the bricklayers' union brought well enough of the action to consent to the entry of a decree. We hope the precedent will impress itself upon the minds of other district attorneys and other trade unions and employers' associations and especially upon the public. The Hoyt cases which the league has prosecuted through the Supreme Court of the United States have established the fact that the public is not helpless to protect itself against the restrictive and monopolistic practices of labor unions and employers' trade associations, but if the law is to be set in motion the public must show its demand for such protection.

NOTICE TO DEALERS IN SCHOOL FURNITURE

The Board of Education of the Palo Alto City School District will open sealed proposals at its office, 543 Channing avenue, at 7:30 p.m., Thursday, July 6, 1922, for school furniture. The conditions and specifications may be had on application. The Board reserves the right to reject any and all bids.

A. C. BARKER,
Secretary.

NOTICE TO CONTRACTORS (Bowles School Addition)

Notice is hereby given that the Trustees of the Bowles High School District, Fresno County, California, will receive sealed bids for the additions and alterations to the Bowles School building in accordance with the plans and specifications prepared by E. W. Peterson, architect, Cory building, Fresno, California.

Bids will be opened at the Bowles School building at a meeting to be held by the Board of Trustees at 2 P. M. on Thursday, July 6th, 1922. All bids to be accompanied by a certified check on some solvent bank for 10 per cent of the amount of the bid, made payable to the clerk of the school district, on condition that said certified check shall be retained by the school district as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into a contract within five days after the award of said contract or fail to furnish the bonds in the amount of 75 per cent of the contract price.

Plans and specifications may be obtained from the architect. The trustees reserve the right to reject any or all bids.

Signed by:
GEO. C. CHRISTENSEN,
Clerk of the Board of Trustees, Bowles School District, Fresno County, California.

NOTICE TO ARCHITECTS

NOTICE IS HEREBY GIVEN by the School Trust of the Lassen Union High School District that they will until August 5, 1922, receive preliminary studies and plans for a branch high school building at Lakeview, Lassen County, California, said building to be a skeleton or unit to which additional rooms may later be added. Said unit is to consist of at least two rooms, 25 x 30 feet and separate preliminary studies and plans are also to be submitted for a unit consisting of two rooms, 25 x 30 feet and an assembly hall, 35 x 40 feet so constructed that the length of said assembly hall or gymnasium may later be increased.

Signed by:
ALCESTA LOWE,
Clerk of the Board of Trustees of the Lassen Union High School.

NOTICE TO BIDDERS

(Desk, Chair, Grading and Gravel Bids)

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Board of Trustees of Willows Union School District, Glenn County, California, until 2 o'clock P. M. of Friday, July 7th, 1922, as follows:

For grading and graveling the grounds of the new school building in accordance with the specifications as prepared for the same.

For furnishing and installing ten (10), more or less, teachers' desks, fifteen (15), more or less, teachers' chairs, three hundred (300), more or less, opera chairs; two hundred fifty (250), more or less, folding chairs,

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

and sixteen (16), more or less, manual training benches.

Each bid must be accompanied by a certified check on some responsible California Bank in a sum not less than five (5) per cent of the amount of bid, made payable to A. D. Pieper, President of the Board, as a guaranty of good faith that the party to whom the contract may be awarded, will within ten days, enter into the necessary agreement and bonds for the faithful performance of the work, and in case the successful bidder fails or refuses to enter into said agreement and bonds, said check will be forfeited to said district in the manner provided by law.

Each bid must be enclosed in a sealed envelope and addressed to H. G. Rawlins, Clerk of the Board of Trustees of Willows Union School District, and endorsed, "Proposal for Grading School Grounds," or "Proposal for Furnishing School Furniture," as the case may be.

The Board of Trustees reserve the right to reject any or all bids.
BOARD OF TRUSTEES OF WILLOWS UNION SCHOOL DISTRICT.
By A. D. PIEPER, President.

Attest: H. G. Rawlins, Clerk.
Dated June 26th, 1922.

NOTICE TO BIDDERS

(School Painting)

The Trustees of the Watsonville School District solicit separate sealed bids for the following:

1. Concrete sidewalk in front of Grammar School.
2. Painting of Grammar School.
3. Painting of front building at Lake Avenue Primary.
4. Painting of rear building at Lake Avenue Primary.

Specifications may be had by calling at the office of the District Superintendent, High School Building, Watsonville, California. (Signed)

Bids will be received up to and until 7:30 P. M., Wednesday, July 5, 1922. Mark all bids "Grade School Bid" and address Board of Trustees, Watsonville School District, High School Building, Watsonville, California.

The Board reserves the right to reject any and all bids.
BOARD OF TRUSTEES,
of Watsonville School District.
By T. S. MacQuiddy, Dist. Supt.

Hospital, Palo Alto, Calif., in accordance with the specifications and drawings listed in same, which may be obtained from E. W. Roberts, superintendent of construction at the Hospital site, or from this office, at the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

NOTICE TO CONTRACTORS AND BUILDERS

(Santa Cruz Schools)

Notice is hereby given that sealed bids will be received by the Board of Education of the City of Santa Cruz, California, up to 8 o'clock p.m. of the 11th day of July, 1922, at the office of the Secretary of the Board at the City Hall, for the erection and completion of two school buildings, one at the Bay View school and one at the Laurel school, in accordance with plans and specifications on file.

Plans and specifications can be seen at the office of the Secretary of the Board or at the office of George H. Cardiff, Central Lumber & Fuel Company.

Separate bids are to be submitted for each of the two buildings to be constructed.

Bids will be opened July 1 by the said Board of Education at its office at the City Hall at 8 o'clock p.m., July 11, 1922.

The Board reserves the right to reject any or all bids.

By order of the Board of Education.
J. W. LINSKOTT,
Secretary.

NOTICE TO CONTRACTORS

(Los Altos School Additions)

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Los Altos Grammar School District, County of Santa Clara, State of California, in the present Grammar School Building, in Los Altos, at 8:00 o'clock P. M., July 17th, 1922, for the erection and completion of frame and stucco additions to the present Grammar School Building, to be built in Los Altos, State of California, according to plans and specifications prepared for the same by W. H. Weeks.

Bids will be received on the general construction with its alternate proposals, together with separate bids on heating system and electrical work.

Plans and specifications may be seen at the office of W. H. Weeks, Architect, 369 Pine Street, San Francisco, California, or at the office of Harry A. Dutton, Clerk at Los Altos.

All bids should be presented on bid forms furnished by the architect.

Each bid must be accompanied by a certified check on some responsible California bank in the sum of not less than five (5) per cent of the amount bid, made payable to Harry A. Dutton, Clerk of the Board of Trustees of the Los Altos Grammar School District, for the purposes stated in the specifications.

Each bid must be enclosed in a sealed envelope and endorsed by Harry A. Dutton, Clerk of the Board of Trustees, and endorsed "Proposal for Additions to Grammar School Building."

The Board of Trustees reserves the right to reject any and all bids.

Bids must be delivered to the undersigned, Clerk of the Board of Trustees, at the School House, in the said Los Altos, at the time and place of meeting, above stated, or any time up to the hour of opening of said bids.

Clerk of the Board of Trustees of the Los Altos Grammar School District, Los Altos, Santa Clara County, Calif.

WIDS WANTED FOR HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, 515 Fourth Building, Sacramento, Cal., until 2 o'clock P. M. on July 24, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Mendocino County, between Hopland and El Rito (1-M-10-19), about two and nine-tenths (2.9) miles in length, 9.5 miles to be graded, 2.5 miles to be graveled.

Placer and Nevada Counties, across Bear River, about 7 miles north of Auburn (111-14-17-C and Nev-17-A), a bridge, consisting of two 100 foot steel truss spans with the necessary pier and abutments.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineer at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.

AUSTIN C. MURPHY, State Highway Engineer.
R. A. MURRAY, Secretary.
Dated June 26, 1922.

NOTICE TO BIDDERS

(Ahwahnee Hospital Additions)

Bids will be received by the Tri-County Tuberculosis Hospital Committee of Ahwahnee Sanitarium, Madera County, California, on July 1, 1922, up to 11 o'clock a. m., for the construction of a hospital addition, nurses' home addition, 10-bed unit, vocational building and dairy barn, adding to plans and specifications filed at the offices of the County Clerks at Stanislaus, Merced and Madera Counties, also at the office of J. H. Hoese, architect, 6 and 7 Ramonet Building, Mendocino, California, also at the Tri-County Sanitarium. All bids must be accompanied by a certified check or bidder's bond for 10 per cent of the amount of the bid. The committee reserves the right to accept or reject any bid. A deposit of \$15 must be made for copy of the plans and specifications.

T. J. CRONIN,
Secretary Tri-County Tuberculosis Hospital Committee.

ADVERTISEMENT FOR SALE, REPAIR AND IMPROVEMENT OF SCHOOL PROPERTY

(Chico School District Repairs)

PURSUANT to a Resolution of the Board of Education of the City of Chico, in and for Chico School District, adopted in adjourned regular session on June 21, 1922, the said Board will receive proposals for any or all enumerated items up to the hour of five o'clock p. m. of July 11th, 1922.

Proposal for purchase and removal of the one-story two-room building, situated on the Chico Vecino

school site at Third and Laburnum Streets; said proposal to include the clearing of the lot from rubbish and brick, and the leveling and filling of the lot to the satisfaction of the Board of Education.

2. Proposals for the doing of the following items of repair work on the old high school building:

1. Plastering.
2. Roofing.
3. Cement work.
4. Electrical work.
5. Painting, varnishing, tinting.
6. Plumbing.
7. Carpentry.

All in accordance with specifications previously adopted therefor, and which may be consulted at the office of Chas. H. Camper, Secretary of the Board of Education.

3. Proposals for tinting and painting repairs at the Oakdale School, all in accordance with specifications provided and adopted therefor, and which are on file in the Office of the Secretary.

Bidders will be required to deposit with the proposal, a certified check in the amount of ten per cent of the proposed fee for the faithful execution of the contract, and will also be required to furnish bonds as required by law for the faithful performance of contract and for the protection of material men and laborers.

The Board reserves the right to reject any or all bids.

By order of the Board of Education of the City of Chico.

By CHAS. H. CAMPER,
Secretary.

NOTICE TO ARCHITECTS

(Live Oak School District, Santa Cruz County, Calif.)

Live Oak School District hereby invites submission of proposed plans and specifications for a four-room school building. Plans and specifications must be submitted upon condition that payment for same will be made if the proposed bond election is favorable to the issuance of bonds, and the Board of Trustees reserves the right to reject any and all proposed plans and specifications. Detailed information will be supplied upon request to the Clerk of the Board of Trustees. Bids will be opened Tuesday, July 11th, 1922, at 8 o'clock P. M. at Live Oak School House.

Dated: June 24th, 1922.
LIVE OAK SCHOOL DISTRICT.
By A. M. FOSTER, Clerk.

NOTICE TO CONTRACTORS

(Caruthers School)

Notice is hereby given that the Trustees of Caruthers School District, Fresno County, Calif., will receive sealed bids for the construction and completion of a new school building at Caruthers, Calif., consisting of seven class rooms and an auditorium, in accordance with the plans and specifications prepared by E. W. Peterson, Architect, Cory building, Fresno, Calif.

All bids to be sent to H. C. Kofoid, Clerk of the Board, Caruthers, Calif., up to and not later than 2 p. m. of Tuesday, July 11, 1922, at which time bids will be opened at a Board meeting to be held at the Grammar School building at Caruthers, Calif.

Plans and specifications with forms for bidders may be obtained at the office of the architect.

Segregated bids will be received for the following work, also general bids covering all of the following work, namely:

- Section 1—Excavating, concrete and carpentry.
- Section 2—Brickwork.
- Section 3—Plastering.
- Section 4—Painting.
- Section 5—Electric wiring.
- Section 6—Steam heating, plumbing, sheet metal.
- Section 7—Tile and composition roofing.

All bids to be accompanied by a certified check on some solvent bank for ten per cent (10%) of the amount of the bid, made payable to H. C. Kofoid, Clerk of the Board, upon condition that said certified check shall be re-

tained by the School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into a contract within five days after the award of said contract, or fail to furnish the bonds in amount of seventy-five per cent of the contract price. The Trustees reserve the right to reject any and all bids.

By H. C. KOFOLD,
Clerk of the Board of Trustees,
Caruthers School District,
Fresno County, California.

BIDS WANTED FOR U. C. BUILDING

(One-story Reinforced Concrete Structure, 10x50)

The right is reserved to reject any or all bids.

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA.

NOTICE TO CONTRACTORS

(Bus Garage and School Additions)

Notice is hereby given that sealed bids will be received by the Trustees of the Midway School District, County of Kern, State of California, until 7:30 P. M. on the 6th day of July, 1922, at the office of Mr. Bowman, Principal of School, Fellows, Kern County, California, for the furnishing of all materials and labor required to build and complete a bus garage and addition and repair to present buildings located on the present school premises, approximately one mile from the Town of Fellows, Kern County, State of California.

Drawings and specifications can be obtained from Eugene K. Martin, Architect, Bakersfield, California.

Each bid must be accompanied by a certified check in the amount of ten per cent (10%) of bid, made payable

to the order of the Board of Trustees, for the Midway School District, Kern County, California. Bids shall be sealed and filed with Mrs. Mabel Lewis at the above mentioned specified time and place.

The above mentioned check shall be given as evidence that the bidder will enter into contract, if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into the said contract after being requested to do so by the Board of Trustees.

The successful bidder will be required to furnish a Surety Company Bond satisfactory to the Board of Trustees, covering the amount of fifty per cent (50%) of the contract price.

The Board reserves the right to waive any or all formality.

By order of the Board of Trustees.
Architect.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., July 17, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made in portions of State Highway as follows:

Plumas and Lassen Counties, between Chester Grade and N. E. 1/4 of Section 3, T. 28 N., R. 9 E., M. D. E. & M. (H-Ph-29-A) and H-Las-29-A), about eleven and three-tenths (11.3) miles in length, to be graded.

Plans may be seen and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHAS. A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.
AUSTIN B. FLETCHER,
State Highway Engineer.

R. A. MURRAY, Secretary.
Dated June 19, 1922.

BIDS WANTED FOR GYMNASIUM BUILDING

NOTICE TO BIDDERS

The Board of Trustees of the Fall River Joint Union High School District will receive sealed proposals at or before 2 P. M., Saturday, July 8, 1922, at the High School Building, McArthur, California, at which time and place bids will be opened in public for the furnishing of labor and material for the erection of a Gymnasium Building and installation of a Heating Plant at McArthur, California, in accordance with plans and specifications prepared by Ralph D. Taylor, Susanville, California. Bids will be received separately for the following work:

1. General contract for building.
2. Electrical wiring.
3. Plumbing.
4. Heating.

All bids must be accompanied by a certified check for 10 per cent or more of the amount of the proposal. In

case this proposal is accepted, in whole or in part, and the bidder fails to execute a contract for the performance of said work, and a bond of sufficient sureties in the sum of 100 per cent of the amount of the contract to secure the faithful performance thereof, within fifteen days after such acceptance, then the certified check shall be retained by the Board of Trustees of Fall River Joint Union High School District as liquidated damages for the failure to carry out this proposal. Such contract and bond shall be in such form and of such contents as shall be satisfactory to the Board of Trustees of said Fall River Joint Union High School District.

All bids to be made out on forms furnished with plans and specifications. Plans and specifications may be obtained from Ralph D. Taylor, Susanville, California, or from R. E. Dunlap, McArthur, California, member of said Board of Trustees.

A deposit of Ten Dollars will be required from all contractors receiving plans—said deposit to be refunded when plans and specifications are returned in good condition.

The Board of Trustees reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees of the Fall River Joint Union High School District, McArthur, California.

By ROSE H. TAYLOR,
Clerk, Fall River Mills, California
Dated June 10, 1922.

NOTICE INVITING BIDS

(Isolation Building)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of San Joaquin County, California, at the office of said Board, in the City of Stockton, until 10 o'clock a.m. of Monday, July 10, 1922, for the construction of a brick isolation building at the San Joaquin General Hospital at French Camp in accordance with plans and specifications prepared by Architect Ralph P. Morrell and adopted and filed by the Board of Supervisors, June 19, 1922, and to which bidders are particularly referred.

Duplicate plans and specifications may be obtained at the office of the Board of Supervisors upon depositing the sum of \$10.00 to insure the prompt return of same on or before the expiration of ten days.

All bids must be presented in sealed envelopes addressed to the Board of Supervisors and marked "Proposals for the construction of a brick isolation building at the San Joaquin General Hospital at French Camp, California."

All proposals must be accompanied by United States currency or certified check made payable to the chairman of the said Board of Supervisors, in the sum of 10 per cent of the amount of the bid, or by a bond for such amount, and two bonds, each equal to 10 per cent of the contract price, will be required of the successful bidder.

The Board reserves the right to reject any or all bids.

By order of said Board, made June 19, 1922.

EUGENE D. GRAHAM, Clerk.
By S. A. CARTER, Deputy Clerk.

BIDS WANTED FOR SIX ORDNANCE BUILDINGS, ETC., AT PEARL HARBOR

NOTICE TO CONTRACTORS

SEALED PROPOSALS, indorsed "Proposals for Ordnance Buildings, Pearl Harbor, Hawaii, Specification No. 4566," will be received at the office of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock A. M., August 2, 1922, and then and there publicly opened for six ordnance buildings, railroad track and water main extensions, at the Naval Operating Base (Ammunition Depot, Kuaahau, Pearl Harbor, T. H.). Each building will have concrete foundations and floor base. The war-head storehouse, torpedo storehouse, and extension to main storage building will have stuccoed hollow tile walls, wood roof

deck and built-up roofing, steel sash, and a crane runway and crane. Ignition and storehouse will have stuccoed hollow tile walls, concrete roof deck and built-up roofing and asphalt mastic floor finish on the concrete base. Pyrotechnical storehouse and storehouse for small arms ammunition will be similar in construction and will have steel roof and wall framing covered with corrugated protected sheet metal and wood finish flooring on concrete base. Drawings and specifications No. 4566 may be obtained on application to the Bureau to the Commandant, Navy Yard, Mare Island, Calif., or to the Commandant, Naval Operating Base, Pearl Harbor, T. H. Deposit of a check or postal note order for \$10, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specification. L. E. GREGORY, Chief of Bureau, April 21, 1922.

BIDS WANTED FOR TEXAS P. O.

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Office, Supervising Architect, Washington, D. C., June 6, 1922—SEALED PROPOSALS will be opened in this office at 3 P. M., July 11, 1922, for the construction, including mechanical equipment of the United States Post Office at Gilmer, Texas. Proposals will be considered only from individuals or firms who have established a record for expedition on contracts of similar character and magnitude. The fact that any concern obtains a set of plans and specifications from any source whatever and submits a bid shall not constitute a waiver of the foregoing stipulations. Drawings and specifications may be obtained from the custodian of the site at Gilmer, Texas, or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

BIDS WANTED FOR FRESNO SCHOOL BUNGALOWS

NOTICE TO CONTRACTORS

At a regular meeting of the Board of Education, held on June 8, 1922, Secretary was authorized to advertise for and accept bids on the following:

Five bungalows to be used as school rooms.

Plans and specifications on file with the Secretary of the Board, 2525 Tuolumne Street.

Prices to be submitted on bungalows singly or in lots of five.

Bidder must specify length of time required to complete the job. The buildings all to be completed before September 8, 1922.

The Board reserves the right to reject any and all bids. A 10% deposit of the amount of the bids must accompany each bid. All bids must be in the hands of the Secretary of the Board by Thursday, July 13, 1922, at 5 P. M.

By order of the Board of Education.
L. L. SMITH, Secretary.

NOTICE TO BUILDING CONTRACTORS

(High School Gymnasium)

Pursuant to an order of the Board of Education duly made and entered in its minutes this 5th day of June, 1922, the Secretary is hereby authorized to advertise for and accept bids on Gymnasium Building at the new high school. Plans and specifications on file with Coates & Traver, Rowell Bldg., Fresno.

The board reserves the right to reject any and all bids.

Each bidder must deposit with his bid a certified check in amount of 10 per cent of the amount of the bid, payable to the president of the Board of Education. All bids must be in the hands of the secretary of the Board by Thursday, July 13, 1922, at 5 P. M.

By order of the Board of Education.
L. L. SMITH, Secretary.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

RIVERSIDE, Cal.—Until 10 a. m., July 17, bids will be rec. by supervisors to const. pile trestle bridge 330 ft. long over Coachella Valley storm drain channel at Thermal on 56th Ave. Plans and spec. may be obtained from County Surveyor A. C. Fulmer on deposit of \$5. Cert. check for 5%.

LOS ANGELES, Cal.—Until 10 a. m., July 7, bids will be rec. by Harbor Commission, Rm. 33, City Hall, for sand and gravel. Spec. No. 336. Cert. check or bond, 10%. Guy W. Wade, secy.

SEATTLE, Wash.—Until August 4, 10 a. m., bids will be rec. by Board of Public Works, F. A. Rapp, bridge engineer, to erect superstructure for Spokane Street bridge over West Waterway on Spokane St. at Riverside. Total est. cost of structure, \$1,500,000. Contract for superstructure has been let to J. A. Melcher Co. Inc., Columbian Bldg., Seattle, at \$261,197. The contract, for which bids are now being taken, calls for the construction of the bascule portion of the bridge, the bridge piers and the girder crossing of steel construction, running over Iowa St. The bascule portion of the bridge will be 45 feet, center to center, with wood block floors. The principal quantities involved in the superstructure include 3,760,000 pounds of structural steel, 351,000 pounds of machinery, and 8570 yards concrete in counterweight.

RIDGENDON BEACH, Cal.—Until 8 p. m., July 3, bids will be rec. by city Clerk Harry Polglase for constructing 2 rock jetties each 150 ft. long and 3 wooden jetties each 75 ft. long. Est. cost about \$17,000. Work to be paid for from proceeds of bond issue. Victor H. Stahell, city eng.

VISALIA, Tulare Co., Cal.—Until July 18, 10 a. m., bids will be rec. by Supervisors to const. Parker Hotel bridge, 1 1/2 mi. above Hammond on routing of new park highway. Laurence A. Moye, county surveyor.

VALLEJO, Solano Co., Cal.—C. E. Grunsky St., Mechanics Institute Bldg., San Francisco, who has been retained by the city of Vallejo as consulting engineer for the Gordon Valley water project, has been commissioned by the City Council to take full charge of the dam construction.

OAKLAND, Cal.—City Council, E. K. Sturgis, clerk, declares intention to const. conc. culvert 6 ft. by 8 ft. in Richmond Ave. bet. Warren St. and Moss Ave. 1911 Act. Protests July 13. W. W. Harmon, city eng.

CALIFORNIA—Until July 24, 2 p. m., bids will be rec. by the Highways Commission to construct bridge over Bear River in Placer and Nevada Counties, about 7 miles north of Auburn; consist of two 100-ft. steel truss spans with necessary pier and abutments. Austin E. Fletcher, State highway eng. See call for bids under official proposal section in this issue.

NAPA, Napa Co., Cal.—Until July 17, 10 a. m., bids will be received by Jas. A. Daly, County Clerk, to construct reinforced concrete girder bridge over Napa river east of Oakville, Road Dist. 2. O. H. Buckman, County Surveyor.

SANTA BARBARA, Santa Barbara Co., Cal.—Until 10 a. m., July 11, bids will be received by D. Orena at Los

Alamos, Santa Barbara County, for constructing timber bridge 150 feet long with concrete and pile piers over San Antonio creek, 3 miles west of Los Alamos. Plans and specifications may be obtained from Owen H. O'Neill, Civil Engineer, Santa Barbara, on payment of \$5. Certified check for 5% required.

RUIRKA, Humboldt Co., Cal.—Padgett & Kelly, Eureka, at \$2,200 awarded contract by the Supervisors to construct culvert at Carter Creek bet. Alderpoint and Blocksburg in Road District 2.

LOS ANGELES, Cal.—County Supervisors have appropriated \$58,000 for constructing bridge on Long Beach-Naples Rd. over Alamitos Bay.

SANTA ROSA, Sonoma Co., Cal.—Until July 2, 12 p. m., bids will be received by W. W. Felt Jr., County Clerk, to construct four reinforced concrete bridges as follows:

Two bridges and a culvert on the Pocket Canyon road. Estimated cost, \$3500 each. Approx. 125 cu. yds. concrete.

One bridge on Washington St. extension about 1 1/2 miles northeast of Petaluma. Est. cost, \$1870; approx. 60 cu. yds. concrete.

One bridge on Sebastopol-Cotati Rd. at Station 313+75. Estimated cost, \$2400; approx. 85 cu. yds. concrete.

OAKLAND, Cal.—At primary election August 29 voters will decide whether there shall be a tube under the Oakland Estuary or a bridge across it at Webster St. This decision was reached at recent meeting of Supervisors. Est. cost of tube, \$2,340,000, plus several hundred thousand dollars for approaches.

SAN PEDRO, Cal.—Plans for the new bascule bridge to be built over Long Beach Channel, on the traffic route from Anaheim Rd. to Terminal Island, are in the hands of the Harbor Dept. and may be seen there by prospective bidders. Bids for the piers will be received up to July 7. The plans were prepared by Straus Bascule Bridge Co. of Chicago.

SAN DIEGO, Cal.—City Mgr. F. A. Rhodes has recommended that all bids for repairing 30th St. bridge be rejected and that the work be done by the operating department.

PRESFOTT, ARIZ.—S. P. Gillis, Phoenix, has the contr. and has started work on constructing Banning Creek Dam, below Thorbeck Springs.

268 Market St., San Francisco
Phone Douglas 1118

SIERRA MADRE, Cal.—Until 8 p. m., July 8, bids will be rec. by Board of Trustees of Sierra Madre for excavating and constructing reinforced conc. reservoir, 88x102 ft., with sloping walls. Work involves 165 cu ft. conc. in weir box, 5900 cu. ft. conc. in reservoir, 320 ft. conc. curb, and 1800 ft. R. M. lumber in roof. Cert. check 5%. Plans and spec. may be obtained at office of L. Dietz, city clerk, or at office of O. A. Gierlich, 269 Natl. Bank Bldg., Monrovia, city eng. A deposit of \$5 will be required.

PALMDALE, Los Angeles Co., Cal.—Bent Bros., 114 Eagle St., Los Angeles, sign contract to construct reinforced concrete multiple arch dam on Little Rock creek in Antelope Valley, Los Angeles County, for the Palmdale and Little Rock Creek Irrigation Districts, and the Palmdale Water Co. Cost about \$500,000. Work started June 29. Owners will furnish cement, reinforcing steel and gates. The dam will be 115 ft. high and 700 ft. long at the top and will contain approximately 22,000 cu. yds. concrete. There will be a siphon spillway. Plans and specifications prepared by J. S. Eastwood of San Francisco. Burt Cole, engineer of the Palmdale Water Co., Lancaster, will be the engineer in charge. Project has been financed, bonds voted by the irrigation districts having been sold.

IRRIGATION PROJECTS

SUSANVILLE, Lassen Co., Cal.—Farmers of Red Rock section will organize an irrigation district. Twenty-five thousand acres have been signed up. The district will have eleven reservoirs with a storage capacity of 118,000 acre feet of water, the largest of these being the Cold Spring with a capacity of 60,000 acre feet. Officers of the proposed district are: August Anderson, president; W. E. Horne and John K. Enboch, directors; C. R. Cauldie, engineer.

OAKDALE, Stanislaus Co., Cal.—Election will be called in Oakdale Irrigation District to vote special tax of \$50,000 to finance the enlargement of canals at the headworks.

LIGHTING SYSTEMS

MODESTO, Stanislaus Co., Cal.—See items rec. Imp. of Sycamore Ave. and Morris Ave., city of Modesto, under "Sewers, Street, Roads and Water Systems" column, this issue, regarding installation of electrolites.

PASADENA, Cal.—Until 10 a. m., July 5, bids will be rec. by City Clerk Bessie Chamberlain for laying underground conduits with ducts, laterals, manholes, electric light, in portions of Colorado St., Brainerd and Morgan Avenues, Marengo, Euclid Aves. and other streets and avenues. Spec. on file with clerk.

OROVILLE, Butte Co., Cal.—City Trustees propose to purchase gas and electric distributing system of Pacific Gas and Electric Company and operate same as municipal light plant. Purchase price will be raised through a bond issue.

NEWPORT BEACH, Cal.—Until 7:30 p. m., July 10, bids will be rec. by City Trustees to const. and replace portions of ornamental lighting system on Central Ave. bet. E. and Cypress Sts., Bay Ave. bet. Main St. and Bay View Ave., Alvarado Pl. bet. Bay Ave. and 542 ft. north, and portions of other streets 1911 Act. Alfred Smith, city clerk.

COAST COUNTIES BRANCH OF PLUMBERS HOLD MEETING

The regular monthly meeting of the Coast Counties Branch of State Master Plumbers' Association was held June 26 at Pacific Grove, President Ed Simpson presiding.

In connection with the regular order of business there were addresses by J. W. Cottrell of the Johns-Manville Company of San Francisco on the subject of boiler and pipe insulation; on plumbing materials and specifications by W. J. Lysaght of the Current Price Bureau; on organization by Harry J. Newman of Oakland, member of the Board of Directors of the State organization; and a paper on social relationships between plumbing firms by Collins M. Brown of Hollister.

KERN COUNTY WINS SUIT ON ROAD CONTRACT

The District Court of Appeals at Los Angeles has affirmed the decision of Superior Judge Rogers of Ventura County, favoring Kern County in a suit against the county by Benson & Son, road builders. The litigation involved payment of \$14,000 on Kern County road contracts which Benson & Son alleged were due them. The case was tried in the Ventura Superior Court, judgment against the plaintiffs being handed down. An appeal was taken in the District Court at Los Angeles, which ended in the affirming of the Ventura court's decision.

DEMAND FOR LUMBER EXCEEDS OUTPUT

Demand for lumber continued greater than production during the week ending June 10, according to the weekly review of the West Coast Lumbermen's Association, based on reports from affiliated mills.

Lumber cut during the week totaled 88,327,011 feet, with sales of 94,180,847 feet. Production of the 122 mills reporting was 9 per cent above normal capacity, according to the review.

Thirty-five per cent of the sales were for water shipment. New business for rail delivery totaled 3041 cars.

LUMBERMEN WILL GIVE PRIZES FOR EFFICIENCY IDEA

Encouraged by the response to its prize offer last year, the National Lumber Manufacturers' Association has decided to offer \$2,000 in prizes this year for the discovery of new methods, new machines, or new devices in the lumber industry.

Last year's prize of \$1,000 was in a single award, but this year the \$2,000 will be divided into a first prize of \$1,000, a second prize of \$500, three \$100 and four \$50 prizes. The National Lumber Manufacturers' Association believes that widening the prize distribution so that nine contestants "will be in the money," will lead to the reception of a large number of suggestions.

The competition is open to anyone, in or out of the industry and utterly free from the petty and annoying restrictions often attached to contests of this sort. Practically the only conditions are that entries for the competition must be made before the time of the next national convention of the association, which will probably be held in April, 1923, and that any suggestion offered must relate to a new method, new machine or new device, which, in practical application or use, will result in an appreciable saving of labor, time, material or expense, when applied to present manufacturing processes in the lumber industry. Contestants are to correspond with and submit their ideas to the technical and research department of the National Lumber Manufacturers' Association, International Building, Washington, D. C. While there are no prescriptions as to form of submission, contestants are advised to take pains to formulate their suggestions in a clear, concise manner; drawings, if any, and descriptive matter, to be in neat, thorough and intelligible form.

BITUMINOUS CLAY PIPE FOR DRAINAGE AND SEWERAGE EQUAL TO CAST IRON PIPE. TESTS SHOW

As a result of laboratory tests made in the College of Industries of Carnegie Institute of Technology, Pittsburgh, it has finally been established that bituminous clay pipe for drainage and sewerage use is in every way the equal of the more expensive cast iron pipe which has been employed heretofore.

For years efforts have been made by manufacturers and engineers to find methods of efficient substitution of bituminous clay pipe for cast iron pipe, but without success. One weak point has invariably remained, an inability to join the lengths to prevent leakage. Practically speaking, there has been but one general type of jointing material used, some variation of the ordinary building cement.

Recently various bituminous compounds have been evolved as a substitute jointing material. But the first—and numerous—tests made of these, too, failed to overcome the great weakness of clay pipe when used for drainage or sewerage.

Finally a number of these bituminous compounds were placed at the disposal of S. E. Dibble, head of the Heating and Ventilating Department of the College of Industries of Carnegie Institute of Technology. He proceeded to make painstaking and unusual tests and experiments. He not only devised absolutely new equipment with which to simulate actual drainage and sewerage conditions in the making of his tests, but as a result of the tests themselves he developed an entirely new jointing practice and technique. Altogether twenty-one separate tests on a total of sixty-three joints were made, three different bituminous compounds being used.

Not only have Professor Dibble's tests established (1) that a proper bituminous compound can be used efficiently in jointing a pipe; (2) that the pipe itself is capable of standing, without showing any leak; (3) that a pipe line so jointed can be thrown out of alignment without causing a leakage at the joints; and (4) that leaks due to poor workmanship can be repaired easily and quickly; but Professor Dibble has gone further and has published actual chemical analyses of two of the bituminous compounds found satisfactory.

SANTA CLARA COUNTY SURVEYOR ENTERS PAVING BUSINESS

The San Jose Paving Co., capitalized at \$50,000, has been organized at San Jose with Irving L. Ryder, county surveyor of Santa Clara County, at its head. The declared intention of the new corporation is to pave streets and do all kinds of street work, to maintain quarries, cement and asphalt plants and manufacturing of street materials; to manufacture, use and dispose of road and street working machinery; and to go into general construction and engineering work on piers, buildings, bridges, etc. Jane E. Polhemus and William G. Ryder are others interested in the new concern.

COST OF GRADING AND PAVING ON FEDERAL AID ROAD JOBS

Statistics compiled by the Bureau of Public Roads of the United States Department of Agriculture on 1350 completed Federal aid roads, involving 7500 miles of road at a total cost of \$112,000,000, show that of the total cost, 21 per cent went into grading, 14 per cent into structure, 62 per cent into paving, and 3 per cent for engineering. These are the average figures for the whole of the United States, but there is considerable variation in different sections. In the Middle Atlantic States, where grading is not heavy and paving must be built for heavy traffic, the cost of the paving rises to 75 per cent and the grading and structures fall to 15 per cent and 9 per cent, respectively. In the Mountain State the problem is very different, much of the work being new construction with heavy grading, and the highest type of surface is not necessary. In this group of States the cost of grading amounted to 33 per cent, structures 20 per cent and paving 42 per cent.

BUILDING IN OAKLAND FORGING AHEAD, REPORT SHOWS

The valuation of new construction in Oakland is almost doubled over the May figures, according to a report of the City Building Department. May, with 772 permits, showed a total of \$1,850,160 in new construction, while June, with 733 permits, showed a total of \$3,381,045.

The number and valuation of building permits is more than double the figures of one year ago, as is shown in the following table.

Date	Permits	Valuation
July, 1921	492	\$1,162,623
August	552	1,862,609
September	719	1,478,739
October	673	1,246,220
November	646	1,235,174
December	500	2,149,756
January, 1922	581	1,329,405
February	440	1,424,772
March	732	1,925,577
April	772	1,850,160
May	813	2,243,745
June	773	3,381,045
Totals	7693	\$21,278,830

PREFERRED METHODS OF CONSTRUCTING BRICK PAVEMENTS

In line with its recent action in simplifying and standardizing the sizes of paving brick, the National Association of Paving Brick Manufacturers has approved asphalt filler as the preferred type for brick streets and roads. A resolution to this effect adopted by the Association sets forth that its researches have shown for some time a decided trend toward the use of asphalt filler; that 60 per cent of the brick pavements laid during the past year were so filled, and that it was clear that a majority of engineers and public officials were convinced that asphalt filler insured the construction of durable and economical pavements.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

According to estimates made by Walter C. Mathewson, State Labor Commissioner, 15,000 persons were added to the payrolls of California in manufacturing enterprises during the months of April and May. The estimate is based on 546 replies received to a questionnaire sent out to industrial concerns throughout the State. This is an increase of 5.9 per cent in the total number of persons employed in the State. The greatest change is noted in the lumber industry, which shows a gain of 3415 employees, of which the logging end contributed 2251, an increase of 39.6 per cent.

Los Angeles Building Inspector reports the issuance of 3751 permits for new buildings during the month of June, with a total of \$10,652,265. A record for the year of \$100,000,000 or more is now practically assured, even though building activity declines during the next six months, a contingency which is not anticipated by officials of the building department. The total for the first six months of the year is \$59,459,250, as compared with \$31,392,477 for the same period in 1921. This is an increase of more than \$25,000,000 over last year.

In the case of N. F. Jahn against the City of Seattle, the Supreme Court of Washington holds that the provision of the Seattle city charter under which contractors on public work are required to pay the current scale of wages paid by the city for like work, and ordinances setting the maximum and minimum scales to be paid by the city are lawful. Jahn and other contractors asked for a permanent injunction against the city in the matter of its prosecuting them for paying less than the city scale.

According to advices received from Canada, spruce lumber prices have advanced from \$2 to \$5 per thousand feet board measure, according to grade. One of the largest mills in Canada has stopped booking orders for many grades, as it has been swamped with business at the advanced prices in the last three weeks. The Canadian advices state that the lumber situation looks exceedingly bright, both as regards demand and prices.

Highway Committee of Yuba County Chamber of Commerce recommends to Supervisors a program of road improvements to be made under a direct taxation by a 50 per cent levy annually. The recommendation provides for primary, the most used arteries of travel, and secondary roads, these to be graded, drained and graveled so that at some future time the foundation will have been laid for paving. About 100 miles of road are included in the program.

Building permits issued in Palo Alto for June total \$936,969. Total of past month is four times greater than that of June, 1921, and is approximately 50 per cent higher than the total expended in that city for building during the whole of last year, the report on December 31, 1921, showing \$610,607, as compared with \$301,502 for the whole of 1920.

City Building Inspector Ben H. Covell of Sacramento reports the issuance of 239 permits during the month of June. The valuation of the work carried on under these permits totals \$753,664. During the past six months 1658 permits have been issued with a total estimated valuation of \$5,203,973. This is against a total of 1553 permits issued for the six months ending June 30, 1921, with an estimated cost of \$2,556,055.

Articles of incorporation of the Delta Hemp Mills of Lodi, Calif., have been filed with the Secretary of State. The purpose of the company is to utilize hemp that is grown in the vicinity of Lodi. The company is capitalized at \$500,000. Directors are: F. B. Freeman of Lodi, E. A. Gammon of Fresno, L. L. Knowles, S. W. Downey, Reta Mason and George A. Work of Sacramento and Leon A. Clark of Oakland.

A proposed bond issue of \$260,000 for a water distributing system was defeated at a special election by the people of East San Diego. A majority vote was cast for it, but fell 110 short of the required two-thirds. The State Improvement Law of 1911 will be invoked to put the project through. A sewer system for the city is now being constructed under this Act.

The San Joaquin Light and Power Corporation has approved plans for a \$100,000 sub-station to be erected at California and Orange streets, Fresno. The building will be of concrete and steel construction, 34 x 110 feet. Work will be started early in August, according to Emory A. Wilson, general manager of the company.

Articles of incorporation of the Sacramento Lime Company, capitalized at \$200,000, have been filed with the Secretary of State. Incorporators are: L. A. Pyran of Gary, Ind.; W. A. Latta and William A. Sitton, both of Sacramento. The purpose of the company is to conduct a general lime and mining business with Sacramento as the principal place of business.

Building in San Jose for the month of June totaled \$215,150. During the month twenty-five cottages were erected, four apartment houses and three business buildings. Building permits issued for the six months ending June 30, 1922, represent an increase in building of \$479,566 over that for the first six months of 1921.

Assuring the use of a large quantity of Northwest lumber and giving added impetus to the revival of industry in the Pacific Northwest, the Northern Pacific Railroad Co. has let a contract to the Pacific Car & Foundry Co. for rebuilding 1000 freight cars at a cost of approximately \$600,000, according to word from Seattle.

Brick manufacturing plant will be erected at Old San Diego by the Vitri-fied Products Corporation. Brick will be made of shale, a large deposit of which has been secured by the new company. From the grinding of the shale all processes are carried on by machinery and the brick will not be touched by hand.

(Continued on Page 6)

ALONG THE LINE

Fresno Traction Co., E. A. Devereux, superintendent, proposes to have construction started on the extensions of its lines into Arlington Heights and in Fresno avenue, on or about November 1. Orders have been placed for 500 tons of steel rails to commence the work.

The City Council of San Diego has decided not to fill the position of consulting engineer to the city, made vacant by the resignation of W. C. Earle, who is now city engineer of Pasadena. J. W. Williams, who was assistant under Earle, has been performing the duties of his office.

The Fresno Chapter of the American Association of Engineers has adopted resolutions urging Governor Stephens to appoint an engineer to succeed the late H. D. Loveland on the State Railroad Commission. Similar action has been taken by other Chapters of the Association throughout the State.

The Fall River Mills Irrigation District was organized at a recent election in Shasta County. The district comprises 13,000 acres in the vicinity of Glenburn, McArthur and Fall River Mills. Three pumping stations will be constructed, the water to be taken from Fall River.

John W. Morris, who was associated with the late J. H. Strobbridge in the construction of the Central Pacific and the Southern Pacific railroads, and for more than 65 years a resident of Oakland, died at his home in that city July 1.

The Hudson-Bonney Lumber Co., Burbank, Cal., has incorporated for \$100,000. T. H. Hudson, V. A. Bonney and George N. Swartz are the incorporators.

C. E. LaBoyetaux Co. has secured Los Angeles agency for the Thomas Elevator Co., manufacturers of power driven hoists and hoisting equipment, with factories at Chicago.

Stockton Chamber of Commerce reports building activities in that city for the month of June totaled \$221,060. For the corresponding month of 1921 the total was \$142,655.

The P. J. Walker Co. of San Francisco has opened Los Angeles offices in the Merchants National Bank Bldg., with Raymond W. Kinne in charge.

Foundry and boiler works of W. W. Rosebraugh at Salem, Ore., recently destroyed by fire will be rebuilt at a cost of \$25,000.

Fisher-Glassford Hardware Co. of Fresno has purchased site 40x120 feet, in South Van Ness avenue and will erect new quarters.

LIABILITY OF UNIONS FOR STRIKE DAMAGES

Since the decision of the U. S. Supreme Court in the Coronado case holding that unions, whether incorporated or unincorporated, are liable for strike damages, leaders of organized labor have announced their intention to ask Congress for legislation relieving unions of responsibility in such cases. Whether such legislation can be enacted without being open to attack as class legislation is by no means certain. In its opinion in the Coronado case the Supreme Court said:

"Though such a conclusion as to the liability of trade unions is of primary importance in the working out of justice and in protecting individuals and society from possibility of oppression and injury in their lawful rights from the existence of such powerful entities as trade unions, it is after all in essence and principle merely a procedural matter. As a matter of substantive law, all members of the union, engaged in a combination doing unlawful injury are liable to suit and recovery, and the only question is whether when they have voluntarily, and for the purpose of acquiring concentrated strength and the faculty of quick unit action and elasticity, created a self-acting body with great funds to accomplish their purpose, they may not be sued as this body, and the funds they have accumulated may not be made to satisfy claims for injuries unlawfully caused in carrying out their united purpose."

This decision is based on a broad interpretation of basic law. As pointed out by the court, to require persons injured by strikes to bring suit against individual members of unions would be to "leave them remediless." Legal recognition and protection have been given to unions and "it would be unfortunate," as stated by the court, "if a great organization carrying on in a wide territory strikes out of which so much injury to private rights is possible, could assemble its assets to be used therein free from liability for injuries by torts committed in course of such strikes."—Southwest Builder.

GLADDING, McBEAN CO. DONATES FUNDS FOR LINCOLN SWIMMING POOL

The City of Lincoln, Placer County, will have a new municipal swimming pool with every modern convenience, to cost \$10,000, if the City Board of Trustees will appropriate \$3,000 and the Chamber of Commerce is able to raise \$3,000 by popular subscription.

These are the terms of a \$4,000 offer to complete the \$10,000 fund which Gladding, McBean & Company, San Francisco clay products manufacturers, has made in a letter read at the last meeting of the Chamber of Commerce. A resolution was adopted to accept the offer.

CANADA'S ROADS

Highway improvement is going forward rapidly in Canada. Ten per cent of the dominion's road mileage has been graded or surfaced, says the annual report of the Canadian Good Roads Association, and there is one mile of road for every twenty-one residents. In the western provinces road building has been hastened by the influx of settlers and subsequent expansion of agriculture. Thousands of motor trucks supplement the horse-drawn vehicles. Canada's highways represent an investment of \$574,000,000,

FOREST PRODUCTS LABORATORY TELLS HOW TO DETERMINE TRUE MAHOGANY

Only true mahogany from tropical America, "African mahogany" and "Philippine mahogany" are commonly sold as mahogany in this country, but at various times over sixty different species of timber have been sold under that name. Although all of these species resemble each other in varying degrees, tropical American mahogany and "African mahogany" possess one important characteristic in common. This is the occurrence of dark amber-colored gum in many of the pores. The gum does not fill the pores, but is recognized as dark specks or streaks in the pores as seen on end or side grain. This gum is barely visible to the naked eye, but is easily seen through a hand lens with a magnification of ten to fifteen diameters. In preparing the end grain of the wood for examination, a very sharp knife should be used to make a smooth cut.

Some other woods have similar dark masses of gum in the pores, but none of them are commonly substituted for mahogany. Among them are crabwood and sapelli, species imported from South America in small quantities only, and the Cedrelas (Spanish cedar, etc.), which are rarely sold as mahoganies, and are easily recognized by their odor.

True mahogany has fine, continuous, concentric lines in the cross section usually from one-eighth to one-half inch apart, which distinguish it from "African mahogany" in which these lines never occur.

"Philippine mahogany," although not marked by the black masses of gum, is distinguished from true mahogany and other so-called mahoganies by the presence of fine white tangential lines one-eighth inch to several inches apart, readily visible to the naked eye, and showing under a lens as rows of small openings filled with a white substance.

A more complete key and description of mahogany and so-called mahogany, which describes common species in detail, may be obtained from the Forest Products Laboratory, Madison, Wisconsin.

HOOVER URGES BOULDER DAM CONSTRUCTION

Prompt construction by the Federal Government of a dam at Boulder Canyon for the protection of Imperial Valley, California, against the flood waters of the Colorado river, was urged by Secretary Hoover before the House committee on irrigation of arid lands, June 21.

Secretary Hoover, speaking as chairman of the Colorado river commission, stated that he earnestly recommended action by Congress upon the project without waiting until the commission could report a comprehensive plan for irrigation and power plants at other places along the river.

It was the duty of the Federal government, Hoover said, to take prompt steps to protect the Imperial Valley from inundation by floods from the Colorado river and the contemplated dam and reservoir to be constructed for that purpose, he explained, would produce sufficient revenue through the sale of water for irrigation purposes and by the generation of hydroelectric power to reimburse the government for the cost of construction.

The commission, he said, favored treating the project independently and promptly, provided Congress stipulated that it should not vest any private rights which might interfere with the subsequent apportionment and distribution of water by the commission

among the states in the basin of the Colorado.

The demand in Los Angeles and elsewhere in southern California for electric power was explained to the committee by Professor W. F. Duran, of Stanford University, who stated that with all projected enlargement of private power construction, the demand could not be met and with the estimated 600,000 horsepower to be generated at Boulder Canyon, the Federal competition would drive the private enterprises out of business.

SAN FRANCISCO BUILDING ACTIVITIES SLACKEN IN JUNE, REPORT SHOWS

As compared with the month of May, building operations in San Francisco for June show a loss of \$1,010,365. During the past month 618 building permits were issued by the Department of Public Works for improvements, totaling \$3,336,701. For the month of May 786 permits for the same work costing approximately \$1,377,066. During the month of June, 1921, the Department issued 475 permits, work under these costing approximately \$250,965.

The following is a segregated list of operations for the month of June, 1922, as compiled by Chief Inspector of Buildings John P. Morgan:

	No. of Permits	Est. Cost
Class A	2	\$185,000
Class B	1	160,000
Class C	30	301,140
Frames	243	1,365,358
Alterations	368	326,912
Public Buildings	1	97,991
Total	618	\$3,336,701

BUILD HIGHWAYS TO CARE FOR TRAFFIC, SAYS ATTORNEY

Highways should be constructed with regard to the necessities and demands of traffic, and traffic should not be limited or curtailed by insufficient highways, declared Attorney Lewis H. Smith, speaking before the Progressive Business Club at Fresno. His subject was, "Some Problems on Our Highways."

"It would be of tremendous advantage to the highways of California and to its people who are served thereby," said Smith, "if county officers would join forces with a central State board such as the Highway Commission in a survey of all the arteries of travel throughout the State in order that future highway construction might be carried out under a unified and co-ordinated plan."

LUMBER COMPANY TO AID IN FOREST FIRE PROTECTION

The co-operation of the McCloud River Lumber Company has been obtained this year to aid the U. S. Forest Service in fire protection work over 175,000 acres of that company's land, which adjoins a large Government forest tract, according to an announcement of Paul G. Redington, district forester, following his return from Sisson, Calif. Redington says that this contract gives the Forest Service the aid of 1000 of the 1600 private timber owners in the State for fire protection. These private owners control 4,000,000 acres of the 4,500,000 acres of land within or adjacent to National Forests.

Foster Lumber Co., Ritzler, Ore., suffers \$100,000 fire loss. Sawmill with daily capacity of 125,000 ft. constructed two years ago, destroyed. Headquarters of the company are located in Nebraska.

CONTRA COSTA COUNTY BUILDERS' EXCHANGE HOLDS ANNIVERSARY BANQUET

The "Anniversary Banquet" of the Builders' Exchange of Contra Costa County was held Friday evening, June 30th at the Commodore Club, Richmond. More than one hundred attended the affair representing branches of the construction industry from San Francisco, Oakland and Contra Costa County.

P. M. Sanford, President of the Exchange, acted as Toastmaster and introduced the speakers who included Wm. H. George of the Henry Cowell Lime & Cement Company; Warren McBryde of the Industrial Association; H. Robinson of the Oakland Chamber of Commerce and E. M. Tilden, a director of the Richmond Exchange.

A feature of the evening was the presentation of a shot gun by President Sanford to Chas. Brown, Richmond plasterer, for valuable services rendered the Exchange during the past year.

Between talks and tasty dishes an interesting program of entertainment progressed which included a stunt by Al. Paulsen, "The Upside Down Wizard;" the "Red Pepper Girls," and songs of the old days by Miss Maug Rockwell, ex-star of the Orpheum Circuit and L. H. Johnson of Richmond.

E. H. Higgins was chairman of the Banquet Committee and was assisted by L. C. Dexter, Secretary of the Exchange.

ROAD IMPROVEMENT MAY HOND ISSUES TOTAL \$30,673,000

In May a total of \$30,673,000 for the country was reported in bond issues proposed for road improvement. The total for April was \$13,751,000. Bond issues voted for roads in May amounted to \$55,224,460, while those voted in April were \$50,815,582—A decrease for May of \$15,591,058.

The total value of road bonds reported sold for May amounted to \$32,125,932—a decrease of \$1,226,224 over the sales in April. This is due to the fact that a majority of the bond elections are held in the early spring or the late fall.

That street construction fared relatively better than road building in May is indicated by the fact that proposed bond issues reported for that purpose amounted to \$8,720,300 in May—an increase of \$1,902,750 over the \$6,817,550 reported the month before, and bonds voted amounted to \$10,119,582—an increase, over the \$8,036,132 reported in April, of \$2,083,450.

Lands actually sold for street construction, however, decreased from the \$8,581,561 reported in April, to \$6,862,847 in May—a drop of \$1,718,514.

MASSACHUSETTS TO LIMIT MOTOR TRUCK LOADS

The Massachusetts Highway Commission is seriously considering the reduction of the maximum motor truck load permissible on the highways of that State to 20,000 pounds, including truck and load. Such was the statement made by James W. Synan of the Massachusetts Highway Commission at the recent meeting of the National Highway Traffic Association. Mr. Synan said that an extensive plan of road building was under way in his State, but, as it would take several years for the best type of roads to catch up with the existing highway transport conditions, it might be necessary to reduce the present legal weights until such time as the State roads could sustain the steadily increasing heavy traffic. The proposed limitation would prohibit the use of a motor truck exceeding five tons capacity.

PREPARATION OF SAFETY CODE FOR CONVEYORS AND CONVEYING MACHINERY UNDER WAY

An important step toward the solution of an accident problem has just been accomplished through the decision of the American Engineering Standards Committee that the development of a safety code for conveyors and conveying machinery be undertaken.

The introduction of mechanical conveyors in many industries, has eliminated a large proportion of the accidents resulting from the manual handling of materials, but it has at the same time introduced new hazards, many of which can be prevented by a more general agreement among both users and manufacturers of conveying equipment as to safe practices in manufacture, installation and operation of such equipment.

The American Society of Mechanical Engineers and the National Bureau of Casualty and Surety Underwriters have been appointed joint sponsors for this code. All interested national organizations will be asked to co-operate in the formulation of the code. This code, the American Engineering Standards Committee announces, will be intended as a guide for the safe operation and maintenance of conveyors and conveying machinery coming under the following main divisions: Gravity, belt, chain, flight bucket, apron, screw and jigger conveyors; car hauls, aerial cableways, overhead trolley, and pneumatic tubes.

All shafting, pulleys, belts, link belts, chains, gears, sprockets, couplings, clutches, etc., used on and in connection with conveyors and conveying machinery will be covered in the Mechanical Power Transmission Code now in preparation.

MCCLENEHAN PRODUCTS CO. TO ISSUE STOCK

The McClellan Products Company of San Francisco, organized for the purpose of acquiring the assets of McClellan Products Co., which was engaged in the manufacture and sale of cement products complete from magnesite, has been permitted by the State Corporation Department, to sell 14,999 shares of its preferred and 25,001 shares of its common capital stock to Walter McClellan as trustee for the stockholders of McClellan Products Co. in exchange for all of the assets of the business. It also is permitted to sell 150,000 shares of its preferred and 50,000 shares of its common capital stock in units of one share of common and three shares of preferred at \$3.00 per unit; and to issue 174,999 shares of its common capital stock to Walter McClellan as and when shares are sold for cash. The shares issued to McClellan are in exchange for certain real property. The stock issued to McClellan as trustee and the stock issued to McClellan for property are to be deposited as an escrow.

SIAM STATE RAILWAYS SEEK BRIDGE BIDS

The Siam State Railways have transmitted to the United States Department of Commerce through the U. S. Consul at Bangkok a form of tender and specifications for the supply of superstructures for steel railway bridges totaling 35 spans and 1485 meters in length. Tenders must be in the office of the Siam State Railways in Bangkok not later than October 1, 1932. Copies of the papers submitted for the use of American bidders may be obtained from C. P. Sandberg, 143 Liberty street, New York City.

ZONING PRIMER IS ISSUED BY DEPARTMENT OF COMMERCE

Avoidance and correction of the present topsy turvy arrangement of so many American cities, the cause of millions of dollars' loss, is the object of "A Zoning Primer," issued by the Division of Building and Housing of the Department of Commerce.

The enormous waste in American cities from scrapping good buildings on account of the blighting of districts has long been apparent, and for years has levied its tax on the American people.

Random crowding of stores among private dwellings, the elbowing of factories and garages into the rightful domains of neat retail stores or well kept apartment houses and the construction of tall, bulky office buildings so closely crowded that the lower floors are too dark for human use and consequently seldom occupied, is part of the present stupid, wasteful jumble which proper zoning will prevent and, adversely correct, in the opinion of the advisory committee on zoning of the Department of Commerce.

The pamphlet describes the object of zoning, the need, the health and property protection afforded and its effect on the cost of living.

Legal problems, with an outline of what some cities have accomplished, and a zoning program are also included among the subjects. Copies are sold by the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each.

The Observer.

(Continued from Page 4.)

Contractors of Sutter County have organized a Builders' Exchange and will seek affiliation with the Marysville Builders' Exchange which has been in existence for some time. The new organization embraces nineteen members in its membership and has named J. E. Hacker, president and Ernest Zwaneck, secretary.

The Economy Fuse & Mfg. Co., Chicago, Ill., announces the appointment of Chas. H. Bluske as District Sales Manager of the Los Angeles office at 1304 Maltman Ave. Bluske was formerly connected with the Pacific States Electric Company of Los Angeles, and succeeds Geo. L. Davis.

The Boyle-Dayton Co. of Los Angeles, manufacturers of gas measuring pumps, gas storage tanks and air compressor units, has established a district office at 139 Second St., San Francisco, under the management of C. L. Ellsworth. Orders from any section of the country can be filled from this branch.

Oakland has been selected as one of the five cities where will be located the assembling plants for a new \$30,000,000 consolidation of manufacturers of automobiles, trucks and auto parts under the name of the Associated Motor Industry.

Jacobs, Ackerman & Crezier, contractors of Eureka, Calif., have taken over the Hammond Lumber Yards at the foot of I street, in that city, and have started the construction of a planing mill.

Designs are being considered by a Citizens' Committee in Oakland for an electrolier lighting system to be installed around Lake Merritt. It is proposed to install 560 standards of metal or concrete construction.

APARTMENT HOUSES

To Be Done by Day's Work and Sub-Contracts.
APARTMENTS Cost, \$—
SAN FRANCISCO. SE Green and Taylor Sts., 137-6
 Five-story Class C apartment house.
 Owner—Mrs. Henry C. Smith.
 Architect—Henry C. Smith, Humboldt Bank Bldg., San Francisco.
 Monson Bros. 251 Kearny St., have the contract for the concrete work.

To Be Done by Day's Work.
APARTMENTS Cost, \$12,000
SAN FRANCISCO. S Greenwich 179-6
 E Polk.
 Two-story and basement frame (7) apartments.
 Owner—Sam Rosenberg, 708 Mission St., San Francisco.
 Architect—Not given.

Plans Being Prepared.
APARTMENTS Cost, \$850,000
LOS ANGELES. Cal. SE Wilshire Blvd. and Berendo St.
 Ten-story Class A apartment house, 145x175 (240 rooms).
 Owner—A. C. Elmerenthal, Loewe State Bldg., Los Angeles.
 Architect—G. Albert Lunsburg, 709 Mission St., and Aleck E. Curlett and Claud Beelman, 408 Union Bank Bldg., Los Angeles.

To Be Done by Day's Work.
APARTMENTS Cost, \$24,000
SAN FRANCISCO. N California 192-6
 W Hyde Street.
 Three-story and basement frame (6) apartments.
 Owner—P. Lacoume and W. Costello, 1559 California St., San Francisco.
 Architect—Jas. F. McGuinness Jr.

Plans Being Figured—Bids Close July 14, 1922.
APARTMENTS Cost, \$25,000
MARYSVILLE. Yuba Co., Cal. E and Seventh Streets.
 Two-story frame apartment house (8 3 and 4-room apts.).
 Owner—Arthur C. Powell.
 Supervising Architect—August G. Headman, Cal Bldg., S. F.
 Figures are being taken from Marysville contractors among which is L. E. Hite. Sub-figures are wanted on iron, tile and marble, cast cement, terra cotta tile and hardwood floors.

Plans Being Figured—Bids Close July 6, 1922.
APARTMENTS Cost, \$—
SAN FRANCISCO. Jackson St. near Broderick St.
 Two and three-story frame and plaster apartment house.
 Owner—Mrs. Jas. W. Ward.
 Architect—A. H. Knoll, Hearst Bldg., San Francisco.
 Figures are being taken for a general contract.

Segregated Figures Being Taken.
APARTMENTS Cost, \$25,000
SAN FRANCISCO. E Sixteenth Ave. bet. Fulton and Cabrillo Sts.
 Three-story frame and stucco apartment house (6 4-room apts.).
 Owner—Withheld.
 Architect—A. H. Knoll, Hearst Bldg., San Francisco.

Plans Being Figured.
APARTMENTS Cost, \$—
SAN FRANCISCO. SW Hyde and Greenwich Streets.
 Eleven-story and basement Class A reinforced concrete apartment house (20 5 and 6-room apartments).
 Owner—O. E. Martin.
 Architect—C. A. Meussdorffer, Humboldt Bank Bldg., San Francisco.

Plans Being Prepared.
ALTERATIONS Cost, \$10,000
SAN FRANCISCO. Twenty-fourth St. near Folsom St.
 Alter three-story frame flat building into (3) apartments and 2 stores.
 Owner—Dr. A. W. Martin.
 Architect—A. H. Knoll, Hearst Bldg., San Francisco.

Concrete Work Awarded Architect Taking Sub-Figures. Cost, \$15,000
SAN FRANCISCO. O. W. Leavenworth St. 147-6 N Turk St.
 Four-story and basement reinforced concrete (23) apartments.
 Owner—Carl E. Ernst, 633 Hayes St., San Francisco.
 Architect—E. H. Denke, 1317 Hyde St., San Francisco.
Concrete Work awarded to Mission Concrete Co., Cal. Bldg.

Plans Being Prepared.
APARTMENTS Cost, \$10,000 to \$25,000 each.
SAN FRANCISCO. S Pine St. W of Mason Street.
 Two three-story frame or two five-story reinforced concrete apartment houses.
 Owner—Jas. Bell.
 Architect—E. H. Denke, 1317 Hyde St., San Francisco.

Concrete Work Awarded—Owner Taking Sub-Figures.
APARTMENTS Cost, \$—
SAN FRANCISCO. SE Bush and Taylor Streets.
 Six-story Class A store and apartment house building (41 apartments).
 Owner—A. Guizner, 1032 Balboa St., San Francisco.
 Architect—E. H. Denke, 1317 Hyde St., San Francisco.
Concrete Work awarded to L. Vannucci, 16th and Church Streets.

Bids Opened.
APARTMENTS Cost, \$—
STOCKTON. San Joaquin Co., Cal. NW Lafayette and California Sts.
 Three-story brick store and apartment building (6 stores 12 2 and 3-room apartments).
 Owner—G. L. Garibetto, N. Copella, E. Architect—Edw. M. Conney, Stockton.
 H. E. Vickroy, 1122 N. Commerce St., Stockton \$51,000
 Shepherd & Riley \$4,832
 Carl Nelson \$4,575
 Hertzog & Orcutt \$5,985
 Frank Tucker \$5,650
 Robert Beyrle \$5,992.

Plans Complete.
APARTMENTS Cost, \$15,000
OAKLAND. Cal. E Grove St. 174 8 14th St.
 Two-story frame 16-room apartments and stores.
 Owner—N. Rizzo, 1132 7th St., Oakland.
 Architect—Not given.

BANKS

Contract Awarded on Cost Plus Basis.
BANK BLDG. Cost, \$50,000
SAN FRANCISCO. SE Broadway and Columbus Ave.
 One-story and basement reinforced concrete bank building.
 Owner—Italian-American Bank.
 Architect—Italo Zanolini, 604 Montgomery St., San Francisco.
 Contractor—Cahill Bros., 110 Sutter St., San Francisco.

Low Bidder.
BANK BLDG. Cost, \$134,500
BERKELEY. Alameda Co., Cal. Fulton St. opposite Kittredge St.
 Two-story and basement reinforced concrete bank building.
 Owner—Federal Land Bank.

Architect—Jas. W. Plachek, 2011 Shattuck Ave., Berkeley.
Low Bidder—Laxton & Vozza, 347 12th St., Oakland.

The general contract includes excavating, grading, concrete work, foundation, brick and brickwork, architectural terra cotta, carpentry work, roofing and waterproofing, plumbing, heating and plastering, sheet metal work, brass railing, wrought iron, revolving doors, painting, marble, tile, linoleum, glazing, electrical work, heating and ventilating.
 Separate bids will be taken for the electric fixtures, curtains, shade and steel lockers.

Contract Awarded.
BANK Cost, approx. \$21,000
LAKEPORT. Lake Co., Cal.
 One-story and basement reinforced concrete bank building.
 Owner—Bank of Lake.
 Architects—Morrow & Garren, Chonah Bldg., San Francisco.
 Contractor—Bordwell & Zimmerman, Calistoga, Cal.

BONDS

SANTA CRUZ. Santa Cruz Co., Cal.—Election will be held July 22 in Scott's Valley School District to vote bonds of \$8000 to finance school improvements. Trustees of district are S. M. Smith, Albert C. Kitchel and E. Frawley.

HEALDSBURG. Sonoma Co., Cal.—Bonds of \$5000 voted to improve water system and \$1500 to improve sewer system.

SAN DIEGO. Cal.—Board of Education is planning to submit a \$1,000,000 bond issue to vote about the time of the State Primary Election, the end of August. The funds will be used to erect an intermediate high school at Pacific Beach, costing \$800,000, and additions to schools in other parts of the city.

MARYSVILLE. Yuba Co., Cal.—Election held in Feather River Union School District to vote bonds of \$25,000 for new school, failed to carry.

REEDLEY. Fresno Co., Cal.—Election will be called in Altamont School District to vote bonds of \$25,000 to purchase site, erect and equip 8-room and auditorium school building. Trustees of the district are: H. E. Wurth, Fred W. Coburn, C. E. Gilliland and C. J. Jackson.

MADERA. Madera Co., Cal.—Election will be held July 25 in Madera School District to vote bonds of \$15,000 to finance school improvements. Trustees of the district are: B. Buckley, Granville Brown and C. C. Gregory.

MARYSVILLE. Yuba Co., Cal.—City Council sells \$30,000 bond issue to improve Ellis Lake for premium of \$2661. W. M. Meek, city eng.

CONCORD. Contra Costa Co., Cal.—The \$70,000 bond issue of the Concord Grammar School District sold by Supervisors for premium of \$7728; proceeds of sale will finance construction of new school.

SAN DIEGO. Cal.—A bond issue of \$100,000 will be voted on at election August 1. The issue is for purchase of land for Arroyo Seco for public playground.

WILLIAMS. Colusa Co., Cal.—Petitions are being circulated asking that election be called to vote bonds to finance construction of sewer and water system.

VISALIA. Tulare Co., Cal.—The \$10,000 bond issue of the Goshen School District sold by Supervisors for premium of \$225; proceeds of sale will finance school improvements. Supervisors refuse premium of \$725 for \$7500 issue of Wilson School District.

SAN JOSE. Santa Clara Co., Cal.—Supervisors sell \$10,000 bond issue of Gilroy School District for premium of \$487 and \$25,000 issue of San Martin School District for premium of \$210. The \$6500 issue of the Cupertino Union School District sold for premium of \$5. Proceeds of the sale in each instance will finance school improvements.

NAPA. Napa Co., Cal.—August 15 is date set to vote bonds of \$600,000 to purchase and improve privately owned water system.

WILLOWS. Glenn Co., Cal.—Supervisors sell \$14,000 bond issue of Plaza School District for premium of \$347; proceeds of sale will finance school improvements.

VACAVILLE. Solano Co., Cal.—Supervisors sell \$75,000 bond issue of Vacaville School District for premium of \$3,417, proceeds of sale to finance school improvements. Plans are being prepared by Architects Geo. Selson & Co., Mitau Bldg., Sacramento.

GILROY. Santa Clara Co., Cal.—Election will be held July 24 in Gilroy High School District to vote bonds to finance construction of a high school gymnasium and heating plant for the present gymnasium, present high school, manual training building and shops and the seventh and eighth grade school. Plans are being prepared by Architects Wyckoff & White, Growers' Bank Bldg., San Jose.

SACRAMENTO. Cal.—Election will be held July 22 in Alabama School District to vote bonds of \$10,000 to finance school improvements. Trustees of district are: Charlotte E. Wilson, C. J. Taylor and C. W. Griffith.

YUBA CITY. Sutter Co., Cal.—Organization of club is proposed to back movement to call election to vote bonds of \$50,000 to finance installation of pumps, sumps and main trunk line sewer. Edward von Geldern, city eng.

CHURCHES

Plans Being Prepared.
CHURCH. Cost, \$75,000
PASADENA. Los Angeles Co., Cal.
Highland Park.

Brick church.
Owner—Grace Presbyterian Church.
Architect & Contractor—The Littleton Co., 608 E. Colorado St., Pasadena.

Contract Awarded.
CHURCH. Cost, \$20,749
PETALUMA. Sonoma Co., Cal.
One-story frame and plaster church.
Owner—Christian Science Church of Petaluma.
Architect—Ed Bolles, 233 Post St., San Francisco.
Contractor—John Morton, Balboa Bldg., San Francisco.

Plans Being Figured—Bids Close July 15, 1922, 6 p.m.

CHURCH. Cost, \$—
GLENDORA. Los Angeles Co., Cal.
Reinforced concrete church, 80x115.
Owner—Glendale Christian Church.
Architect—H. M. Patterson, 324 O. T. Johnson Bldg., Los Angeles.
Plans may be obtained from F. E. Odell, Converse Bldg., Glendora.

FACTORIES & WAREHOUSES

Plans To Be Prepared.
CIDER PLANT. Cost, \$—
SANTA CLARA. Santa Clara Co., Cal.
Adjoining plant of C. H. Baker Evaporating Co.
Owner—Jones Bros & Co., Watsonville.

Plans Being Figured
LOFT BLDG. Cost, \$40,000
SAN FRANCISCO. Folsom Street near Second Street.
Two-story reinforced concrete loft building, 150x137-6.
Owner—Louis R. Lurie.
Architect—O'Brien Bros., 240 Montgomery St., San Francisco.

Contract Taking Sub-Figures.
PUBLISHED PLANT. Cost, \$10,899
SAN MATEO. San Mateo Co., Cal.
One-story reinforced concrete building (for publishing plant of San Mateo News Leader).
Owner—Edw. Higgins, San Mateo.
Architect—W. H. Topke, Hagelstein Bldg., San Mateo.
Contractor—John Morton, Balboa Bldg., San Francisco.

Work Started.
WAREHOUSE. Cost, \$—
SANTA ROSA. Sonoma Co., Cal. Northwestern Pacific tracks north of Santa Rosa.
One-story reinforced concrete warehouse building, 50x150.
Owner—A. D. Sund of the Santa Rosa Transfer Co., Santa Rosa.
Architect—Wm. Herbert, Santa Rosa.
Contractor—A. M. Hildebrandt, Santa Rosa.

Contract Awarded.
FACTORY. Cost, \$—
VALLEJO. Solano Co., Cal. Foot of Porter St. in South Vallejo.
Factory building.
Owner—Solano Manufacturing Co., Emery Day Sr. sales manager.
Contractor—S. J. Weeks, 331 El Dorado St., Vallejo.

Plans Completed.
REPAIRS. Cost, \$14,000
SACRAMENTO. Cal. No. 2331 Third Street.
Remodel laundry and general repairs.
Owner—Modern Laundry Co., Premises
Architect—None.

Contract Awarded.
WAREHOUSE. Cost, \$—
PITTSBURG. Contra Costa Co., Cal.

McLERAN & CO., S. F. CONTRACTORS
 SUE FOR MONEY DUE
 ON SCHOOL

SALINAS, Cal.—A double back-action mandamus injunction petition is the latest legal complication arising from County Treasurer James Taylor's mixup with the Union High School Trustees. In a voluminous document, R. McLeran & Co., as successors to McLeran & Peterson, San Francisco, contractors who constructed the new Union High School in 1920, seek a writ of mandamus compelling the Treasurer to honor two warrants covering the building contract. The balance is \$5827.91. The hearing is set for August 17. Treasurer Taylor refuses to pay the warrants, on the ground he cannot legally pay last year's indebtedness out of this year's tax money.

NOTICE TO BIDDERS ON SANITARY PLANT

(Sanitary Plant and School Repairs)

Notice to bidders is hereby given that bids on the Grant School sanitary plant, together with certain minor repairs and alterations at the Grant School, corner Sutter and Fourth streets, Stockton, California, will be opened at 7:30 P. M. on Friday, July 14, 1922, at the office of the Board of Education, Washington Building, Cor. San Joaquin and Lindsay streets.

See specifications and plans at Architect Warner's Office, Redding Building.

A certified check for 10% of the amount bid must accompany said bid. The Board reserves the right to reject any or all bids.

Dated Stockton, Cal., June 30, 1922. By order of the Board of Education, By ANSEL S. WILLIAMS, Secretary.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Later 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

NOTICE TO CONTRACTORS

(Oakland Vocational High School)

Office of the Secretary of the Board of Education of the City of Oakland.

Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until the 14th day of August, 1922, at 4:30 o'clock P. M., at which time said bids will be opened for the erection and completion of a new building for the Vocational High School of Oakland High School District, located on the block bounded by Myrtle, Twenty-eighth, Filbert and Twenty-sixth Sts., Oakland, California.

Separate bids will be received for:

1. General Work, including Excavating and Grading, concrete, Carpentry, Miscellaneous, Ornamental and Structural Iron, Sheet Metal, and Built-up Roofing Work.
2. Brickwork.
3. Tile Roofing.
4. Lathing and Plastering.
5. Painting.
6. Plumbing.
7. Heating and Ventilating.
8. Electrical Work.
9. Interior Equipment Work.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 2149 Broadway, Oakland, California. On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be had by any prospective bidder for one of the branches of the work above listed. These plans and specifications may be retained as follows:

1. General Work, ten (10) days.
2. Brickwork, three (3) days.
3. Tile Roofing, three (3) days.
4. Lathing and Plastering, three (3) days.
5. Painting, three (3) days.
6. Plumbing, five (5) days.
7. Heating and Ventilating, five (5) days.
8. Electrical Work, five (5) days.
9. Interior Equipment Work, ten (10) days.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified to one responsible bank or banker, and made payable to John W. Edgemond, Secretary of the Board of Education, to be retained by the said School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law.

The amount of said check shall not exceed Five Thousand (\$5,000) Dollars but for all bids of less than Fifty Thousand (\$50,000) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Bids and shall be accompanied by an affidavit executed on a form that can be obtained from the Architect.

Bids will be opened by the Board of said District on the 14th day of August, 1922, at 4:30 o'clock P. M., in the Board Room, 211 second floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND, Secretary of the Board of Education of Oakland, California.

BIDS FOR TONOPAH HIGH SCHOOL CONSTRUCTION

The Board of Trustees of Tonopah School District, No. 20, will receive sealed bids or proposals for erecting an addition to the Tonopah High School building and improvements incident thereto. Plans and specifications for said construction and improvements may be seen at the office of L. L. Mussett, Clerk of the School Board, or F. J. De Longchamps, Architect, of Reno, Nevada, or a copy may be obtained by depositing (\$10.00) Ten Dollars with the above named persons.

The successful bidder will be required to furnish a bond to be approved by the Board of School Trustees, to secure faithful performance of his part of the contract.

All bids offered must be in writing and have endorsed thereon, "Bids for Improving the Tonopah High School," and must be filed with the Clerk of the School Board at his office on or before the 15th day of July, 1922, at which time and place the said bids will be opened. All bids must be accompanied by a certified check in the sum of Five Hundred (\$500.00) Dollars which will be returned to unsuccessful bidders at the time the contract is let, and to the successful bidder when the bond provided for is approved.

The School Board reserves the right to reject any and all bids.

By order of the Board of Trustees, Tonopah School District No. 20, By L. L. MUSSETT, Clerk of Board.

NOTICE TO BIDDERS

(Garage, Boiler and Hospital Furnishings)

Pursuant to an order of the Board of County Commissioners of Washoe County, Nevada, made and entered on the 23rd day of June, 1922, sealed bids and proposals will be received by the undersigned, the County Clerk of Washoe County, in the City of Reno, County of Washoe, State of Nevada, not later than 12:00 o'clock Noon, on Saturday, July 20th, 1922, for the following to-wit:

For the erection, construction and completion of a garage building, according to the plans and specifications on file in the office of Geo. A. Ferris & Son, Colonial Apartments, Reno, Nev.

For one No. 110 Kewanee or equal smokeless fire box boiler, installed in the basement of the Washoe County Court House, as per specifications on file with George A. Ferris & Son, Colonial Apartments, Reno, Nevada.

For the equipment and furnishing for the Washoe County Isolation Hospital, as per specifications on file in the office of Geo. A. Ferris, Colonial Apartments, Reno, Nevada.

The said Board of County Commissioners reserves the right to reject any and all bids and to accept the best bid suited to the needs of Washoe County.

E. H. REEMER, County Clerk.

NOTICE TO CONTRACTORS

(Fresno High School Garage)

Pursuant to an order of the Board of Education, duly made and entered in its minutes this 8th day of June, 1922, the Board hereby instructs the Secretary to advertise for an accept bid on garage to be built at the new high school. Plans and specifications on file with Coates & Traver, Lowell Building, Fresno, California.

The Board will accept bids on the above up to 5 P. M., August 1, 1922. Bidder must submit certified check made payable to the president of the Board of Education in the amount of 10% of the amount of the bid. The Board reserves the right to reject any and all bids. Bids must be submitted to the Secretary of the Board at 2425 Tuolumne St., Fresno, California.

By order of the Board of Education, L. L. SMITH, Secretary.

BIDS FOR FURNISHING AND INSTALLATION OF PLUMBING AND HEATING FOR ADDITION TO TONOPAH HIGH SCHOOL

The Board of Trustees of Tonopah School District, No. 20, will receive sealed bids or proposals for furnishing and installation of plumbing and heating for an addition to Tonopah High School Building, and improvements incident thereto. Plans and specifications for said construction and improvements may be seen at the office of L. L. Mussett, Clerk of the School Board, or F. J. De Longchamps, Architect, of Reno, Nevada, or a copy may be obtained by depositing Ten (\$10.00) Dollars with either of the above named persons.

The successful bidder will be required to furnish a bond to be approved by the Board of School Trustees, to secure faithful performance of his part of the contract.

All bids offered must be in writing and have endorsed thereon, "Bids for Furnishing and Installation of Plumbing and Heating for an Addition to Tonopah High School," and must be filed with the Clerk of the School Board at his office on, or before the 15th day of July, 1922, at which time and place the said bids will be opened. All bids must be accompanied by a certified check in the sum of One Hundred and Fifty (\$150.00) Dollars which will be returned to unsuccessful bidders at the time the contract is let, and to the successful bidder when the bond provided for is approved.

The School Board reserves the right to reject any and all bids.

By order of the Board of Trustees, Tonopah School District, No. 20, By L. L. MUSSETT, Clerk of Board.

NOTICE TO BIDDERS

(Completion of Tehama County Court House)

Notice is hereby given that sealed bids will be received by the Board of Supervisors of Tehama County, State of California, at the office of the County Clerk of the said County, at Red Bluff, California, until 10 o'clock A. M., September 5, 1922, for the Furniture, Fixtures, Interior Fittings and other work, as listed below, for the Court House now being erected in Red Bluff, California, and in accordance with the drawings and specifications prepared for the same by George C. Schell & Company, Architects, California, the authorized architects.

Bids will be received for:

1. Marble work counter fronts.
2. Wall heds for jury room.
3. Interior painting and decorating.
4. Wood furniture and accessories.
5. Cork tile, linoleum and linoleum.
6. Steel work and plastering counter fronts.
7. Vault door and burglar alarm.
8. Metal cases for counters, filing equipment, desks, tables, etc.
9. Lighting fixtures, etc.
10. Glazing counter fronts.
11. Ornamental iron counter fronts.
12. Venetian Blinds and window shades.
13. Moving wood and steel furniture from present offices to new court house.
14. A combined bid including all of the thirteen proposals above listed.

All bids shall be presented on blank forms, which may be procured at the offices of the Architects, 233 Mitan Building, Sacramento, California.

All bids shall be accompanied by a certified check on some responsible bank, doing business in the State of California, and in the amount of not less than ten per cent (10%) of the amount of the bid. This check shall be made payable to E. E. Clark, Chairman, Board of Supervisors of Tehama County, as a guarantee of good faith that the party to whom the contract may be awarded shall, within ten days after the award is made, enter into the necessary agreement and furnish the necessary bonds for the faithful performance of the contract, and in case the bidder to whom the contract is awarded shall fail or refuse to enter into said agreement, or to furnish the said bonds, the said check shall be forfeited to the said County of Tehama in the manner provided by law.

Each bid shall be enclosed in a sealed envelope, addressed to H. G. Kuhn, County Clerk of Tehama County, Red Bluff, California, and endorsed "Proposal for Furniture, Fixtures, and Interior Finish, for the Tehama County Court House."

The Board of Supervisors expressly reserves the right to reject any or all bids, and to waive any informality in any bid received.

It is further understood and agreed that all of the articles referred to in the Fourteen Proposals as set forth above, shall be sold to the county of Tehama on the least advantageous terms the said County may pay ten per cent (10%) of the total purchase price when the installation of said articles is completed and the balance and the balance shall be paid on or before two years in equal annual installments.

Drawings and specifications can be seen and examined during office hours at the office of the County Clerk of Tehama County, Red Bluff, California, and may be seen at or obtained from the offices of the Architects. A deposit of twenty-five dollars (\$25.00) will be required from all prospective bidders on all copies of drawings and specifications so obtained, as a guarantee of the bidder of the same in good order and condition.

By order of the Board of Supervisors of Tehama County, State of California.
Dated July 8, 1922.

ERNEST P. CLARK,
Chairman.
H. G. KUHN,
Clerk.

J. J. WILLIAMS,
Clerk.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS
CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Main Building, Sacramento, California, until 10 o'clock P. M., on July 31, 1922, at which time they will be publicly opened and read, for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Colusa and Sutter Counties, between Colusa and Long Bridge (III-Col-15-B and Sat-15-A), about ten and nine-tenths (10.9) miles in length, to be graded and paved with Portland cement concrete.

Inyo County, between Fish Springs School and SE Cor. Sec. 32, T. 8 S., R. 33 E., M. D. B. & M., (VI-Iny-23-C), about eleven and seven-tenths (11.7) miles in length, to be graded.

Kern County, between the Stonewood Creek and First Crossing Kern River (VI-Ker-57-F), about six and eight-tenths (6.8) miles in length, to be graded and Los Angeles.

Madera County, between Arcola School and Borden Station (VI-Mad-4-A), about eight-tenths (0.8) miles in length, to be surfaced with asphalt concrete.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office, and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the Division of Highways in Sacramento. The Division Engineer's offices are located at Willis, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WITMORE,
R. G. MANSFIELD,
CALIFORNIA HIGHWAY COMMISSION.
AUSTIN B. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.
Dated July 3, 1922.

Specification "M"—Patent Hardware for school.

Plans and specifications, together with bid forms, may be obtained at the office of Trewhitt, Shields, Company, Rowland Bldg., Fresno, California, the authorized agents of said Board.

A certified check or Bidder's Bond equal to 10 per cent of the total amount of the bid submitted must accompany the proposals.

Contractors may bid on any of the above segregated specifications or on any combination of groups of specifications and the Board reserves the right to award contracts accordingly.

The Board further reserves the right to reject any or all bids.

By order of the Board of Trustees of the Conley School District.

PETER CORNELIUS, Clerk.

BIDS WANTED FOR 16 OPEN AIR SCHOOLS, ETC.

NOTICE TO BIDDERS

Notice is hereby given that Oakland School District and Oakland High School District of Alameda County, State of California, hereby calls for sealed proposals to be delivered to the Business Manager of said Board, room 1102 City Hall, west side of Washington Street, between Fourteenth and Fifteenth Streets, on Monday, July 17, 1922, before the hour of 4 and 3:30 P. M., for furnishing said Board with material for moving and erecting sixteen (16) Open Air School Buildings, more or less, and one (1) Cottage, according to specifications on file in the office of the Business Manager, to which reference is hereby made. All bids must be made on forms furnished on application to said Business Manager, at the address above given.

Bids must be sealed in envelopes furnished by the Board of Education and addressed to the Business Manager, Secretary of Oakland Board of Education, and must be accompanied by a certified check payable to the order of John W. Edgemond, Secretary of Oakland School District, for at least 10 per cent of the total amount of all bids submitted by each bidder.

Bids will be opened by the Board of said district on Monday, July 17, 1922, at the hour of 4:30 P. M. in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any or all bids or any or all items of such bids.

JOHN W. EDMOND, Secretary.

BRIDGES, DAMS & HARBOR WORK

EUREKA, Humboldt Co., Cal.—J. Brunner, engineer, Sharon Bldg., San Francisco, preparing specifications for three steel bridges with concrete piers over Klamath River in Humboldt County, each about 100 ft. long.

MARYSVILLE, Yuba Co., Cal.—Chamber of Commerce asked to back movement to have bridge constructed over Feather River bet. Marysville and Yuba City to meet demands of increasing highway traffic.

SALEM, Ore.—Monson, Tribeweller Co., Portland, at \$46,697 submits low bid to State Highway Comm. to const. 3 bridges over Siletz River. Nos. 851, 852, 854 in Lincoln County. Taken under advisement.

No bids rec. to const. Myrtle Creek bridge, No. 874, on Myrtle Creek (Yanoville section of Pacific highway in Douglas County. Work will be done by force account.

Portland Bridge Co., Portland, at \$13,982 awarded contract to reconstruct bridge over John Day River, No. 108, on Sherman County section of Columbia River highway in Sherman and Gilliam Counties.

LOS ANGELES, Cal.—Until 2:30 p.m. July 18, bids will be rec. by Harbor Comm., Rm. 33, City Hall, for tender loss for Berth 100. Spec. No. 355, Guy W. Wade, secy.

FORTINA, Humboldt Co., Cal.—Mercer-Fraser Co., Eureka, at \$14,495 were awarded contract by Town Trustees to construct concrete bridge and fill over Rohner Creek. Other bids: C. H. Gildersleeve, \$4575; W. C. Elmsore, \$5349.

PRESCOTT, Ariz.—A. W. Daniels, Tucson, was awarded contract, at \$20,783 for constructing steel bridge across Oak Creek near Cornville postoffice. Other bidders were: L. C. Lashmet, \$28,750; H. J. Mann, \$29,770. Bridge will be of steel girder type, 270 ft. long, and will require 56 tons steel, 400 cu. yds. conc. and \$6,000 ft. B. M. lumber.

SAN LUIS OBISPO, Cal.—Plans for a wooden trestle bridge across Morro Bay, from foot of 6th St. Morro, to foot of Fourth St. Morro Peninsula, San Luis Obispo County, will be on exhibition at Chamber of Commerce until July 6, for navigation objections. Plans have been submitted to U. S. War Dept. by C. L. Simmons and H. W. Reynolds, who propose to erect the bridge.

VISALIA, Tulare Co., Cal.—Until July 18, 10 a.m., bids will be rec. by Geo. R. Prestidge, county clerk, to const. rein. conc. bridge over Kaweah River; Bridge No. 62, involv. 432.92 cu. yds. Class A conc. (above elev. 1264.20); 238.19 cu. yds. Class A conc. (below elev. 1264.20); 228.48 cu. yds. Class B conc.; 129.38 cu. yds. boulder conc. All material to be furnished by county. Spec. on file in office of Laurence A. Moye, county surveyor.

LOS ANGELES, Cal.—County Road Dept. is ready to proceed with const. of the Tujunga Ave.-3rd St. bridge. The work was delayed to allow flood waters to recede. Est. cost will be considerably less than \$17,500 for two cheaper bridges as proposed.

SAN BERNARDINO, Cal.—George Hertz submitted low bid to City Council at \$20,418 to const. conc. arch bridge on Third St. over Warm Creek.

H. H. Lienau bid \$26,500. The bids were rejected as too high, and plans ordered revised, with consolidation of Arrowhead Ave. bridge in new call for bids, in order to secure lower figure.

SEATTLE, Wash.—Reliable Iron and Wire Works, 2028 1/2 Western Ave. at \$28,466 awarded contract by Board of Public Works to install crossing towers for Spokane St. bridge over West Waterway at Riverside.

PHOENIX, Ariz.—John H. Pfall, Hunt, Ariz., submitted lowest bid to State Eng. Trust, Madison, June 22, at \$260.25 (State furnishing \$12,475 materials) for constructing the Concho bridge on the Holbrook-St. Johns Highway, involv. (1) 215 cu. yds. excav. unclass. at \$5.50 yds.; (2) 217 cu. yds. A conc. at \$21 yds.; 16,200 lbs. rein. steel at 1c lb.; 1200 lin. ft. piling (in place) at 70c ft. A. W. Daniels bid (1) \$12, (2) \$25, (3) 5c, (4) \$1; total (including materials) \$1822.75, \$13,037.75. Both bids rejected.

SALEM, Ore.—Trabin & Pearce, Amity, Ore., at \$23,000 submit low bid to State Highway Comm. to const. four bridges, Nos. 893-4-5-6, on Eight Mile Creek in Wasco County on Palles-California Highway; conditioned that additional time be allowed to complete work. Next low bid: Lindstrom & Feigensen, Portland, \$25,590. Taken under advisement.

RAGLE, PASS, Tex.—The Southern Pacific and Mexican National Ry. will erect a railway bridge across the Rio Grande connecting this city with El Paso, Texas. The cost, \$300,000, will be shared equally by the two roads. An international foot and vehicle bridge will soon be built at cost of \$250,000. These structures are to replace former bridges destroyed by floods.

SALEM, Ore.—Date to open bids to const. bridge over North Umpqua River near Winchester on Pacific Highway, extended by State Highway Comm. to July 25. Consists of 7, 112-ft. rein. conc. spans, involv. 2820 cu. yds. Class A and 750 cu. yds. Class B conc.; 415,000 lbs. metal reinforcement; 1822 l. f. and rail. Original time set to open bids was June 28.

SAN ANDREAS, Calaveras Co., Cal.—Bordwell & Zimmerman, Calistoga, at \$2300 awarded contract by Supervisors to const. rein. conc. bridge over Coyote Creek at Vallejo and making approx. 450 yds. fill for approach. Other bids: Davidson & Nielsen, \$4570; Jas. R. Johnson, \$4600; C. H. Gildersleeve, \$5820; A. S. Dixon, \$5576.

SACRAMENTO BUILDING FOR PAST SIX MONTHS EXCEEDS THAT OF 1921

Building permits issued in Sacramento during the first six months of the present year are nearly half a million dollars in excess of the total for the entire year of 1921. The total for 1922, for the six months ending June 30 is \$5,203,073. This is compared with a total of \$4,771,205 for the entire year of 1921, the bulk of which was building started during the Fall months.

The total in Sacramento since July 1, 1921, is \$8,059,126. The total value of permits for the calendar year of 1921 was \$4,771,205 and the number of permits issued was 2,664. The value of permits for the calendar year of 1920 was \$4,49,388 and the number of permits issued 1,450. The number of permits issued during the present year, January 1 to June 30, 1922, is 1,658. The number issued during the last six months of 1921 was 1,553.

Building permits for the month of June not only show a big increase over the previous month but are nearly three times the total of June, 1921. The total for the month for all permits granted was \$753,664, of which \$651,194 was for strictly new construction. The total number of permits issued was 239, as compared with 153 permits valued at \$261,450 issued during June, 1921.

Permits for new dwellings, flats, apartments, and for remodeling and enlarging existing dwellings will provide housing for 123 additional families within the city limits.

Senator Shortridge of California has introduced a bill seeking an appropriation of \$1,200,000 for a postoffice building in Oakland.

SPECULATION MAY KILL BUILDING BOOM NATIONAL ASSN'G CREDIT MEN REPORT

That speculation in building may lead to a collapse in the building boom is the substance of a report from the National Association of Credit Men, now in the mails, going to the thirty-odd thousand members of the association.

"What better lesson should we have learned from the present depression than the expensiveness and wastefulness of speculation?" asks Secretary Tregoe. "The activity in housing construction is one of the promising features of our revival. Undoubtedly the acceleration of such construction has been felt in all allied lines, and has contributed to business in general. If this housing construction were non-speculative, undertaken by individuals, and intended as a provision for normal needs, it would indeed by a very potent sign. After careful observation, however, we fear that too great a portion of this construction going on at present is speculative, and too large a portion is burdened with heavy debt.

"There has been a bidding among certain providers of loans for construction purposes which has placed the contractor or builder in a favorable position, so far as the obtaining of funds are concerned; but there is lacking that carefulness which ought to exist in loans on real estate and improvements. We cannot but feel that much of this property is too heavily burdened, that when rents lower, as they must, it will be very difficult for the investors to realize a fair return.

"Furthermore, speculation in housing construction has placed a heavy toll on the labor wage. In many instances in the larger cities it is extremely difficult to find men available in the building trades. Wages paid to some are far in excess of reasonable, and merely indicate that in this particular field we are not getting right by any means. It is a tendency which credit grantors should observe with extreme caution, which a student of conditions should weigh very carefully. Indeed, I fear some little collapse in this field unless much of the speculating spirit is eliminated, and construction is made at proper costs, and not weighted too heavily with debt."

BIG TIMBER DEAL CLOSED AT ABERDEEN, WASH.

The bid of the Hobi Logging Co., of Aberdeen, Wash., for the 305,000,000 foot Cook creek timber unit of the Quinalt Indian reservation has been accepted by the officials of the Department of Indian Affairs. The Hobi Company bid: Cedar, spruce and Douglas fir, \$4.35; white pine, \$1.50; hemlock, 80c. The bid approximates \$1,250,000.

The timber stand is the third to be sold by the department of Indian Affairs in the Quinalt reservation since last October. The first unit, containing 306,000,000 feet, was sold in October to the Aloha Lumber Company and already is being logged. The second unit went to the M. E. Smith Lumber & Shingle Company of Seattle last March. It contained approximately 305,000,000 feet.

STANDARDIZATION IN THE BUILDING INDUSTRY

Dr. John M. Gries, Chief, Division of Buildings and Housing, U. S. Department of Commerce, in an address before the convention of the National Builders' Exchange, said:

"Some contractors have made time studies and know approximately the number of brick a good workman should lay in eight hours for different types of wall and under different conditions, but the great majority operate on guesses only.

"Standards of work should be determined for many different operations. We should know more about the laying of hollow tile, the work of the tile setter, the time required for performing certain units in framing, roofing and siding.

"We cannot establish standards for work as long as the builder fails to schedule his work. One of the first essentials is to have materials on hand. If the management fails to order the work properly, if it makes the carpenter wait for the framing, if it makes him walk 100 feet to get the studline, you can neither expect results nor establish standards in which both an employer and employee shall have confidence.

"With the closer co-operation of every element in the construction industry, we will soon speak the same language. We must accept a common terminology. Furthermore, cost accounting must be more uniform than it is today. What two producers, what two vendors, or what two contractors, have the same definitions for ledger accounts? Many will say that all agree. You think the other fellow uses your terms and he in turn thinks that you use his. I have examined many sets of books and found that even among those who claim to have the same system that the definitions of accounts differ.

"When contractors compare with each other, I become skeptical. Why? Because I have so often found that the definitions of labor accounts vary widely, that contractors are talking about entirely different things. The account may bear the same name, but the expenditures charged to the account are not the same. I have seen trucks charged to a single job or to the month's expenses while other have charged it to equipment. Some make an annual depreciation charge and others never charge the expense to operation."

BIDS ASKED FOR TWENTY-EIGHT MILE TRANSMISSION LINE

Bids will be considered by the Turlock Irrigation District on August 3 to construct 23 miles of 55,000-volt transmission line. Bids are wanted (1) lump sum bid for line completed, contractor to furnish all materials; (2) contractor to furnish labor only, materials to be furnished by district; (3) for materials, about 200 steel towers, 170 miles of copper or steel reinforced aluminum wire, 6000 suspension type insulators with fittings, switchboard panel, lightning arrestors and oil circuit breaker. Specifications may be had from the secretary of the district, Anna Sorenson, Turlock, on deposit of \$5.00.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

ALONG THE LINE

Building records for June show a total construction value of \$216,674.499 in 141 cities, a new high record for 1922, according to figures compiled by Bradstreet's. The previous high mark for the year was \$206,844,915 in May. The June figure compares with \$127,671,278 in June, 1921. The total for the second quarter of 1922, 683,568,331, is slightly in excess of the total for the combined first and second quarters of 1921. This total for the half year, with 23 cities yet to be heard from as to June, is \$1,200,998,175, a gain of 75.9 per cent over the like period of last year.

The lumber mills of the Western Pine Manufacturing Association, the Inland Empire organization, shipped 169,809,000 feet of lumber during May, or more than was ever shipped before during any one month, according to A. W. Cooper of Portland, Ore., secretary-manager. In March, 1920, the highest previous month, shipments amounted to 156,211,000 feet, and the May shipments of this year were nearly 30,000,000 feet more than the previous month and more than double the shipments of May, 1921.

Plans for the establishment of a wood-sourcing plant and sulphur mill for the manufacture of sulphur fertilizers and other products, a building material factory and other industrial enterprises for Reno, Nevada, are announced by the Chamber of Commerce of that city. C. S. Knight, secretary of the Chamber, states the building program this year is more than double that of 1921. Contractors estimate 250 houses will be completed this year, besides hotels, apartments and office buildings.

Two thousand out of the 130,798 students enrolled in the trade and industrial training branch of the U. S. Veterans' Bureau are learning building trades. Fifteen of these 2000 are learning the plastering trade, 45 brick laying and 140 masonry work. In the carpentry classes 512 are enrolled; plumbing, heating and ventilating, 476; cabinet making, 304; house painting, 170; stone cutting, 45; paper hanging, 35 and elevator installation, 25.

City Attorney H. A. McGee of Vallejo announces that Gladys-Melan Co., of San Francisco, tideland claimants have filed an answer in the Superior Court of Solano County in the action commenced by the City of Vallejo to clear title to the tidelands fronting North and South Vallejo. The San Francisco company operates a rock quarry near Benicia and lays claim to a portion of the tideland near South Vallejo.

A certificate authorizing the Los Angeles and Salt Lake Railroad to construct a new line from Delta to Fillmore, Utah, a distance of 31.4 miles has been issued by the Interstate Commerce Commission. It is estimated that the line will cost \$701,188 and that with the construction of 3.6 miles of secondary track it will make accessible about 90,000 acres of farm land and about 100 square miles of white pine timber.

Builders' Exchange of Marysville has leased quarters in the Swift Building, Marysville, and will make extensive alterations for consultation and estimating rooms and general office quarters. Officers of the Exchange are: L. A. Williams, president; E. A. Hunn, vice president; J. C. Evans, treasurer; J. W. Robinson, secretary; J. C. Woods and Calvin Smith, directors.

Robt. Shelley, former Portland building contractor, has re-opened the brick plant at Willamina, Ore., which has been closed for several years. The plant is said to have one of the best clay deposits in the west and a large variety of colors are obtainable. Shelley will operate under the name of the Oregon Face Brick Co., and will maintain offices at 204 Henry Bldg., Portland.

Acting for the Idaho State Reclamation Association, Guy Flenner, its Secretary, has filed a petition asking for an election to determine the organization of the largest irrigation district ever attempted in America—the American Falls Reservoir project comprising about 490,000 acres. Estimated cost of dam and reservoir is placed at \$12,000,000.

If the right of the Southern Pacific to hold the Central Pacific is established by the Interstate Commerce Commission, work on the uncompleted portions of the Natron cut-off will be rushed to completion, according to a telegram received by a Portland, Ore., newspaper from Julius Kruttschnitt, Chairman of the Board of Directors of the Southern Pacific Company.

Javis-Heller-Pearce Co., Stockton architects, have filed suit in the Superior Court at Modesto against George Kounias, proprietor of the Modesto Grill, to collect \$2250, alleged due for plans and specifications for a commercial building the defendant planned to erect in Modesto in 1919.

P. R. Thompson, director of transportation for the Pacific Coast Steel Co., has resigned. Thompson declares his resignation had been influenced by his decision to represent the Peninsula Bureau of Chambers of Commerce in advocating the unmerger of the S. P. and Central Pacific systems.

C. S. Ferrier, member of the contracting firm of Findley & Ferrier of Billings, Mont., has established headquarters in association with the J. A. Wolvin Co., 402 Braley Bldg., Pasadena. Ferrier will establish a permanent office in Pasadena, though still retaining his Montana business.

Since January 1 wages in the building trades show an average reduction of 16 per cent. Twenty-eight trades were involved, eighteen of these occurring in the last two months. The territory comprised principally the East and Middle West.

Building activities in Oakland took another jump in June, exceeding the preceding month by more than one million dollars. A total of 733 permits was issued last month, with a valuation \$3,351,045. The valuation of the May permits was \$2,243,746.

The main office and engineering department of the Meese & Gottfried Co., manufacturers of machinery for elevating, conveying, screening and mechanical transmission of power, is now located at its works, 19th and Harrison streets, San Francisco.

The Panama Soap Co. has definitely decided to abandon its plant at San Diego and re-establish in Irvington, Alameda County, on a site yet to be selected. The people of Irvington have assured the company a bonus of \$2750 to locate in that vicinity.

Ben Duffield, engineer, who had charge of most of Kings County highway construction, has closed his offices at Hanford and will in future be associated with the Federal Construction Co.

D. D. Demarest of Angels Camp, California, will reopen the Angels Iron Works on the Boggs Tract, just west of Stockton, for the manufacture of gas engines. San Francisco gas engine makers are said to be interested.

Western Pacific Railroad has let contracts for 2000 refrigerator cars of the latest type and 150 cars of a new type to be used in its express refrigerator service. Contract price runs in the neighborhood of \$6,000,000.

H. E. Hinshaw of Sumpter, Ore., is conferring with the San Leandro, Cal., Chamber of Commerce regarding a site for an automobile accessory and novelty factory.

City Council of Portland, Ore., decides to construct third pipe line for municipal water works at a cost of \$3,000,000. Will be about 30 miles long. Construction will be started in 1923.

Election will be held August 15 at Napa to vote bonds of \$600,000 to purchase and improve privately owned water works system.

Richmond Realty Board adopts resolutions urging the electrification of the S. P. railroad between Richmond and Pinole.

F. M. Van Houten, formerly operating the Van Houten Lumber Co. at Forrest City, Ark., is looking for a location in Southern California.

Lumber yard and six dwellings of Murphy Lumber Co. at Salem, Ore., suffer \$100,000 fire loss on July 5.

Clifton H. Wildman is a candidate for the office of county surveyor of El Dorado County.

Chris P. Jensen will seek re-election to the office of county surveyor of Fresno County at the coming election.

Sacramento City Council petitioned to construct a civic auditorium and establish free public municipal market.

\$100,000 PRIZES OFFERED TO ARCHITECTS FOR BUILDING DESIGNS

(Reprint from Christian Science Monitor)

The Chicago Tribune, which is fortunate enough to be one of the most highly profitable newspapers in the world, is doing a commendable thing in taking steps to make its new building an architectural adornment to the city. A newspaper owes much to the community in which it is published, and the Tribune, after 75 years of successful publication, purposes to discharge some part of its indebtedness by taking its part in the "Chicago Beautiful" plan, which has already done so much to transform a once ugly town into a place of architectural excellence. The paper owns a site on that wonderful boulevard which opens an impressive way of approach to the beauties of the North Shore, and the first step in the Tribune's plan is the proffer of prizes aggregating \$100,000 for designs for the new building, open to the architects of the world.

It is greatly to be hoped that the Chicago Tribune will be thoroughly successful in its effort to add to the material adornment of its home city. It may not be amiss to express also the hope that out of the beautiful building, which it undoubtedly will construct, will come nothing that does not add equally to the moral beauty of the city which the Tribune serves, and which has long so lavishly supported it. Some very good newspapers have been published in some very humble, even decrepit buildings. But to publish from a marble palace, flawlessly designed to meet every test of art, a daily newspaper which carries to the homes of the city little but messages of crime, of scandal or of harrowing disaster, seems a singularly foolish and ill-considered policy. The newspaper world, which will hope to see the new Chicago Tribune building a thing of beauty and a joy forever, will hope even more to see the newspaper issued from the edifice a model for progressive, honest, stimulating and clean journalism.

FOREST EXPERT TO MAKE FIELD STUDY IN ALASKA

At the request of Secretary of Agriculture Wallace, Associate Forester E. A. Sherman of the Forest Service has left for a two-months' trip through Alaska to make a field study of departmental problems. This will be Sherman's third inspection trip to the Territory.

Sherman will be joined at Juneau by C. A. Flory, District Forester in charge of the 20,000,000 acres of National Forests in Alaska. They will go from Juneau to Valdez and travel by automobile to Fairbanks, where they will inspect the agricultural experiment station located near that city, and also the one at Matanuska. From Fairbanks they will travel over the new Government railroad to Seward and thence by steamer to Cordova, the headquarters of the Chugach National Forest. From there side trips will be made to the Prince William Sound region and to Katalla. An inspection trip will also be made from Ketchikan over the Tongass National Forest in southeastern Alaska.

Sherman will make a special study of the program of road construction in the National Forests of Alaska, for which Congress has appropriated \$10 million dollars; the possibilities of organized forest protection for the unreserved timberlands of interior Alaska, which have suffered severely from uncontrolled fires, and the relationship of the National Forests to the general industrial development of the Territory.

STEADY DEMAND FOR HARDWOOD LUMBER IS REPORTED

In its latest "Review of Industry," the Industrial Digest, New York, says: "A steady and encouraging growth is noticeable in the demand for hardwood, and although at present this demand is being taken care of by reserve stocks, it is expected that because of very limited production, the market will reflect the scarcity of stock. According to the trade press, the flooring and interior trim manufacturers are the leading buyers. The automobile industry is also buying all the lumber it can find suitable to its needs and agricultural implement manufacturers are transacting a considerable volume of business. If the expectations in regard to successful harvests are fulfilled, heavy demands are certain to be made this fall upon the retail lumber dealer and the agricultural implement and wagon manufacturer, as well as upon the suppliers of the farmer's numerous other wants.

"Although there has been a decrease in buying by the furniture interests, this is said to be strictly seasonal. The furniture makers are unanimous in predicting a heavy business in furniture this fall, and a number of factories are planning to operate to capacity. All other domestic hardwood consumers are represented on the market with a big aggregate of requirements. Even surpluses of the lower grades of hardwood have been materially reduced by the box and packaging interests which have been active in the hardwood market recently."

NEW INDUSTRIES LOCATE IN OAKLAND

Two new industries for Oakland are announced by C. W. Foy, manager of the industrial department of the Chamber of Commerce. One of these, the Fornercrete Aggregate Company, manufactures building material. The Economy Manufacturing Company produces Economic piston rings.

The first named has leased 30,000 square feet on the north side of Clement street, just east of High street, and will begin the erection of a factory immediately. This company specializes in cement exteriors and cement decorations in color. E. K. Forner is president of the company.

The Economy Manufacturing Company has leased property at 115-117 Broadway and will install machinery at that address at once. This company comes to Oakland from Sacramento and, according to E. M. Moore, president, has been induced to move by the superior economic and labor conditions to be found in these east bay cities. The entire equipment of the Sacramento plant is being transferred to Oakland.

LUMBER FIRM GIVES REDWOODS TO STATE

Announcement has been made by J. D. Grant, Chairman of the Board of Directors of the Save the Redwoods League, that the Lagoon Lumber Company, one of the large owners of redwood timber in Humboldt County, had offered to donate to the public the redwood timber standing on the right of way for the California State highway, recently acquired by the county. This will mean permanent preservation of a strip of timber along the highway where it passes through the holdings of the Company.

Expressions of appreciation have been sent by the Save the Redwoods League to H. W. Cobb, manager of the Lagoon Lumber Company at Bulwinkle, through whom the gift was made.

U. S. CIVIL SERVICE COMMISSION WILL HOLD EXAMINATIONS

The U. S. Civil Service Commission will hold examinations in San Francisco in the immediate future for various positions. Application blanks and further information may be had from the Secretary, Twelfth U. S. Civil Service District, 241 Postoffice Building, San Francisco. Examination schedule to date are as follows:

Assistant sanitary engineer, \$3222 per annum; junior sanitary engineer, \$2220 per annum—Vacancies in the United States Public Health Service in the field.

Junior laboratory and in forest pathology, \$410 to \$1200 per annum—Vacancy in Bureau of Plant Industry, San Francisco and in Washington, D. C., or in the field.

Junior illustrative draftsman, \$1700 per annum—Vacancy in Division of Publications, Department of Agriculture, Washington, D. C.

Civil engineering draftsman, \$120 per month—Vacancy in the Engineer department at Large, San Francisco.

Mining engineer, \$3600 or over a year; associate mining engineer, \$2000 to \$2600 a year; assistant mining engineer, \$2160 to \$3000 a year; junior mining engineer, \$1620 to \$2160 a year—Vacancies in the Bureau of Mines, Department of the Interior, in the field or Washington, D. C.

Special agent, industrial rehabilitation, \$2500 a year—Vacancy in the Federal Board for Vocational Education, Washington, D. C.

LOS ANGELES FAVORED BY A. G. C. AS 1923 CONVENTION CITY

Los Angeles was a six-to-one favorite in the preliminary poll to ascertain the choice of members of the Associated General Contractors of America for the meeting place of the 1923 convention. At the recent meeting of the national executive board the result of the letter canvass of members was announced, showing that out of the 336 replies received, 260 stated the writers expected to attend the next annual convention if held in Los Angeles, 5 of whom were residents of California. Those who stated they could not visit Los Angeles numbered 115, while 48 remained in the doubtful list. Chicago and St. Louis stood next in favor, receiving 18 and 11 votes respectively, as being preferred as the convention city. This vote closely paralleled that of last year, when also about 25 per cent of the membership responded of those who attended the Cleveland convention (about 260) 24 registered from Ohio. The Board ordered a canvass of those who had not voted, the final selection of the convention city to be left in the hands of the executive committee.

SUTTER COUNTY SUPERVISORS FAVOR JOINT HIGHWAY DISTRICT

The Sutter County Supervisors have adopted resolutions favoring the creation of a highway district in Sutter and Sacramento Counties for the purpose of levying an assessment to provide for the completion of the 13 mile gap which would make a continuous highway between Yuba City and Sacramento and shorten the distance between the two cities some 7 miles. The state has \$500,000 available for this work, which it is estimated will cost approximately \$150,000. The highway extends through Sutter Basin and connects with Natoma Boulevard

San Francisco Engineers Urged to Support Industrial Research Movement

Addressing the engineering groups of San Francisco, Monday July 10, Alfred D. Flinn of New York, secretary of the Engineering Foundation and chairman of the Engineering Division of the National Research Council made a plea for the co-operation of the engineers of the West in a nationwide movement for industrial research started by the Foundation and the Council. Flinn's address was one of a series which he is delivering on a tour of the Middle West, the Pacific Coast and Canada.

Flinn explained the purpose of the Foundation, which was founded in 1914 by Ambrose Swasey of Cleveland, Ohio, past president of the American Society of Mechanical Engineers, and of the Council which was established two years later by the National Academy of Sciences with the co-operation of the national scientific associations and engineering societies. Both were interpreted as new and powerful factors in maintaining American industrial supremacy and in profiting by the lessons taught by the war.

The Foundation, he said, administers the income of endowment funds mining metallurgical, mechanical and electrical engineers for research in for the national societies of civil, mining, metallurgical, mechanical and electrical engineers for research in engineering and the science connected therewith.

"National Research Council," continued Mr. Flinn, "has broad national and international connections in the mathematical, physical and biological sciences and their related technologies, including all branches of engineering. It is not a governmental bureau, nor does it receive financial support from the government, although all governmental departments co-operate. The Council is supported by gifts from large benevolent foundations, other organizations and individuals, chiefly by a \$5,000,000 endowment fund given by the Carnegie Corporation and more than \$1,000,000 given by the Rockefeller Foundation and the General Education Board for research fellowships and other special purposes. It is erecting a permanent building near the Lincoln Memorial.

"The Council has six Divisions of General Relations, such as Federal Relations and Research Information Service, and seven Divisions of Science and Technology: Physical Sciences, Engineering, Chemistry and Chemical Technology, Geology and Geography, Medical Sciences, Biology and Agriculture, Anthropology and Psychology. Its work is done by a staff in Washington and by numerous committees whose members are distributed all over our country.

"National Research Council does not directly support or conduct research, but helps to organize and further research and to collect and spread information resulting from research. The Engineering Foundation in its field and the far-reaching research permit, supports and conducts research, as well as aiding in its promotion.

"United Engineering Society is an incorporated body, holding and administering real estate, endowment funds and the Engineering Societies Library, for the Founder Societies, having aggregate membership of 80,000."

Flinn declared that there was a growing appreciation of the necessity for more intelligent use of the physical and mental human elements in all spheres of activity. Because we have been slow to devise methods of

measurement for these elements, progress has been retarded, he said. Flinn added:

"Discussion has often been fruitless, because lacking knowledge as a basis. Many organizations have been at work in recent years—doctors, psychologists, physiologists, psychiatrists, educators, employment managers and labor leaders. In general, their efforts were unrelated.

"Engineering Foundation and National Research Council, therefore, have organized the Personnel Research Federation, to serve as a clearing house and otherwise be helpful. The purposes of this Federation are the correlation of research activities pertaining to personnel in industry, commerce, education, and government, wherever such researches are conducted in the spirit and with the methods of science. Its membership includes scientific, engineering, medical, educational, industrial and labor organizations, universities, governmental bureaus and individuals."

A highway research program to aid in spending widely \$1,000,000,000, which the Government and the State are to apply to road construction, is being framed by the Council and the Foundation, according to Mr. Flinn. For safe procedure new knowledge has been needed, and so research has been undertaken to co-ordinate the scattered research projects, fill gaps and establish proper standards. This research work will be carried out through the new Advisory Board of Highway Research, which will work in harmony with Federal and State officials, automobile manufacturers and engineering and scientific societies.

Fatigue of metals is another research undertaking by the Foundation in an effort to answer the question, "Do Metals Get Tired?" Important results have been obtained at the University of Illinois, according to Flinn, and progress in this field is being made at the plant of the General Electric Co., Schenectady, N. Y. Detection of internal stresses in metal was described by Flinn as one of the most important and one of the most baffling problems of manufacture and inspection. A committee of the National Research Council, he said, is seeking a definition of the "hardness" of metals and an interpretation of its significance as ordinarily determined by apparatus now available and the designing of more satisfactory testing machines.

Mining, tunneling and quarrying operators and engineers are interested in drill steels, said Flinn. An investigation of causes of breakage and remedies is being made by a joint committee of engineering societies, the Engineering Foundation and the National Research Council in co-operation with the U. S. Bureau of Mines.

Other projects in which these bodies are now actively interested, Flinn stated, purpose the elimination of the shipworm, which has caused billions in damage to marine property on the Atlantic and Pacific Coasts, in which New York and San Francisco committees are working in harmony; protection of wood by paint, varnish and other finishing or impregnable materials to prevent swelling and shrinking, and to prolong the life of the wood; the cost of molding sand for all uses of castings; experiments on reinforced concrete bridges and the solution of many other hydraulic problems relating to dams, power plants, pipe lines, flood control and water supply.

"These undertakings," concluded Flinn, "indicate the immediate and great practical importance to our engineers, our communities and our industries, of the active, intelligent promotion of research in sciences and the various branches of engineering and utilization of results in every day work. It is the vocation of some men and of other men to make knowledge serve the purpose of civilization."

HIGHWAY CONTRACTORS SUE FOR PAYMENT ON SANTA CRUZ HIGHWAY CONTRACTS

J. A. Marshall and J. S. Baker, contractors on the Watsonville-Santa Cruz highway unit, have filed a complaint in application for a writ of mandate which would compel County Surveyor Lloyd Bowman of Santa Cruz County to authorize the payment of approximately \$18,000 to the contractors for work alleged to have been done on the unit at the direction and with the approval of Bowman, which work was in addition to that required by the contract.

Specific claims include one for the excavation of 2872 cubic feet of earth as part of an excavation of 24,729.6 cubic feet, at 95 cents per cubic foot, which Bowman failed to approve to the Board of Supervisors, with an additional \$3241 for extra work on re-grading, replacing header boards, upkeep of detours, etc.

Another claim is for 8938.7 cubic feet of excavation work as part of an excavation of 52,170.5 cubic feet at \$1.15 per cubic foot, which it is alleged was necessary for the completion of the unit and which the County Surveyor failed to approve. An additional \$3241 is asked for in this case, also for the upkeep of detours, etc., alleged to be extra work and not a part of the contract.

ROSENER, SAN FRANCISCO ENGINEER, SUES OAKLAND SHIP COMPANY

Suit against the Hanlon Drydock and Shipbuilding Co. of Oakland has been filed by Leland S. Rosener, consulting engineer of San Francisco, seeking judgment for \$6368.86, alleged to be due him for services rendered. According to the complaint, Rosener entered into a contract with the Oakland concern on January 17, 1921, agreeing to act as consulting engineer, for which his fee was to be \$10,000, in addition to a fee of \$2.50 an hour each for Rosener's chief engineers and for an inspecting engineer. This brought the total amount up to \$15,080.50. Rosener declares in his complaint that \$5,711.64 of the total amount has been paid but that \$6,368.86 is still due on the contract.

ZELINSKY & SONS, PAINTERS, TO OPEN LONG BEACH OFFICE

D. Zelinsky & Sons, contracting painters and decorators, at their semi-annual conference at Los Angeles, July 3, decided to open an office in Long Beach, Calif. This will be their fourth branch. The firm is now operating offices and shops in San Francisco, Oakland and Los Angeles, and have the largest business on the Pacific Coast in their line.

APARTMENT HOUSES

Plans Being Figured.

APARTMENTS. Cost, \$40,000.
SAN FRANCISCO. W Hyde Street 135
S Geary Street.
Four-story and basement reinforced
concrete apartment house (8 2-
room and 8 2-room apts.)
Owner—Adolph Block.
Architect—Henry Shermund, Hearst
Bldg., San Francisco.
Figures are being taken for a gen-
eral contract.

Contracts Awarded—Sub-Figures Be-

Taken.
APARTMENTS. Cost, \$125,000.
SAN FRANCISCO. SE Green and Tay-
lor Sts., 137-6 x 137-5.
Five-story Class C apartment house (37
2 and 3-room apartments).
Owner—Mrs. Henry C. Smith.
Architect—Henry C. Smith, Humboldt
Bank Bldg., San Francisco.
Concrete work being done by Monson,
261 Kearny St.
Plumbing and Heating to A. J. Silva,
504 Gough St., San Francisco.
Roofing to John-Manville Co., 500
Post St., San Francisco.
Figures will be taken shortly on the
electrical work, painting, plastering,
etc.

Plans Being Prepared.

APARTMENTS. Cost, \$250,000.
LOS ANGELES, Cal. NE 7th and Cal-
ifornia Sts.
Four-story an d basement Class C brick
apartment house (144 rooms, 42
apartments).
Owner—Miss Ollie I. Low and Arthur
Bard.
Architect—Russell & Alpaugh, 1104
Story Bldg., Los Angeles.

Plans Complete.

APARTMENTS. Cost, \$16,000.
SACRAMENTO, Cal. 521 O St.
Three-story frame addition for apart-
ments (6 3-room apartments).
Owner—R. Modell, 2414 9th St., Sacra-
mento.
Architect—Not Stated.

Contract Awarded

APARTMENTS. Cost, \$23,000.
SAN FRANCISCO. N Union 247 W
Steiner.
Grading, concrete, carpenter, mill work
lathing and plastering for a three-
story frame apartment house.
Owner—Jos. C. and Ellen Arata.
Architect—Not given.
Contractor—G. Feroni & Sons, 1926 Fil-
bert St., San Francisco.

To Be Done by Day's Work.

APARTMENTS. Cost, \$16,000.
SAN FRANCISCO. NW 26th Ave and
Lake St.
Three-story and basement frame (6)
apartments.
Owner—Sellman & Andersen, 2152 Mar-
ket St., San Francisco.

Contract Awarded.

APARTMENTS. Cost, \$10,000.
BERKELEY, Alameda Co., Cal. 1418
Shattuck Ave.
Two-story 12-room frame apartment
house.
Owner—M. E. Van Kirk and J. D. Ar-
mitage.
Architect—Not given.
Contractor—G. N. Nickell, 1902 85th
Ave., Oakland.

Contract Awarded.

APARTMENTS. Cost, \$19,000.
OAKLAND, Alameda Co., Cal. S Icacon
St. 360 W Excelsior Avenue.
Two-story 16-room frame apartments.
Owner—Arthur H. and Mattie Hoover,
Cor. Hopkins and Fruitvale Ave.,
Oakland.

Architect—None.

Contractor—Harry C. Knight, 388 12th
St., Oakland.

Low Bidder.

APARTMENTS. Cost, \$106,000.
SAN FRANCISCO. Jackson St. near
Broderick St.
Two and three-story frame and plaster
apartment house.
Owner—Jas. W. Ward.
Architect—Albert Farr, 68 Post St.,
San Francisco.
Low Bidder—Wm. Martin 180 Jesse
St., San Francisco.

Plans Completed.

APARTMENTS. Cost, \$19,500.
SAN FRANCISCO. E Beckett 70 N
Jackson Street.
Three-story and basement concrete
(17) apartments.
Owner—Queen Ming, N2 Pacific and
Grant Ave., San Francisco.
Architect—P. E. De Martino, 246 Broad-
way, San Francisco.

Sub-Figures to Be Taken Next Week.

APARTMENTS. Cost, \$16,000.
SAN FRANCISCO. Fifth Ave near Cal-
ifornia St.
After three-story frame 24-room apart-
ment house (18 2-room and six
3-room apartments and eight gar-
ages).
Owner—Name withheld.
Architect—Arthur C. Scholz, Philan-
thropic Bldg., San Francisco.
Sub-figures will be taken for con-
crete work, plaster, electrical work,
plumbing, steam heating system, brick
work, roofing, sheet metal, fire escapes,
hardwood floors. The carpentry work
will be done by day's labor.

Plans Being Figured.

ALTERATIONS. Cost, \$2000.
SAN FRANCISCO. S Fulton W Scott
After three-story frame building into
six 4-room apartments.
Owner—Mr. W. S. Cohn.
Architect—Henry Shermund, Hearst
Bldg., San Francisco.
Figures are being taken for a gen-
eral contract, plumbing, heating and
painting.

BANKS

Figures Being Taken for Mechanical

Equipment. Cost, \$—.
BANK. SACRAMENTO, Cal. SW Sixth and E
Streets.
One-story Class A bank building.
Owner—Bank of Italy.
Architect—Geo. C. Seillon & Co., Mitun
Bldg., Sacramento.
General Contractor—K. E. Parker Co.,
Chunie Bldg., San Francisco.
Bids will be opened the end of next
week.

Contract Awarded.

BANK BLDG. Cost, \$109,000.
BERKELEY, Alameda Co., Cal. Ful-
ton St. opposite Kittredge St.
Two-story and basement reinforced
concrete bank building.
Owner—Federal Land Bank.
Architect—Jas. W. Plachek, 2014 Shat-
tuck Ave., Berkeley.
Contractor—Tilton & Vezey, 357 12th
St., Oakland.

BONDS

SAN RAFAEL. Marin Co., Cal.—Until
July 15, bids will be received by the
County Supervisors for the
\$25,000 bond issue of Larkspur School
District and \$20,000 issue of San An-
selmo School District; proceeds of
sales to finance school improvements.

MADERA. Madera Co., Cal.—Super-
visors will bond issues of a low school
\$12,000 of Madera City, \$20,000 and \$20,000
of Central School District; proceeds of
sale of bonds to finance school im-
provements.

SAN JOSE. Santa Clara Co., Cal.—Elec-
tion held in Penitentiary Union School
District to vote bonds of \$85,000 to finance
school improvements defeated. This
is the third time the issue failed, and
it is probable the district will be
consolidated.

OAKDALE. Stanislaus Co., Cal.—
August 12 bids will be received for
\$200,000 to enlarge main canal in prepa-
ration for storage reservoirs. A \$10,000
appropriation has been made by the
directors for drainage improve-
ment.

SANTA BARBARA. Santa Barbara
Co., Cal.—The \$200,000 bond issue for
the after farm repairs carried off the
10th of July 6.

TULARE. Tulare Co., Cal.—City Council has
adopted resolution ordering sale of
\$150,000 bond issue for public im-
provements, voted several weeks ago.

SANTA ROSA. Sonoma Co., Cal.—The
\$375,000 bond issue of the Santa Rosa
High School District sold for a
premium of \$23,288; proceeds of sale to
finance construction of high school
plans for which are being prepared by
Architect W. H. Weeks, 369 Pine St.,
San Francisco.

VISALIA. Tulare Co., Cal.—Until July
21 bids will be received by County Super-
visors for purchase of \$100,000 bond is-
sue of Cutler School District. Pro-
ceeds of sale are to finance 2-room ad-
dition to present school building.

FRESNO. Fresno Co., Cal.—Bonds of
\$100,000 voted in Central Union High
School District to finance construction
of new school. Selected a of an archi-
tect to prepare the necessary plans will
be made shortly.

REDDING. Shasta Co., Cal.—Until
Aug 8 bids will be received by County Su-
pervisors for purchase of \$100,000
bond issue of Redding Grammar School
District; proceeds of sale to finance
construction of new school, plans for
which are being completed by Archi-
tects Woollett and Lamb, Hazelton
Bldg., Sacramento.

SALINAS. Monterey Co., Cal.—Until
Aug 7 bids will be received by County Su-
pervisors for purchase of \$100,000 bond
issue of Monterey Union High School
District and \$10,000 issue of Del Monte
School District; proceeds of each sale
to finance school improvement. An-
drew & Tuttle are the architects on the
Del Monte School and Norman H. Con-
ner, 16 Kearny St., San Francisco, and
M. A. Dean of Pacific Grove on the
Monterey school.

GERBER. Tehama Co., Cal.—Election
will be held July 27, in Gerber Union
High School District to vote bonds of
\$20,000 to finance school improvements.
Trustees of district are: S. E. Con-
nelly, H. V. McKenna, S. A. Stillwell, D.
L. Adell and D. B. Langenwalter.

WOODLAND. Yolo Co., Cal.—Election
will be held Aug. 2 in Clarkston
Union School District to finance construction
of new school. Trustees of District are:
C. A. Fraser, Katherine Herbert Krull,
Joseph Soto, G. E. MacFarlane and M.
J. Holmes Herlinger.

SACRAMENTO, Cal.—Election will be held Aug. 5 in Pacific School District to vote bonds of \$4000 for school improvements. Trustees of district are Edwin Nicholas, Frank Hite and Chas. W. Hack.

LAKEPORT, Lake Co., Cal.—Election will be held July 17 to vote bonds of \$65,000 to extend water mains and \$10,000 to construct sewer and outfall sewer lines. John Felleman, city eng.

CHURCHES

Working Drawings Being Prepared
CHURCH Cost, \$—
PASADENA, L. A. Co., Cal.
Two-story and basement brick and hollow tile church.
Owner—Calvary Baptist Church.
Architect—Robert H. Orr, 1301 Van Nuys Bldg., Los Angeles.

Contract Awarded.
CHURCH Cost, \$23,500
OAKLAND, Cal. N 33rd St 253 W Telegraph Ave.
Two-story and basement frame church (except heating trim, hardware, light fixtures, organ, pews and furniture).
Owner—Christian Missionary Alliance of Oakland.
Architect—McCall & Wythe, Central Bank Bldg., Oakland.
Contractor—Walters & Grove, Monadnock Bldg., San Francisco.

Contract Awarded.
CLASS C BLDG. Cost, \$17,500
SAN FRANCISCO. Block bound by Amazon Ave., Italy, Vienna and Naples.
Two-story reinforced concrete Class C building.
Owner—Roman Catholic Archbishop of San Francisco, 1100 Franklin St., San Francisco.
Contractor—John J. Leonard, 180 Jessie St., San Francisco.

FACTORIES & WAREHOUSES

Grading Contract Awarded—Sub-Figures to Be Taken.
FACTORY. Cost, \$200,000
SAN FRANCISCO.—NW Battery and Vallejo.
Four-story and basement concrete factory building 137-6x137-6.
Owner—Petri Italian-American Cigar Co., Inc.
Designers and Superintendents of Construction—Del Favero & Rasori, 2042 Taylor St., San Francisco.
The excavating contract has been awarded to the Carlin Grading Co., 180 Jessie St., at \$9135. Sub-figures will be taken in two weeks.

Plans Being Prepared.
FACTORY Cost, \$—
SAN FRANCISCO. N Howard W 5th St.
One-story steel and concrete factory building.
Owner—Eames Co.
Architect—V. L. Politto, First National Bank Bldg., San Francisco.

Contract Awarded.
SHED BLDG. Cost, \$18,000
SAN FRANCISCO. SW Folsom and 14th Sts.
One and two-story reinforced concrete shop building.
Owner—E. Hickin, 409 6th St., San Francisco.
Architect—Powers & Ahnden, 160 Montgomery St., San Francisco.
Contractor—John Miller, 460 Montgomery St., San Francisco.

Plans Being Prepared.
FACTORY Cost, \$135,000
SAN BERNARDINO. San Bernardino Co., Cal. Third St. west of I St.
Four-story reinforced concrete factory.
Owner—Southern California Ice & Cold Storage Co.
Architect—Harold E. Jones, Katz Bldg., San Bernardino.

Plans Prepared—Work to Be Started Shortly.
WAREHOUSE Cost, \$14,000
CHERES, Stanislaus Co., Cal.
Stone tile, 30x200 ft., grain warehouse and bean cleaning plant.
Owner—T. E. Wilson, Ceres, Cal.
Architect—Not stated.

Plans Being Figured.
LOFT BLDG. Cost, \$15,000
SAN FRANCISCO. N Howard E Second
Three-story and basement reinforced concrete Class C loft building.
Owner—Bothin Real Estate Co.
Architect—Arthur S. Engbee, 26 Montgomery St., San Francisco.

Sketches Being Prepared.
LAUNDRY Cost, \$50,000
STOCKTON, San Joaquin Co., Cal. NE
Lafayette and California Sts.
One-story brick and concrete laundry building 92x150.
Owner—Exclusive Laundry.
Architect—Davis-Heller-Pearce Co., Delta Bldg., Stockton.

Low Bidder For Concrete Work—Sub-Figures Being Taken on the Balance of the Work.
FACTORY Cost, \$100,000
SAN FRANCISCO. N Folsom St. bet. Second and Third Sts.
Three-story and basement mill constructed candy factory building (reinforced concrete walls).
Owner—Collins-Hucke Co.
Architect—N. W. Sexton, Chronicle Bldg., San Francisco.

Official Proposals

CALL FOR BIDS FOR CONSTRUCTION OF LAKE YOSEMITE-LEGRAND CANAL FOR HIGHWAY IRRIGATION DISTRICT

Public notice is hereby given that sealed proposals for excavation and earthwork construction of the Lake Yosemite-Le Grand Canal, or any of its three divisions, will be received by the Board of Directors of Merced Irrigation District at its office in the Hartford Building in the City of Merced, State of California, at any time up to 10 o'clock A. M., on Tuesday, August 1, 1922, at which time and place all bids so received will be opened in public at the regular meeting of said Board. Thereafter said Board will let said work either in portions or as a whole, to the lowest responsible bidder, but said Board reserves the right to reject any or all bids and readvertise for proposals or proceed to construct the work under their own superintendence. The work for the doing of which proposals are hereby invited is the excavation and earthwork construction of said canal, or one or more divisions thereof, except certain sections particularly described in the specifications hereinafter referred to, which said canal is divided into three divisions as follows, to-wit:

Division No. 1, extending from the Southern edge of Lake Yosemite in the Northwest quarter of Section 34, T. 6 South, Range 14 East, M. D. E. & M., in a southeasterly direction to a point on the right bank of Bear Creek about 1000 feet east of the Southwest corner of Section 10, Township 7 South, Range 15 East.

Division No. 2, beginning at a point on the left bank of Bear Creek opposite the easterly terminus of Division No. 1, and running in a southerly direction to a point near the Southwest corner of Section 2, Township 8 South, Range 15 East.

Division No. 3, beginning at a point in Division No. 2 near the South quarter corner of Section 15, Township 7 South, Range 15 East, and extending in a southeasterly direction to a point about one-half mile West of the town of Le Grand.

The canal in Division No. 1 will be 16 feet wide on the bottom and 7.5 feet deep and the excavation for which bids are invited will be approximately 49,500 feet long.

The canal in Division No. 2 will be of varying sizes, to-wit: about 6400 feet of canal 16 feet wide on the bottom and 7.8 feet deep; about 14,400 feet of canal 10 feet wide on the bottom and 8 feet deep; about 6850 feet of canal 8 feet wide on the bottom and 5.5 feet deep; about 7,450 feet of canal 5 feet wide on the bottom and 5.5 feet deep. The canal in Division No. 3 will be of varying sizes, to-wit: about 23,535 feet of canal 8 feet wide on the bottom and 5.5 feet deep; about 16,425 feet of canal 5 feet wide on the bottom and 5 feet deep; about 430 feet of canal 5 feet wide on the bottom and 4.2 feet deep.

All bank slopes are to be 1½ horizontal to 1 vertical and the depths specified are to be measured from the bottom of the canal to the level of the top of the embankments.

Said canal and embankment therefor are more particularly described in the specifications therefor, and the route and profile thereof are delineated upon the plans therefor, which plans and specifications may be seen at the office of said Board. Copies of said plans and specifications may be obtained at the office of said board upon payment of \$5.00 for those of each division.

Said excavation and earthwork construction will be continuous, except for railroad, highway and stream crossings where spans are to be constructed, and certain sections specifically shown in said plans and specifications.

Any bidder to whom a contract for said work or any portion thereof may be awarded must furnish bonds as provided by law, to-wit: a bond in the

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

sum of at least one-half of the contract price to secure the payment of claims of material, mcn, mechanics and laborers employed upon said work, and a bond in the sum of at least 2 per cent of the contract price, conditioned for the faithful performance of the contract.

Each bid must be accompanied with cash or a Cashier's or Certified check or a bond for an amount equal to not less than 5 per cent of the total amount of the bid as a guaranty that if the bid is accepted the bidder will, within ten days after the acceptance, enter into a contract with the district in the form attached to said specifications and furnish the bonds aforesaid.

For the purpose of determining the amount of said bonds and deposit, it will be assumed (without so guaranteeing) that one-third of the excavation in Division No. 1 will be in hardpan and that all the excavation in the other divisions will be in soil, as those terms are defined in the specifications, that the amount of excavation will be as estimated in the specifications, and that no overhaul will be found necessary.

All proposals must be on forms which will be furnished by the district at the office of said Board and must be in sealed envelopes addressed to the Board of Directors of Merced Irrigation District.

Dated at Merced, California, July 10, 1922.

By order of said Board of Directors,

W. D. WAGNER, Secretary.

NOTICE TO BIDDERS

The Turlock Irrigation District, in Stanislaus and Merced Counties.

TRANSMISSION LINE

Sealed proposals will be received at the office of the Turlock Irrigation District at Turlock California, until August 3rd, at 2 p.m., for the construction of about twenty-eight (28) miles of 66,000 volt transmission line.

The bids will be received in the following manner:

1. Lump sum bid for the completed line. Contractor to furnish tools and materials to meet general specifications of District.

2. Contractor to furnish labor only, the District to furnish all materials going into the line.

3. FOR MATERIALS—

About 200 steel towers.

About 170 miles wire (either copper or steel reinforced aluminum).

About 6000 suspension type insulators with fittings.

Switchboard panel, lightning arresters and oil circuit breaker.

Complete plans, specifications and forms of contract and bond for the project will be furnished upon application accompanied by a deposit of five (\$5.00) dollars, to be repaid upon

return of plans and specifications, in acceptable condition. The contract shall be let to the lowest responsible bidder, but the Board reserves the right to reject any and all bids.

Each proposal must be accompanied by a certified check for five (5) per cent of the amount of the bid, payable to the order of the Treasurer of the Turlock District for the benefit of said district as a guaranty that the bidder will, if successful, execute a satisfactory bond in the sum of twenty-five (25) per cent of the amount of his bid for the faithful performance of the work in accordance with the specifications, the said bond to be subject to the approval of said Board.

The proposal must be marked "Proposal for Transmission Line" and addressed "Turlock Irrigation District, Turlock, California."

Done in pursuance of orders of the Board of Directors of the Turlock Irrigation District, this 10th day of July 1922.

ANNA SORESENSEN,

Secretary.

NOTICE TO CONTRACTORS

(San Mateo County Hospital)

Notice is hereby given that sealed estimates will be received by the Board of Supervisors of San Mateo County, California, up to Monday, the 7th day of August, 1922, at 10 o'clock A. M. for the following work, all for the new County Hospital Building, now being erected at Redwood in San Mateo County, California and in accordance with the plans and specifications as prepared by Will H. Toopie, Architect, and as filed with the Clerk of the Board of Supervisors on July 10th, 1922 to which bidders are referred.

The estimates will be received in accordance with the plans and specifications as filed and will be as follows:

Estimate No. 1: Will be for the furnishing and setting complete of all finished hardware.

Estimate No. 2: Will be for the furnishing and setting complete of all ventilators, disinfecter, momeator, etc.

Estimate No. 3: Will be for all the interior and exterior painting, varnishing, etc.

Estimate No. 4: Will be for the complete installation of electrical equipment, including all necessary cables, etc.

Estimate No. 5: Will be for the furnishing and setting in place of all linoleum.

All bidders submitting estimates will be required to submit with their proposal a certified check or certificate of deposit on some responsible Bank or Trust Company in the sum of ten (10) per cent of their bid. Said check to be held by said Board of Supervisors of the County of San Mateo and will be held as security that the bidder will enter into a written contract with the Board of Supervisors of the County of San Mateo, if awarded the contract, within ten (10) days from the date of the award. In the event of a breach in the terms under which this check is held, the said Board of Supervisors of the County of San Mateo will cash the check and the proceeds thereof will be placed to the credit of the building fund of said County of San Mateo.

The successful bidder will further be required to give a bond from a satisfactory surety company in the sum of fifty (50) per cent of his contract price, conditioned for the faithful performance of his contract within the time limited, and to further insure the payment of all claims for labor and material furnished on the work.

The successful bidder will also be required to protect the County against liability arising under the Workmen's Compensation Act and against any and every contingency under which the County might be held liable during the progress of work connected with the contracts on said hospital building.

The contract will provide for the retention of twenty-five per cent of the contract price for thirty-five (35) days

after the completion of the work and the filing of the notice of completion thereof.

Sealed estimates should be filed with the Clerk of the Board of Supervisors of said County hereby reserves the right to reject any and all bids.

Plans and specifications can be seen at the Architect's office at Room 707, 942 Market Street, San Francisco, California, or at the office of the Clerk of said Board, in the Court House, Redwood City, San Mateo County, California.

By order of the Board of Supervisors.
 Dated, July 10, 1922.

ELIZABETH M. NASH,
 Clerk.

NOTICE TO CONTRACTORS

(San Mateo County Tubercular Hospital)

Notice is hereby given that sealed estimates will be received by the Board of Supervisors of San Mateo County, California, up to Monday, the 7th day of August, 1922, at 10 o'clock A. M., for the erecting complete in accordance with the plans and specifications as prepared by Will H. Toepke, Architect, a one-story frame tubercular pavilion and said building to be erected on the new county Hospital property now located at Beresford, San Mateo County, California, all to be in accordance with the plans and specifications as filed by the Architect with the Clerk of the Board of Supervisors on July 10th, 1922, to which bidders are referred.

The estimates will be received in accordance with the plans and specifications as filed.

Bidders will be required to submit with their proposal a certified check or certificate of deposit on some responsible bank or Trust Company in the sum of ten (10) per cent of their bid, said check to be made payable to the County Treasurer of the County of San Mateo, and will be held as security that the bidder will enter into written contract with the Board of Supervisors of the County of San Mateo, if awarded the contract and will pay the same on the date of award. In the event of a breach in the terms under which this check is held, the said check or certificate of deposit will be cashed and the proceeds thereof placed to the credit of the building fund of said County of San Mateo.

The successful bidder will further be required to give a bond from a satisfactory surety company in the sum of fifty (50) per cent of his contract price, conditional for the faithful performance of his contract within the time limited, and to further insure the payment of all claims for labor and material furnished on the work.

The successful bidder will also be required to protect the County against liability arising under the Workmen's Compensation Act and against any and every contingency under which the County might be held liable during the progress of work connected with the contracts on said hospital building.

The contract will provide for the retention of twenty-five per cent of the contract price for thirty-five (35) days after the completion of the work and the filing of the notice of completion thereof.

Sealed estimates should be filed with the Clerk of the Board of Supervisors of said County, which hereby reserves the right to reject any and all bids.

Plans and specifications can be seen at the Clerk's office at Court House, Redwood City, San Mateo County, California.

By order of the Board of Supervisors.
 Dated, July 10, 1922.

ELIZABETH M. NASH,
 Clerk.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

Notice To Contractors

Sealed proposals will be received by the undersigned until 2:00 o'clock p. m., August 2nd 1922, for constructing a portion of the State Highway System in New County, between 6.5 miles S. E. of Canon and 2.6 miles S. E. of Rose Well—work consisting of grading and placing gravel surface.

Plans may be examined and form of proposal, contract and specifications secured at office of undersigned. May also be examined at the County Clerk's office in Tonopah, Division Engineer's office in Las Vegas, Elko or Reno, and District office of Bureau of Public Roads, Mills Building, San Francisco, California. Cash deposit of fifteen dollars (\$15.00) with undersigned required for copy of plans, which will be refunded on their return in good condition.

Bids must be on proposal form of Highway Department, and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of said Specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Right is reserved to reject any or all bids.

GEORGE W. BORDEN,
 State Highway Engineer,
 Carson City, Nevada

EXTENSION TO PIER

NOTICE TO CONTRACTORS

OFFICE OF THE BOARD OF STATE Harbor Commissioners, Union Depot and Ferry House, San Francisco, California, July 8, 1922.

Sealed proposals or bids will be received at this office at or prior to 11 o'clock a. m., Thursday, July 13th, 1922, for the materials and constructing an extension to Pier No. 22 on the waterfront of the City and County of San Francisco, in accordance with the plans and specifications heretofore by the Chief Engineer of the Board and adopted by the Board May 25, 1922, and on file in this office, to which specifications reference is hereby made. The materials to be used in this work shall consist of the requisite quantities of creosoted piles and Portland cement (all of which will be furnished to the contractor by the Board), green piles, Douglas fir lumber, redwood lumber, concrete aggregate, reinforcing materials, castings, structural steel, galvanized iron rods, bolts, spikes, ties, roofing materials, paint materials, glass, etc. Steel rails and fittings, including rail spikes, will be furnished and laid by the Board. All materials used must be of the best of their respective kinds if not especially specified herein. All materials used in the structures will be subject to rigid examination and test and if found defective, under size, unsuitable or not as specified, will be condemned and must be immediately removed from the site by the Contractor at his expense.

No bid will be received unless it is made on a blank form furnished from this office and is accompanied by a certified check for an amount equal to Five (5) per cent of the amount of the proposal, to be made payable to the Secretary of the Board, conditional for the faithful performance of the contract awarded, and if the bidder shall fail or neglect to execute a contract and give the bond required herein Six (6) days after the award is made, in that case the said sum mentioned in said check shall be deemed liquidated damages for such failure and neglect and shall be paid to the San Francisco Harbor Improvement Fund.

The Contractor shall be required to give a bond upon the Board of State Harbor Commissioners for the faithful performance of the contract awarded, in the sum of one-half of the total amount payable by the terms of the contract, with a Corporation, thereunto duly authorized by law and commonly known as a surety company, a surety (such as the company to be one of those approved by the State Board of Control, a list of these approved surety companies being on file in the Office of the Secretary) and conditioned for the faithful performance by the Contractor of all the terms and conditions of said contract according to the true intent and meaning thereof. Said bond shall also provide that if the Contractor, person, company or corporation to whom said contract is awarded, fails to pay for any materials or supplies

furnished for the performance of the work contracted to be done or for any work or labor done thereon of any kind, said surety will pay the same in an amount not exceeding the sum specified in said bond; and said bond shall also be made to inure to the benefit of material men, mechanics and laborers as provided by certain acts of the Legislature of the State of California, approved May 1, 1911 (Stats. 1911, p. 1422). Said bond must be acceptable to and approved by said Board both in form and for substance.

Bids will not be considered by the Board unless delivered to the Secretary or to the Assistant Secretary at the Office of the Secretary at the 17, Union Depot and Ferry House, at or prior to 11 o'clock a. m. on Thursday, July 20, 1922, at which time and place the bids will be opened.

The Board reserves the right to reject any or all bids if deemed for the best interests of the State.

Bidders are invited to be present at the opening of the bids.

Plans and specifications for this work to be had at Room 18, Union Depot and Ferry House upon depositing \$10.00 for same, which will be returned on return of plans and specifications.

Bidders are requested to mark envelope containing bid: "Bid for constructing extension to Pier No. 22."

JOHN H. McCALLUM,
 HARRY H. COSGRIFF,
 FREDERICK S. MOODY,
 Board of State Harbor Commissioners.
 FRANK C. WHITE, Chief Engineer.
 HILDA GOHRMAN, Secretary.

BIDS WANTED FOR LIGHTING FIXTURES

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., June 30, 1922.—SEALED PROPOSALS will be opened in this office at 3 P. M., July 27, 1922, for furnishing and installing lighting fixtures in the U. S. Veterans Hospital, at Palo Alto, Calif., in accordance with the drawings and specifications, copies of which may be seen at this office in the discretion of the Supervising Architect, JAS. A. WETMORE, Acting Supervising Architect.

NOTICE TO CONTRACTORS AND BUILDERS

(Watsonville School Addition)

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Watsonville School District, County of Santa Cruz, State of California, up to 7:30 P. M., on the 20th day of July, 1922, at the office of the High School Building, corner of East Third and Lincoln streets, Watsonville, California, for the erection and completion of two school rooms for the above named district, in accordance with plans and specifications made for the same by Wyckoff & White, Architects, Growers' Bank Building, San Jose, California.

Plans and specifications can be secured at the office of the Clerk of said Board, Watsonville Union High School Building, Watsonville, California, or at the office of the Architects, Wyckoff & White, Growers' Bank Building, San Jose, California.

All bids are to be made out on blank forms furnished by the Architects and returned to them with a certified check for not less than five per cent of the amount of the bid, made payable to the Clerk of the Board, and certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten days to sign the contract and furnish a good and sufficient bond as required by law.

The Board reserves the right to reject any and all bids.

Mark all bids "Building Bid" and address to:

"CLERK, BOARD OF TRUSTEES, Watsonville School District, High School, Watsonville, California."

Witnessed: JAMES A. HALL,
 Clerk, Board of Trustees Watsonville School District.
 Dated at: Watsonville, Calif., 6th day of July, 1922.

NOTICE TO CONTRACTORS

(Madera City School District)

Notice is hereby given: That the Board of Trustees of the Madera City School District, County of Madera, State of California, will receive sealed bids for the furnishing of all labor, materials and appliances necessary in the erection and completion of Science and Arts building, addition to Lincoln Grammar School, two-room Primary School, and one-room addition to Pershing Elementary School, according to Plans and Specifications prepared by the ENGINEER J. KUMP CO., of the City of Fresno, and in strict accordance with bids and alternate bids called for in specifications.

Said sealed bids will be received up to and including 3:00 p. m. of the 22nd day of July, 1922, by the undersigned Clerk of the Board, of the City of Madera, County of Madera, State of California.

Said sealed bids must be accompanied by a certified check, cashier's check or bidder's bond in a sum equal at least to 10 per cent (ten percentum) of amount of the bid to do the work mentioned, and made payable to the undersigned Clerk of the Board—as a guarantee that the bidder will execute proper contracts and bonds in case the contract is awarded to him by reason of his bid.

Plans and Specifications are on file at the offices of the District's Architects, the ENGINEER J. KUMP CO., 207-8 Rowell Building, Fresno, Cal.

All bids to be made out on blank form furnished by the Architects.

The successful bidder will have to give a satisfactory bond in the sum of 50 per cent covering labor and materials, and an additional 20 per cent covering faithful performance, as fully set forth in specifications.

The said Board of Trustees of the Madera City School District (as owners) reserve the right to reject any or all bids or alternate bids, or any part or parts of any Bids, received and reject the balance thereof—and to waive any informality in any Bids or Alternates received.

All Bids are addressed to Morton H. Tyrell, Clerk of Board of Trustees, of the Madera City School District, City and County of Madera, State of California.

BY ORDER OF SAID BOARD OF TRUSTEES:

MORTON H. TYRELL, Clerk.

NOTICE TO BIDDERS ON HIGH SCHOOL SHOP CONSTRUCTION AND GYMNASIUM ALTERATIONS.

Notice is hereby given that bids on High School shop construction and gymnasium alterations, per plans and specifications on file in the office of Louis S. Stone, architect, Belding Building, Stockton, California, will be opened on Monday, July 24th, 1922, at 7:30 p. m., at the office of the High School Board, of the City of San Joaquin and Lindsay streets, Stockton, Calif.

A deposit of \$25.00 will be required for plans taken from architect's office. A certified check for 10% of the amount bid as security on said bid.

The Board of Education reserves the right to reject any or all bids.

Dated Stockton, California, July 7th, 1922.

By order of the Board of Education, BY ANSEL S. WILLIAMS, Secretary.

BIDS WANTED FOR GRADING, SURFACING, ETC.

NOTICE TO BIDDERS

Notice is hereby given that Oakland School District and Oakland High School District of Alameda County, State of California, hereby calls for sealed proposals to be delivered to the Business Manager of the Board, Room 1103 City Hall, west side of Washington Street, between Fourteenth and Fifteenth streets, on Monday, July 17, 1922, between the hours of 3 and 3:30 P. M., for furnishing all labor and material for Grading, Oil Surface, and Base Dust Surface, according to specifications therefor on file in the office of the Business Manager, to which reference is hereby made. All bids must

be made on forms furnished on applications to said Business Manager, at the address above given.

Bids must be placed in envelopes furnished by the Board of Education and addressed to John W. Edgemond, Secretary of Oakland Board of Education, and must be accompanied by a certified check payable to the order of John W. Edgemond, Secretary of Oakland School District, for at least 10 per cent of the total amount of all bids submitted by each bidder.

Bids will be opened by the Board of said district on Monday, July 17, 1922, at the hour of 4:30 P. M., in the Board Room, 211 Second Floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any or all bids or any or all items of such bids.

JOHN W. EDMOND, Secretary.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on August 1, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Los Angeles County, between Quail Lake and Northerly Boundary (VII-LA-1-D), about ten and four-tenths (10.4) miles in length 3. miles to be paved with Portland cement concrete, 6.8 miles to be paved with Portland cement concrete shoulders and an asphalt concrete wearing surface and 0.2 miles to be widened with a Portland cement concrete shoulder.

Riverside County, through Banning, (VII-Riv-26-B), about two (2.0) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen and forms of proposals, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON, CHAIRMAN, CHAS. A. WHITMORE, GEO. C. MANSFIELD, California Highway Commission.

AUSTIN B. FLETCHER, State Highway Engineer.

R. T. MURRAY, Secretary. Dated July 10, 1922.

TO CALL FOR BIDS

SPECIFICATION NO. 4684, CIRCULATING LOOP FOR CEMENT-POWDER PLANT, MARE ISLAND, CALIF.

NOTICE TO CONTRACTORS

The Bureau invites attention to the fact that it will open proposals, in the near future, on the project mentioned above. The work will consist of two 48-inch concrete intake conduits, a single 60-inch concrete discharge conduit, reinforced concrete intake and discharge structures and concrete sheet piling for the quay and discharge pit, timber pile foundations for structures and conduits, shafts, manholes, clean-out pit, cast iron frames and covers, screens sluice gates and

operating machinery; also the removal of wood-stove pipes in the existing tunnel, timber repairs to tunnel and all necessary excavation, trenching, and cofferdams.

In the event that this work is of interest, a check or postal money order for \$20.00 payable to the Chief of the Bureau of Yards and Docks, should be forwarded immediately to the Bureau or to the Commandant, Navy Yard, Mare Island, Calif., as security for the safe return of the drawings and specifications, which will be forwarded as soon as available.

BIDS WANTED FOR FURNISHING SUPPLIES

The Board of Supervisors of the County of Santa Cruz, State of California, invites sealed bids for furnishing the County of Santa Cruz for the fiscal year ending June 30, 1923, with the following supplies, to-wit: 50,000 gals. (more or less) Gasoline, 25 bbls. (more or less) extra heavy Motor Oil, 25 bbls. (more or less) medium heavy Motor Oil, 25 bbls. (more or less) Transmission Oil, 5 bbls. (more or less) Cup Grease, 2 bbls. (more or less) Special Motor Oil, 35,000 tons (more or less) Sae Rock, 10,000 tons (more or less) 5/8-in. to 2 1/2-in. Crushed Rock, 5,000 tons (more or less) Screenings, 50,000 gals. (more or less) No. 99 per cent Road Oil, and all other supplies.

Bids will be opened on Tuesday, July 18, 1922, at 2 o'clock P. M.

The Board reserves the right to reject any and all bids.

By order of the Board of Supervisors, H. E. MILLER, Clerk of said Board.

By H. G. Poole, Deputy Clerk.

BIDS WANTED FOR HOLLOW TILE DWELLINGS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be opened by the Supt. of Lighthouses, San Francisco, Calif., at 2 o'clock p. m., August 10th, 1922, for constructing hollow tile dwellings and fog signal building at Pt. Vicente, Calif. Information on application.

NOTICE TO CONTRACTORS

(Community Shop Building)

The Trustees of the Pacific Grove High School District will receive sealed proposals up until Monday, the 24th day of July, 1922, at 3 p. m., at the Pacific Grove High School Building, Pacific Grove, California, at which time and place said bids will be opened and read in public, for furnishing the required labor and material for erecting and completing a proposed new Community Shop Building, in accordance with plans and specifications prepared by the architect, Angel, Architects, 565 Lighthouse ave., Pacific Grove, Calif.

A cashier's or certified check for an amount not less than 5% of the amount of bid shall accompany each proposal, drawn payable to the order of J. J. Williams, Clerk of said Board of Trustees, as a guarantee that the bidder will, after being notified of the acceptance of his bid, enter into a contract with said Board of Trustees, and furnish bonds as required by the specifications. Said check to be forfeited to the said School District should the bidder fail to execute contract and furnish bonds as above mentioned.

Plans and specifications for the above work may be seen and secured at the architects' office.

The said Board of Trustees reserve the right to reject any or all bids and to waive any information in any bid received.

By order of the Board of Trustees of the Pacific Grove High School District, Pacific Grove, California, Dated July 8th, 1922.

H. G. JORGENSEN, President J. J. WILLIAMS, Clerk O. E. CHASE, Trustee.

NOTICE TO CONTRACTORS

(Science Building)

Sealed bids will be received until 8 P. M., September 5th, 1922, by the Board of Trustees of the Kern County Union High School, Kern County, California, for furnishing all materials and labor for the erection and completion of the GENERAL SCIENCE BUILDING, Kern County Union High School, Bakersfield, California.

Bids will be received as a whole or segregated as follows:

General Contract,
Electric Work,
Plumbing,
Heating and Ventilating,
Painting,
Movable Furniture,
Lighting Fixtures,
Finish Hardware.

Plans for said building may be had at the office of Charles H. Biggar, Architect, 405-B Bank of Italy Building, Bakersfield, California, and the work will be erected under his supervision. Deposit of \$20.00 required for plans, same to be returned when plans are received in good condition.

All bids must be accompanied by a certified check in the amount of at least ten (10) per cent of the amount bid, such check to be made payable to the Kern County Union High School District, and said check will be held as evidence of good faith that the successful bidder will enter into a contract for the work proposed, that will be satisfactory to the Board of Trustees, and in addition thereto furnish good and sufficient bonds therefor.

The Board reserves the right to reject any or all bids and to waive any informality in any bid.

By order of the Board of Trustees, Kern County Union High School, Kern County, California.

ERWIN W. OWEN,

President.
BOYCE R. FITZGERALD,
Clerk.

NOTICE TO CONTRACTORS

(Exeter Grammar School)

NOTICE IS HEREBY GIVEN that sealed bids will be received and opened by the Board of Trustees of the Exeter Grammar School District, County of Tulare, State of California, in the First National Bank, in the City of Exeter, at 2 o'clock p.m., July 29, 1922, for the erection and completion of a brick veneer grammar school building to be built in the City of Exeter, State of California, according to plans and specifications prepared for the same by W. H. Weeks.

Bids will be received on the general construction with its alternate proposals, together with separate bids on heating system.

Plans and specifications may be seen at the office of W. H. Weeks, architect, 289 Pine street, San Francisco, California, or at the office of H. H. Chandler, clerk, at First National Bank.

All bids must be presented on bid forms furnished by the architect. Each bid must be accompanied by a certified check on some responsible California bank in the sum of not less than five (5) per cent of the amount bid, made payable to H. H. Chandler, Clerk of the Board of Trustees of the Exeter Grammar School District, for the purposes stated in the specifications.

Each bid must be enclosed in a sealed envelope and addressed to H. H. Chandler, Clerk of the Board of Trustees, and endorsed "Proposal for Grammar School Building."

The Board of Trustees reserves the right to reject any and all bids.

Bids must be delivered to the undersigned, Clerk of the Board of Trustees at the First National Bank in the City of Exeter at the time and place of meeting, above stated, or at any time up to the hour of opening of said bids.

H. H. CHANDLER,
Clerk of the Board of Trustees of the Exeter Grammar School District, Exeter, Tulare County, California.

NOTICE TO CONTRACTORS

(Shafter School District)

Notice is hereby given that sealed bids will be received by the Board of School Trustees of the Shafter Grammar School District, County of Kern, State of California, up until 11 o'clock P. M., on the 22nd day of July, 1922, at which hour they will be opened at the office of Orville L. Clark, Architect, 401 Brower Bldg., Bakersfield, California, to furnish all materials and labor required to build and complete a one-story masonry and frame school building, said school building to be located on a parcel of land situated about 10 miles from the City of Bakersfield, County of Kern, State of California.

General bids to be submitted in accordance with the plans and specifications now on file with the Architect Orville L. Clark, having offices in the Brower Building, Bakersfield, California.

Each bid shall be made out on a form to be obtained at the Architects' certified or cashier's check in the amount of ten per cent (10 per cent) of bid, and be payable to the order of M. Cowan, Clerk of the Board of School Trustees of the Shafter Grammar School District.

The above mentioned check shall be given as evidence that the bidder will enter into contract if awarded the work and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested to do so by the Board of School Trustees.

The successful bidder will be required to furnish to the Board of School Trustees of the Shafter Grammar School District covering an amount equal to fifty per cent (50 per cent) of the contract price and one equal to twenty-five per cent (25 per cent) of the contract price.

A deposit of ten dollars (\$10.00) is required for all drawings which will be returned when the drawings are returned.

The Board reserves the right to reject any or all bids.

By order of the Board of School Trustees of the Shafter Grammar School District.

Dated this 15th day of July, 1922.

FRANK JOHNSON, Chairman

H. M. COWAN, Clerk.

Bridges, city clerk, to imp. portions of De Witt, Woodworth, Pollack Aves., 50th, 10th and 4th Sts., by grading, paving with 3 1/2-in. asphalt conc. base with 12-in. Warrenite surface; conc. curb and gutter; corr. iron culverts; 12-in. conc. pipe, storm drain, etc. 1915 Bond Act. Spec. may be had from A. M. Jensen, city eng. 420 Rowell Bldg., Fresno.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

2754

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

Building & Engineering News

RECORD GAS SALES MADE IN 1920

Although the gas-making industry had great difficulty in obtaining adequate supplies of good fuel in 1920, the quantity of gas sold was greater than ever before, amounting to nearly 500 billion cubic feet, having a value of more than \$300,000,000, according to the United States Geological Survey, Department of the Interior. The sale of by-products by gas-making companies was also greater in 1920 than in any previous year. Over 100,000,000 gallons of tar, 55,000,000 pounds of ammonium sulphate or its equivalent, and nearly 125,000,000 gallons of light oil and other derivatives were the principal items among these by-products.

The average price of gas in 1920 was much higher than it had been for several years, averaging 16 cents a thousand cubic feet greater for coal gas and water gas, and 5 cents a thousand cubic feet greater for oil gas and coke oven gas than in 1918.

PLANS PROGRESSING FOR CALIFORNIA INDUSTRIES EXPOSITION

Plans are already being laid for the Second California Industries Exposition, which will be held in the Exposition Auditorium October 7 to 28, according to an announcement made by the central bureau and program committee of San Francisco organizations.

Supervisor Angelo J. Rossi has again been elected president of the exposition, with C. E. Baen vice-president and Anthony A. Tremp general manager.

Rossi will appoint the general executive committee in a few days, which will consist of prominent citizens and men who helped make the P. P. I. E. a success.

According to Manager Tremp, the exposition will have selected exhibits from over 4000 industries in the bay region alone. Tremp has opened offices in the Flatiron Building.

ARNO MEREEEN APPOINTED PRODUCTION MANAGER FOR L. A. PRODUCTS COMPANY

Arno Meeeren, who has been identified with the C. A. Smith lumber and manufacturing corporation in the Pacific Coast for 25 years, has been appointed production manager for the L. A. Lumber Products Co., the new \$10,000,000 corporation recently formed following the consolidation of the properties and interests of the Los Angeles Shipbuilding and Drydock Corporation with those of the Massett Timber Co., Ltd., of British Columbia.

The highest grades of spruce and hemlock will be prepared to meet the demand for flooring, interior finish, sash, door and furniture manufacture, the lower grades will be used in the making of boxes in both the nailed up and the shock form.

J. L. Cooper Flooring Co., 419 W. Eighty-first St., Los Angeles, has succeeded the Cooper Floor Finishing Co., Los Angeles, which has been discontinued.

LOS ANGELES, Cal.—Adam Layer submitted low bid to board of public works, at \$16,272 for paving N. Lowell Ave., between 455.05 ft. north of Newtonia Dr. and Huntington Dr. North, involving 158 sq. ft. concrete paving, 18,422 sq. ft. rough grading, 18,432 sq. ft. finish grading, oiling and rolling, 3448 ft. curb 17.154 sq. ft. walk, 7910 sq. ft. gutter and 1 storm drain.

STOCKTON, San Joaquin Co., Cal.—City Engineer W. B. Hogan completes specification for north outfall sewage disposal system and bids will be asked shortly.

PHOENIX, Ariz.—Until 2 p. m., July 24, bids will be received by Mariposa Co. highway comm. 517 W. Washington street, Phoenix, to construct highway project No. 46 (federal aid project No. 1000), on file at office of comm., or at office of state highway department.

Wire Work

We manufacture WIRE WORK for the following purposes:
Window guards for Residences, Warehouses and Manufacturing Plans.
Overhead guards for Elevator Shafts.
Elevator Enclosures.
Freight Elevator Cars and Doors
Skylight Covers, Vents
Protection guards for Sidewalk Doors.
Machinery safety guards.
Auto truck Enclosures and Doors.
Locker Doors, Stall Guards.
Partition Screens for Offices, Garages,
Warehouses, etc.
Wire signs for Buildings, etc., etc.

KOEHRING

the
**Heavy Duty
Mixer**

Speed on the loading end

—can't be judged by skip speed alone. Every other function, charging and distributing must be equally fast. Control must be such that every function can be co-ordinated with every other function and all maintained at top speed, every minute of the day. This is why Koehring is the fastest paving unit.

—and still more important, Koehring heavy duty construction stands up to high speed, never-stop operation. It is your safeguard against high cost yardage due to breakdowns and delays.

KOEHRING CAPACITIES

Pavers: 7, 10, 14, 21, 32 cu. ft. mixed concrete. Write for catalog P 000.

Construction Mixers: 10, 14, 21, 28 cu. ft. mixed concrete. Steam and gasoline. Write for catalog C 000.

Dandies: Light mixer, 4 and 7 cu. ft. mixed concrete. Steam and gasoline. Low charging platform, power charging skip, and light duty hoist. Write for catalog D 000.

ROAD OPINION GIVEN FRESNO COUNTY SUPERVISORS

An opinion asserting that the board of supervisors may maintain only roads improved under the \$4,800,000 highway bond issue of 1919 out of the highway maintenance fund has been furnished the Fresno County Supervisors by District Attorney B. W. Gearhart.

In the opinion it is stated the board is limited absolutely in the expending of money from the maintenance fund to work on those portions of the roads only which were improved from the bond issue.

The opinion also states the board must use its discretion in determining whether an entire road has been improved under the bond issue when actual work has been done only on certain portions of the road out of the bond fund.

GEORGE CALDER NAMED RESIDENT ENGINEER ON SACRAMENTO FILTRATION PROJECT

George Calder has been named Resident Engineer for the city of Sacramento on the uncompleted part of the filtration project. Calder succeeds C. Gillespie, who was in charge of the work done on the water portion of the plant and which was stopped last winter by City Engineer Albert Givan and City Manager Clyde Seavey, on the ground that the contractor was doing work far in excess of the estimates, and that the workmanship in some cases was unsatisfactory.

Calder has been connected with the filtration project since it was started as one of the engineers, and was in charge of the work of making plans for the remainder of the project.

TRACTION RESISTANCE OF ROADS STUDIED

Initial results secured from an investigation of the traction resistance of roads indicate that information will be secured of great value to the highway engineer and the user of motor transport. The investigations are being carried on under the auspices of the Advisory Board on Highway Research of the National Research Council with which the Bureau of Public Roads, United States Department of Agriculture, and the Quartermaster Corps, United States Army are co-operating.

One phase of the investigation shows that there is a great difference in the power required of the engine when a truck is traveling over different types of surfacing, the amount being more than twice as great on some of the lower types when compared with that on higher types. It is also shown that the power required to overcome the road resistance is not proportional to the speed of the vehicle, and after a certain speed is reached increases very rapidly.

The investigation when complete will cover tests with various types of motor vehicles with the load, tire and spring equipment varied on different types of surfacing and at varying speeds. The data will include gasoline consumption, internal engine resistance, wind resistance and road-surface resistance.

When carefully analyzed it will aid the highway engineer in determining under a given set of conditions what type of surface should be built for a given volume of traffic to result in the least total cost for road and vehicle operation. The same sort of study will be made as to expenditures for grade reduction to reduce operating costs.

The truck operator will be given valuable information on the effect of tire and spring equipment, lubrication, size of load and speed of vehicle on fuel consumption which should aid him in producing cheaper transportation.

ECONOMIC SURVEY OF ROADS IN TENNESSEE PUBLISHED

"Highway Economics and Highway Transport in Typical Counties of Tennessee," by Professor N. W. Dougherty, has been issued as Bulletin No. 1 of the Engineering Experiment Station of the University of Tennessee. The bulletin is a report on a co-operative survey by the University of Tennessee, the Bureau of Public Roads of the United States Department of Agriculture, the Tennessee State Highway Department and county authorities, during the summer of 1921, in four counties of Tennessee.

The object of the survey was to secure information on highway economics of interest to highway officials in general and to lay before the people of particular counties a statement of the present condition and cost of their highways, maintenance costs and the probable cost of improving the system to meet present and future needs, as a basis for future development.

Existing systems of the counties were inspected and the roads classified according to type and condition and records of cost obtained. Maintenance methods and costs were also investigated. A number of traffic counts were made on roads of various degrees

of importance and information as to farm values and production secured from these data necessary improvements to meet the needs of present traffic and that of the near future were outlined and an estimate made of the necessary expenditure.

The bulletin does not give details of the data collected, but gives gross figures to support the conclusions drawn.

The bulletin discusses factors governing selection of type of pavement, relation of traffic to highway expenditures and the necessity of planning so that all needs will be cared for in the most economical way.

MAY STRUCTURAL SALES AT 82 PER CENT OF FABRICATING CAPACITY

Sales of fabricated structural steel during May amounted to 82 per cent of fabricating capacity, according to reports made to the Department of Commerce by firms comprising 70 per cent of the fabricating capacity of the United States. The May business reported by 82 firms, having a capacity of 129,696 tons, totaled 106,620 tons as against April sales of these same firms amounting to 121,211 tons, or at the rate of 93 per cent of capacity. Total throughout the United States, based on the reported percentage and total capacity of 150,000 tons, amounted to 146,990 tons in May, while revised figures for April give a total of 165,960 tons. The April figures are based on reports from 87 firms, having a total capacity of 132,600 tons, whose sales amounted to 122,198 tons, or at the rate of 92 per cent of capacity.

BUILDING MATERIALS AND FUEL PRICES ADVANCE IN JUNE

Further increase in the general level of wholesale prices for June, as compared with May, is shown by information gathered by the Department of Labor through the Bureau of Labor Statistics in representative markets of the country. This increase measures 1 1/2 per cent, which compares with an increase of 3/4 per cent from April to May.

The largest price gains were reported for fuel and building materials, in each of which groups the June level was over 4 per cent higher than that of May. Food articles averaged nearly 1 1/2 per cent higher, and clothes and clothing over 2 1/4 per cent higher.

Of 404 commodities for which comparable data for May and June were obtained, increases were said to have been found to have occurred for 132 commodities and decreases for 106 commodities. In the case of 166 commodities, no change in average prices was reported.

WEIGHT OF ROOF COVERING MATERIALS

The following weights of roof coverings have been published in convention, and are accompanied by the statement that nearly one-eighth of all fire damage in this country results from fires communicated through roofs. The weights are all per 100 square feet of roof surface. Prepared roofing in rolls 35 to 100 lbs., wooden shingles about 200 lbs., fire slate 650 to 800 shingles about 220 lbs., slate 650 to 800 lbs., tile 950 to 1,200 lbs.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

The greatest increase in the membership of building and loan associations ever recorded in a single year was reported for last year by H. F. Cellarius, secretary of the United States League of Portland, Maine, Building and Loan Associations. At the annual meeting of the League, held July 19, Eight hundred and forty-seven thousand new members were enrolled in the United States last year, an increase of more than 17 per cent. The total membership now numbers 5,869,838. The total resources of these associations are \$2,899,761,621, or net increase for the year of \$376,844,650, or nearly 15 per cent.

The Willamette Iron and Steel Co., Portland, Ore., has the contract to furnish the Portland Railway, Light and Power Company with 5000 tons of 8-ft. diameter steel pipe, penstocks and other equipment to be used in the construction of 8½ miles of conduit to supply water to the new power plant which the power company will construct on the upper Clackamas River. The Willamette contract runs in the neighborhood of \$1,000,000, while the completed project, planned by the power company, will cost \$3,500,000.

Believing that the people of Alameda County should have an opportunity to express their opinion on the question of a tube under the estuary, the Harbor Development Committee of the Chamber of Commerce will recommend to the County Supervisors that such a referendum be put on the November ballot. In the opinion of the committee, the vote should be on a bond issue sufficient to cover the cost of the tube in order that, if passed, construction can be rushed.

The Commercial Building Co. of San Jose, which proposed to purchase a site in San Jose and construct an office and store building, has received authority from the State Corporation Department to sell 2000 shares of stock at par \$100 for cash. It is required to sell \$182,500 aggregate par value of its shares on or before January 1, 1923. The commission on the sale is not to exceed 5 per cent.

Steps are being taken to organize an irrigation district at Brentwood, Contra Costa County, to comprise lands now served by the East Contra Costa Irrigation Co., and not included in the Knighten and Lone Tree Districts. Albert Picard, attorney of San Francisco, is handling the legal matters for the promoters and W. F. Woolley, Chief Engineer for the Knighten Irrigation District, the engineering details of the project.

The Hydraulic Society, C. H. Rohrbach, secretary, 50 Church street, New York City, has issued a second edition of its pamphlet, "Trade Standards in the Pump Industry." The edition contains some additional tables and explanatory data, also a revised list of the members of the Society.

Secretary Hoover has called a conference of the National Lumbermen's Association, to meet in Portland, Ore., July 27. The main object of the conference is to simplify lumber grading.

Contractors and material dealers in Marysville have organized a company to construct and operate a brick plant with a daily capacity of 10,000 common brick. Machinery for the plant has been purchased. Among those identified with the new company are: Shasta and Union Lumber Companies, E. A. Huhn, McDaniels & Burroughs, I. C. Evans, L. E. Ilite, L. A. Williams and Calvin Smith.

Building is active in Fresno. The total of new buildings for the first half of the present year is \$3,565,494; and for alterations and repairs to buildings, \$297,864, or a grand total of \$3,863,358. The total of new buildings and alterations for the first half of last year was \$1,829,575, which gives an increase for this year so far of \$2,033,779, or roughly 120 per cent.

Mayor Hart of Fresno, together with business men of that city, have secured control of the Pacific Asbestos Corporation, owning the asbestos mountain fifteen miles northeast of Oakdale, and plan to construct a plant for the mining of asbestos. W. A. Sutherland, president of the Fidelity Trust and Savings Bank, is interested in the project.

Plans for the first industrial survey of Oakland in the past ten years, with a view toward definitely determining which districts shall be reserved intact for residence purposes and which shall be open for factories and other industries, will be undertaken by the City Planning Commission.

Bids for the mechanical equipment to be installed in the Capitol Extension buildings at Sacramento will be considered by the State Department of Public Works, Division of Architecture, on August 29. The work consists of plumbing, heating system, ventilating system and electrical work.

A. R. Haskins, a Colma contractor filed in the United States District Court recently a voluntary petition in bankruptcy. He listed his liabilities at \$45,548.25 and declared that he has no assets. The Pacific Coast Steel Company is named as the heaviest creditor, \$17,000 being due them.

According to word received from Washington the Indian Warehouse located at San Francisco, is to be retained and bids will be opened here in the future as in the past. Three months ago rumors were prevalent that the government intended to close down the warehouse.

A fall exhibition to impress upon the public the advantages of gas water heaters and heating appliances has been endorsed by the Gas Appliance Society of San Francisco. The exhibition will be held from October 9 to 14 as a part of the California Industries Exposition.

The Associated Engineers, Incorporated, is the name of an organization headed by F. W. Ullins Jr., Wm. E. Skinner and R. M. Kibbe, established in Milwaukee, Wis., for the purpose of conducting quantity surveys and correlated work.

ALONG THE LINE

C. E. Wantland of Los Angeles has completed a survey of Nevada County in connection with colonization projects and will make a report to the State Real Estate Commission. The nature of the projects was not disclosed by Wantland, who is a special agent of the Commission.

Sanchez Cuervo, Jose Pulgar and R. F. Hamilton of Madrid, engineers, who are traveling through the United States to study its railroad system for the benefit of the Spanish roads, were in San Francisco July 19.

James E. Sellers, assistant engineer on the Verde River Water Project for the city of Phoenix, Arizona, has resigned and is now completing a report on the Colorado River flood control for Chicago interests.

The American Association of Engineers at a meeting of its Board of Directors on July 8 accepted the invitation of the American Construction Council to become a member of that body.

The Nevada Consolidated Copper Co., Ely, Nevada, will rebuild its McGill concentrator at a cost of \$1,500,000. The structure was recently destroyed by fire.

More than 200,000 feet of lumber destroyed by fire at the yards of the Coos Bay Lumber Co., Bay Point, on July 16th.

The Kings County Supervisors propose to replace wooden bridges throughout the county with concrete structures.

Architects and architectural draftsmen of Sacramento at a recent meeting perfected preliminary plans to organize a permanent organization.

J. W. Ludlow has succeeded Edward D. Vincent as engineer of Los Angeles harbor.

Parker and Wood, contractors of Bremerton, Washington, have opened Seattle offices at 4145 Arcade Building.

O. H. Euckman seeks re-election to the office of County Surveyor of Napa County.

The California State Automobile Association will open its twelfth district office at Marysville.

Of the 5,000,000 school bond issue voted in Oakland two years, \$3,137,827 has been expended.

W. A. Minner and Reed McClure have opened a wholesale paint and wall paper business in Bakersfield.

S. W. Gerow and John Messenger have opened a sheet metal shop at 23 West Carillo St., Santa Barbara.

CALIFORNIA REAL ESTATE ASSOCIATION URGES THE BUILDING OF HOMES

If the rent payer would invest in a home, he would become independent in from ten to twenty-five years, the California Real Estate Association announces. Money expended for lodgings or rent is so much money lost from the savings against a rainy day, and these rainy days come in every man's life. The State Association submits the following figures showing the amount of money rent payers will pay out with interest at 6 per cent:

At \$10 Per Month	
10 years	\$1581.68
15 years	2,793.10
20 years	4,114.25
25 years	6,583.72
At \$20 Per Month	
10 years	\$3,163.56
15 years	5,586.18
20 years	8,828.56
25 years	13,167.13
At \$25 Per Month	
10 years	\$3,910.29
15 years	6,983.73
20 years	11,035.65
25 years	16,459.23
At \$30 Per Month	
10 years	\$4,745.03
15 years	8,378.27
20 years	13,212.78
25 years	19,751.14

California is in the midst of its greatest home-building epoch. Every rent payer, who has an eye to the future, should get into the home-building campaign immediately and pay his money to himself that he now pays to the landlord.

The California Real Estate Association, which inaugurated a State-wide Own Your Home campaign last winter, received reports from various parts of the State showing that upwards of \$106,000,000 is being expended in California for new homes this year. This enormous total is not surpassed in any other State, and will be insufficient, the Association declared, to provide housing quarters for the rapidly increasing flux of population to this State.

California is the Mecca for millions. New arrivals from the East reach this State daily in large numbers. They are coming by train, by boat and by automobile, and some are still pursuing the fashion of the pioneers by traveling overland in the old-fashioned two-horse outfit.

It is of interest to note that in this vast trend of people westward to build their homes in California, there is one unanimous voice for the constructing of great national trails on a permanent paved basis, so that the trip westward to find homes in California will be made with greater comfort and ease by travelers than heretofore. When that day comes, and it is sure to come rapidly, the State Association declares California real estate and California houses will be entirely inadequate to meet the demands.

The Story of the Diamond "J" Mixer

But little attention has been paid in the past to the small concrete contractor. All of the designs gotten out for concrete mixers have been devoted to the man who handles the big jobs, and the small contractor was left to the shovel and the board. It remained for a western coast manufacturer to bring out a machine particularly adapted to the use of this small contractor.

The Diamond "J" machine, manufactured by H. E. Johnson of Portland, Oregon, and sold in the southwest by Harron, Rickard & McCone of San Francisco and Los Angeles, has been developed with a view of supplying a thoroughly efficient and practical machine to the man who mixes concrete in small batches. It is made of the barrel type, but with many of the construction features of the larger types of machines.

It is mounted on pneumatic tires in order that it may be moved quickly from one job to another, behind the ordinary automobile, and is equipped

quickly removed to the next one.

The barrel is only 33 inches from the ground, which provides for a natural churning height. A man shoveling will naturally throw a shovel just about that height, and this feature, together with the complete dumping of the concrete without scattering or spilling, makes it an extremely easy machine to operate.

Another very vital feature of the Diamond "J" is that the mixing drum, or barrel, is kept turning all the time, even while it is dumping, so that the concrete is delivered to the wheelbarrow in an even, perfect mix, and the barrel is kept perfectly clean at all times.

A unique feature of the Diamond "J" is the Ford wheel mounting. Standard Ford wheels of the standard sizes are used, and it is not unusual to find the purchaser of a Diamond "J" Mixer taking the wheels from the mixer and changing them with the older and more worn wheels of his Ford. The pneu-

with pneumatic tires to eliminate road vibration at high speed. This machine is built entirely of steel, with the exception of the mixing drum, or barrel, which is of oak, or may be supplied with a steel barrel at a slight additional cost.

The machine is well protected by chain and gear guards, complying with all labor laws. It is equipped with a high-grade Cushman 12 H. P. engine, mounted within a steel house, protecting it thoroughly from dust and the elements.

In operation it is extremely simple. It is not necessary to level the machine or make a special set-up for it, as is the case with a larger machine. It may be taken to the job behind an automobile, and by removing the coupling pin, one man can take it to the place where the concrete is to be made. It can be immediately set to work, and at the completion of the job recoupled to the automobile by one man and

the elements.

pneumatic tires on the Diamond "J" will last until they literally rot out, for they are not subjected to wear enough to wear them out. Therefore replacement may be had with used tires, if desired.

This machine is low in price and high in efficiency. Numerous users specify that they can mix 30 yards of concrete in eight hours with four or five men, depending entirely on the length of haul for the concrete.

It has the added advantage of saving one wheeling of concrete. It may be taken direct to the material pile and the material shoveled direct from the pile into the mixer, then dumped to the wheelbarrow and taken to the forms. This saves the customary wheeling from the pile to the mixer, and then from the mixer to the form.

Harron, Rickard & McCone carry these in stock at both San Francisco and Los Angeles, and can supply them for immediate delivery.

KELLEY ISLAND LIME COMPANY SELECTS OFFICERS

The Kelley Island Lime and Transport Co., world's largest producer of lime, at a recent directors' meeting, elected the following officials:

Chairman of the board, John A. Kling, president, George R. Johnson; first vice president, E. W. Delchay; second vice president, F. A. Beckwith; third vice president and general manager, C. J. Wackar; fourth vice president, P. W. Ollenacher; secretary and treasurer, C. A. McMorris; assistant general manager, A. B. Mack; assistant secretary and assistant treasurer, E. W. Kuhl; auditor, J. W. Longdon. Executive committee: John A. Kling, chair-

man; George R. Johnson, H. M. Hanna, Jr., John Sherwin, John E. Morley, H. C. Dalton. Other officers are: Sales manager, Henry Angel; assistant sales manager, F. M. Pinnegar; purchasing agent, Victor Price; Traffic manager, J. E. Potts.

INDUSTRIAL ASSOCIATION ISSUES BOOKLET SHOWING ACTIVITIES

"The American Plan," a sixteen-page booklet, outlining the activities of the Industrial Association of San Francisco, is off the press. Articles featured in the issue are: Trade Schools; What the American Plan Has Done; Eastern Comment; Union Atrocities; What Samuel Gompers Stands For. A table showing the comparative wage conditions in the building trades in representative cities of the United States, and news notes from various sections of the country complete the issue.

BERG OF MORRISON SHEET METAL WORKS DIES

Andrew Berg, a member of the firm, Morrison Sheet Metal Company, died at his home Thursday, July 13. Funeral will take place today at 2 P. M. from the parlors of Anderson Co., Twenty-fifth and Valencia streets.

General Electric Company Lets Contract for Oakland Factory

Dr. Thos. Addison, Pacific Coast Manager for the General Electric Company, announces the immediate erection of a second plant at Oakland, part of which will be devoted to increased facilities for the manufacture of switch boards and the remainder occupied by meter and instrument laboratories, service shops and offices.

The erection of special plants to serve the Pacific Coast Territory is not a new departure for the General Electric Company. They have operated an incandescent lamp factory in Oakland since 1916 employing about 650 people and producing 12,000,000 lamps yearly for the Edison and National Lamp Division's Pacific Coast trade.

The tract where the new plant will be erected comprises 24 acres in the vicinity of E-14th and 54th Streets, Oakland. The building is to be of steel,

brick and concrete and will embody all of the best features of modern factory construction. It will be a model of illuminating engineering and will be completely wired and equipped throughout with the latest developments in electrical machinery.

This project represents an investment of \$200,000 and is the result of the initiative and foresight of Dr. Addison of the General Electric Company and Mr. E. O. Shreve, the local manager.

Mr. G. E. Emmens, vice President of the General Electric Company, placed the construction contract with the San Francisco office of The Foundation Company, and Mr. E. E. Talmadge acting as Mr. Emmens' special representative, will be the Engineer in Charge of construction. He expects to have the plant completed early in December.

The Pacific Coast offices of the Gen-

eral Electric Company will still be maintained in San Francisco, but the present switch board plant and service shop now located at 17th and Kansas Streets will be transferred to the new Oakland location.

The greater facilities afforded by the new plant and special connection with the Western Pacific and Southern Pacific railroads will enable these branches of the General Electric Organization to render the Pacific Coast electrical industry a service second to none.

One type of work that will be carried on in the new plant is exemplified by the great switch board now being constructed for the Don Pedro power plant of the Turlock and Modesto Irrigation District. This switchboard has a capacity of 15,000 kilowatts and will control the three 7500 H.P. generators and transformers.

UNIVERSAL BUILDING PRODUCTS CO. ORGANIZING TO ENTER CALIFORNIA FIELD

A valuable asset in the development of California promises to be realized through the organization of the Universal Building Products Company, which is being organized in this State for the purpose of engaging in the business of distributing building materials and facilitating the building of homes in the larger cities.

In connection with the distribution of materials, the firm promises to offer the public a building service that will save much time and expense. The plans have not been revealed in detail, but letters produced from responsible trade associations indicate that the methods of operation will be far in advance of those in current use. It is further predicted that these plans will be gladly welcomed and readily met with public support.

On account of recent development on the Pacific Coast and indications of phenomenal future growth, this section was decided as being the most favorable for the launching of the enterprise.

One of the many advantages in California for the building industry is that it may be conducted throughout the year without being hindered by heavy snows and frozen ground, which is so common in the Northern and Eastern sections of the United States.

It is believed that the time and place is opportune for such an undertaking, and the proposed development will be watched with interest.

The management and personnel will be partially selected from among local men who are familiar with the lumber and allied industries in this section.

The firm also proposes to have responsible affiliations and subsidiaries that will contribute materially to its success.

The temporary offices are located at 995 Market street, San Francisco, and

are in charge of Earl Cuevas of New Orleans and New York, who is in charge of the organization work.

Cuevas has traveled extensively in the interest of the lumber and advertising business, and has personally conducted careful investigation in several important cities before making a final decision to open operations in California.

Roy A. Bronson, a prominent local attorney, has been engaged as counsel for the firm.

PLANS COMPLETED FOR SECOND ANNUAL CALIFORNIA INDUSTRIES EXPOSITION

Plans have been completed for the Second Annual California Industries Exposition, to be held in the Exposition Auditorium from October 7 to 23, and will be given under the general direction, as last year, of the Central Bureau and San Francisco Program Committee of San Francisco organizations. Angelo J. Rossi will again act as President and C. E. Baen as Vice-President, together with an executive committee selected from the various organizations that make up the Central Bureau. Anthony A. Tremp, who successfully managed last year's Exposition, has again been selected as manager, and promises to present a larger and better Exposition this year.

"This year's Exposition will be so carefully planned that the industries of San Francisco, the Bay Cities and Northern California will force attention to themselves in a manner that will impress upon the people of California the importance and magnitude of our local industries. Also, the Exposition will be one of the most important things in the Northern California movement, as will be shown," stated Tremp.

Special preference is to be given to working manufacturers exhibits, who will show their products in the course of manufacture at the Exposition. It

is proposed that the majority of the exhibits will be of this class.

The Exposition offices have been opened in the Flatiron Building, where the details of the huge enterprise are being worked out.

The last year's Exposition contained over five hundred manufacturers' exhibits and had an attendance of nearly one half million. Preparations are being made to accommodate more exhibitors this year and an attendance of one million is the mark set.

NEW HIGHWAY BODY ORGANIZED AT CRESCENT CITY

Formation of the California and Oregon Coast Highway Association has been the result of a meeting at Crescent City of representatives of the Redwood Highway Association and the Roosevelt Memorial Highway Association, the former being made up of interests in seven counties in California north of San Francisco bay, and the latter of Oregon coast counties.

Dr. G. H. Douglas of Crescent City has been elected president and Fred C. Baker of Tillamook, Oregon, secretary. The 1923 convention will be held at Marshfield and North Bend, Or. The new organization, which Washington will be asked to join, will work for a highway along the coast.

TRACTOR SALES IN CANADA.

A total of 3438 tractors were sold in the Prairie Provinces of Canada during 1921, according to a report received by the Department of Commerce from Consul General Brittain, Winnipeg. Of these 1057 were sold in the Province of Manitoba, 1655 in Saskatchewan, and 716 in Alberta. This represents sales of new machines only, in all sizes, the largest proportion being included in the two classes from 6 to 12-horsepower, and from 10 to 20-horsepower. A limited number of machines from 14 to 25-horsepower and 16 to 32-horsepower was sold.

Official Proposals

BIDS WANTED FOR PLUMBING AND DRAINAGE SYSTEMS FOR SACRAMENTO STATE BUILDINGS

NOTICE TO CONTRACTORS

SEALED BIDS will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 12 o'clock, Noon, Tuesday August 29, 1922, said bids then and there to be publicly opened and read for furnishing all plant, materials and doing the work required for the complete PLUMBING AND DRAINAGE SYSTEMS, for the SACRAMENTO STATE BUILDINGS, i. e., the Library and Courts Building and the Office Building, Sacramento, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Such bids will be received for Plumbing and Drainage Systems and must be submitted on forms prepared and furnished by said Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid.

A deposit of Twenty-Five (\$25.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

The Construction Work of said Sacramento State Buildings has been placed on a days labor basis and on said basis the said Plumbing and Drainage Systems as a sub-division of said construction, is to be let by contract.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Plumbing and Drainage Systems, Sacramento State Buildings, Sacramento, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

Geo. B. McDougall, State Architect,
A. B. FLETCHER,
Director of Public Works

BIDS WANTED FOR HEATING WORK FOR SACRAMENTO STATE BUILDINGS

NOTICE TO CONTRACTORS

SEALED BIDS will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 12 o'clock, Noon, Tuesday August 29, 1922, said bids then and there to be publicly opened and read for furnishing all plant, materials and doing the work required for the complete HEATING WORK, for the SACRAMENTO STATE BUILDINGS, i. e., the Library and Courts Building and the Office Building, Sacramento, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Such bids will be received for Heating Work and must be submitted on forms prepared and furnished by said Division of Architecture.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid.

A deposit of Twenty-Five (\$25.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

The Construction work of said Sacramento State Buildings has been placed on a days labor basis and on said basis the said Heating Work as a sub-division of said construction, is to be let by contract.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Heating Work, Sacramento State Buildings, Sacramento, California." STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

Geo. B. McDougall, State Architect,
A. B. FLETCHER,
Director of Public Works.

BIDS WANTED FOR BUILDINGS 21 AND 24, AT WHITTIER STATE SCHOOL.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock, P. M., August 2, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Santa Clara County, between Carnadero Creek and Southerly boundary (IV-SC1-2-C), about four and three-tenths (4.3) miles in length, to be surfaced with asphalt concrete.

Los Angeles County, across San Gabriel River, near Azusa (VII-LA-9-4), a reinforced concrete girder bridge consisting of eight (8) 54-foot spans and one 31-foot approach span, with the necessary piers, bent, abutment, wing walls and bank protection.

Ventura County, between Lucerne Road and a point between the fourth (4) and fifth (5) mile markers (VII-VE-60-A), about three and three-tenths (3.3) miles in length, to be graded.

Plans may be seen and forms of proposal, bonds, contract and specifications may be obtained at the said offices of the Division Engineers at Los

Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form for proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL, D. WASHINGTON,

CLARENCE A. WHITMORE,

Geo. C. MANSFIELD,

California Highway Commission

AUSTIN B. FLETCHER,

State Highway Engineer.

R. A. MERRILL, Secretary

Dated July 17, 1922.

BIDS WANTED FOR QUAY WALLS AND PIER

NOTICE TO CONTRACTORS

SEALED Proposals, indorsed "Proposals for Quay Walls and Pier, Pearl Harbor, Hawaii, Specification No. 1591," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., August 23, 1922, and then there publicly opened, for a reinforced concrete quay wall, approximately 68 feet wide and 109 feet long, extending from present foundation for dry dock ramp track to existing wharf, and reinforced concrete quay wall pier and bulkhead wall, comprising a prolongation of existing wharf, the quay wall approximately 100 feet wide and 175 feet long, the pier 50 feet wide and 364 feet long and the bulkhead wall 45 feet wide and 27 feet long. The work will include: precast reinforced concrete and wood piles, reinforced concrete and cylinder on wood piles, crane track foundations, reinforced concrete decks of beams, girders, floor slab and retaining wall, tender system, tracks, cleats, bits, chain, derrick and biling, and anchorage for existing wharf. Provision is made for the consideration of bids based upon alternative designs. Drawings and specifications No. 1591 may be obtained on application to the Bureau, to the Commandant, Navy Yard, Mare Island, Calif., or to the Commandant, Naval Operating Base, Pearl Harbor, T. H. Deposit of a check or postal money order for \$25.00 payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specifications. L. E. GREGORY, Chief of Bureau, June 5, 1922.

NOTICE TO CONTRACTORS

(Steel Tank and Tower)

SEALED BIDS will be received by the City of Dinuba, Tulare County, California, until eight o'clock, p.m., on July 28, 1922, and then opened, for all labor and materials required to construct a steel tank and tower for the Domestic System of the Dinuba Municipal Water Works.

Said labor must be performed and materials furnished and the construction of said steel tank and steel tower in strict accordance with the plans and specifications therefor, prepared by Chas. E. Sloan, City Engineer of said City, and adopted by the Board of Trustees as the plans and specifications for doing said work. Said plans and specifications are now on file in the office of the City Clerk of said City of Dinuba.

Bidders must use the official forms in submitting their proposals which may be secured from the office of Charles E. Sloan, Santa Fe Building, San Francisco.

Bids must be accompanied by a certified check for not less than amount of bid. Checks must be certified and made payable to the "CITY OF DINUBA."

The check is to be considered as a

guarantee that the bidder will enter into a contract, in accordance with the plans and specifications, with the City of Dinuba, to perform the work specified.

Bids should be addressed to C. T. Logan, City Clerk, Dinuba, California, and marked on the outside, "Proposals for Steel Tank and Tower."

Dated July 12, 1922.

C. T. LOGAN,

City Clerk.

BIDS WANTED FOR SCHOOL BUILDINGS

NOTICE TO BIDDERS AND CONTRACTORS

Separate sealed proposals are invited by the Board of Trustees of the Gilroy School District, in aid of the County of Santa Clara, for the erection, construction and completion of two school buildings in said school district, for the installation of a heating system therefor, for the installing of a plumbing system thereof, all in accordance with the plans and specifications filed with the Board of Trustees of said district, which said plans and specifications are on file in the office of the architects, Wyckoff & White, Grower Bank Bldg., San Jose, Calif.

Every proposal must be accompanied by each or a certified check payable to the Board of Trustees of said Gilroy School District, equal to five per cent of the amount of the proposal, conditioned that the contractor whose bid is accepted will within ten days enter into a contract and give a good and sufficient bond as required by law for the fulfillment of the same. Said contractors shall each furnish a good and sufficient surety bond issued by some reputable surety company to amount of 50 per cent of contract price, conditioned that said contractor will pay for all implements, labor, materials, supplies, machinery, plans, proponder, etc., in and about the work of construction specified in his contract and the plans and specifications accompanying the same, and that each of said contractors shall also furnish such a good and sufficient surety bond in the sum of twenty-five per cent of the contract price for the faithful performance of his contract in accordance with the plans and specifications accompanying the same, said bonds to be subject to the approval of the Board of Trustees of said School District.

In case of a failure on the part of the bidder to enter into the contract within the time hereinbefore specified, the amount of the deposit of such bidder will be forfeited to the said school district. Upon the execution of the contract and approval of the bonds, the deposit will be returned to the bidder. The deposit of persons other than the one to whom the award of contract is made will be returned to the persons making the proposal, immediately after the contract and bonds have been executed.

Bids will be received up to and including July 24, A. D. 1922, at 4 o'clock p.m., and must be addressed to H. L. Chesbro, City Clerk of the Board of Trustees of Gilroy School District, Gilroy, Cal., and endorsed, either

"Proposal for building of school buildings in and of Gilroy School District," or

"Proposal for installation of heating system in school buildings to be constructed in Gilroy School District," or

"Proposal for installation of plumbing system in school buildings to be constructed in Gilroy School District."

Said bids may be delivered in person to the Clerk of said Board.

Said bids and proposals will be opened by the Board of Trustees of said Board on the 21th day of July, A. D. 1922, at the public school house in and of said District in City of Gilroy, California.

The Board reserves the right to reject any and all bids and proposals. By order of the Board of Trustees, dated June 21, 1922.

H. L. CHESBRO,

Clerk of the Board of Trustees

C. R. WILSON,

Trustee.

A. W. COX,

Trustee.

As constituting the Board of Trustees of said Gilroy School District.

BIDS WANTED FOR ALTERATIONS TO FOUR-STORY BRICK BLDG.

NOTICE TO CONTRACTORS

Notice is hereby given that Soo Yuen Benevolent Association hereby calls for sealed proposals to be delivered to Great Pacific Company, 429 Battery Street, City and County of San Francisco, State of California, on or before twelve o'clock noon of July 26th, 1922, for furnishing labor and material and making all alterations, additions or repairs to that certain building belonging to said Association, according to Great Plans and Specifications, which are in the office of Albert Schroeffer, Nevada Bank Building, in said City and County, to which reference is hereby made.

Bids must be in sealed envelopes addressed to Great Pacific Company at the address hereinbefore given.

Bids will be opened by said Soo Yuen Benevolent Association, 429 Battery Street, at 2:00 P. M., on the 26th day of July, 1922.

Said Soo Yuen Benevolent Association reserves the right to reject any or all bids, or any or all items of such bids.

NOTICE TO CONTRACTORS

(Live Oak Grammar School)

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Live Oak Grammar School District, County of Sutter, State of California, in the Live Oak Grammar School building in Live Oak at 7:00 P. M. of August 7, 1922, for the erection and completion of a Brick Veneer Grammar School Building to be erected in the Town of Live Oak, State of California, according to plans and specifications prepared for the same by W. H. Weeks, Architect.

Bids will be received on the General construction with its alternate proposals, together with separate bids on Heating System.

Plans and specifications may be seen at the office of W. H. Weeks, Architect, 369 Pine Street, San Francisco, Calif., or at the office of Mr. E. R. Hauck, Clerk of the Board of Trustees at Live Oak.

All bids should be presented on bid forms furnished by the Architect.

Each bid must be accompanied by a certified check on some responsible California bank in the sum of not less than Five (5) per cent of the amount bid, made payable to E. R. Hauck, Clerk of the Board of Trustees of the Live Oak Grammar School District, for the purposes stated in the specifications.

Each bid must be enclosed in a sealed envelope addressed to Mr. E. R. Hauck, Clerk of the Board of Trustees, and endorsed: "Proposal for Grammar School Building."

The Board of Trustees reserves the right to reject any and all bids.

Bids must be delivered to the undersigned, Clerk of the Board of Trustees, at the School House in said Town of Live Oak, at the time and place of meeting, above stated, or any time up to the hour of opening of said bids.

E. R. HAUCK,
Clerk of the Board of Trustees of the Live Oak Grammar School District, Live Oak, Sutter County, California.

NOTICE TO FURNITURE BIDDERS

(Chico School Furniture)

Pursuant to a resolution of the Board of Education of the City of Chico, adopted in adjourned regular session July 12, 1922, notice is hereby given that the said Board of Education will receive, up to the hour of 5 P. M. of August 2, 1922, proposals for prices at which bidders will furnish, for the City of Chico, the following articles of school furniture:

Four hundred school desks, automatic, standards triangular shaped steel tubing electrically welded. Book box pressed steel side and end of steel parts, gun metal enamel. Wood top, hard maple; cherry finish top, seat and backs.

Ten teachers' chairs, quartered oak, saddle seat, full box, revolving, no arms.

Four teachers' single pedestal desks, 42-in. closed back, 18-in. high, quartered oak, five ply built up. Quartered oak drawer fronts.

One hundred Vienna chairs, diameter

of seat 16 inches, to be equipped with two side braces. Also two continuous back braces with points of attachment not over four inches from the floor line. Said braces fastened to both front and back legs with screws. No ring brace will be considered. Finish, light golden oak rubbed.

Four hundred portable chairs, maple, natural finish, in sections of five, with curved back and seat, framed in slats, flush with frame, additional bracing flat to be placed near the bottom of the front leg of chair.

Bids may be filed up to the hour of 5 o'clock P. M. of August 2nd, 1922, and all proposals must be accompanied by a certified check in the amount of 5 per cent of the total bid, certified by some bank acceptable to the Board and dated within ten days from the date of the opening of the proposals, as a guarantee of the faithful execution of the contract for the furnishing of said furniture by the successful bidder. The successful bidder must deposit a check of any successful bidder to be forfeited to the Chico School District as liquidated damages in case such bidder fails to execute with the Board to enter into contract or to furnish bonds as herein required both within ten days after the award of the contract.

The Board reserves the right to reject any or all bids, or any part of any bid; also to purchase a number of articles of any one unit, or to purchase any number of articles different from the number specified of any unit called for.

At the time of entering into the contract, the contractor is to furnish a bond to the Chico School District in the sum of 50 per cent of the contract, conditioned upon the faithful performance of the contract, with sureties satisfactory to the Board of Education.

By order of the Board of Education of the Chico School District.

First publication, July 15, 1922.

CHAS. H. CAMPER,
Secretary.

NOTICE TO BIDDERS ON NEW THEODORE ROOSEVELT SCHOOL IN BURKETT ACRES

(Class C Thirteen-room School. Estimated Cost, \$140,000)

Notice to bidders is hereby given that bids on the new Theodore Roosevelt School and heating plant for the same, as per plans and specifications on file at the office of Architect Franklyn Warner, Belding Bldg., Stockton, Cal., will be opened on August 2d, 1922, at 7:30 P. M. at the office of the Board of Education, corner San Joaquin and Lindsay streets, Stockton, Cal.

A deposit of \$25 will be required for plans taken from the architect's office. A certified check for 10% of the amount bid must accompany said bid.

The Board of Education reserves the right to reject any or all bids.

Dated Stockton, Cal., July 15th, 1922
By order of the Board of Education.
By ANSEL S. WILLIAMS, Secretary.

M. at the office of the Board of Education, corner San Joaquin and Lindsay streets, Stockton, Cal.

A deposit of \$25 will be required for plans taken from the architect's office.

A certified check for 10% of the amount bid must accompany said bid.

The Board of Education reserves the right to reject any or all bids.

Dated, Stockton, Cal., July 15th, 1922.
By order of the Board of Education.
By ANSEL S. WILLIAMS, Secretary.

NOTICE TO PUMP, INTERNAL COMBUSTION ENGINE AND PIPE MANUFACTURERS.

Sealed proposals will be received at the office of the City Recorder, Condon, Oregon, up to 8 o'clock p.m. of Thursday, the 27th day of July, 1922, for furnishing the following: One (1) 10-h.p. internal machinery and pipe for the waterworks system as follows:

1. Two (2) 50 h. p. internal combus-

tion engines for direct connection to power pumps.

2. Two (2) vertical triplex single acting pumps, each of 150 gallons per minute capacity and to be operated against a head of 800 feet.

3. Approximately 21,500 lin. ft. of 8-in. metal water pipe for pumping main. Heads to vary from 0 to 800 feet. Alternate proposals will be considered on cast iron pipe, galvanized steel pipe with threaded couplings, Matheson joint pipe with National coating and electric arc-welded iron pipe with special couplings.

Bidders may submit proposals on one or more kinds of pipe, and the city reserves the right to award any portion of the material required to any bidder provided the quantity of pipe so contracted for shall not be less than a car load.

Specifications and bidding forms may be secured on application to the engineer. A separate form must be used for bids on each kind of pipe.

A certified check in a sum equal to five (5) per cent of the bid shall accompany each bidder's proposals.

The city reserves the right to reject any or all bids.

By order of the Common Council of the City of Condon, Oregon.

G. R. GAIN, Mayor.

JOHN STEPHENSON, City Recorder.

STEVENS & KOON,

Consulting Engineers,

Portland, Oregon.

NOTICE TO CONTRACTORS

(School Plumbing)

The Board of Education of the Palo Alto City School District and City of Palo Alto, County of Santa Clara, State of California, invites and will receive at its office, at 595 Channing Avenue, sealed proposals (endorsed on the outside of the envelope, "Proposals for Plumbing Alterations") up to 3:30 p.m. August 3, 1922, at which time and place the bids will be opened for plumbing alterations in the Intermediate School.

Plans and specifications and conditions may be had upon application to the Board of Education at 595 Channing Avenue.

The successful bidder must begin work within seven days after the award of the contract and must complete the work by September 16, 1922.

Each bidder should submit with his bid a certified check for one hundred dollars, payable to H. Borden, President of the Palo Alto Board of Education. The check will be forfeited to the Board of Education if the bidder to whom the contract is awarded fails to enter into the contract with the Board of Education on or before August 10, 1922.

The Board of Education reserves the right to reject any or all bids.

A. C. BARKER,
Secretary of the Board of Education, 595 Channing Avenue, Palo Alto, Calif.

NOTICE TO CONTRACTORS

OFFICIAL PROPOSALS

(Continued from Page 15)

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Foreman Building, Sacramento, Cal., until 3 o'clock P. M., on August 7, 1922, at which time they will be publicly opened and read for construction in accordance with the specification therefor to which special reference is made, portions of State Highway as follows:

Los Angeles County, between Quail Lake and Northerly Boundary (VII-LA-4-D), about ten and four-tenths (10.4) miles in length 3.4 miles to be paved with Portland cement concrete, 6.8 miles to be paved with Portland cement concrete shoulders and an asphalt concrete wearing surface and 0.2 miles to be widened with a Portland cement concrete shoulder.

Riverside County, through Banning, (VII-Riv-26-B), about two (2.0) miles in length, to be graded and paved with Portland cement concrete.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Williams, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.
AUSTIN B. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.
Dated July 10, 1922.

Speedy Spotting with a Keystone

THE Model 4 Keystone gives the contractor both efficient and versatile spotting facilities. On cuts 8 feet deep or less, the wagons are driven down a runway, and spotted on either side. The runway is shaped by the long-crowding Skimmer Scoop in a few moments. The wagons pull into and out of spotting position in a straight line. There is no time lost turning teams.

The dumping clearance of the Skimmer Scoop is 12 feet above ground at 12 feet radius. Wagons may be conveniently loaded on a bank 6 feet high as shown in the center insert.

Where the cut is deeper than 8 feet, trucks are used and are backed into position from the rear.

KEYSTONE DRILLER COMPANY

SACRAMENTO ARCHITECTURAL COMMISSION SEEKS DIS- SOLUTION

The work which it was organized to supervise having been transferred to Dean & Dean, Sacramento architects, the architectural and engineering commission appointed by the Sacramento City Commission to have charge of the plans for the new elementary schools, has made voluntary application to the Superior Court for dissolution. It was incorporated by George D. Huddutt, engineer, and Jens C. Petersen and E. C. Hemmings, architects.

These three hold all the stock issued and are the three director members. The decision to ask for dissolution was reached at a meeting of the commission this week.

Judge Charles O. Busick has fixed September 5th as the date for hearing the application. The action is more or less formal, as it transferred all of its obligations in connection with the schools to Dean & Dean with the approval of the Board of Education.

WATER COMPANY TO SELL TO IRRIGATION DISTRICT

The South Feather Land and Water Company has filed application with the State Railroad Commission to dispose of its properties to the Wyandotte Irrigation District for \$200,000, contingent on the purchase price being raised by a bond issue. This is the second privately owned water and irrigation company filing application to sell out to an irrigation district within a week. The other was the Palermo Land and Water Company, which serves an acreage in Butte, Yuba and Plumas Counties.

BIDS ASKED TO COMPLETE SACRAMENTO FILTRATION PROJECT

Bids will be considered by the City Commissioners of Sacramento on August 24th to construct the rapid sand filtration plant and appurtenances. The work comprises the construction, complete, of sedimentation and coagulation basins having an aggregate capacity of approximately 10,500,000 gallons; eight rapid sand filters of concrete having a nominal capacity of 32,000,000 gallons per day; a super-structure over the operating gallery of the filters; a head-house for administration purposes in which there is also a 290,000-gallon elevated steel water tank for filter washing purposes; a concrete pump having a capacity of approximately 200,000 gallons; a coagulant building and outside piping, excavation and embankment and roadways and paths. This portion of the work will cost in the neighborhood of \$900,000.

The following roughly approximate quantities are involved in the work: 14,500 cubic yards of concrete; 477 concrete piles; 870 tons of reinforcing material; 17,500 cubic yards of excavation; 6000 cubic yards of rolled fill and 300,000 cubic yards of general fill or embankment. In addition to these features, a considerable amount of building construction and mechanical equipment, including cast iron pipe and fittings, gate valves, sluice-gates, hydraulic and electrical controlling devices, gauges, conveyors, pulverizers, etc., are involved.

No informal or irregular proposals or propositions for doing the work will be considered by the city at this time as it is the intention of the commissioners to let the contract for the work as a whole. Separate proposals, however, will be considered for furnishing and installing of equipment for the sedimentation basins, the head-house and filters and the coagulant building.

Charles Gilman Hyde is chief consulting engineer and George J. Calder, resident engineer for the project.

COURT RULES CONTRACT FOR LARGE SEWER ILLEGAL

The contract entered into by the City of Nampa, Idaho, for its \$158,000 sewer system, completed a year ago, was illegal because the amount named in the contract was in excess of the amount provided for in the original estimate and in the ordinance of intention. Judge Ed. L. Bryan of the district court has thus ruled in a decision just handed down.

The case was brought against the city of Nampa by George N. Lucas and several hundred other residents of the section included in the sewer district. The amount named in the ordinance of intention was \$118,000.

Lucas contended, among other things, that the city exceeded its legal authority in issuing bonds for the sewer construction in excess of the amount specified in the ordinance of intention which was later passed by the city as one of the statutory steps leading up to the construction of the sewer system. According to Lucas' views, when an estimate is made by a legally constituted authority of the city and published as provided for by law, this is a guarantee to the property owners within the district that the cost of the improvement will not exceed the estimate and ordinance of intention.

WATER LIFTING DEVICE PER- FECTED BY UNIVERSITY STUDENT

A water lifting apparatus, which seems to flout the natural law that water cannot run uphill, and by which the tremendous energy of the rising tides may be harnessed for use by man, is an invention of Thomas G. Allen, graduate of Washington University, St. Louis. The "Hydrautomat," as the apparatus is called, is the result of two years of experiments. A working model has been viewed by scores of engineers, some of whom have been baffled by the simplicity of the cycle of operations. It has lifted water 20 feet above the river level.

The Hydrautomat is designed to raise water in any quantity from a running stream to any desired height without the use of standard equipment such as pumps, rams or water wheels. The apparatus harnesses two natural sources of energy, the weight of a column of water and atmospheric pressure. By means of a series of tanks, one above the other, and a sluice gate, which alternately brings suction and pressure forces into play, 80 per cent of the energy of the pressure water used is obtained. The height required is reached by carrying the series of tanks alternating open and closed chambers, together with air conducting pipes, to the desired height.

It is believed there is unlimited scope for the hydrautomat on streams where hydraulic power developments are not feasible because of the small amount of fall. One of the first applications is expected to be on irrigation projects.

In a broad sense, according to the inventor, the purpose of the hydrautomat is to convert the contained energy of large quantities of water at a low head into that of a smaller quantity of water at a high head, or to compel a stream to hoist part of itself up over the land for commercial or agricultural purposes. The principal is fixed; the application is to be determined by local requirements.

IMMENSE DEPOSIT OF MAGNESITE LOCATED IN SOUTHERN NEVADA.

A massive deposit of magnesite of unusual character that has recently been brought to the attention of the United States Geological Survey promises to yield a large and readily available supply of this material. The deposit lies in Clark County, Nevada, in the Valley of Muddy River, one of the tributaries of Virgin River, a few miles above the town of St. Thomas. The material has been known for some time as kaolin, and successful experiments for utilizing it as a porcelain clay are reported to have been made, though they have not yet resulted in the exploitation of the deposit. The recognized outcrops have been located as mining claims, and some preliminary exploration and development work has been done. A side track on the St. Thomas branch of the Los Angeles & Salt Lake Railroad, about three miles northeast of the northernmost group of claims, offers a readily available railroad connection, and the station has been named Kaolin from this deposit.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

ALONG THE LINE

Consolidation of three timber owning corporations of properties involving a billion feet of timber in Clatsop County, Oregon, about forty miles northwest of Portland, is announced. The new concern, to be known as the Tidewater Timber Corporation, incorporated under the laws of Michigan, will take in the Western Coöperative Company, the Wright Blodgett Company, Ltd., and the Merrill Lumber Company, and will have a capital of \$4,000,000, according to the announcement. The Astoria Southern Railway, owned by the Western Coöperative Company, is included in the transaction. The main office will be in Portland.

According to word from Tacoma, Wash., the demand for building trades craftsmen in California has resulted in a shortage of these workmen in western Washington. Tacoma contractors declare that California contractors have sent agents to that section and craftsmen have been induced to leave with promises of as much as \$3 a day above the union scale. The men are going to California, the contractors declare, despite the fact that in Tacoma they are paid more than the scale.

Lumber production in the Northwest for the first six months of 1922 has, with one exception, broken all records, according to the semi-annual report of the West Coast Lumbermen's Association. For the first six months of the current year production in the Northwest was just 1 per cent below the record established during the first six months of 1920. It was 68 per cent above the production for the same period last year. New business during 1922 has exceeded the 1920 figures by 29 per cent and the 1921 sales by 56 per cent. Shipments are 9 per cent above those of 1920 and 53 per cent above those of last year.

Preliminary organization of the Allied Architects and Engineers' Club of Sacramento was effected at a meeting July 21 in the Council Chambers at the City Hall. The preliminary organization has 150 members and a total membership of about 400 is the goal that has been set. At the meeting George Adams of the State Architects' office was elected temporary chairman and D. E. Godfrey, temporary treasurer. The following committee was named to draw up a charter and by-laws: T. E. Stanton, Assistant State Engineer; R. A. Herold, Leonard Stark, T. E. Tempest and George Calder.

The United States Civil Service Commission announces an examination for August 23-24 for the position of computer and estimator, a position carrying a salary of \$1,600 to \$1,800 a year. The Commission will hold an examination in the immediate future for the position of senior engineer, Grade 2, civil, electrical, mechanical, signal, structural, telegraph and telephone, paying \$2100 to \$2700 a year. Application blanks may be had from the Commission in the postoffices of principal cities in the State.

Nevada City Chamber of Commerce urges bond election for \$50,000 to pave streets in that city to connect with the main highways.

A building trades school has been started by the Citizens' Committee to enforce the Landis award in Chicago, with a class in plumbing as the first of those intended to end the shortage of mechanics in the thirteen "outlaw" trades. The pupils who formed this first class were for the most part employed during the day on Landis award jobs, and who saw the opportunity to gain the training necessary to become foremen or superintendents. A number of others, however, were novices who took the chance to learn a paying trade.

Miss Helen E. Findlay, youngest of ten women to practice architecture in California, has received her certificate from the State board and will commence her career with the designing of a two-story residence for her parents. Miss Findlay had her first experience in the office of Arthur Peabody, State architect of Wisconsin, at Madison. Since coming to California in 1916 she has worked with a number of Los Angeles architects. She will practice under her own name in San Francisco.

Lange & Bergstrom, San Francisco contractors, have secured the contract to erect a seven-story Class A theatre and office building in San Diego for Robert Blankenship and Richard T. Robinson, Jr. The structure will be known as the Intergates Theater Building and will cover an area of 200 by 106 feet. The seating capacity of the theatre is 2000. Exclusive of furnishings and decorations, the structure will cost \$1,054,000.

The Strable Hardwood Co., the First National Bank of Oakland and the Western Heavy Hardware and Iron Co. Inc., have filed in the U. S. District Court a petition asking that Albert L. Pierce doing business under the fictitious name of the Pacific Boat Co. be adjudged bankrupt.

Swartz & Ryland, Fresno architects, have been commissioned by the Tulare Union High School District to prepare plans for the proposed union school building to be erected under the recently voted \$150,000 bond issue.

The Puget Sound Bridge & Dredging Co., Seattle, Wash., awarded a contract to erect twelve-story bank and office building for Dexter Horton Est. on the site of the old New York Block Third Ave., Seattle. The building will cost \$2,500,000.

Does municipal ownership pay? A reduction of 10 per cent in the water and power rates on the municipal system at Gridley, Calif., has been declared by the City Trustees.

The Mountain View Union High School District, Santa Clara County, has voted bonds of \$197,000 with which to purchase a site and erect a new High School.

J. F. Nash, manager of the Yosemite Lumber Co., at Merced Falls, Cal., has tendered his resignation, effective August 1. He will enter the lumber business for himself in Oakland.

(Continued on Page 6)

Civil engineers of Oakland have formed a luncheon club for the purpose of bringing the engineers of the east bay region into closer relationship with each other for the mutual social enjoyment and to promote their economic welfare. Rules governing the club were prepared by a committee composed of W. W. Harmon, city engineer, Carl E. Hardy and Charles C. De Wolf. The meeting of the club will be held at noon on the first and third Thursdays of each month.

Nelson A. Eckart, for many years on the staff of the City Engineer's office, has been appointed a safety engineer for the city in the Hetch Hetchy project. The State Industrial Accident Commission will co-operate with Eckart in undertaking a safety campaign during the erection of tunnels and other similar work called for in the Hetch Hetchy project.

Colonel James G. Scrugham, Nevada State engineer, has resigned from the National Executive Committee of the American Legion. The resignation is understood to be a preliminary to an announcement by the colonel of his candidacy for the Democratic nomination for Governor of Nevada.

R. R. Arnold, county surveyor of Contra Costa county, has been elected president of the County Engineers' Association. J. L. McBride, Orange county, has been named vice-president; Lloyd Bowman, Santa Cruz county, secretary-treasurer, and E. P. Ball, Napa, and H. F. Cozzena, Salinas, directors.

James A. Davis, chief engineer of the Washington State Highway Department, has resigned to accept a position with the Carlson Construction Company of Spokane. George T. McCoy, assistant chief in the State Highway Department, will fill the vacancy.

W. R. B. Wilcox, Seattle architect, has been appointed head of the school of architecture at the University of Oregon at Eugene. This is a newly-created position in the university.

Walter Raser, vice president of the Sudden & Christensen Lumber Co., San Francisco, died at his home July 20 following an attack of acute indigestion.

Allen B. Benedict, engineer with the Seattle board of public works for the past eighteen years, died in that city on July 24.

E. G. Finlay, engineer of San Jose, will be a candidate for the office of County Surveyor of Santa Clara County at the coming election.

Midway Gas Company is planning construction of 960-h.p., 6-unit compressor station in Elk Hills, Kern county.

U. S. Rubber Co. has opened a branch office in the Swasey Bldg., Redding, Calif.

**ELLERY, FROST & PATTEN OPEN
FRESNO OFFICES**

Ellery, Frost & Patten, an engineering organization which for the past fourteen years has operated from headquarters in the Merchants' National Bank Bldg., San Francisco, have established offices in Fresno at 1913 Fresno street, prior to permanent location in that city.

The move, according to Bryan T. Patten, junior member of the organization, was made after an extended survey of California and other Coast States, Fresno being selected as the new permanent headquarters of its central location.

The three members of the firm, Patten, N. E. Ellery and W. G. Frost, are among the best known engineers in the State. Patten has been connected in the past with the United States Reclamation service, Ellery was State engineer for 12 years and Frost was formerly city engineer of Redwood City and was at one time connected with the State highway office.

CHROUCH, FRESNO EXCHANGE SECRETARY, VISITS SAN FRANCISCO

R. W. Chrouch, secretary of the Fresno Builders' Exchange, was a visitor on the floor of the San Francisco Exchange July 24. Chrouch is visiting the various building organizations in Central California with a view of developing the Fresno Exchange. In addition to declaring his amazement regarding San Francisco building activities he was highly impressed with the co-operation afforded by the San Francisco Exchange officials during his short visit. Call again.

**MICHIGAN FORESTS DEPLETED BY
FIRE AND RECKLESS CUTTING**

Michigan's wood-using industries are now paying the economic Piper for the State's quarter century timber debacle, according to a statement issued by the Forest Service of the United States Department of Agriculture, whose experts are engaged in a study to determine the effects of forest devastation on population, agriculture, industry, and economic life in that State.

The forests of Michigan, the statement continues, as a result of devastating fires and reckless cutting are now so greatly depleted that they produce chiefly fuel-wood and other minor forest products instead of high-grade lumber on which the State's main industries depend. The building trades and the automobile and furniture industries of Michigan must largely import their supply of high-grade lumber from other States instead of growing it at home.

For the most costly classes of woods, such as those used for automobiles, furniture, and building, Michigan goes as far south as the Gulf and as far west as the Pacific; it imports all but a little more than a billion board feet of lumber and timber annually, of which 400,000,000 come from the Gulf Coast region and nearly 180,000,000 feet from the Pacific Northwest. For these amounts the State pays not only an enormous freight bill but also the high prices incident to constantly dwindling forests.

The reforestation of Michigan's denuded lands would after a few decades, say forest experts, not merely stop these costly importations but go far toward re-establishing the State's lost leadership in her once greatest industry, lumbering, and put it upon a permanent basis.

Building Boom Leads Industrial Recovery---All Records Broken

"We are in the midst of the biggest building boom the United States has ever known," says The Industrial Digest, New York. "Throughout the country there is bustling in lumber yards and brickyards, chisels are clanking in quarries, steel mills are rolling out structural forms, carpenters are banging away with their hammers, masons are welding their trowels and painters their brushes; and more structures are being erected than at any previous time in the history of the nation.

A boom—or a depression—in the construction industry affects all other lines. Construction is one of the key industries of the nation. It uses the products of about one-fourth of all the persons in the country who are engaged in manufacturing. It consumes about one-tenth of all the iron, copper, zinc and lead produced. Normally, it is estimated, construction absorbs about half the new capital accumulated in the country every year. It affects all other industries through its influence on rents. The great number of persons who engage in it form an important part of the consuming public.

Building Trades Had Trouble

"Construction has felt with unusually great weight the problems which afflict industry in general. It has experienced its full share of labor difficulties. It has been forced to deal with a scarcity of materials. It has been the subject of government inquiries, and has suffered from much malpractice on the part of those who engage in it. Therefore its sensational recovery, at a time when most lines of business, though somewhat improved, are still languishing, is especially interesting.

"The building industry was one of the first to feel the post-war depression. A chart prepared by the Associated General Contractors, comparing the fluctuation of pig iron production with the variation in the number of building permits issued throughout the nation, shows that activity in building started to decline in 1920, eight months before pig iron production began to sag. In fact, when the iron output started its downward movement the drop in construction was almost over. In November, 1920, the number

(Continued on Page 4)

of permits issued began to rise, and with occasional temporary relapses it has been on the upgrade ever since.

"The increase in construction in 1921, however, could by no means be called

a building boom. The total contracts reported in 1921 by the F. W. Dodge Co., for 27 northeastern States, was only \$2,359,018,000, 8 per cent less than the total for 1920. In other words, the 1921 record, while better than that of the latter part of 1920, was still so poor that the activity in the first part of 1920, before the depression, was sufficient to bring the entire 1920 record higher than that of 1921.

"At the beginning of this year the real boom started. In January the Dodge Company reported that contracts were 49 per cent ahead of those for the same month last year, and the contemplated work bulked larger than at any time since the previous April. In February the contracts awarded were 7 per cent ahead of January's and 73 per cent ahead of February's, 1921. In March more contracts were awarded than in any other month except April, 1920, which was one of the big months before the depression. Spring was here, and outdoor work was going on in earnest.

All Records Broken

In April, 1922, the contracts awarded in the 27 northeastern States covered by the Dodge reports reached the unprecedented sum of \$53,125,000, making April a record month for all time. The April record was 20 per cent higher than that of the preceding month, and 60 per cent ahead of April, 1921. The total contracts reported by Dodge for the first four months of the year amounted to slightly less than a billion dollars. This is about equal to the record of the first four months of 1920, before the depression.

"May and June of this year carried the building boom even higher, and led to the expectation that the total for 1922, barring accidents, will be far greater than that of any other year. The May record of contracts awarded was 3 per cent larger than that for April. Up to this time the record-breaking building had been confined almost entirely to the Eastern States. The West was coming merrily along, but it was lagging behind and not breaking all precedents. In May and June, however, all parts of the country broke records.

"About 40 per cent of all this building is for residential purposes. About 15 per cent is for business and about 8 per cent for industrial purposes. The proportions remained approximately the same from month to month."

**HANDSOME PREMIUM FOR OREGON
STATE HIGHWAY BONDS**

One million dollars' worth of 4½ per cent State highway bonds were sold by the Oregon State Highway Commission to a Portland firm at a rate of \$1012.90 a thousand. The nearest competition in nine sets of bids for these bonds was several thousand dollars less than the successful bid. The commission awarded \$91,000 worth of Clackamas County 5 per cent road bonds to a Portland bank for a premium of \$227.50. For \$44,000 worth of 4½ per cent Douglas County road bonds the bid of a Portland firm for \$43,054 was accepted. The commission also awarded \$6697.37 street improvement bonds of the City of Rainier to another Portland bidder at \$98 per hundred.

**DEFEAT OF SHINGLE MEASURE AT
NOVEMBER ELECTION ADVOCATED**

The defeat of the State Housing Act, which forbids the use of shingles for roofing within any incorporate limits of California, and which is before the voters as a referendum at the November election, was recommended by a majority report of the Committee on Housing at the meeting held July 20 by the Commonwealth Club. The vote in committee stood five to one against the Act, the only dissenting vote being Senator Lester G. Burnett, who introduced the measure in the last session of the Legislature. Senator Burnett is chairman of the Housing Committee of the Commonwealth Club, casting the only vote in favor of the State Housing Act.

ASSOCIATED GENERAL CONTRACTORS ADOPT EQUIPMENT RENTAL AGREEMENT

An equipment lease that constructors are willing to sign as either lessor or lessor has just been issued by the Associated General Contractors of America. Its object is to establish on a basis of common equity those obligations and responsibilities properly involved in renting construction machines, and to provide a simplified rental agreement which will insure absolute fairness to both parties. Thus a principle universally acknowledged and generally applicable, though too infrequently followed in the construction industry, will be given a practical test.

The form adopted is the result of investigations and criticism of members of the A. G. C. extending over a period of two years. It was prepared under the direction of the Committee on Methods, of which A. P. Greensfelder, secretary of the Fruin-Colton Contracting Co., St. Louis, was chairman, and Ward P. Christie, research engineer. Through use of this form it is believed that many difficulties incident to renting construction equipment can be eliminated.

Both construction and equipment leasing companies have frequently been subjected to expense and annoyance on account of misunderstandings which arise when equipment is rented by verbal or letter agreement or by an unsuitable form of lease, and it is to overcome such difficulties as these, as well as to eliminate drastic and unreasonable provisions, that the new standard form has been adopted. Misunderstandings frequently arise from the fact that equipment is sometimes rented on short notice when the need arises, and when the main consideration is to get the machine into operation. In such instances, a telephone call, a letter or almost any kind of a lease, may serve to close a transaction, and when the unexpected happens both parties find that the responsibilities are not properly defined or that one or the other is saddled with an unfair obligation.

Situations of this nature can usually be avoided where the construction company has a suitable form of lease, easily filled out and familiar to its officials and executives. When all companies are using the same form the chance of misunderstanding is even more remote, especially when arrangements for leasing must be hurriedly made by letter or wire. This means of consummating an agreement, however, can be safely used by means of the A. G. C. Equipment Rental Agreement. All that is required is an understanding that certain equipment, is shipped under A. G. C. terms of lease, and each party will then know definitely his obligations. Final arrangements can be made with a minimum of delay.

The standard form is arranged so that all blank spaces for filling in of dates, rental rates and other stipulations are segregated on the front of a single sheet, and those provisions of general application and requiring no filling in for ordinary conditions are segregated on the back. Thus a concise form of letter size convenient for filing is afforded.

Copies may be obtained from the Associated General Contractors of America, 1038 Munsey Building, Washington, D. C., or through the secretaries of associated organizations, at 10 cents each or \$5 per hundred.

The McGraw-Hill Book Co., Inc., 375 Seventh St., New York City, has just issued a July bulletin descriptive of the new literature of civil engineering. Copies will be furnished on request.

YUBA CITY "MUNY" WATER PLANT SHOWS 100% COLLECTIONS

C. C. Kline, city clerk of Yuba City in a report to State Controller Ray L. Riley, declares that the Yuba City municipally-owned water system is the only public utility in the State of California that shows 100 per cent collections.

During the year ending December 31, 1921, the total receipts from the Yuba City Water Works were \$9,763.30, and the expenditures \$5,075.10, giving a profit of \$4,688.20. To date the total invested in the plant is \$26,000, which includes some extensions made during the present year. The per cent of profit on the investment, figured to January 1, 1922, is 7.4 per cent.

For the six years the plant has been operating, the municipality has been able to add from the profits the sum of \$18,000 to the city's general fund, which has aided in keeping down the tax rate. This condition has also enabled the municipality to give to its consumers a minimum flat rate for water of \$1.00 a month, and a 15 cents per 1,000 gallon rate to those who prefer meters. The sum of \$945.58 was credited to the water works system on account of interest on moneys loaned to funds of the city prior to January 1, 1921, being 6 per cent on \$18,577.74. The plant in the same time has a credit of \$1,600 on account of free service rendered in street sprinkling, fire hydrants and cemetery.

CALIFORNIA LEADS UNITED STATES IN FEDERAL ROAD APPROPRIATIONS

California leads the United States in Federal appropriations for the construction of public roads during the fiscal year, which commenced July 1. This year's appropriation of \$53,500,000 exceeds that of last year by \$15,000,000. A million and a half of this amount represents Federal aid in road building authorized under the post office appropriation act.

Public road appropriations available this fiscal year for the other states of the Pacific Coast district include: Arizona, \$6,500,000; Idaho, \$12,500,000; Nevada, \$2,500,000; Oregon, \$20,500,000; Utah, \$6,500,000; Washington, \$18,500,000.

ALAMEDA COUNTY BUILDERS' EXCHANGE ENDORSES HOME EXHIBIT

Indorsement is given to the California Complete Homes Exposition to be held in Lakeshore Highlands, Oakland, and an offer of "active and enthusiastic participation" is made by the central council of the Alameda County Builders' Exchange in resolutions adopted by that body.

Of the exposition, which entails the building of twelve model homes, now under construction, to be completely furnished, and is calculated to stimulate business activities and to advertise Oakland, the resolutions say:

"The organization extends its most sincere indorsement of this enterprise and its approval of its purposes and of the methods proposed to be employed in its presentation." Also:

"This organization hereby pledges its active and enthusiastic participation in this enterprise in any capacity that will stimulate the business activities of our locality and advertise Oakland generally in a broad and practical way."

This practical demonstration of the home beautiful and comfortable is said to be the first of its kind ever undertaken.

The Observer.

Palmer & Petersen, San Francisco contractors, have brought suit against the County of Shasta for \$18,406.22, contract price for a bridge they built. Attorneys for the contractors say the Shasta County Supervisors refuse to make payment for the work because the bridge was improperly constructed. The contractors claim, however, they followed specifications.

The Shell Oil Co. will construct several concrete storage tanks at Martinez. These tanks will have a capacity almost double that of the largest steel tanks which are capable of holding 55,000 barrels of oil. Evacuation has been started.

Union Construction Company of Oakland has been awarded a contract by the Shell Oil Company to construct a 4000-barrel capacity barge for transporting oil to points about San Francisco bay. Construction is estimated at \$175,000.

The Zenith Mill & Lumber Co. of Oakland, organized to conduct a planing mill and lumber yard, has been authorized by the State Corporation Department to sell 5 shares of stock to its incorporators at par \$100 for cash and to sell and issue 445 shares to certain persons in exchange for personal property.

The Geo. T. Mickle Lumber Co. of Oregon has filed in the U. S. District Court an action which it seeks to recover from the Telchaira Lumber Company and stockholders of Solano county, \$6682.22. According to the complaint, the Oregon company sold to the defendants a quantity of goods, nearly two years ago, and nothing to date has been paid.

W. H. Steiner has been appointed district engineer in charge of the Des Moines office of the Portland Cement Association, to succeed H. L. Tillson, resigned. This office, located in the Hubbell Bldg., has charge of Association work in Iowa.

Bids for furnishing 10,700 tons of rock screenings will be considered by the Fresno County Supervisors on August 4.

The Pacific Gas & Electric Co. has filed application with the San Francisco Board of Public Works for a permit to construct foundations for a 10,000,000 cu. ft. gas holder at Army and De Haro streets. The foundations will cost \$90,000.

Ira G. Wagner of Sparks, Nevada, is conferring with the Marysville Chamber of Commerce regarding the establishment of an ice plant in that city.

Toga Lumber Company, Seattle, Wash., suffered a \$150,000 fire loss on July 25.

County Surveyor George A. Posey of Alameda County will be a candidate to succeed himself at the August primaries.

Spears-Wells Machinery Co., 214 Twelfth Street, Oakland, Cal., is now an agency for the distribution in Northern California of Smith concrete mixers, loaders, pavers and excavators made by the T. L. Smith Co., of Milwaukee, Wis.

POWER PLANTS

SEATTLE, Wash.—Puget Sound
Power and Light Co. has con-
struction of a 110,000-volt transmission
line from a hydro-electric plant in the
Puget Sound district to Wenatchee,
Wash., a distance of approx. 120 miles.
Line is being built under an arrange-
ment with the Washington Coast Utili-
ties Co. Est. cost, \$800,000. S. L.
Shaffner, chief hydro-electric engin-
eer in charge of construction.

SEATTLE, Wash.—Two electric light
and power properties and two water
systems, located at Montesano and
Elma and south Bend and Tenino, re-
spectively, formerly operated by the
Northwest Electric Light & Power Co.,
have been taken over by the Washing-
ton Power Utilities Company, 629 New
York Bldg., Seattle, and will be op-
erated heretofore by this concern as
subsidiary corporations. Immediate
improvements planned include the
consolidation of transmission lines
bet. the cities of Aberdeen and Monte-
sano and Elma and the rearrangement
and reconstruction of the lines within
the latter named towns. A sub-sta-
tion will be erected at Montesano.

PUBLIC BUILDINGS

Plans Being Prepared.
3 BRICK BLDGS. Cost, \$70,000
OAKLAND, Cal. 3601 Telegraph Ave.
Three brick buildings (2-story em-
ployees' building, 1-story women's

Alex. Marshall, Oakland, 43,078

LOS ANGELES, Cal.—Hertram G.
Goudree, 2 W. 27th St., New York City,
and Carleton M. Winslow, 1154 Van
Ness Bldg., Los Angeles, were selected
as architects for the \$1,500,000 central
Public Library building to be erected
on Normal Hill, at a meeting of the
Board of L. A. Public Library. A
commission for the work was pre-
viously given to these architects, but
the City Attorney ruled that the pro-
posal did not comply with all legal
technicalities and new proposals were
asked. It is expected Library Board
will soon have possession of site, and
construction may be started in fall.

SACRAMENTO, Cal.—Bids were re-
ceived by the State Department of En-
gineering on July 24 for the construc-
tion of a grandstand at the State Fair
Grounds in Sacramento. Bids were
taken under advisement:
Holdener Constr. Co., Sacto., \$ 4,799
Ira C. Boss, Sacto., 7,949
Hendon & Finnigan, Sacto., 10,534

SACRAMENTO, Cal.—Bids will be
received until August 29, 1922, at 12
o'clock noon, by George B. McDougall,
State Architect, Chief, Division of Ar-
chitecture, Forum Bldg., Sacramento,
California, for the complete mechan-
ical equipment, which includes the
plumbing and drainage systems, heat-
ing work, ventilating work and elec-
trical work for the Sacramento State
buildings known as the Library and
Courts Building and the Office Building
now being erected in the Capitol
Grounds. Separate bids are also being
taken on these four divisions of the
work. The official proposal appears in
this issue.

OAKLAND, Alameda Co., Cal.—The
board of supervisors of the City of Oak-
land have rejected all bids received for
the construction of a comfort station
in the basement of the Oakland City
Hall. Bids were considered too high.
Whether the plans will be revised or
the improvement abandoned has not
been decided. W. G. McGinty & Sons
submitted the lowest bid at \$30,575.

QUINCY, Plumas Co., Cal.—Quincy
Commercial Club will finance con-
struction of municipal swimming pool. Will be 75
feet 125 feet from 2 ft. to 1 ft. deep.
W. H. Ehrlich, County Physical Educa-
tion Director is interested.

BIDS WANTED FOR COMPLETE MECHANICAL EQUIPMENT FOR SACRAMENTO STATE BUILDINGS

NOTICE TO CONTRACTORS

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 12 o'clock Noon, Tuesday, August 29, 1922, said bids then and there to be publicly opened and read for furnishing all plant, materials and doing the work required for the complete MECHANICAL EQUIPMENT, including Electrical Work, Plumbing and Drainage Systems; Heating Work; Ventilating Work, for the SACRAMENTO STATE BUILDINGS, i. e., the Library and Courts Building and the Office Building, Sacramento, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Such bids will be received for Mechanical Equipment and must be submitted on forms prepared and furnished by said Division of Architecture. Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid. A deposit of Twenty-Five (\$25.00) Dollars will be required on plans and specifications; the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works reserves the right to reject any or all bids and to waive any informality in any bid received.

The Construction work of said Sacramento State Buildings has been placed on a day's labor basis and on said basis the said Mechanical Equipment, as a sub-division of said construction is to be let by contract.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Equipment, Sacramento State Buildings, Sacramento, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

Geo. B. McDougall, State Architect.
A. B. Fletcher, Director of Public Works.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, 515 Forum Building, Sacramento, Cal., until 3 o'clock P. M. on August 21, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made. Portions of State Highway as follows:

Amador County, between Western Boundary and Central House (111-Ama-54-A), about nine and three-tenths (9.3) miles in length, nine and three-tenths (9.3) miles to be graded and

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

seven and six-tenths (7.6) miles to be surfaced with gravel.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willis, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission
AUSTIN B. FLETCHER,
State Highway Engineer.

R. A. MURRAY, Secretary.
Dated July 24, 1922.

BIDS WANTED

(Boulder Creek School Building, Etc.)

The Trustees of the Boulder Creek Union High School invite bids on the following contracts; bids to be delivered to the Board on or before August 1st. For painting High School building.

All outside wall surfaces, including sash and doors, outside trim cornice, pillars, ceiling, floor and steps of porch; to be painted two coats of paint composed of pure white lead plus 15 per cent white zinc thoroughly mixed in pure boiled linseed oil and proper color pigments to match present color scheme. Before application of paint, surfaces are to be brushed to remove dust and chalk; and where necessary nail holes, other defects and sash are to be repainted.

Roof to be painted one coat of paint composed of Princess metalic mixed with Imperial boiled oil or equivalent. All interior floors on main floor and entrance corridors to be covered with one coat of oil stain.

All interior trim and wainscoting now finished in the natural wood to be covered with varnish stain.

All interior surfaces of doors and sash on main floor and entrance corridor that is now finished with a paint surface to be painted one coat of lead and oil with color to match present paint.

Interior of both toilet rooms to be painted one coat lead and oil.

All materials to be subject to inspection before mixing. All work to be done in workmanlike manner, all work well brushed and the entire job completed on or before September 7th.

For flooring Print Shop.

SPECIFICATIONS
Sole: 1 x 4 pine 8 ft. apart, supported by 2 x 4 redwood underpinning set on 2 x 6 redwood mudsills.

Joists 2 x 8 pine set 16 inches on centers and properly bridged.

Floor 1 x 3 T and G surfaced pine No. 2 flooring with pitch pockets cut out or adequately filled.

Additional sills and underpinning to be framed under cylinder press as required to properly support it.

Raising and moving press and other machinery and cases to be done by contractor and in a manner to interrupt as little as possible the work of the shop.

All work to be done in a workmanlike manner so as to produce as solid true level and tight jointed floor well fastened with proper nailing.

All work to be completed on or before September 7th.

The Trustees reserves the right to reject any or all bids. By order of the BOARD OF TRUSTEES,
Boulder Creek Union High School. A. H. Townsend, Pres., Boulder Creek, California.

Sealed proposals will be received by the Board of Supervisors of the County of Yuba, State of California, until 10 o'clock a. m., on Wednesday, August 9th, 1922, for the building of approximately six (6) miles of road, including forty (40) iron culverts with concrete wing walls, four (4) reinforced concrete bridges and one (1) reinforced concrete culvert, the building of which is to be done on the Knox Road, 18 miles northeast of Marysville, and to be let in two sections. Section No. 1, from

the Olive Ranch to Dexters Corners; Section No. 2, from Dexter Corners to the Stone House. Said work to be constructed in accordance with plans and specifications on file in the office of the County Clerk and in the office of the County Surveyor. All proposals must be filed with the County Clerk.

Plans and specifications can be seen at the office of the County Surveyor.

Each bidder shall deposit with his proposal a certified check, payable to the order of the County Clerk of Yuba County, in the sum of ten (10) per cent. of his proposal. Said deposit to be forfeited to the County of Yuba by the successful bidder in case he shall fail to enter into a contract in accordance with the terms of his proposal after the acceptance of the bid by the Board of Supervisors.

The Board of Supervisors reserve the right to reject any or all bids.

By order of the Board of Supervisors.

(Seal) W. J. MELLON,
Chairman.

W. M. Strief, Clerk.

NOTICE TO CONTRACTORS

(Shasta Union School District)

Notice is hereby given that the undersigned as trustees of the Shasta Union School District, Butte County, Calif., will receive up to the hour of 1:30 o'clock p. m. of Saturday, August 5th, 1922, sealed bids for the construction of a four-room and auditorium reinforced concrete building. All to be on the property of the Shasta Union School District, four miles north of Chico, Butte County, and to be in accordance to plans and specifications for same prepared by Chester Cole, architect, Chico, Calif.

Plans may be seen at the office of the Architect, Room 214, Waterland-Breslau Building, Chico, Butte County, Calif.

Each bid shall be accompanied by a check, certified by a responsible bank, payable to C. J. Hopkins, Clerk, for the amount of 10 per cent of bid, as provided for in said specifications.

The Board of Trustees reserves the right to reject any or all bids.

Bids to be sent to or filed with Chester Cole, Architect, Room 214, Waterland-Breslau Building, Chico, Calif.

C. J. HOPKINS, Clerk.
F. R. PARKER,
SHELLEY CARMACK,
UEL GARNER,
ELIZABETH ANDREWE.

Trustees of Shasta Union School District, County of Butte, State of California.

NOTICE TO CONTRACTORS

(Visalia School District)

By authority of the Board of Education of the City of Visalia, County of Tulare, California, sealed bids on behalf of Visalia School District, NOTICE IS HEREBY GIVEN that sealed bids for the furnishing of all materials and the performance of all labor necessary for the erection and completion of a school building to be erected by said School District on the property thereof on South Conyer Street, in the City of Visalia, and certain additions to the Highland School of said District on the grounds of said Highland School in said City, will be received up to the hour of 7:30 o'clock P. M. on Monday, the 7th day of August, 1922; the erection and completion of said buildings shall be done in accordance with plans and specifications (thereof prepared by Harry W. Michael, designer, which are on file in the office of the Clerk of said Board of Education, and may be seen at the office of said Designer in the Harrell Building in said City of Visalia.

Each bid must be accompanied by a Certified or Cashier's check for a sum of not less than five per cent of the amount bid as evidence that the bidder to whom the contract for such work may be awarded will within ten (10) days thereafter enter into a contract for the erection of

said buildings, which said contract shall provide, among other things, that the said bidder will furnish a bond for the faithful performance of said work in the amount of fifty per cent (50%) of the sum bid, and also a bond for the benefit of material men and laborers in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to secure the payment of claims of persons employed by contractors upon public works, etc., approved March 10, 1919 (Stats. 1919, p. 487, and Acts amendatory thereto). And such contract shall also provide that the successful bidder shall complete said work within twenty-five (25) working days from and after the date of said agreement, and that in the event that the bidder should fail to complete the work provided for within the time specified for such completion, due allowance being made for unavoidable delays, he shall become liable to the Visalia School District in the amount of Fifty (\$50) Dollars for each working day during which either of said buildings remain uncompleted beyond the time for such completion.

Said sealed bids may be filed with the undersigned as Secretary of said Board of Education, at his office in the Bank of Italy, Visalia Branch, in said City of Visalia. Said Board of Education reserves the right to reject any and all bids or to accept such alternative as in the judgment of said Board will be for the best interests of said Visalia School District, according to the plans and specifications thereof.

Dated: July 20, 1922.
C. T. POOL,
Secretary of the Board of Education of the City of Visalia.

BIDS WANTED FOR DIRECTORY BULLETIN

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., July 21, 1922—SEALED PROPOSALS will be received at the office of the Custodian, Honolulu, Hawaii, until 9 A. M., and at the office of the Supervising Superintendent, San Francisco, Calif., until 12 M., and at this office until 3 P. M., August 5, 1922, and then opened for furnishing and delivering f. o. b. Honolulu, T. H. Metal and Marble Directory, Bulletin, and Sign Boards, for the United States Post Office Building, U. S. Army Post Office, and U. S. Navy Post Office, at the House, at Honolulu, T. H. Drawings and specifications may be obtained from the Custodian of Honolulu, Hawaii, under the Supervising Superintendent, at Room 403 Post Office Building, San Francisco, Calif., or at this office in the discretion of the Supervising Architect, U. S. A. EAST-MORE, Acting Supervising Architect.

TO CALL FOR BIDS

SPECIFICATION NO. 4684, CIRCULATING LOOP FOR CENTRAL POWER PLANT, MARE ISLAND, CALIF.

NOTICE TO CONTRACTORS

The Bureau invites attention to the fact that it will open proposals, in the near future, on the project mentioned above. Bids will be invited on two 48-inch concrete intake conduits, a single 60-inch concrete discharge conduit, reinforced concrete intake and discharge structures and concrete sheet piling at the quayside wall, discharge pit, timber pile foundations for structures and conduits, shafts, manholes, clean-out pit, cast iron frames and covers, access to the structures and operating machinery; also the removal of wood-stove pipes in the existing tunnel, timber repairs to tunnel and all necessary excavation, trenching, and cofferdams.

In the event that this work is of interest, a check or postal money order for \$20.00, payable to the Chief of the Bureau of Harbors and Docks, should be forwarded immediately to the Bureau or to the Commandant, Navy Yard, Mare Island, Calif., as security for the safe return of the drawings and specifications, which will be forwarded as soon as available.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

STOCKTON, San Joaquin Co., Cal.—Until Aug. 8, 10 a.m., bids will be received by Eugene Graham, county clerk, to const. rein. conc. bridge over Calaveras River on West's Lane. F. E. Quail, county surveyor.

SAN RAFAEL, Marin Co., Cal.—Until Aug. 8, 2 p.m., bids will be received by Rob. E. Graham, county clerk, to const. rein. conc. bridge over Pine Gulch Creek at Bolinas, Rd. Dist. 3. Geo. M. Dodge, county surveyor.

RIVERSIDE, Cal.—deWaard & Colham, 207 Granger Bldg., San Diego, submitted lowest bid to supervisors at \$54,900 for erecting a rein. conc. bridge over Santa Ana River, to be known as Rubidoux Bridge, in accordance with plans and spec. by R. V. Leeson, 207 L. A. Ry Bldg., Los Angeles. Other bids on the same plans were: Edgar T. Wheeler Co., Los Angeles, \$87,540; W. M. Ledbetter Co., L. A., \$93,360. deWaard & Colham submitted the only bid on plans and spec. by Engrs. Houghton & Bonte of San Francisco, at \$129,000. The design of R. V. Leeson calls for five 100-ft. spans with 24-ft. roadway with camber curve of 2 ft. 6 in. Est. quantities are: 2630 cu. yds. conc., 76 tons rein. steel, 9000 lin. ft. cedar piling, with foundations 20 ft. below stream bed. The Houghton & Bonte design for a 3-binged arch, rein. conc. bridge of seven 72-ft. spans, with four arch ribs, footings on 5-ft. conc. cylinders instead of piles and 9-in. conc. deck.

Mercerou Bridge & Constr. Co., 313 N. Ave. 22, Los Angeles, submitted low bid at \$5785 for bridge complete, and \$2186 for one section of const. 380 ft. pile trestle bridge over Coachella Valley storm drain channel at Thermal on 56th Ave. J. J. Lipscomb, San Diego, bid \$6780.85 and \$3190.

VISALIA, Tulare Co., Cal.—Brown & Taylor, Brea, were awarded contr. on Proposition No. 2) by Tulare Co. Supervisors at \$24,412.79 for constructing rein. conc. bridge, 3 spans, 205 ft. long, 21 ft. wide, over Kaweah River, known as bridge No. 62, involv. (1) 432.92 cu. yds. Class A conc. (above elev. 1264.20) at \$23.47 yd.; (2) 236.19 cu. yds. Class A conc. (below elev. 1262.20) at \$23.47 yd.; (3) 229.48 cu. yds. Class B conc. at \$23.47 yd.; (4) 139.58 cu. yds. boulder conc. at \$23.47 yd. Other bids were:

Archer Da. Mari and J. Sorensen: (1) \$28, (2) \$27, (3) \$28, (4) \$27.50; total, \$28,816.78.

Fredrickson & Shannon, Fresno: (1) \$34.30, (2) \$43, (3) \$34, (4) \$29.40; total, \$36,997.33.
L. C. Lashmet, Prescott, Ariz.: (1) \$35, (2) \$20, (3) \$23, (4) \$15; total, \$27,287.74.

Engineer's est.: (1) \$21.50, (2) \$26.50, (3) \$19, (4) \$19; total, \$21,262.
Only bid on proposition No. 1, submitted by Fredrickson & Shannon, was: (1) \$42.30, (2) \$51, (3) \$41.20, (4) \$31.90; total, \$44,367.39.

Engineer's est. on proposition No. 1 was: (1) \$30, (2) \$29, (3) \$27, (4) \$25; total, \$43,927.38, including \$14,346.81 materials.

Contract for hauling materials was let to Wisler & Johnson, Forterville, at \$5909.06 involv. (1) 1313 tons gravel at \$3.25 ton, (2) 60.57 tons steel at \$3.91 ton, (3) 440 cu. yds. sand at \$1.25 yd., additional sand at 30c. Other bids were:

L. C. Lashmet Constr. Co.: (1) \$4, (2) \$4, (3) \$1; total, \$934.28.

Isbell Constr. Co.: (1) \$3.05, (2) \$1, (3) \$4.25, total, \$118.93.

Brown & Taylor: (1) \$4.79, (2) \$5.91, (3) \$1.65; total, 7376.87.
F. E. Blincoe: (1) \$5, (2) \$8.50, (3) \$1.60; total, \$7183.85.
Engineer's est.: (1) \$5.25, (2) \$5.25, (3) \$1; total, 7651.24.

SAN ANSELMO, Marin Co., Cal.—Town Engineer J. C. Oglesby, Cheeda Block, San Rafael, preparing specifications for permanent bridges at the following points: Lansdale Station, Saunders, Nakomis, Madrone, Redwood, Barber and Magnolia avenues.

CALIFORNIA—Following bids received July 24 by State Highway Commissioner to construct bridge over Bear River in Placer and Nevada counties, about 7 miles north of Auburn, consisting of two 100 foot steel truss spans with piers and abutments, involv. Two 100-ft. steel spans, erected in place and painted, complete, except reinforced concrete floor; 205 cu. yds. Class "A" Portland cement concrete in place, in pier, abutments and floor of steel spans; 470 cu. yds. Class "C" Portland cement concrete in place, in pier, wing walls and abutments. **Security Bridge Co., Ogdun, Cal.:** \$28,250.50.
Jenkins & Elton, Sacramento: \$29,750.
James J. Burke & Co., Salt Lake City: \$30,176.
A. W. Kitchen, Oakland: \$30,088.50.
Davison & Nicholsen, Stockton: \$31,022.
Edw. A. Martin, Marysville: \$31,336.
George Pollock Co., Sacramento: \$31,910.

The Bethlehem Shipbuilding Co., San Francisco, submitted a bid for the steel only at \$19,417. It will not be considered.
Engineer's estimate, \$32,960.

LOS ANGELES, Cal.—Until 11 A. M., August 21, bids will be received by supervisors to construct reinforced concrete bridge on State highway over west arm of Alamitos bay. Plans and specifications on file at office of board. Certified check for 10 per cent.

SAN MATEO, San Mateo Co., Cal.—A. Mattson, San Bruno, at \$4,222 awarded contract, by city trustees to construct rein. concrete bridge in Railroad Avenue, over San Mateo creek. Other bids: Chas. J. Lindgren, Hillsborough, \$5,724; W. L. McReynolds, Hollister, \$5,666; Geo. A. Renner, San Francisco, \$5,219; Rocca and Caletti, San Rafael, \$5,627; L. W. Larsen, Turlock, \$5,548; Giacomo Pinal, San Mateo, \$4,292; Frank Bryant, San Francisco, \$5,274.

SAN FRANCISCO—Until August 25, 11 A. M., bids will be received by U. S. Engineer's Office, Custom House, for dredging in Oakland Harbor. Further information on application.

SAN MATEO, San Mateo Co., Cal.—City Trustees reject bids to construct rein. conc. bridge in Chester Way over creek running from San Mateo to Burlingame and new bids will be opened August 11, 8 P. M. Bids received follow: Chas. J. Lindgren, \$6,239; W. L. McReynolds, \$6,200; Geo. A. Renner, \$6,175; Rocca and Caletti, \$6,389; L. W. Larsen, \$6,135; Giacomo Pinal, \$4,804. A Mattson, \$6,386; Frank Bryant, \$5,631.

SANTA ROSA, Sonoma Co., Cal.—W. L. Proctor, Santa Rosa, at \$1560 awarded contract by supervisors to construct Petaluma bridge (extension of Washington street). Other bids: Rocca & Caletti, 609 C street, San Rafael, \$1586; C. W. Ottwell, Claus Spreckels Bldg., San Francisco, \$1593; Call Construction Co., Santa Rosa, \$1730; L. W. Larsen, Route 1, Box 35, Turlock, \$1890. Engineer's estimate, \$1670.

Rocca & Caletti, 609 C street, San Rafael, at \$2274 awarded contract to construct Sebastopol-Cotati bridge. Other bids: D. E. Albers, 473 Ellis street, Santa Rosa, \$2360; Call Construction Co., \$2530; W. L. Proctor, \$2560; L. W. Larsen, \$2494. Engineer's estimate, \$2400.

McIntire & Seefried, 404 Farmers and Merchants' Bank Bldg., Stockton, at \$3290, awarded contract to construct two bridges and one culvert in Pocket Canyon road, other bids: Rocca & Caletti, \$3410; Call Construction Co., \$3640; L. W. Larsen, \$3625; W. L. Proctor, \$3350. Engineer's estimate, \$3500.

SAN FRANCISCO—Union Const. Co., Balfour Bldg., San Francisco, at \$26,132, submits low bid to board of public works to construct plate girder bridge over Six-Eigh Gulch, Hetch Hetchy project. Other bids: J. G. Williams Const. Co., \$27,260; Dyer Bros., \$27,965; Martin J. Lyons, \$28,200; A. W. Kitchen Co., \$37,247.

To construct concrete abutments and piers for above bridge Schlitz Const. Co., 46 Kearny St., San Francisco, was low bidder at \$32,940. Other bids: Martin J. Lyons, \$40,519; General Const. Co., \$41,000; Utah Const. Co., \$40,950; A. W. Kitchen Co., \$40,300.

LOS ANGELES, Cal.—County Bridge Engineer Armstrong authorized to prepare specification for concrete bridge across the mouth of San Gabriel river, at Alamitos bay. It will consist of ten 30-ft. spans and one 42-ft. span, with concrete piles and concrete abutments. The other Alamitos bridge, for which bids are being received August 21, and which spans a portion of Alamitos bay, will be 407 ft. long, 20 ft. wide, and will be a concrete structure on piles, consisting of twelve 30-ft. spans and one 42-ft. span.

SAN LEANDRO, Alameda Co., Alameda Co., Cal.—Charles W. Heyer, Alameda county supervisor, will meet with city trustees of San Leandro regarding the widening of the San Leandro creek bridge; estimated cost, \$35,000.

HOLBROOK, Ariz.—Until 11 A. M., August 7, bids will be received by Navajo county highway commission to construct 3-panel wooden bridge, 45-ft. long, on Winslow-Reservation road, located at John's Draw, 23 miles north of Winslow, involving 5000 ft. bridge lumber in place, 33 cu. yds. rubble masonry buttments. W. J. Hookway, secretary of commission.

IRRIGATION PROJECTS

KLAMATH FALLS, Ore.—U. S. Reclamation Service, Klamath Falls, Ore., will rec. bids up to Aug. 31 to construct 11 miles of canal in the Langell Valley Division of the Klamath Reclamation Project, involv. 130,000 cu. yds. excavation.

KLAMATH FALLS, Ore.—Until August 31, 2 P. M., bids will be received by U. S. Reclamation Service, Klamath Falls, Ore., to construct about 11 miles of main canal, Langwell division, Oregon-California, involving 190,000 cu. yds. of excavation. The work is located about 25 miles east of Klamath Falls, in townships 49 and 41, and ranges 19 and 16. Further information may be had by addressing U. S. Reclamation Service, Klamath Falls, Ore.

OROVILLE, Butte Co., Cal.—George P. Forum Bldg., Sacramento, awarded contract by Reclamation District No. 83 to excavate 80,000 cu. yds. of earth in Section 1 of main drainage canal, at 35 cents cu. yd. Other bids: Dan Bayles, 35 cents cu. yd.; John Phillips, 36½ cents.

EAGLE POINT, Ore.—Until August 10, 10 A. M., bids will be received by Eagle Point Irrigation District for excavating main supply canal and appurtenances involving 180,000 cu. yds. of earthwork, 2-3 of which is machine work. Ralph P. Cowgill, engine in charge.

HOLLISTER, San Benito Co., Cal.—Funds are being raised to finance preliminary engineering data for which the one and one-half mile Tule and Tres Finos creeks for irrigation purposes. A. M. Runnels, 435 San Benito St., Hollister, is interested and will handle legal affairs.

SALEM, Ore.—The \$550,000 bond issue of the Deschutes County Municipal Improvement District, formerly known as the Tumalo Irrigation District, has been certified by the State Irrigation Securities Commission. The district will construct a dam at Crescent Lake reservoir and a feed canal from the Deschutes river to its reservoir, with the present Tumalo canal, providing irrigation for about 15,000 acres. Reclaiming of 7500 acres in the northern section of the district is also contemplated.

OROVILLE, Butte Co., Cal.—Plans to irrigate 8000 acres in the Thermoito and Table Mountain Irrigation Districts have been approved by directors of the districts and will be submitted by the State Bond Commission and State Engineer W. P. McClure for approval. Plans for the 4000 acre in the Table Mountain District call for the west branch of the Feather River, through an impounding dam to be built in the Concow Valley, and transferred from there to the lands by the system of the Pacific Gas and Electric Co. Plans for the Thermoito District call for a joint ownership of the Table Mountain District, and their water is also taken from the Feather River.

MANTECA, San Joaquin Co., Cal.—South San Joaquin Irrigation District will vote, August 22, a special assessment of \$30,000 to finance ditch lining and a drainage program.

LIGHTING SYSTEMS

ORANGE, Cal.—J. G. Robertson Elec. Co., Santa Ana, awarded contract by City Trustees at \$2375 to const. ornamental lighting system, consisting of 15 rein. conc. posts, globes, etc., on N. Pine St. bet. E. Chapman and E. Pine Aves.

PORTERVILLE, Tulare Co., Cal.—Chamber of Commerce backs movement to have electrolite lighting system installed in Main street, bet. Morton and Olive street, cost \$14,900.

MACHINERY

SAN RAFAEL, Marin Co., Cal.—Until Aug. 7, 8 p.m., bids will be rec. by Eugene E. Smith, city clerk, for fuel and del. 1 one-ton truck complete with steel pump body and cab, price not to exceed \$1000 f.o.b. San Rafael.

OAKLAND, Cal.—Union Const. Co., Key Route Fill, Oakland, at approx. \$175,000 awarded contr. by Shell Oil Co. to build 4000-bbl. capacity oil barge.

LOS ANGELES, Cal.—Until 3 P. M., August 11, bids will be received by public service commission, 207 S. Broadway, for one 75-hp. traveling crane. Specification No. P-281. Jas. P. Vroman, secretary.

SAN FRANCISCO, Cal.—Until August 7, 3 P. M., bids will be received by J. S. Dunnigan, clerk, board of supervisors, for transferring body of Winton ambulance No. 2 to new chassis. Proposal blanks will be furnished on application.

LOS ANGELES, Cal.—Until 3 P. M., July 28, bids will be received by public service commission, 207 S. Broadway, for 100 4-inch and 100 3-inch gate valves in accordance with specification 615-D.

Separate bids, same date, for 30 tons big lead, 1 9-b. dept.'s warehouse, 510 East Second Street. Material to be soft enough for caulking in cast iron water pipe. Specification 615-B. Jas. P. Vroman, secretary.

KERMAN, Fresno Co., Cal.—Until August 7, 8 P. M., bids will be received by M. S. Meeker, secretary, Kerman Union High School District, for furnishing one three-fourths in. on motor truck chassis, bevel and pinion gear rear drive; transmission four speeds forward and one reverse; 36x6 pneumatic cord tires front and rear; also bids for one bus body to seat 25 or 30 pupils.

SAN FRANCISCO, Cal.—Until August 7, 3 P. M., bids will be received by Frank T. Kennedy, secretary, Fire Commission, for furnishing 25 double 6-in. hydrants, more or less, complete, and also separate hydrant parts. Proposal blanks on application to secretary, basement, city hall.

BIGGS, Butte Co., Cal.—Until August 4, bids will be received by W. H. Green, clerk, Biggs School District, for furnishing and delivering one school bus; seating capacity, 12 pupils. Further information on request.

VISALIA, Tulare Co., Cal.—Until August 3, 1 P. M., bids will be received by M. O. Bush, clerk, Traver School District, to erect tank tower 18-ft. in height, with galvanized iron tank of 3000 gal. capacity and an 8-ft. air motor windmill, piping and necessary connections to be made with school building, and the installation of toilets, drinking fountains, sinks and other pumping. Certified check for 5 per cent required with each bid.

OAKLAND, Cal.—Playground Commissioners will ask bids immediately for furnishing and delivering approximately \$10,000 worth of grass seed, sprinklers, tools and other materials to complete the municipal golf links near Lake Chabot. Jay Nash, superintendent of commission.

TAFT, Kern Co., Cal.—Midway Gas Co. is planning to erect 960-H.P. 6-unit compressor station in Elk Hills. A similar plant is in course of construction near Santa Fe Springs.

OAKLAND, Cal.—City council, E. K. Sturgis, clerk, appropriates \$12,650 for purchase of 20-in. and 24-in. porton pipe and ball joints; \$6286 for purchase of 20-in. steel shore pipe.

OAKLAND, Cal.—City council, E. K. Sturgis, clerk, appropriates \$2745 for purchase of three auto truck for Street Department.

FRESNO, Fresno Co., Cal.—Frank E. Davis awarded contract at \$1751 for furnishing city one 2½-ton truck and two delivery trucks at \$2500 each.

WHITTIER, Cal.—Crane Co., 319 E. 3rd street, Los Angeles, submitted only bid to city trustees, for fur, pipe and fittings as follows: 1200 ft. 3-in. Matheson 90-ent pipe, at \$23.38 per 100 ft., \$500 ft. 4-in. at \$37.17 per 100 ft., 600 ft. 6-in. pipe at \$61.19 and fittings at \$8.25 per cwt.

OAKLAND, Cal.—Until August 3, 12 M., bids will be received by E. K. Sturgis, city clerk, for furnishing and delivering three 1-ton motor trucks for use of Street Department.

R & E PORTLAND, Ore.—Until August 7, 10 A. M., bids will be received by Multnomah County Commissioners, Chas. H. Rudeen, chairman, for fur, and del. 1400-ft. 1½-in. dia. 6x12 galv. steel wire rope; bidder to specify time of delivery.

OAKLAND, Cal.—Until August 3, 12 M., bids will be rec. by E. K. Sturgis, city clerk, for furnishing small air compressor. Delivery 30 days. Bond of \$100 req. of successful bidder.

OAKLAND, Cal.—Until August 3, 4 P. M., bids will be received by Jay E. Nash, secretary, Playground Commission, 404 City Hall, for furnishing and delivering sand for remainder of fiscal year ending June 30, 1923.

OAKLAND, Cal.—Until August 3, 4 P. M., bids will be received by Jay E. Nash, secretary, Playground Commission, 404 City Hall, for furnishing and delivering hose for remainder of fiscal year ending June 30, 1923.

FIRE EQUIPMENT

MODESTO, Stanislaus Co., Cal.—Fire Chief Geo. E. Wallace recommends to council purchase of two pieces of fire apparatus, \$18,000; fire hose, \$3,000; alarm system, \$1,000; extra equipment, \$2,000 and the erection of two fire stations, \$16,000.

RAILROADS

CALIFORNIA—San Francisco-Sacramento R. R. Hobart Bldg., San Francisco, applies to State R.R. Commission for permit to issue \$200,000 first mortgage 6½ per cent bonds, the proceeds to be used for extensions and division. Harold E. Willis, Sacramento agent of the railroad, assumes a large part of the proceeds would be used for the development and balancing of the roadbed in Yuba and Siskiyou counties. Such development work has been contemplated by the company for some time and some actual work has been going on.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

SACRAMENTO, Cal.—Until August 24, 9 P. M., bids will be received by H. G. Denton, city clerk, to construct the rapid sand filtration plant and appurtenances, being the filtration plant portion of the pumping and filtration works of the City of Sacramento, comprising the construction, complete, of sedimentation and coagulation basins having an aggregate capacity of approximately 10,500,000 gals.; eight rapid sand filters of concrete, having a nominal capacity of 32,000,000 gals. a day, a superstructure over the operating gallery of the filters, a head-house for administration purposes in which there is also a 200,000 gal. elevated steel water tank for filter washing purposes; a concrete pump having a capacity of approximately 200,000 gals., a coagulant building and outside piping, excavation and embankment and roadways and paths. Following are approximate quantities of materials involved in the work: 14,500 cu. yds. concrete; 477 concrete piles; 870 tons of reinforcing material; 17,500 cu. yds. excavation; 6000 cu. yds. of rolled fill; 300,000 cu. yds. of general fill or embankment. In addition to the above features a considerable amount of building construction and mechanical equipment, including cast iron pipe and fittings, gate valves, sluice gates, hydraulic and electrical controlling devices, gauges, conveyors, pulverizers, etc., are involved. Certified check for 6 per cent, payable to City Controller, required with each bid. Plans may be seen at office of city clerk or at office of Filtration Division, or may be had from latter office for \$25, and return of estimated cost of work, \$900,000. George J. Calder is resident engineer for the project.

CALIFORNIA—Following bids received July 24 by State Highway Commissioner to construct 9.9 miles of highway in Mendocino county, between Hopland and El Robles; 9.9 miles to be graded and 2.5 miles to be graveled, involving 62,000 cu. yds. excavation with cut, classification, 350 cu. yds. gravel surface, 80 cu. yds. Class "A" Portland cement concrete (culverts and monuments), 480 lin. ft. 12-in., 32 lin. ft. 15-in., 194 lin. ft. 18-in., 104 lin. ft. 24-in. corrugated metal pipe, 12 mile moving and resetting property fence, 51 monuments. Murdock Bros., Oakland and Ukiah; \$62,283.75. Fredrickson & Shannon, Fresno; \$63,444.90. Bates & Borland, Oakland; \$67,811. Martin J. Lyons, San Francisco; \$69,381.50. Conrad Hansen, Santa Rosa; \$73,733. Grant Smith & Co., San Francisco; \$79,818. Engineer's estimate, \$66,325.50.

CALIFORNIA—Following are approximate quantities for State highway projects, bids for which will be opened by State Highway Commission on August 7:

Los Angeles County: Between Quail Lake and North Boundary, 10.4 miles 3.4 miles to be paved with Portland cement concrete; 6.8 miles to be paved with Portland cement concrete, shoulders and an asphalt wearing surface, and 0.2 miles to be widened with a

Portland cement concrete shoulder, 10,600 sq. yds. Class "A" Portland cement concrete (pavement, shoulders and repairs to existing base), 155 cu. yds. removal of broken concrete in existing base; 11,700 tons asphalt concrete surface.

Ilwaco County: through flanking, 2.9 miles to be graded and paved with Portland cement concrete; 9700 cu. yds. excavation without classification; 2710 cu. yds. Class "A" Portland cement concrete (pavement); 25 cu. yds. Class "A" Portland cement concrete culverts and monuments; 21 monuments.

LOS ANGELES, Cal.—Fairchild-Gilmore-Wilton Co., L. A. Highway Bldg., Los Angeles, awarded a contract by the Board of Public Works at \$34,637.74 to pave Manchester Ave., bet. Vermont and Western Aves., involving 65,043 sq. ft. grading at 4c ft. 65,043 sq. ft. concrete paving at 23c ft. 23,296 sq. ft. rough grading to grade at 9c ft. 2593 ft. curb at 60c ft. 13,151 sq. ft. walk at 19c ft. reinforced concrete curb at 9c ft. 255, sanitary sewer complete, at \$10,995.

Fairchild-Gilmore-Wilton Co., awarded contract at \$18,867.71 to pave Ninth St., bet. Long and Santa Fe Aves., involving 60,741 sq. ft. grading at 4c ft. 22,346 sq. ft. asphalt paving at 27c ft. 38,295 sq. ft. concrete paving at 3c ft. 19,181 sq. ft. grading only at 3c ft. 172 lin. ft. concrete gutter at 12c ft. sanitary sewer complete, \$1200.

SAN RAFAEL, Marin Co., Cal.—S. P. Brownlee, San Rafael, at \$42,250, awarded a contract by City Council to pave with Warrenite, coarse aggregate, various streets.

OXNARD, Cal.—Until 7:30 P. M., August 1, bids will be received by the City Trustees to improve Fifth St., bet. E and F Sts., portions of Enterprise St., B St., A St., by grading and paving with 5-in. concrete surface, base with 4-in. cement concrete base and 1½-in. asphalt conc. surface, part with 4-in. bit. base and asphalt conc. surface, constructing cement curbs, gutters, walks, and sidewalks of iron and concrete culverts; 1911 Act. Samuel G. Bennett, City Engineer.

BREA, Cal.—Following bids were received by the City Trustees to pave streets: Geo. H. Oswald, Los Angeles, \$126,235; Southwest Paving Co., Los Angeles, \$128,563; Geo. B. Curtis, Los Angeles, \$135,487; S. C. Pine, Santa Ana, \$135,950; L. A. Paving Co., Los Angeles, \$144,127; Braun, Bryant & Austin, Santa Monica, \$148,018; Fairchild-Gilmore-Wilton Co., Los Angeles, \$149,274. Bids taken under administration by G. A. Schwabland, special engineer in charge of the work. Contract involves 78,800 sq. ft. 4-in. asphalt paving at 25c sq. ft. 225,000 sq. ft. asphalt resurfacing; 212,000 sq. ft. 6-in. asphalt concrete paving; 1,044,000 sq. ft. grading and oiling.

SAN PABLO, Contra Costa Co., Cal.—Directors of San Pablo Sanitary Dist., declare intention to construct 6-in. vitrified sewers in Gertrude Ave., bet. Cherry and York Sts.; Alhambra, 3rd, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th, 101st, 102nd, 103rd, 104th, 105th, 106th, 107th, 108th, 109th, 110th, 111th, 112th, 113th, 114th, 115th, 116th, 117th, 118th, 119th, 120th, 121st, 122nd, 123rd, 124th, 125th, 126th, 127th, 128th, 129th, 130th, 131st, 132nd, 133rd, 134th, 135th, 136th, 137th, 138th, 139th, 140th, 141st, 142nd, 143rd, 144th, 145th, 146th, 147th, 148th, 149th, 150th, 151st, 152nd, 153rd, 154th, 155th, 156th, 157th, 158th, 159th, 160th, 161st, 162nd, 163rd, 164th, 165th, 166th, 167th, 168th, 169th, 170th, 171st, 172nd, 173rd, 174th, 175th, 176th, 177th, 178th, 179th, 180th, 181st, 182nd, 183rd, 184th, 185th, 186th, 187th, 188th, 189th, 190th, 191st, 192nd, 193rd, 194th, 195th, 196th, 197th, 198th, 199th, 200th, 201st, 202nd, 203rd, 204th, 205th, 206th, 207th, 208th, 209th, 210th, 211st, 212nd, 213th, 214th, 215th, 216th, 217th, 218th, 219th, 220th, 221st, 222nd, 223rd, 224th, 225th, 226th, 227th, 228th, 229th, 230th, 231st, 232nd, 233rd, 234th, 235th, 236th, 237th, 238th, 239th, 240th, 241st, 242nd, 243rd, 244th, 245th, 246th, 247th, 248th, 249th, 250th, 251st, 252nd, 253rd, 254th, 255th, 256th, 257th, 258th, 259th, 260th, 261st, 262nd, 263rd, 264th, 265th, 266th, 267th, 268th, 269th, 270th, 271st, 272nd, 273rd, 274th, 275th, 276th, 277th, 278th, 279th, 280th, 281st, 282nd, 283rd, 284th, 285th, 286th, 287th, 288th, 289th, 290th, 291st, 292nd, 293rd, 294th, 295th, 296th, 297th, 298th, 299th, 300th, 301st, 302nd, 303rd, 304th, 305th, 306th, 307th, 308th, 309th, 310th, 311st, 312nd, 313th, 314th, 315th, 316th, 317th, 318th, 319th, 320th, 321st, 322nd, 323rd, 324th, 325th, 326th, 327th, 328th, 329th, 330th, 331st, 332nd, 333rd, 334th, 335th, 336th, 337th, 338th, 339th, 340th, 341st, 342nd, 343rd, 344th, 345th, 346th, 347th, 348th, 349th, 350th, 351st, 352nd, 353rd, 354th, 355th, 356th, 357th, 358th, 359th, 360th, 361st, 362nd, 363rd, 364th, 365th, 366th, 367th, 368th, 369th, 370th, 371st, 372nd, 373rd, 374th, 375th, 376th, 377th, 378th, 379th, 380th, 381st, 382nd, 383rd, 384th, 385th, 386th, 387th, 388th, 389th, 390th, 391st, 392nd, 393rd, 394th, 395th, 396th, 397th, 398th, 399th, 400th, 401st, 402nd, 403rd, 404th, 405th, 406th, 407th, 408th, 409th, 410th, 411st, 412nd, 413th, 414th, 415th, 416th, 417th, 418th, 419th, 420th, 421st, 422nd, 423rd, 424th, 425th, 426th, 427th, 428th, 429th, 430th, 431st, 432nd, 433rd, 434th, 435th, 436th, 437th, 438th, 439th, 440th, 441st, 442nd, 443rd, 444th, 445th, 446th, 447th, 448th, 449th, 450th, 451st, 452nd, 453rd, 454th, 455th, 456th, 457th, 458th, 459th, 460th, 461st, 462nd, SACRAMENTO ARCHITECTS' CLUB TO FEATURE HOMES DISPLAY

The successful launching of an architects and engineers' club in Sacramento which expects to establish headquarters in clubrooms to be fitted up on the second floor of the Meister Building, 912 Ninth St., has given new impetus to the Complete Homes Display which it is proposed to install in the same building when remodeling is completed.

The club hopes to become headquarters for architectural and engineering information and a place where lectures by local leaders of the profession and by men sent out by the University of California Extension Department may be given during the fall and winter months. A secondary consideration will be the social activities planned to bring about a better fellowship among the members. Some 50 members already have been secured, and it is hoped to increase this number to 400.

Along with the club, but under a separate management, will be installed on the same floor a building and material exhibit in which will be displayed local products going into the construction of homes, building materials and fixtures of all kinds.

The purpose of the display is declared to be an illustration of various types of homes and home furnishings at standard schedules of cost and in a manner so practical as to prove a sound and dependable guide to prospective home owners. It is hoped the display may be so attractive as to inspire the desire for home ownership and convince visitors of the financial feasibility of home ownership.

INCREASING PRICES OF BUILDING MATERIALS MAY CHECK NATIONAL- WIDE BUILDING BOOM

Officials at Washington, D. C., are giving close attention to a rising market in prices of building materials to determine whether it is a result of increased demand or manipulation by dealers.

Increasing prices of materials have a tendency to check the national-wide building boom now in full swing and which is expected to bring about the construction this year of at least \$6,000,000,000 worth of new homes, apartments and office buildings. Should this boom continue throughout 1922 it would make a big dent in the nationwide housing shortage and tend to reduce high rental levels.

The level of wholesale prices of building materials rose 4 per cent during June, according to an announcement just made by the Department of Labor. The department constructs an index of prices based on monthly reports from many sections of the United States and dealing with brick, lumber, steel and other principal building materials.

The wholesale price level of principal materials is approximately 67 per cent above the pre-war level, the official reports show. In March it was down to 55 per cent above 1913, while a year ago it stood at 63 per cent. The level has been subject to violent fluctuations for more than a year.

The present building boom began to develop late in the summer of 1921. It has been growing steadily more pronounced for more than ten months. Contracts for new building are being made at the rate of approximately \$500,000,000 worth a month, it is indicated in reports to the Federal Reserve Board.

In practically every section of the country building is going on at a rate heretofore unknown. In some localities not enough workmen can be obtained to carry out contracts entered into between builders and those planning homes.

Government officials understand, they say, that the present rapid increase in building would have a tendency to boost prices of materials according to the law of supply and demand. But they are not convinced that the present rapid rise in wholesale prices of materials is due entirely to increased demand. There is a suspicion that in some instances prices have been manipulated deliberately. Should evidence be discovered to support this suspicion, anti-trust proceedings may be undertaken, officials warn.

STOCKTON BUILDERS' EXCHANGE WANTS CITY HALL AND AUDI- TORIUM LIT IN TWO CONTRACTS

The Stockton Builders' Exchange, represented by a committee composed of E. H. Riley, O. H. Chain and W. F. O'Keefe, at a recent meeting of the Stockton city council, urged that body to let contracts for the proposed auditorium and city hall buildings as a whole and not through the segregated contract system. The contention of the committee is that the city will save money by having a contract figure available covering all construction before actual work starts. It was fur-

ther contended that money would likely be lost if the work is divided into small contracts issued at various times or shortly before actual construction of that portion of the work is started. Segregated contracts for heating, electric work or plumbing, however, were agreed to by the Exchange committee. As no report was available from the architects who are completing plans for the city hall and auditorium structures no action was taken by the council.

S. F. BUILDERS' EXCHANGE VOTES FOR PERMIT SYSTEM

The American shop permit plan will continue to receive the support of the San Francisco Builders' Exchange. A formal motion to abolish the system was overwhelmingly defeated August 1 at a mass meeting attended by 1300 members of the exchange.

The meeting was called at the request of fifty members, who declared themselves in favor of securing a vote of the membership, as a result of the recent conspiracy in restraint of trade charges preferred against local building supplies contractors at the instigation of the Building Trades Council.

After a forty-minute discussion of the advantages of the American plan, during which only two members spoke against it, the debate was closed and a roll call was ordered by President William H. George. When thirty-eight votes had been recorded, with only one in favor of abandonment, the members insisted upon an oral vote. The result was a unanimous decision in favor of continuing the present system.

SAN FRANCISCO BUILDING FOR JULY TOTALS \$3,024,036

Building operations in San Francisco for the month of July, just closed, total \$3,024,036, according to the monthly report of John P. Horgan, chief inspector of buildings of the board of public works. During the month a total of 595 building permits were issued.

The figures for the past month, compared with the corresponding period for 1921, show a gain of \$2,023,796 and losses of \$969,684 for April, \$1,353,936 for May and \$312,665 for June of this year. The number of permits also show a loss. In April of this year 766 permits were issued; in May, 786 and in June, 648.

The following is a tabulated report of the activities for the month of July, just closed:

Class.	No. Permits.	Est. Cost.
A	1	\$50,000
C	22	727,550
Frames	190	1,105,336
Alterations	381	264,785
Harbor buildings	1	76,365
Total	595	\$3,024,036

Fire loss adjustments made by insurance companies in the United States and Canada during the past fourteen years amounted to \$3,410,752,600. The average yearly loss was \$243,625,200. The loss for 1920 was \$330,853,925.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

ALONG THE LINE

The effect of the coal shortage on industrial operations, already noticeable in reports from New York stating that some of the large steel mills will probably have to shut down unless the coal strike is settled within the next few weeks, is also being felt by the cement industry and the difficulty of obtaining coal has caused a number of plants to cease operations for the time being. A statement issued by the Portland Cement Association in Chicago points out that the cement industry is the fourth largest consumer of coal in the country, over seven million tons being consumed at cement mills every year. Many of the mills have been having difficulty in securing coal for some time. With the regular source of supply shut off by the strike the mills have been forced to secure coal from more distant mines, at higher prices and a longer haul. As many of these sources are now cut off the situation has become acute, and unless the strike adjusts itself in a few weeks more of the plants will be closed or operated on part time.

Coming at a time when the country is experiencing one of the greatest building booms in its history, a shortage of cement would have a serious effect on every class of construction operation. As cement enters into practically every building that is erected the cutting off of the cement supply through the coal strike would tie up many of the building projects. A similar effect would be felt by the road construction industry, as cement is used in a large majority of highway programs.

In addition to the coal strike, the railroad strike has a direct effect on the cement supply. The equivalent of 377,000 box cars of 50-ton capacity each were required to haul last year's cement output to the consumer, and if the strike ties up transportation it will be impossible to get the cement shipped to the points where it is needed. Incidentally, the textile strike, if it ties up the production of the textile mills, would have a serious effect on the cement industry, as thirty million new cloth sacks are needed every year by the cement mills. These sacks require an immense amount of cloth—the strips 36 inches wide and over 17,000 miles long—and if the mills were unable to supply the cloth for sacks it would be a difficult matter to handle the cement orders.

The California Marble Co. of San Francisco has been permitted by the State Corporation Department to sell 10 shares of its capital stock to Louis Bartlett in exchange for legal services; 120 shares of preferred and 120 shares of common capital stock to Jonathan E. Webb in exchange for \$12,000 cash, and to sell 40 shares of preferred and 20 shares of common in units of one share of preferred and one-half share of common at \$100 per unit. The shares issued to Bartlett and the shares issued to Webb are to be escrowed.

Persons who subscribe funds for building projects must expect to pay. This is the ruling of the court in a suit brought by Mercy Hospital, a corporation of Merced, Calif., against O. Klehman to compel payment on a subscription to a \$50,000 fund for erection of a hospital building. The suit was a test case to determine the responsibility of those who had subscribed for stock as it is necessary that all money shall be paid in before the project is started.

Building permits issued in Sacramento during the month of July totaled \$367,858, according to Ben H. Covell, building inspector. During the month permits were granted for 34 month permits, costing \$127,630, one-story dwellings, costing \$127,630, and four one-family buildings, two stories in height, costing \$33,050. The totals of the past month show an increase of \$184,441 over the same period for the year 1921. During the past six months 1872 permits were granted having a total valuation of \$5,571,181.

Geneva Watson has rented quarters at 910 Ninth St., Sacramento, and will maintain a permanent building exhibit. All types of building materials will be on display and attendants will be available at all times to assist the visitor. The exhibit will be known as the Sacramento Builders' Free Exhibit and will open August 15.

The Decora Manufacturing Co. of Richmond, organized for the purpose of acquiring from its two incorporators the business heretofore conducted by them for the manufacture of patented air brushes, air brush equipment and the sale of paints, varnishes, etc., is permitted by the State Corporation Department to issue 500 shares of its capital stock, par value \$100, for the assets of the business and to sell 250 shares to its incorporators at par for cash.

Lal Singh, a native of India and a graduate of the University of California with the class of 1921, will return to the Punjab soon, where he will introduce modern American machinery into the agriculture of that country, building up a new market for the product of American factories as well as improving the life and conditions of his countrymen. Singh has also pursued graduate work in the University of California, receiving the degree of Master of Science in May, 1922.

Frank C. Drum, vice-president of the Mercantile Trust Co., San Francisco, for \$30,000 has purchased ten miles of standard-gauge railroad running from Chowchilla, on the line of the S. P., in Madera county to dairy land on the Chowchilla ranch. The road, known as the Chowchilla Pacific Railway Co., cost \$105,827, and has been operated at a loss. Drum declares he has taken over the road largely for its junk value.

The Spaulding Lumber Co., Porterville, Cal., has sold the property formerly occupied by the Porterville Lumber Company to Leighroy Miller and associates, who plan the erection of a cold storage warehouse. The site runs along the S. P. tracks at the west end of Mill street. Preliminary plans for the structure have already been made.

(Continued on Page 6)

San Francisco will be the headquarters of the Foremost-Engineering Corporation, a power plant equipment manufacturing concern of New York. It is announced by Milton Kraemer, president of the company, who is negotiating with San Francisco engineering interests for the purpose of establishing direct relations with the East in the development of Western irrigation, hydro-electric, water power and industrial projects.

Chico city trustees contemplate purchase of privately-owned water system through a bond issue for \$475,000, of which \$275,000 is to purchase the Chico Water Supply Co. and the remaining \$200,000 for the purchase, if the city sees fit, the Steffen & White water systems, the extensions of mains, etc., in every section of the city.

Richmond Builders' Exchange, L. C. Dexter, secretary, has opened employment office to solve the labor shortage in Contra Costa county. Heretofore it was necessary to call on the Oakland Exchange to send men required for building projects in the Richmond section.

"Storm Sewers Prevent Flooded Streets" is the title of a booklet issued by the W. S. Dickey Clay Mfg. Co. manufacturers of clay products, of Kansas City, Mo.

Col. James S. Scrugham, Nevada State engineer and a member of the Nevada Public Service Commission, has filed his candidacy for the Democratic nomination for Governor of that State.

The California Ice Machine Co. has been incorporated in Oakland with a capital stock of \$75,000. Directors: M. M. Rosenberg, L. Schwartz, F. W. and John Telford.

Porterville Chamber of Commerce backing movement to have electric lighting system installed in Main St., between Morton and Olive; estimated cost, \$14,000.

The National Lumber Manufacturers' Association will spend \$200,000 in advertising urging the use of lumber in the various industries and in construction work.

C. T. Bradley has been named secretary of the Marysville Builders' Exchange, with headquarters at Second and High Sts., Marysville.

The Fresno Builders' Exchange, W. Crouch, secretary, has opened quarters at 2133 Kern St.

Charles M. Sydenstricker, Sacramento contractor, died in that city July 28th.

Plumbers at Sebastopol have organized to improve conditions in the plumbing industry.

PLANS STARTED FOR FRESNO AMUSEMENT PARK

Plans are being prepared in the Fresno office of Ellery, Frost and Patten, San Francisco engineers, for the Green Mill Amusement Park to be constructed in Fresno at a cost of \$350,000.

The site of the project, comprising eighteen acres adjacent to Reeding Park, is just outside the Fresno city limits on the highway. The city electric line and Southern Pacific will be means of transportation.

The main building will cover a ground area of 250 by 125 feet and will be of brick and concrete construction. It will contain a dining room providing accommodations for 750 persons with dance hall, booth surrounding the hall for billiard rooms, rest rooms, children's playrooms, bowling alleys and shower rooms. A large conservatory, 100 by 100 feet, will be constructed connecting the dining hall, this structure to be used for conventions. The interiors of both buildings will be finished in matched lumber. An ice cooling and steam heating system will be installed. An indirect lighting effect, one of the latest revolutionary type will be used. An ice making and cooling plant, a large oil filling station and parking sheds capable of housing 1900 automobiles are included. At the rear of the main building the largest swimming tank in the state will be constructed. Eleven acres of ground have been given over to amusement concessions all of which will be constructed under the personal supervision of Mr. Byron T. Patten in charge of the Fresno office.

PROPERTY IN IRRIGATION DISTRICT HELD TO BE TAXABLE

Property included in an irrigation district, though bid in by the county for delinquent general taxes or by the district for district assessments, continues as taxable property liable for the bonds of the district and must be assessed to the county or the district, which must pay the taxes thereon, the Supreme Court (Olympia, Wash.) held, affirming Judge C. H. Neal in Superior Court of Stevens county in the case of the State ex rel. M. C. Clancy and others versus the Columbia Irrigation District of Stevens county.

In this district, which differs from the usual irrigation district in that much of the property is platted city property, about 50 per cent of the property has been bid in by the county for delinquent taxes, and about 18 per cent by the district for delinquent assessments, leaving only about 32 per cent of the property in private ownership.

Clancy and others as bondholders sought to establish the liability of the entire district for the outstanding bonds, interest on which had not been paid for several years. The court directs that an assessment sufficient to pay all delinquent interest, with added interest for delinquency, be made and that any deficit in interest incurred in the current year be provided for in the second year's levy.

The decision also establishes that both the county and the district as landowners in the district have the same status as private owners with relation to levying assessments against their holdings. The decision of the lower court is modified to the extent that the method of assessment applying at the time the bonds were issued, being the method of valuation by the county assessor for State and county purposes, shall be continued despite later amendment of the assessment law to provide for assessment on irrigation district property in proportion to benefits.

BUILDING COSTS IN SACRAMENTO ARE BELOW AVERAGE

With the exception of lime, building materials in Sacramento are as low or lower than for the average of 52 cities throughout the country. This is according to Government figures for June 1, compiled by the Master Builders' Association.

Reports from these cities throughout the country as compared with Sacramento are as follows:

Commodity Common Brick, unit 1000, average \$15.86, Sacramento \$15.00; Douglas Fir No. 1 2x4x16, 1000 \$33.88; \$34.00; Red Cedar Shingles, 100 sq. ft., \$5.81, \$4.75; Lime, ton, \$18.21, \$29.00; 1-in. Galvanized Steel Pipes, 100 ft., \$9.12, \$9.90; Reinforcement Bars, 100 lbs. \$2.08, \$2.05; Linseed Oil, gal. \$1.02, \$1.05.

Comparing material prices of 1922 with those of 1913 shows that structural steel is the only commodity that is lower today than in 1913. Reinforcing bars are close to the 1913 price. Lath stands third on the list and is followed by window tile and Douglas fir. All other materials are considerably higher.

CLEVELAND BUILDERS TO REVIVE BRICKLAYERS' SCHOOL

The Cleveland Association of Building Trades' Employers has taken steps to revive the bricklayers' apprentice school, which had lapsed during the previous year, and it is expected that classes will be fully established by August 1.

The school will be in charge of a joint committee of employers and union men, with assistance by the public schools. Evening sessions will be held with a paid instructor in general charge, but with assistance from practical bricklayers and mason contractors.

Apprentices will be paid a stipulated percentage of the journeymen's scale and will be advanced every half-year in the following steps:

First half year, 32 per cent; second half year, 36 per cent; third half year, 42 per cent; fourth half year, 48 per cent; fifth half year, 52 per cent; sixth half year, 62 per cent; seventh half year, 70 per cent; eighth half year, 80 per cent.

FIVE BILLION IN ELECTRIC RAILWAYS

Electric railways of the United States and Canada represent an investment of about \$5,000,000,000 and the American Electric Railway Association comprises nearly 600 railway and manufacturing companies, according to executives of the association, which will hold its forty-first annual convention in Chicago, simultaneously with the conventions of its subsidiary organizations, the Engineering, Transportation, Manufacturers, Accountants and Claims Associations, October 2-6.

This will be the first Chicago convention of the association since 1912 when exhibits were displayed at the Union Stock Yards. Large city and interurban passenger cars, motor buses and machinery of various sorts will be exhibited on the municipal pier. The entire south side of the pier, upper level, will be used. Much of this space has already been engaged by exhibitors.

UGES STATE TO ACQUIRE MATERIAL PLANTS

Resolutions adopted by the United Chambers of Commerce of the Sacramento Valley at a meeting in Eureka advocate the acquisition by the California State Highway Commission of "suitable" plants and manufacturing facilities for the production of cement, crushed rock and gravel. The resolution asks that the output of these plants be made available to both State highway projects and to counties.

SONOMA COUNTY ROAD DECISION SUSTAINED

The State Supreme Court has sustained the decision of the First District Court of Appeal which reversed the Sonoma County Board of Supervisors in refusing to issue an injunction to restrain the Sonoma County Supervisors from building the Sebastopol and Freestone road in that county. Cathal O'Farrell, a taxpayer of Sonoma county, brought the suit. The court held supervisors may not pay out the full amount of a specific bond issue for a part of a road when the issue was intended for the entire road.

Decrease Noted in Number Employed in Five Building Trades

W. S. Hays, secretary of the National Federation of Construction Industries has compiled from the census reports of 1910 and 1920 a table showing the number of persons registered in various building crafts in comparison with the number in the automobile industry and other lines. An actual decrease is noted in the number of persons employed in five building trades. Nearly a million of the 11 million building laborers apparently were absorbed by other industries and the army and navy. These statistics reflect some war time conditions which have since been ameliorated or have disappeared but the situation with reference to the building trades is practically the same today as in 1920. Following are the figures compiled by Mr. Hays:

	1910	1920	Increase	Decrease	Pct.
Structural iron-workers	11,427	18,836	7,409		64.5
Boiler makers	44,761	74,088	29,317		65.6
Brick and stone masons	169,402	181,264		38,138	23.6
Electricians	120,244	212,964	92,723		77.2
Carpenters	167,120	887,379	720,259		436.6
Building laborers, general	869,478	628,208		241,270	28.1
Iron and steel laborers	482,941	729,612	246,672		51.2
Automobile laborers	15,783	83,341	67,558		428.0
Petroleum refineries, laborers	11,215	31,795	20,580		188.6
Rubber factories, laborers	13,546	51,467	37,921		280.0
Painters—building	273,411	248,497		25,914	9.5
Paper hangers	47,682	38,255		9,427	19.8
Plumbers	148,304	206,718	58,414		39.4
Roofers and slaters	14,078	11,378		2,700	19.2
Paint and varnish factories	3,926	5,521	1,601		40.8
Elevator tenders (male)	25,035	33,376	8,341		33.4
Janitors (male)	91,629	149,596	57,967		63.6
Soldiers, sailors, marines	77,153	225,503	148,350		192.3
R. R. boiler washers	10,409	14,806			143.0
Waiters	188,293	228,985	40,692		21.6
Chauffeurs	45,786	88,545	42,759		93.4
Population	91,972,266	105,710,626	13,737,360		15.0

IMPROVED HIGHWAYS ESSENTIAL FOR TRUCK TRANSPORTATION.

Truck transportation competition with railroads has resulted in an interesting development in England. One northwestern English railroad operates over 350 trucks, and the experience of railroads generally in England illustrates the fact that urban and interurban street car lines, as well as steam railroads, may greatly extend their traction systems by means of connecting bus lines. The Great North of Scotland Railroad operates fourteen bus and truck lines as feeders. The English appreciate the value of bus service to points of scenic interest not on the rail lines.

The development of these highway feeders raises the interesting problem as to what agency shall construct and maintain the necessary highways. The rail lines are purchased, constructed and maintained by the railroad companies, but the construction and maintenance of highways is up to the people. Obviously there should be an adequate charge leveled against private persons or corporations using the highways for profit. The California Real Estate Association is advocating an initiative measure to be on the ballot at the November election, placing such buses and trucks under the State Railroad Commission for regulation and assessing a 2 per cent tax on gross receipts. No one presumes that 2 per cent represents a proper charge, but the passage of the law will establish the principle and future adjustments can be made in establishing the proper rate for the use of highways.

Commercial highway transportation is here to stay, providing the highways stay. The highways will stay if they are not overloaded and abused beyond their strength and beyond the financial ability of public agencies to maintain them. If the use of present highways is not limited to the weight of traffic that they were built to carry, they will break down, and with them will vanish the transportation that is dependent upon their integrity.

It would seem, therefore, that truck associations should work for adoption of such weight limits and speed regulations as would protect existing highways until they can be brought up to a heavier standard instead of attempting to secure the highest possible maximum weight and the lowest possible license fee. Most truck associations' arguments look to the load and rate of speed from a standpoint of cheapness of freight and passenger rates only, ignoring the fact that their ability to transport at all depends upon the existence of the highway over which they travel.

RAILROAD COMMISSION DENIES REQUEST OF FERRY COMPANY TO MODIFY FINANCING PLANS

The State Railroad Commission has refused the request of the San Francisco-Richmond Ferry Company to modify its financing plans for acquiring two ferry boats, slips and other facilities.

The company desired to issue \$350,000 of its common stock instead of \$800,000, as previously authorized and in addition to permitted to create a serial equipment trust and to issue 7 per cent trust notes or create a bond issue to pay for its two steel ferry boats, to cost approximately \$300,000.

The commission held that not until the company had sold enough stock to cover the cost of acquiring and constructing terminal facilities and to build at least one boat would further consideration be given to the issue and sale of equipment trust certificates or bonds by the applicant.

ECONOMIC FORCES TENDING TO CHECK UP-TURN IN MATERIAL PRICES

Economic forces tending to check the recent up-turn in building material prices are apparently operative throughout the country, according to the current Dow Service "Daily Building Reports."

Recent observation of building material policies and tactics of distributors of building equipment interests in New York and vicinity have led to the conclusion that the price peak in the building material equipment market as a whole had been reached and, indeed, was actually on the down grade in some lines.

Artificial stimulation of the building material market invariably results in price reaction, and this attempt at market stimulation seems to have been practiced in many parts of the country since the first of the year, although some lines actually show a demand near to, if not in excess, of prospective supply. The result is revealed in the recent tabulation made by the Bureau of Labor statistics of the Department of Commerce.

While the comparison dates back to 1913, the center of interest lies in the turn of national building materials price movement during recent months. The materials prices are based on the revised index numbers with the average monthly prices in 1913 as 100.

	All building materials	Lumber	Brick
1913—Average	100	100	100
1914	92	92	99
1915	94	89	99
1916	120	102	108
1917	157	135	132
1918	172	155	170
1919	201	210	206
1920	264	307	279
1921	165	163	232
1922 (January)	157	166	204
(February)	156	165	202
(March)	155	164	200

HALF MILLION DOLLARS FOR OAKLAND STREET WORK

More than half a million dollars was expended by the Oakland street department during the fiscal year 1921-1922. The exact figure is \$532,169, of which street cleaning was the largest item—\$30,312 for cleaning macadam roads and \$78,040 for cleaning asphalt streets.

The report on the department expenditures was compiled by W. W. Harmon, city engineer, for use of the city council in fixing the budget appropriations for 1922-23.

Following are the expenditures of the department in detail: Stores, \$1465; equipment, \$15,126; land, \$1028; administration, \$41,024; inspection and labor, \$19,279; other administration, \$18,403; permanent paving repair, \$6041; macadam repairs, \$8848; oil street repair, \$66,619; repairing curbs, \$11,125; crosswalks, \$17,251; street signs, \$3994; fountains, \$708; sprinkling, \$3550; oiling, \$3098; roads, \$51,850; traffic signs, \$4649; scarifying, \$4640; cleaning asphalt, \$78,040; cleaning macadam, \$30,312; sewers, \$32,855; and outside work, \$48,371.

FOREST SERVICE EMPLOYS NOTED LANDSCAPE ENGINEER

Doctor Frank A. Waugh, professor of landscape engineering at the Massachusetts Agricultural College, Amherst, Mass., has been appointed recreation engineer in the forest service. Dr. Waugh, a noted author and one of the leading landscape architects of this country, will spend the summer formulating plans for the development of public camp grounds and summer home sites in the National Forests of

Colorado, Wyoming, Utah, Idaho and other Western States. This study is a part of the established plan of the Forest Service, United States Department of Agriculture, toward providing adequate camp and sanitation facilities for the five and one-half million people who yearly seek rest, health and enjoyment in our national forests.

The Observer.

(Continued from Page 4)

Dennis & Wilson, sub-contractors on the Hetch Hetchy aqueduct tunnel at Priest's Portal and the Big Creek shaft have been released from their contract and the work will be completed by the Construction Company of North America, the original contractors, according to advices from Groveland, Calif.

George Pollock Company, Forum Bldg., Sacramento, awarded contract by Reclamation District No. 335, Butte county, to excavate 80,000 cubic yards of earth in Section 1 of the main drainage canal on a bid of 35 cents a cubic yard. This contract completes excavation work planned by the district.

Herndon & Finnegan, Sacramento contractors, have purchased land in Sixteenth St., just outside the Sacramento city limits, and will erect a planing mill. The contractors will operate under the name of the Central Planing Mill.

Building operations in seven cities of the Pacific Coast for the first six months of this year are summed up as follows: Los Angeles, \$59,459,250; San Francisco, \$23,356,707; Portland, Ore., \$12,866,140; Oakland, \$12,154,604; Seattle, Wash., \$10,376,740; Long Beach, \$8,178,582; San Diego, \$5,022,654.

The California Planing Mill has commenced operations at 130 South Montgomery St., San Jose. The mill will be operated under a partnership between Raymond Buckingham and Andrew M. Smith.

Building permits issued by the Alameda city building department for the month of July totaled 60, with an estimated valuation of \$97,337, of which \$84,127 was for new buildings.

G. E. Miller & Co., investment bankers of Portland and Seattle, announce the opening of two branches in California. George H. McKaig will have charge of the San Francisco office. The office in Los Angeles will be in charge of C. E. Klefner as manager.

The largest logging camp in California, planned to house 1000 persons, including 100 families, and laid out along the lines of the most modern city planning, is that just completed by the Weed Lumber Co. on Antelope Creek, 40 miles east of Weed, Siskiyou county.

The Vallejo-Steiger Brick Plant at Vallejo has commenced operations. The first brick were turned out at the rate of forty-two per minute. The plant working full shifts will turn out 30,000 brick a day.

Palo Alto, Calif., building permits for July, \$94,844. From January to July 31, total is \$1,031,540.

Berkeley building totals for July, \$27,250 as against a total of \$161,769 for the month of July 1921.

APARTMENT HOUSES

Contract Awarded.
APARTMENTS. Cost, \$11,000
OAKLAND. SW. 10th St. and Telegraph Ave.
Three-story frame store and apartment building.
Owner—George Hoffschneider, 523 11st St., Oakland.
Architect—None.
Contractor—C. C. Williams, 1521 Franklin, Oakland.

Preliminary Plans Being Prepared.
APARTMENT HOUSE. Cost, \$—
SAN FRANCISCO. Broadway between Octavia and Laguna, 68-9 & 137-6.
Class "A" Community Apartment House building, 14 apartments.
Owner—Withheld.
Architect—Frederick W. Qandt, Monadnock Bldg., San Francisco.

Plans Complete—To Be Done by Day's Work.
APARTMENT HOUSE. Cost, \$10,000
SAN FRANCISCO. SE. Filbert and Divisadero.
Three-story frame and plaster apartment house, 55x100 (81x 6-room apartments).
Owner—Carl Jorgensen, 604 Mission St., San Francisco.
Architect—H. C. Baumann, 251 Kearny St., San Francisco.
Sub-figures will be taken by the owner.

Contract Awarded.
APARTMENT HOUSE. Cost, \$27,500
OAKLAND. W. Telegraph Ave. 45 S. 38th Street.
Two-story hollow tile apartment house.
Owner—Percy and R. M. Robins, 3125 High St., Oakland.
Architect—None.
Contractor—Alex C. Wiehen, 839 Rosemount, Oakland.

Bids to Be Taken in Two Days For Carpentry and Mill Work and Plastering.
APARTMENTS. Cost, \$100,000
SAN FRANCISCO. SW. Geary and Jones Streets.
Six-story and basement Class C steel and reinforced concrete store and apartment house (35 2 and 3-room apartments and 4 stores).
Owner—S. & G. Gump Realty Co.
Architect—Milton Latham, 452 Montgomery St., San Francisco.

Bids Wanted for Plastering, Electrical and Mill Work, Hardwood Floors, Brick Fireplaces and Painting.
APARTMENTS. Cost, \$40,000
SAN FRANCISCO. N. Sacramento 161 W. Franklin.
Three-story and basement frame and stucco (6) apartments.
Owner—Milton Latham.
Architect—Milton Latham, 454 Montgomery St., San Francisco.

Contract Awarded.
APARTMENTS. Cost, \$200,000
SAN FRANCISCO. SW. Hyde and Greenwich Streets.
Ten-story and basement Class A reinforced concrete apartment house (18 5 and 6-room apartments).
Owner—O. B. Martin.
Architect—C. A. Muesdorffer, Humboldt Bldg., San Francisco.
Contractor—R. McLean Co., Hearst Bldg., San Francisco.

Contract Awarded.
APARTMENTS. Cost, \$14,500
SAN FRANCISCO. N. Oak 105 E. Steiner.
Two-story and basement frame seven apartments.

Owner—C. S. Gallo, 918 Market St., San Francisco.
Architect—Wm. Beasley, 248 Market St., San Francisco.
Contractor—Pharhat Co., Olympic Club San Francisco.

Contract Awarded. Cost, \$15,950
SAN JOSE. Santa Clara Co., Cal.
Two-story frame and stucco apartment house.
Owner—Mrs. Rose M. Carter and Lily B. Carter, 619 Bryant, Palo Alto.
Architect—None.
Contractor—H. A. Spren, 497 Mathilda Ave., Sunnyvale.

Contract Awarded. Cost, \$11,000 each
APTS. & GARAGES.
OAKLAND. Cal. S. 12d St. 160 and 210 W. Telegraph Ave.
Two-story 16-room frame apartment bldgs. and garages.
Owner—John Paley.
Contractor—California Builders' Co., 1534 Franklin St., Oakland.

Contract Awarded. Cost, \$10,000 each
APTS. & 2 GARAGES.
OAKLAND. Cal. N. 33d St. 110 and 160 W. Telegraph Ave.
Two-story 12-room frame apartment bldg. and 2 garages.
Owner—J. Norris, 123 Hill Lane, Oakland.
Contractor—Calif. Builders' Co., 1534 Franklin St., Oakland.

Contract Awarded. Cost, \$85,000
LOS ANGELES. Los Angeles Co., Cal.
Westmoreland Ave. bet. Seventh and Woodward Aves.
Three-story and basement frame and plaster apartment house (91 rooms, 44 apts.).
Owner—Lizie Saks.
Architect & Contractor—Gregory L. Evans, 2320 Ocean View Ave., Los Angeles.

To Be Done by Day's Work.
APARTMENTS. Cost, \$30,000
SAN FRANCISCO. N. Washington 170-6 W. Franklin St.
Three-story and basement frame (9) apartments.
Owner—H. C. Keenan, 300 Webster St., San Francisco.

BANKS

Contract Awarded. Cost, \$20,000
BANK BLDG.
OAKLAND. E. Fruitvale Av. 75 S. Hopkins.
One-story reinforced concrete bank building.
Owner—American Bank, 16th and San Pablo Aves., Oakland.
Architect—Edw. T. Foulkes, Crocker Bldg., San Francisco.
Contractor—E. W. Maurice, 505 E. 22nd St., Oakland.

Plans Being Figured. Cost, \$—
BANK BLDG.
WHITTIER. Los Angeles Co., Cal.
Two-story and basement Class "A" bank bldg., 70 x 76 (designed for eight stories).
Owner—First National Bank.
Architects—John and Donald B. Parkinson, Title Insurance Bldg., Los Angeles.
Day's work.

SAN FRANCISCO.—The P. J. Walker Co., Monadnock Bldg., has awarded contracts as follows in connection with the construction of a seven-story class "A" bank building now and to be constructed on the northwest corner of Battery and Sacramento Sts. for the Federal Reserve Bank of San Francisco

George W. Kellham, Sherrin Bldg., San Francisco, is the architect.

Interior and exterior ornamental California Artistic Metal & Wire Co., 351 7th St., \$62,800
Heating and ventilating system to Jay A. Nelson, 517 6th St., \$12,950

LOS ANGELES. Los Angeles Co., Cal.—Los Angeles Building & Contracting Co., Marsh-Strong Bldg., has been awarded a contract at about \$170,000 for erecting three new bank, store and apartment buildings, for Security Trust & Savings Bank; John Parkinson & Donald B. Parkinson, 120 Title Insurance Bldg., architects. They include a 2-story bldg., 65x110 ft. at 4th St. and Oxford Ave.; 2-story bldg., 164x135 ft., at s. w. cor. of Pico and Alvarado Sts.; and a 2-story bldg., 60x110 ft. at n. w. cor. of Vermont and Santa Barbara Aves.—Brick construction, press brick and terra cotta facing, plate glass windows, steel beams, copper cash, comp. rig, pine trim, hardwood, pine and eum. fls., wall beds, tiled baths, gas radi., water, hrs., marble and tile work, bank fixtures, reinf. conc. vaults.

BONDS

FULLERTON. Cal.—A \$245,000 bond issue proposed by city council provides for \$130,000 for street paving.

COVINA. Cal.—A bond election will be held August 26 to vote \$12,000 for a swimming pool in the city park.

HAYWARD. Alameda Co., Cal.—August 22 is date set to vote bonds of \$8000 in Independent School District; proceeds to finance school improvements. Trustees of district are: Conrad Roth, E. C. Nelson and C. F. Roberts.

YUKIAH. Mendocino Co., Cal.—Bond election will be held August 22 in Round Valley Union School District to vote \$10,000 for a new school building. Trustees of district are: Dan English, Dave Johnson, George Woods and J. H. Rohrbaugh.

STOCKTON. San Joaquin Co., Cal.—Election will be held August 21 in Henderson School District to vote bonds of \$10,000 to finance school improvements. Trustees of district are: H. T. Bailey, T. H. Eckman, Wm. Merrill.

MODESTO. Stanislaus Co., Cal.—August 29 date set in Roberts Ferry School District to vote bonds of \$18,000 to finance construction of school. Previous election failed to carry.

OAKDALE. Stanislaus Co., Cal.—Election to vote bonds of \$35,000 to finance construction of municipal hospital failed to carry.

CHURCHES

Plans Being Figured—Bids Close Aug. 5, 1922, 4 P. M.

HALL BLDG. Cost, \$—
SAN JOSE. Santa Clara Co., Cal. Corner River and San Fernando Sts. Frame hall building.
Owner—Holy Family Church.
Architect—Chas. S. McKinnis, Bank of San Jose Bldg., San Jose.

See Call for bids under official proposals.

Plans Being Figured
ADDITION
SAN JOSE. Santa Clara Co., Cal. S. 3d St. and San Antonio

Marble and stucco addition to synagogue.

Owner—Jewish Synagogue.
Architect—Binder & Curtis, Binder Bldg., San Jose.

Bids Opened and Taken Under Advice-ment.

AUDITORIUM. Cost, \$80,000
SAN JOSE, Santa Clara Co., Cal. 5th St. near Santa Clara.
One-story reinforced concrete building (auditorium).
Owner—Christian Assembly.
Architect—Binder & Curtis, 255 1/2 S. 1st St., San Jose.

General Contract
Frank Edmans, 143 N. 5th St., San Jose.....\$53,750
R. O. Summers, San Jose.....65,989
Morrise Bros., Santa Clara.....74,889
C. L. Weld Co., San Francisco.....77,700

Heating
P. J. Enright, S. F.....\$831.00
J. E. O'Mara, S. F.....\$877.00
Scott Co., S. F.....\$645.00
W. K. Nottingham, Oakland.....\$888.88
Turner Co., S. F.....\$960.00
C. M. Moening, San Jose.....10,972.00
Bids for the gravel, cement, hard-ware, sheet metal and plumbing have been taken by the owners.

Plans to Be Ready for Figures in About Ten Days.

CHURCH. Cost, \$125,000
SAN FRANCISCO. 13th Ave. and Clement.

One-story and basement reinforced concrete church.
Owner—Fourth Church of Christ Scientist.

Architect—Carl Werner, Humboldt Bank Bldg., San Francisco.

FACTORIES & WAREHOUSES

Contract Awarded. Cost, \$180,000
MFG. PLANT.
TURLOCK, Stanislaus Co., Cal. South First Street.

One-story and mezzanine and four-story brick and reinforced concrete alcohol and vinager plant.

Owner—Hunt-Jewett-Hontz Co.
Designer & Contractor—Oscar Krenz Copper & Brass Works, 812 Bryant St., San Francisco.

Construction will be started in about thirty days when sub-figures will be taken. The machinery will cost about \$275,000.

Plans Being Figured. Cost, \$15,000
STABLE.
OAKLAND, Alameda Co., Cal. E-14th St. and 27th Ave.

One-story brick stable.
Owner—Little Sisters of the Poor.

Architect—Leo J. Devlin, Pacific Bldg., San Francisco.

Plans to Be Prepared. Cost, \$—
SAN FRANCISCO. Fifth and Clementina Streets.

Two-story reinforced concrete building. 75x275.

Owner—Louis R. Lurie, Flatiron Bldg., San Francisco.

Architect—Not Selected.

Preliminary Plans Being Prepared.

ICE PLANT, ETC. Cost, \$200,000
LOS ANGELES, Los Angeles Co., Cal. NW Boy and San Pedro Sts.

Two and three-story and basement reinforced concrete and brick Class A milk bottling and ice plant, 60x150.

Owner—Consumers Milk Co.

Architect & Engineer—Truesdell, Purinton & Newton, 304 San Fernando Bldg., Los Angeles.

Contract Awarded. Cost, \$75,000
WAREHOUSE.
LOS ANGELES, Los Angeles Co., Cal. NW Boy and San Pedro Sts.

Four-story Class A reinforced concrete warehouse.

Owner—Illinois Electric Co.
Architect—Noerenberg & Johnson, 401 Los Angeles Railway Bldg., Los Angeles.

Contract Awarded. Cost, \$120,000
LOFT BLDG.
LOS ANGELES, Los Angeles Co., Cal.—Ninth St. and Santa Fe Ave.

Five-story reinforced concrete loft building, 87x140.

Owner—Emil Brown, 714 E-9th St., Los Angeles.
Architect & Contractor, John M. Cooper Marsh-Strong Bldg., Los Angeles.

Plans to Be Prepared. Cost, \$—

WAREHOUSE.
SAN FRANCISCO. 19th and Harrison Streets.

One-story reinforced concrete warehouse, 32x200.
Owner—Louis R. Lurie, Flatiron Bldg., San Francisco.

Architect—Not Selected.

Plans to Be Prepared. Cost, \$—

LOFTS.
SAN FRANCISCO. S Folsom 25 E Fifth Street, 75x30.

Two-story reinforced concrete lofts.
Owner—Louis R. Lurie, Flatiron Bldg., San Francisco.

Architect—Not Selected.

Plans to Be Prepared. Cost, \$—

SAN FRANCISCO. Folsom and Fremont Streets.

Two-story reinforced concrete loft building.
Owner—Louis R. Lurie, Flatiron Bldg., San Francisco.

Architect—Not Selected.

Steel Contract Awarded. Cost, \$—

WAREHOUSE, ETC.
OAKLAND, Alameda Co., Cal. E-14th St., adjoining Durant Motor Company's plant.

Brick and concrete administration building, 150x80 and brick warehouse, 200x100.

Owner—Star Motor Co. of California, Norman De Vaux, president; R. C. "Chit" Durant, vice-president; R. H. Mulch, sales manager, and W. B. Straz, controller.

Architect—Owner.
Contractor—T. J. Walker Co., Monadnock Bldg., San Francisco.

The structural steel contract for warehouse has been awarded the California Steel Co., Hobart Bldg., San Francisco, at \$11,331.

Contract Awarded. Cost, \$21,190

SAN FRANCISCO. N Howard W Fifth Street.

One-story steel and concrete factory building.
Owner—James Co.

Architect—M. F. Politeo, First National Bank Bldg., San Francisco.
Contractor—S. Schell, 180 Jessie St., San Francisco.

Contract Awarded. Cost, \$100,000

FOUNDATION.
SAN FRANCISCO. Army and De Haro Streets.

10,000 cu. ft. gas holder foundation.
Owner—Pacific Gas & Electric Co., 445 Sutter Street.

Architect—Engineer, Dept. of Owner.
Contractor—H. C. Vensano, 110 Sutter St., San Francisco.

The gas holder will be erected by the Bartlett-Hayward Co. of Baltimore and will cost approximately \$500,000.

Bids to Be Called for About August 15, 1922.

PRINTING PLANT. Cost, \$140,000
SACRAMENTO, Sacramento Co., Cal. N. Ninth and O Streets.

Two-story and basement Class A State printing plant, 160x160 (reinforced concrete walls, metal sash, clay tile roof).

Owner—State of California.
Architect—Geo. B. McDougall, State Architect, Forum Bldg., Sacramento.

Plans Being Figured. Cost, \$—

PRINTING PLANT.
SANTA CLARA, Santa Clara Co., Cal. One-story brick newspaper printing plant building.

Owner—Auzerais Estate.
Lessee—Santa Clara News.
Architect—Wolfe & Higgins, Auzerais Bldg., San Jose.

Revised Plans Completed. Cost, \$120,000

LOFT BLDG.
LOS ANGELES, Los Angeles Co., Cal. N. Ninth and Santee Streets.

Five-story Class A loft building.
Owner—Emil Brown & Co.
Architect—John M. Cooper, 335 Marsh-Strong Bldg., Los Angeles.

Plans Being Prepared—Subfigures to Be Taken Shortly.

WAREHOUSE. Cost, \$125,000
SAN FRANCISCO. Mariposa St. S. of Alabama.

Two-story Class "B" warehouse, 124 by 200.

Owner—R. McLeran Co.
Lessee—Illinois Glass Co.
Architect—R. McLeran Co., Hearst Bldg., San Francisco.

Subfigures will be taken for metal sash, electrical work, steel rolling doors, elevator, plumbing, etc.

LOS ANGELES, Los Angeles Co., Cal.

Los Angeles Railway Co. has prepared plans in its engineering department and is taking bids on general contract by invitation only for a car repair shop to be erected on 54th St. between South Park Ave. and San Pedro St. Brick walls, 54x40 feet, steel columns, and roof trusses, concrete floor, metal skylights, steel sash, steel rolling doors, 100 Durant steel lockers, \$140,000.

LAFAYETTE, Contra Costa Co., Cal.

The Highland Manufacturing Company of Chicago has bought several acres of land near the center of town, on which it proposes to erect twenty or more cottages, besides a large factory. It will engage in the business of assembling automobile accessories and has begun operations by furnishing a beautiful supply of most excellent water. Several wells have already been bored and contractors will begin the erection of the buildings in a short time.

LOS ANGELES, Cal.—Harbor Engineer J. W. Ludlow has been instructed by Los Angeles harbor commission to prepare plans for first transit shed, 850x120 ft., to be built on the new dock for the Union Pacific (Salt Lake route) which are being constructed from the \$2,100,000 fund for widening the main channel at the harbor. The shed will be steel construction.

GUADALUPE, Cal.—Gay Engineering Co., Los Angeles, has the contract at approximately \$100,000 to erect an ice plant at Guadalupe for Turpin Ice Co. of Santa Barbara. Capacity will be 40 tons a day.

ORLAND, Glenn Co., Cal.—California Apricot and Pig Association will construct cannery at Orland to handle the 1923 crop.

MODesto, Stanislaus Co., Cal.—

Geo. E. Wallace, Chief of Fire Department recommends to council immediate construction of two fire stations to cost \$16,000.

FLATS

To Be Done By Day's Work.

FLATS. Cost, \$12,000
SAN FRANCISCO. NW. 4th Ave. and Anza St.

Two-story and basement frame four flats.

Owner—Victor Bjors, 2668 Bryant St., San Francisco.

Architect—None.

Plans Completed. Cost, \$30,000

FLATS.
BERKELEY, Alameda Co., Cal. N. Dwight Way 400 E Telegraph Ave.

Two-story 32-room Class C flats.
Owner—J. P. McTavish, 1160 6th St., Oakland.

Contract Awarded. Cost, \$10,000

FLATS.
OAKLAND, Alameda Co., Cal. W. Valle Vista Ave. 159 N. Elwood.

Two-story 12-room frame flats.

NOTICE TO BIDDERS FOR HEATING SYSTEM

(School Heating System)

Notice is hereby given by the Board of Trustees of Riverview Union High School District that sealed bids will be received at the office of said Board in the High School Building, Antioch, California, up to the hour of one-thirty P. M. August the 7th, 1922, for the furnishing of work, labor and materials to install complete a Steam Boiler and Oil Burner for the High School Building, Antioch, California.

All bids are to be according to plans and specifications, which may be seen at the office of Louis S. Stone, Architect, Belding Building, Stockton, California, during business hours, and at the office of A. V. McFAUL, Clerk of the Board, 625 Railroad Avenue, Pittsburg, California.

All bids must be accompanied by a certified check, for not less than ten per cent of the amount bid, conditioned that the successful bidder shall enter into a contract in accordance with such bid, and file with said High School Board an approved surety company bond within ten days after the acceptance of his bid, which bond shall be conditioned for the faithful fulfillment of the contract entered into and to be for at least fifty per cent of the amount of the contract price for the work to be done.

All bids must be submitted upon forms obtained from the architect. The Board reserves the right to reject any and all bids.

Dated, July 29th, 1922.
By order of the Board of Trustees of Riverview Union High School District.

A. V. McFAUL,
Clerk.

NOTICE TO CONTRACTORS

(Marysville High School Gymnasium)

Notice is hereby given that the undersigned as Trustees of the Marysville Union High School District, Yuba County, Cal., will receive up to the hour of six o'clock P. M. of Thursday August 10th, 1922, sealed bids for the construction of a gymnasium building and boiler room on the southeast corner of Seventh and G streets, Marysville, Cal., all to be in accordance with the plans and specifications for same prepared by Chester Cole, Architect, Chico, Cal.

Each bid shall be accompanied by a check, certified by a responsible bank, payable to Peter Engel for the amount of 10% of bid as provided for in said specifications.

The Board of Trustees reserves the right to reject any and all bids.

Bids to be sent to or filed with Peter Engel, 414 E Street, Marysville, Cal.

PETER ENGEL, Chairman,
WALTER LEWIS,
J. B. STRAIN,
DUNNING RIBBOUT,
FRED YORE.

Trustees of Marysville Union High School District, County of Yuba, State of California.

NOTICE TO CONTRACTORS

(Kerman High School)

The Board of Trustees of the Kerman Union High School District, Kerman, California, will receive sealed bids up until 2 o'clock p. m. August the 19th, 1922, at the High School Building, Kerman, California, at which time and place said bids will be opened and read in public, for furnishing the required labor and materials for, and erecting and completing the proposed new High School Building in accordance with plans and specifications prepared by Anthony Johnson, Architect, of Kingsburg, California.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Bids will be received separately for the different segregated contracts, as follows:

CONTRACT No. I: For the Excavating, Concrete, Carpenter Work, Brickwork, Masonry Work, Terra Cotta and Cast Cement.

CONTRACT No. II: Sheet Metal.

CONTRACT No. —: Lathing and Plastering.

CONTRACT No. V: Blackboards.

CONTRACT No. VI: Painting.

CONTRACT No. VII: Plumbing.

CONTRACT No. VIII: Electrical Wiring.

CONTRACT No. IX: Program Clock.

CONTRACT No. X: Heating.

CONTRACT No. XI: Hardware.

CONTRACT No. XII: Metal Lockers.

CONTRACT No. XIII: Acoustical Felt.

CONTRACT No. XIV: Lighting Fixtures.

CONTRACT No. XV: Venetian Blinds.

NOTE: Contractors may bid on any contract or any combination of contracts and the board reserves the right to avoid contracts accordingly.

Certified check or bidder's bond for an amount not less than 10 per cent (10 per cent) of amount of bid should accompany each proposal, made payable to the order of Mr. M. S. Meeker, Clerk, or the Kerman Union High School District, as a guarantee that the bidder will, within ten (10) days after being notified of the acceptance of his bid, enter into a contract with said High School Board in accordance therewith, and shall furnish bonds as required by the specifications. Said checks to be forfeited to the said High School District should the bidder refuse to execute contract and furnish bonds as above mentioned.

Plans and Specifications for all the above work may be seen in the office of Anton Johnson, Architect, Kingsburg, California.

A deposit of Twenty-five Dollars (\$25.00) will be required for the plans and specifications. This deposit to be refunded on the return of the plans and specifications accompanied with a bond for the bid.

The Board of Trustees of the Kerman Union High School District reserves the right to reject any or all bids submitted.

By order of the Board of Trustees, Kerman Union High School District, by Mr. M. S. Meeker, Clerk.

Plans and Specifications for all the above work may be seen in the office of Anton Johnson, Architect, Kingsburg, California.

The Board of Trustees of the Kerman Union High School District reserves the right to reject any or all bids submitted.

By order of the Board of Trustees, Kerman Union High School District, by Mr. M. S. Meeker, Clerk.

NOTICE TO HEATER BIDDERS

(Durham School—Heating)

Notice is hereby given that sealed bids will be received by the Board of Trustees of Durham School District up to the hour of 3 o'clock P. M. Thursday, August 15, 1922, at Durham school house, for remodeling the present heating system. Specifications may be obtained at the Commercial Bank of Durham, or at the office of W. H. Weeks, 369 Pine St., San Francisco. All proposals must be accompanied by a certified check in the amount of 5 per cent of the total bid, as a guarantee of the faithful execution of the contract by the successful bidder, in accordance with the bids. The check of any successful bidder to be forfeited to the Durham School District in liquidated damages in case such bidder fails to enter in contract or furnish bonds as herein required, both within ten days after the award of the contract.

The Board reserves the right to reject any and all bids.

At the time of entering into the contract, the contractor is to furnish a bond to the trustees of Durham School District in the sum of 50 per cent of the amount of the contract, conditioned upon the faithful performance of the same with sureties satisfactory to the Board of Trustees.

Address communications to G. W. JONES, Clerk.

(Signed) G. W. JONES,

G. E. LAXTER,

C. A. COOLEY,

Trustees.

NOTICE TO CONTRACTORS

(School Repairs—Wilson District)

Notice is hereby given that the Board of Trustees of the Wilson School District, County of Tulare, State of California, will receive sealed bids for the furnishing of all labor and material necessary in the erection and completion of out buildings, repairing and remodeling of present school buildings, insulation of heaters and side walks on school grounds, according to plans and specifications which may be obtained at the offices of the District Architects, Ernest J. Kamp Company, 297-S Rowell Bldg., Fresno, California, according to alternate bids asked for in Specification.

Said sealed bids will be received up to and including 3 P. M., of the 12th day of August, 1922, by the Clerk of the Board.

All bids must be accompanied by a 10% certified check or bidder's bond, made payable to the Clerk of the Board.

The successful bidder will have to give a 50% bond covering labor and material and 20% for faithful performance called for in Specifications.

The Board reserves the right to reject any and all bids or any part or parts of any bids and to reject the balance thereof, and to waive any informality in any bids or alternate bids received.

All bids to be addressed to W. T. Winter, Clerk of the Board of Trustees of the Wilson School District, Tulare County, California.

By order of said Board of Trustees,
W. T. WINTER, Clerk.

PROPOSAL FOR BIDS

(University of California—Paving)

Sealed bids will be received at the Office of the Comptroller, University of California, Berkeley, California, at or before 9 A. M. August 10, 1922, for the improvement of Oxford Street, Berkeley, opposite property of the Regents of the University of California.

Plans and specifications may be obtained at the office of the Engineer, 303 California Hall. No bids will be considered unless accompanied by a certified check or bond in favor of the undersigned, equal to 10% of the bid to secure execution of the contract by the successful bidder.

The right is reserved to reject any or all bids.

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

See applications filed and permits granted by State Water Commission in this issue.

SAN FRANCISCO—Until August 10, 11 A. M. bids will be received by the State Board of Harbor Commissioners, Ferry Bldg., to construct extension to Pier 44; to be 145 ft. wide and 148 ft. long; deck and superstructure of wood supported on concrete piles; the structure is a two-story shed, second floor of which is supported by steel girders. Frank G. White, Chief Eng. Harbor Commission.

RIVERSIDE, Cal.—Until August 21, bids will be received by county supervisors to construct Rubidoux bridge, all bids received July 21 having been rejected because district attorney said contract could not legally be awarded on basis as received. Bids will be taken on Leeson plans for bridge structure and Houghton & Bonte design for structure above roadway.

deVaard & Cobham, 207 Granger Bldg., San Diego, submitted the lowest bid to supervisors July 21, at \$31,900 for erecting a reinf. concrete bridge over Santa Ana river, to be known as Rubidoux bridge, in accordance with plans and specifications by R. V. Leeson, 207 L. A. Ry. Bldg., Los Angeles. Other bids on the same plans were: Edgar T. Wheeler Co., Los Angeles, \$87,540; W. M. Ledbetter Co., Los Angeles, \$93,360; deVaard & Cobham submitted the only bid on plans and specifications by Engineers Houghton & Bonte of San Francisco, at \$129,000. The design of R. V. Leeson calls for five 100-ft. spans with 24-ft. roadway between center line of 2-ft. 6-in. estimated quantities are: 2630 cu. yds. concrete, 76 tons reinforced steel, 9000 lin. ft. cedar piling, with foundations 20 ft. below stream bed. The Houghton & Bonte designers for a three-arched arch, reinforced concrete bridge of seven 72-ft. spans, with four arch ribs, footings on 5-ft. concrete cylinders instead of piles and 9-in. concrete deck.

SANTA BARBARA, Santa Barbara Co., Cal.—Until 10 A. M. August 7, bids will be received by county supervisors to construct reinforced concrete bridge deck with stone railing and two abutments with wing walls over Santa Monica Creek on Foothill Road in the First Road District. Plans and specifications on file with clerk. Certified check, 10%. Owen H. O'Neill, county surveyor.

SAN DIEGO, Cal.—A special election will be called within the next three months to vote between \$400,000 and \$500,000 for construction of mole type pier at foot of Broadway. About \$200,000 is now available. The total would make it possible to construct a pier, with 2400 ft. apron, a transit shed 400 ft. wide, by 1000 ft. long, with necessary trackage. In preparing plans and specifications two types have been suggested. They are: (a) comprising a fill for the full width of pier to approximately five feet of grade, and the rapping of the fill at the construction of the concrete wall at the back of the apron around the entire pier. (b) comprising the dredging of the ship of the apron wharf, the rapping of this fill so as to form the sand backing for the apron wharf, the rapping of this fill and the construction of an apron wharf along the south

side only leaving the fill to take a natural beach slope on the north side of the wharf.

PORTLAND, Ore.—Until August 11, 10 A. M. bids will be received by C. H. Purcell, engineer, U. S. Bureau of Public Roads, 316 P. O. Bldg., Portland, to construct two bridges on Alsea River (road in Lincoln county in Siuslaw National Forest, involving 78 cu. yds. concrete, classes A and B; 2200 lbs. of reinforcing steel; 44.5 tons of structural steel; erection and haul only); 320 lin. ft. decking and hand-rail; 5600 lin. ft. piling; one 150-ft. housed Howe truss span.

SAN BERNARDINO, Cal.—George Gardner, San Bernardino, awarded contract by city council at \$13,990 to construct reinforced concrete arch bridge over Warm Creek at Third St. George Herz awarded contract at \$15,948 to construct a similar type of bridge over Warm Creek at Arrowhead Ave.

PHOENIX, Ariz.—W. D. Northern Co. of Phoenix, awarded contract by Maricopa county highway commission, at \$34,615.90, to construct reinforced concrete bridge over New River on project No. 46 of highway system (Federal aid project No. 48), involving 1585 cu. yds. approach fills at 30c yd., 1400 cu. yds. structure excavation at \$1.40 yd., 974 cu. yds. "A" concrete at \$19.50 yd., 383 cu. yds. "B" concrete at \$15.25 yd., 131,400 lbs. reinforced steel at 5c lb., 283 sq. yds. concrete paving at \$2.75 yd. Other bids were: J. L. Hoopes, \$35,442.25; deVaard & Cobham, \$36,500; L. A. Lashmet, \$37,769.60; Twohy Bros., \$46,847.13.

NEVADA—George W. Borden, state highway engineer, preparing specifications for steel bridge in Washoe county over Truckee river at Wadsworth, 200-ft. span, and for constructing overpass in Humboldt county over S. P. railway at Winnemucca.

SALEM, Ore.—H. E. Doering, 568 Maple St., Portland, at approximately \$125,000, awarded contract by State Highway Commission to construct reinforced concrete arch bridge over North Umpqua River on Pacific Highway near Roseburg. Will consist of seven 112-ft. reinforced concrete arches; total length, approximately 1600-ft.

SAN LUIS OBISPO, Cal.—R. A. Carson, 305 Poplar Ave., Modesto, at \$7450, awarded contract by city council to construct concrete culverts.

IRRIGATION PROJECTS

See applications filed and permits granted by State Water Commission in this issue.

MERCED, Merced Co., Cal.—C. R. Adams submits low bid to Merced Irrigation District to construct "Planada-LaGrand canals, Division 1, at \$87,576; Division 2 at \$22,694; Division 3 at \$27,685. On Division 1, the bidder requested that he be allowed to withdraw the bid. Complete list of bids follows:

Division 1: D. A. Foley & Co., \$287,474; Charles Thompson, \$141,282; C. R. Adams, \$87,576; Ross Constr. Co., \$144,900; George Pollock Co., \$144,900; P. L. Burr, \$159,190; Utah Constr. Co., \$152,754; Hewitt & Feich, \$123,624.

Division 2: D. A. Foley & Co., \$112,573; Charles Thompson, \$36,822; Isbell Constr. Co., \$55,465; C. R. Adams, \$22,694; Ross Constr. Co., \$41,620; George Pollock Co., \$37,572; P. L. Burr, \$66,582; Utah Constr. Co., \$64,477; Spencer D. Miller, \$34,418; Blumenkrantz & Vernon, \$23,307.

Division 3: D. A. Foley, \$106,286; Charles Thompson, \$34,704; Isbell Constr. Co., \$55,220; John Phillips, \$31,774; C. R. Adams, \$27,685; Ross Constr. Co., \$55,240; George Pollock Co., \$33,274; P. L. Burr, \$62,864; Utah Constr. Co., \$60,894; Spencer D. Miller, \$32,491; Blumenkrantz & Vernon, \$27,685.

MERCED, Merced Co., Cal.—C. R. Adams, Biggs, Calif., at \$22,694 and \$27,685, awarded contract by the Merced Irrigation District to Le Grand-Planada canals, in Divisions 2 and 3, respectively. Bids for work in District 1 rejected and work will be done by the District.

TURLOCK, Stanislaus Co., Cal.—Following bids rec. and taken under advisement by Turlock Irrigation District: H. Meikle, ch. eng., to const. 28-miles of transmission line.
W. A. Kraner, Balboa Bldg., San Francisco, copper wire, \$169,000; aluminum, \$178,200. For labor and materials.

H. S. Tittle, 766 Folsom St., San Francisco, copper wire, \$153,360; aluminum, \$142,360. For labor and materials.

For labor only following bids submitted:

H. S. Tittle, 766 Folsom St., San Francisco, \$31,100; P. C. Severin, \$46,800; Continental Construction Co., \$67,000; H. P. Lloyd, \$69,845; Duncan-Harrelson, \$49,876.

For equipment only following bids submitted:

Western Electric Co., towers, \$250 each; General Electric Co. switchboards, \$18,250; J. A. Reoblings, copper wire, 17 1/4 lb.; Standard Underground Cable Co., 17 1/4 lb.; Aluminum Co. of America, 1904 lb.; Baker-Joslyn Co., insulators, \$1.87 each; alternate for insulators, \$2.53 each; Latt Insular Co., \$2.25 each; Pacific States Electric Co., insulators, \$2.30 each, copper wire, 1662; Ohio Brass Co., insulators, \$2.35 each; Pacific Coast Steel Co., towers, \$110 each; Westinghouse Electric Co., insulators, \$2.47 each.

LIGHTING SYSTEMS

DINUELA, Tulare Co., Cal.—City trustees plan to install 367 electrolytic standards in downtown district. C. E. Sloan, Santa Fe Bldg., San Francisco, city engineer.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

2754

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

Building & Engineering News

PASADENA, Cal.—City directors declare intention to construct conduits, ornamental lighting posts, etc., on Los Robles Ave. between Alpine St. and 350 ft. south; 1911 Act. Work will comprise six cast-iron posts, with wiring, etc., complete.

San Diego county, between Wilshire Blvd. and 8th St., involving 36,592 sq. ft. grading to finish subgrade at 6c ft., 36,592 sq. ft. Warrenite-bitum. at 26c ft., 236.70 cu. yds. curb at 75c ft., 1926 sq. ft. gutter at 30c ft., 385 ft. house sewers at \$3.50 ft.

See call for bids under official proposal section in this issue.

FRESNO, Fresno Co., Cal.—Until August 10, 3:30 P. M., bids will be received by H. C. Y. S. George, City Clerk, to improve Brenner Ave. between Portcamp and San Pablo Ave., involving 50,200 sq. ft. grading, 45,530 sq. ft. asphalt paving, 4746 sq. ft. concrete gutters, 2374 sq. ft. walks, 44 ft. 12-in. corrugated culverts, 312 ft. 24-in. corrugated culverts and 4 manholes.

SOUTH PASADENA, Cal.—Until 5 P. M. Aug. 14, bids will be received by city commissioners for 124,000 sq. ft. 3-in. macadam, 2800 sq. ft. gutter, 1800 sq. ft. walk, 35 ft. curb and 114 ft. 6-in. sewer; 1911 Act.

GLENDALE, Cal.—Until 7 P. M. Aug. 10, bids will be received by City Clerk Van Wile, City Hall, 619 E. Broadway, for the following street work:

1st. Harvard, Hawthorne and Orange Sts., involving 2289 ft. grading, 101,586 sq. ft. 5-in. asphalt concrete paving, 930 ft. 6-in. c. i. water pipe (pipe furnished by city), and galv. iron service pipes complete.

Columbus Ave., involving 3457.09 lin. ft. grading, 2551 ft. curb, 17,336 sq. ft. walk, 111,298.8 sq. ft. 3-in. oil macad. paving, 3400 ft. 6-in. and 100 ft. 4-in. c. i. water pipe (pipe furnished by city), and installing galv. iron service pipes complete.

Broadway, Concord and San Fernando Rd., involving 2173.8 lin. ft. grading, 20,675 sq. ft. walk, 4222 ft. E. curb, 8722 sq. ft. 2-ft x 5-in. cement gutter, 34,708 sq. ft. oil macadam paving, laying 2266 ft. 6-in. and 190 ft. 8-in. c. i. water pipe (pipe furnished by city), and installing galv. iron service pipes complete. C. L. Hill, city engineer.

NAPA, Napa Co., Cal.—Until Aug. 14, 7:30 P. M., bids will be received by H. H. Thompson, city clerk, to construct 10-in. vit. ironstone sewer in Elm St. between Franklin and 4th St. and west, and from Franklin St. to point 362-ft. west, and remaining portion of 8-in. vit. sewer with one wye connection and manhole. H. A. Harrold, city engineer.

RICHMOND, Contra Costa Co., Cal.—Until Aug. 14, 8 P. M. (new) bids will be received by A. C. Faris, city clerk, to improve portions of 16th and 19th Sts., Macdonald and Portola Aves., by grading, paving with 2-course 6-in. asphalt concrete; concrete walks, curbs with galvanized steel base and 4-in. pipe culverts; concrete catchbasins, retaining walls, vit. sewers, etc. Imp. Act 1911. H. D. Chapman, city engineer.

LOS ANGELES, Cal.—No bids were received by board of public works for furnishing 400 tons asphaltum at city asphalt plant, 2446 McPherson St. The matter was taken under advisement and bids will probably be re-advertised.

LOS ANGELES, Cal.—Tryon & Brain, 261 Tajo Bldg., submitted low bid to board of public works to pave Manchester Ave. between Figueroa St. and Vernon Ave., involving \$100,456 sq. ft. rough grading to grade, \$100,456 sq. ft. grading and oiling, 5985 ft. curb, 30,420 sq. ft. walk, 14,784 sq. ft. gutter, 2401 sq. ft. concrete paving, 11 ft. cu. yds. cut, 1771 cu. yds. fill, 110 sq. ft. 36-in. vit. pipe and 110 sq. ft. grading to finish subgrade; 24,6c sq. ft. concrete paving; 4c sq. ft. rough grading; 5c sq. ft. oiling and rolling; 66c sq. ft. 17.75c sq. ft. walk; 24c sq. ft. gutter; \$300 12-in. vit. pipe and reinf. concrete culvert, complete; \$125 ft. house sewers.

L. A. Paving Co., 2900 Santa Fe Ave., awarded contract at \$13,512.27, for paving Crenshaw Blvd. between Wilshire Blvd. and 8th St., involving 36,592 sq. ft. grading to finish subgrade at 6c ft., 36,592 sq. ft. Warrenite-bitum. at 26c ft., 236.70 cu. yds. curb at 75c ft., 1926 sq. ft. gutter at 30c ft., 385 ft. house sewers at \$3.50 ft.

C. R. Butterfield, 212 6th St., San Pedro, submitted low bid to pave Leland St. between Sixteenth St. and 28th St., involving 160,436 sq. ft. 45c sq. ft. finish grading, oiling and rolling at 7c ft., 5985 ft. curb at 72c ft., 30,420 sq. ft. walk at 22c ft., 14,784 sq. ft. gutter at 30c ft., 3101 sq. ft. concrete paving at 25c ft.

LOS ANGELES, Cal.—Adam Dalmatin and Mike Guho, 541 W. 62nd St., submitted low bid to board of public works, at \$119,253.94 for sewers in E. Sereno Ave., between Alhambra Ave. and Huntington Dr. north. Other bids were: Joe Chutuk, \$160,947.24; C. E. Green, \$156,274.26; Leo Miletich, \$156,168.78.

STOCKTON, San Joaquin Co., Cal.—Frederickson & Shannon, Cory Bldg., Fresno, awarded contract by council to construct sanitary sewer in Sharps Lane from South St. to a point 1514 3/4 ft. south.

BERKELEY, Alameda Co., Cal.—City Council, E. H. Mann, clerk, declares intention to construct concrete walk, 7-ft. high, and concrete steps in Arlington Ave., at Nottingham St. 1911 Act. Protests Aug. 15. C. L. Huggins, city engineer.

STOCKTON, San Joaquin Co., Cal.—Schultz Constr. Co., 46 Kearny St., San Francisco, at \$25,486, submits low bid to council to construct outfall sanitary sewer from North S. W. Disposal Plant to San Joaquin river.

SANTA ROSA, Sonoma Co., Cal.—Following bids received by city council for improvements to water system:

Pelton Water Wheel Co. (2 dbl. pumps), San Francisco, Cal., Cent. P. f. o. b. Santa Rosa, \$1200.

Herzog Elec. & Eng. Co. (2 Cent. pump mot.), San Francisco, (Cal., f. o. b. Santa Rosa, \$421 for 41.5 HP.; \$35 for 50 HP.)

Manistee Iron Works, Manistee, Mich., comp. pumping unit, f. o. b. Santa Rosa, \$7300.

Ingersoll Pump Co., Rialto Bldg., San Francisco, 2 imp. type 10 comp. 73 HP. to 90 HP., \$4500; 2 cent. pumps, complete, \$2800.

Gardner Governor Co., San Francisco, "A" Alt. and "B" Alt. "A" 6-12 Gardner Gov. complete, \$2200 each; "B" 2-14-9-10, 61er. Comp. complete, \$2503 each.

Fairbanks Morse Co., 631 Mission St., San Francisco, pump unit complete (motor and compressor), \$2091 for 3 units.

Worthington Co., Sharon 1114, San Francisco, 2 6-in. SD, 50 HP. 1201 P. f. o. b. Santa Rosa, \$1890; alternate, 2 5-in. as above, \$1170; 2 compressors, No. 13-8-10, Duplex Feather valve comp., \$4710; (without unloader, 2 compressors No. 13-8-10, Duplex Feather Valve comp., \$4560; alternate, 2 11-7-12 Tandem complete, \$4198; (without unloader), 2 11-7-12 Tandem complete, \$4187.60.

Alis-Chalmers Co., Rialto Bldg., 2 5-in. Chalmers type S. 1750 R.P.M., f. o. b. Santa Rosa, \$1054; 50 HP. motor for driving above without rails, pulley or starter, \$574.

Proctor Co., Santa Rosa, Cal., pipe, valves, etc., and fittings complete, \$6450.

National Meter Co., New Montgomery St., San Francisco, for meter complete, \$800.

Guy Hyde Chick, Napa, Cal., completed plant, including reservoir, etc., \$14,252.

Mullen & La Voie, 3129 Folsom, San Francisco, completed plant, including reservoir, etc., \$31,470.

W. L. Proctor, Santa Rosa, completed plant, tanks, houses, flume, etc., \$28,570.

Butte Elec. Equipment Co., Folsom St., San Francisco, plant complete, using following: 1 2 1/2-in. Byron Jackson pumps, \$46,001.2; 2 1/2-in. Byron Jackson pumps (split case), \$45,645.3; 2 6-in. SD. Worthington single stage, \$46,672.4; 2 5-in. SD. Worthington single stage, \$46,114; 3 2 5-in. Lea-Courtney Co. pumps, \$2,620.

Roca & Calletti, San Rafael; Pump station building complete, \$6878; reservoir without plumbing, \$13,500; machinery, \$200. Above without any electrical work.

Sullivan Machinery Co., Chicago, Ill.; 2 Sullivan 22-7 1/2-in. compressors complete, \$63 HP. 1 1/2 in. b. Santa Rosa, \$2439.

Action deferred to 15th. It is not known as yet whether contract will be let as a whole or by units.

SAN JOSE, Santa Clara Co., Cal.—Until August 14, 8 P. M., bids will be received by J. J. Lynch, City Clerk, to improve:

Orchard St., bet. Willow and South city limits: Grading, paving with 3-in. Bit concrete base with 1 1/2-in. Warrentite-Bituthite surface; concrete curbs, gutters and walks; 6 brick catchbasins, 8-in. vitrified pipe drains.

Grant St., bet. Orchard and Delmas: Grading, paving with 3-in. Bituthite concrete base with 1 1/2-in. Warrentite-Bituthite surface; concrete curbs, gutters and walks; 10 brick catchbasins; 8-in. vitrified pipe drains.

Clark St., bet. Park Ave., and Santa Clara St.: by grading, paving with 3-in. Bituthite concrete base with 1 1/2-in. Warrentite-Bituthite wearing surface; concrete curbs, gutters and walks; 1 brick catchbasin; 8-in. vitrified pipe drains. Wm. Popp, City Engineer.

SANTA CRUZ, Santa Cruz Co., Cal.—City Engineer James K. James submits report to city council regarding proposed improvements to water system. Features of construction include a pipe along the coast region of increased size to furnish an additional supply of 2,000,000 gals.; also the construction of the Bulfofio reservoir having a storage capacity of 11,000,000 gals.

FRESNO, Fresno Co., Cal.—City Council, R. Y. St. George, clerk, declares intention to improve Farris avenue, between Belmont and Hedges by grading, constructing concrete curbs, gutters, corrugated culverts, paving with 3/4-in. asphaltic concrete base with 1 1/2-in. Warrentite-Bituthite surface; 4-in. vitrified clay pipe sewer. Wm. Stranahan, City Engineer.

GLENDALE, Cal.—L. A. Paving Co., 2900 Santa Fe Ave., Los Angeles, submitted low bid to city council at \$42,580 for paving 1/2 mi. of 8-in. between Glendale Ave. and S. P. tracks. The unit prices were: \$2 lin. ft. grading; 25c sq. ft. gutter; 21c sq. ft. paving; 50c ft. curb; 25c walk; \$2550 sq. yd. curb; \$2.50 ft. 6-in. water pipe; \$125 ft. 4-in. water pipe; \$360 service connections.

SAN DIEGO, Cal.—H. G. Fenton, P. O. Box 7, San Diego, submitted only bid to city council, to grade Elm and 31st Sts. The unit prices were: \$2 cu. yd. excav.; 66c cu. yd. embank; 27c sq. ft. gutters; 82c ft. curb; 80c sq. ft. gutter; \$912 concrete bridge with center abutments and footings, surfacing of roadway, etc., complete; \$1267 culverts, catchbasins, complete; \$100 guard rail fence.

GLENDALE, Cal.—Until 7 P. M. Aug. 10, bids will be received by City Clerk Van Wic to construct Verdugo Canyon sewer laterals, inverts, 8-in. vit. pipe, vit. pipe comp. with Y branches to be laid under surface water conditions. 5363 ft. 8-in. vit. pipe with Y branches to be laid without surface water conditions. 82 ft. 8-in. cast iron pipe sewer, 154 ft. 10-in. vit. pipe, 49 stand manholes, 11 junct. chambers, 14 flush tanks and 6 lamp holes.

SAN JOSE, Santa Clara Co., Cal.—City Council, J. J. Lynch, clerk, declares intention to improve Keyes St. between 10th and S. P. right of way by grading; paving with 3 1/2-in. Bituthite concrete base on 2-in. Warrentite-Bit. surface; concrete curbs, gutters and walks; 12 br. catchbasins; 8-in. vit. pipe drains. 1911 Act. Protests August 14. Wm. Popp, city engineer.

STATE WATER COMMISSION

CALIFORNIA.—Following applications for permits to appropriate water were filed with State Department of Public Works, Division of Water Rights, 916 Eighth St., Sacramento, during the month of July for permits:

Application No. 2916 (San Luis Obispo County), City of San Luis Obispo, care of Haven, Athearn, Chandler and Farmer, attorneys, Balboa Bldg., San Francisco, Cal., for 6100.09 acre ft. per annum from Lopez Creek, to be diverted in Secs. 21, 22, 26, 36, T. 30S. R. 13E. and Sec. 31, T. 30S. R. 14E., and Sec. 16, 21, T. 31S. R. 14E., for municipal purposes by the City of San Luis Obispo.

App. No. 2917 (San Luis Obispo County), care of Haven, Athearn, Chandler and Farmer, attorneys, Balboa Bldg., San Francisco, for 4 cu. ft. per sec. and 4000 ac. ft. per annum from Arroyo Grande Creek, to be diverted in Sec. 27, T. 31S. R. 14E., for municipal purposes by the City of San Luis Obispo.

App. No. 2919 (Siskiyou County, C. J. Laird, Mount Dome, for 156 cu. ft. per second from springs and underground water, to be diverted in Sec. 35, T. 22N. R. 2E., for irrigation of 125 ac. near point of diversion. Proposes to use one 6-in. centrifugal pump. Est. cost, \$1500.

App. No. 2922 (Riverside County), Coachella Valley County Water District, care of Cushman & Clark, attorneys, Chapman Bldg., Los Angeles, for 94,500 ac. ft. per annum from White-water River and other streams flowing into Coachella Valley, to be diverted in 3 Tps. 3, 4, 5 and 6, R. 2E., 4 and 6 E., for irrigation of 100,000 acres within Coachella Valley. Est. cost, \$25,000.

App. No. 2923 (San Bernardino County), Loma Vineyard Co., care of Switzer, Wilson, Attys., Garner Bldg., Bernardino, for 2.5 cu. ft. per second from an unnamed stream to be diverted in Sec. 13, T. 1N. R. 7W., for irrigation of 260 acres in Sec. 13. Est. cost, \$500 to \$10,000.

App. No. 2925 (San Diego County), The Tia Juana River Irrigation District, care of A. G. Arnold, National City, for 6 cu. ft. per second and 22 ac. ft. per annum from underground waters of Tia Juana River, to be diverted in Sec. 4, T. 19S. R. 2W., for irrigation of 3000 acres near point of diversion.

App. No. 2927 (Trinity County, F. L. Kendall, 4811 San Pablo Ave., Oakland, for 43 cu. ft. per second from East Fork of Stewart's Fork and Strope Creeks, to be diverted in Sec. 9 or 10 and T. 25N. R. 8W., for hydraulic mining purposes about four miles above Minersville. Est. cost, \$2500.

App. No. 2928 (Sonoma County), F. J. Brandt, E. Bachman and C. E. Cole, care of F. J. Brandt, Dealtsburg, Cal., for 75 cu. ft. per second from Russian River, to be diverted in Sec. 21, T. 9N. R. 8W., for irrigation of 60 acres in Sec. 21. Est. cost, \$2000.

App. No. 2932 (Modoc County, J. V. Cadwell, Canby, Cal., for 340 ac. ft. per annum from Howard Gulch, to be diverted in Sec. 23, T. 42N. R. 9E., for irrigation of 23 acres in S 1/2 of Sec. 23. Est. cost, \$3000.

App. No. 2936 (Riverside County), riette F. Sink, Cloverdale, Cal., for 3 cu. ft. per second from Russian River, to be diverted in Sec. 1, T. 11N. R. 10E., M.D.M., for irrigation of 100 acres about 1/2 mi. east one-half miles west of Cloverdale. Est. cost, \$8000.

App. No. 2936 (Riverside County), Temescal Water Company, care of A. S. Sondreger, Central Bldg., Los Angeles, for 25,000 ac. ft. per annum from San Jacinto River, to be diverted in Sec. 17, T. 6S. R. 4W., for irrigation of 70,000 acres located in the City of Corona and Colony of Corona, and vicinity Riverside County.

App. No. 2937 (San Benito County), E. E. Hollrock as trustee for Hollister Irrigation District, Hollister, for 800 cu. ft. per second and 10,000 ac. ft. per annum from San Benito River Tres Pinos, Los Muertos, Quien Sabo and Pacheco Creeks, to be diverted by T. 13S. R. 7E., T. 13S. R. 8E., T. 13S. R. 9E., and T. 13S. R. 11E., T. 13S. R. 12E., for irrigation of 60,000 acres in the Hollister and San Jua Valleys.

App. No. 2938 (San Bernardino County), East Lagoon Mutual Water Co., Redlands, Cal., for 37,500 ac. ft. per annum from Mill Creek, to be diverted in Secs. 13, 14, 21, T. 72N. R. 2E., for irrigation of 10,000 ac. in Secs. 13, 19 and 30, T. 1S. R. 2W. Secs. 13, 24 and 25, T. 1S. R. 3W. Est. cost, \$140,000.

App. No. 2940 (Plumas County), Wm. H. Speer, La Porte, Cal., for 10 cu. ft. per second from East branch of Nelson Creek, to be directed in Sec. 7, T. 22N. R. 11E., for generating electric power for steel mill, copper, silver and general mining in Sec. 7, T. 22N. R. 10E., 235 theoretical horse power developed. Est. cost, \$22,000.

App. No. 2941 (San Benito County), T. 2S, R. 4E, for 3 cu. ft. per second and 30 ac. ft. per annum from East Fork Larios Creek, to be diverted in Secs. 36, T. 17S, R. 11E, for mining and domestic purposes in Secs. 35 and 36. Est. cost, \$3,000.

App. No. 2942 (El Dorado County), M. C. Seargave, 1019 Balboa Bldg., San Francisco, Cal., for 100 cu. ft. per second and 44,000 acre ft. per annum from Deer Creek, to be diverted in Sec. 11, T. 8N, R. 4E, for irrigation of 2,000 acres in Tps. 7 and 8N, R. 6, 7 and 8E, in Sacramento County. Est. cost, \$150,000.

App. No. 2943 (El Dorado County), M. C. Seargave, 1019 Balboa Bldg., San Francisco, Cal., for 150 cu. ft. per second and 44,000 acre ft. per annum from Consummes River, to be diverted in Sec. 26, T. 8N, R. 9E, for irrigation of 20,000 acres in Tps. 7 and 8N, R. 6, 7 and 8E, in Sacramento County. Est. cost, \$250,000.

App. No. 2945 (Trinity County), W. H. Sampson, Corning, for 2000 cu. ft. per second and 40,000 acre ft. per annum from Trinity River, to be diverted in Sec. 10, T. 34N, R. 8W, for generating electric power in Sec. 34, T. 34N, R. 8W. Proposed to develop 125,000 theoretical horsepower. Est. cost, \$5,000,000.

App. No. 2948 (San Joaquin County), Reclamation District No. 756, 312 Bolding Bldg., Stockton, for 75 cu. ft. per second from San Joaquin River, Mokelumne River, South Fork of Mokelumne River and Potato Slough, to be diverted in Secs. 5, 6, 7, 8, 9, 10, 11, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 26 and 28, T. 3N, R. 3E, for irrigation of 6000 acres in Rec. Dist. No. 756.

App. No. 2949 (Contra Costa County), Delta Farms Rec. Dist. No. 2024, for 14 cu. ft. per second from the dredger cut between Indian and Rock Sloughs, to be diverted in Secs. 11, 14 and 23, T. 1N, R. 3E, for irrigation of 1120 acres in Delta Farms Rec. Dist. No. 2024.

App. No. 2950 (Contra Costa County), Delta Farms Rec. Dist. No. 2024, for 26.62 cu. ft. per second from Old River, Indian Slough, and dredger cut, to be diverted in Secs. 17, 18, 19, 20, T. 1N, R. 4E, and in Secs. 14, 23, 24, T. 1N, R. 3E, for irrigation of 1369.47 acres in Rec. Dist. No. 2024.

App. No. 2951 (Contra Costa County), Delta Farms Rec. Dist. No. 2025, for 63.47 cu. ft. per second from Old River, Sand Mound Slough and dredger cut, to be diverted in Secs. 13, T. 2N, R. 3E, Secs. 35 and 36, T. 2N, R. 3E, and Secs. 18, 19, 30, 31, T. 2N, R. 4E, for irrigation of 4274 acres in Rec. Dist. No. 2025.

App. No. 2952 (Contra Costa County), Delta Farms Rec. Dist. No. 2026, for 69.02 cu. ft. per second from San Joaquin River, Old River, False River, Washington Slough and dredger cut, to be diverted in Secs. 22, 30 and 31, T. 3N, R. 4E, and Secs. 22, 30 and 31, T. 2N, R. 4E, and Secs. 22, 30 and 31, T. 2N, R. 4E, for irrigation of 5522 acres in Rec. Dist. No. 2026.

App. No. 2953 (San Joaquin County), Delta Farms Rec. Dist. No. 2027, for 87.45 cu. ft. per second from Old River, Middle River, Big Connection Slough and a dredger cut, to be diverted in Secs. 31, 32, T. 3N, R. 4E, and Secs. 4, 5, 6, 7, 8, 9, 10, 15, 17, 20, T. 2N, R. 4E, for irrigation of 5405 acres in Rec. Dist. No. 2027.

App. No. 2954 (San Joaquin County), Delta Farms Rec. Dist. No. 2028, for 102.4 cu. ft. per second from Old River, Middle River, Connection Slough and a dredger cut, to be diverted in Secs. 4, 5, 6, 7, 8, 9, 10, 15, 17, 20, T. 2N, R. 4E, and Secs. 20, 21, 27, 28, 29, 30, 31, T. 3N, R. 4E, for irrigation of 5624.65 acres in Rec. Dist. No. 2028.

App. No. 2955 (San Joaquin County), Delta Farms Rec. Dist. No. 2029, for 43.38 cu. ft. per second from San Joaquin River, Disappointment Slough, White Slough, Potato Slough, Connection Slough and a dredger cut, to be diverted in Secs. 30, 31, T. 3N, R. 5E, and Secs. 2, 3, 4, 5, 6, 7, 8, 9, 10, 15, 17, 20, T. 2N, R. 4E, and Secs. 24, 25, 26, T. 2N, R. 4E, for irrigation of 3678.13 acres in Rec. Dist. No. 2029.

App. No. 2956 (San Joaquin County), Delta Farms Rec. Dist. No. 2030, for 76.38 cu. ft. per second from San Joa-

quin River, Whiskey Slough, Middle River, Latham Slough and dredger cut, to be diverted in Secs. 13, 14, 25, 26, 35, 36, T. 2N, R. 4E, and Secs. 18, 19, 30, 31, T. 2N, R. 5E, for irrigation of 6198.53 acres in Rec. Dist. No. 2030.

App. No. 2957 (San Joaquin County), Delta Farms Rec. Dist. No. 2041, for 15.03 cu. ft. per second from Whiskey Slough, Middle River, San Joaquin River and dredger cut, to be diverted in Secs. 2, 3, 10, 11, 14 and 15, T. 2N, R. 4E, for irrigation of 1202.67 acres in Rec. Dist. No. 2041.

App. No. 2958 (San Joaquin County), Delta Farms Rec. Dist. No. 2012, for 27.48 cu. ft. per second from Disappointment Slough and dredger cut, to be diverted in Secs. 31, 35, T. 3N, R. 5E, and in Secs. 1, 2, 3, T. 2N, R. 5E, for irrigation of 2198.26 acres in Rec. Dist. No. 2012.

App. No. 2959 (San Joaquin County), Delta Farms Rec. Dist. No. 2044, for 40.75 cu. ft. per second from Disappointment Slough and White Sloughs and two dredger cuts, connecting said sloughs, to be diverted in Secs. 27, 29, 30, 31, T. 3N, R. 5E, and Secs. 3, 4, 5, T. 2N, R. 5E, for irrigation of 3260.67 acres, being all of that area commonly known as the "Delta".

App. No. 2960 (San Joaquin County), California Delta Farms, Inc., for 10.7 cu. ft. per second from the canal extending westerly from Disappointment Slough, to be diverted in Sec. 1, T. 2N, R. 5E, and Sec. 6, T. 2N, R. 5E, for irrigation of 558 acres in Sec. 1, T. 2N, R. 5E, and Sec. 6, T. 2N, R. 6E.

App. No. 2962 (Plumas County), Wm. H. Spencer, Lake Park, Cal., for 10 cu. ft. per second from Onion Valley Creek, to be diverted in Sec. 3, T. 22N, R. 9E, for power purposes for mining and lighting in Sec. 4, T. 22N, R. 9E. Proposed to develop 360 T.H.P. Est. cost, \$30,000.

PERMITS

Following permits were issued by the division during the month of June: Permit No. 1078 (Shasta County), W. B. Masson of Dunsmuir, Cal., for 200 ac. ft. per annum, and 2 cu. ft. per second from a canyon in Shasta County, T. 3N, R. 35N, R. 5W, for use for irrigation of 160 acres in Sec. 13, Est. cost, \$500.

Permit No. 1079 (Orange County), C. C. Pearl and I. J. Edwards, Long Beach, Cal., for 10 cu. ft. per second from Camp Canyon in Sec. 34, T. 5S, R. 7W, for use for domestic use and near point of diversion. Est. cost, \$200.

KOEHRING DANDIE

Light Mixer

-yet it is within the price range for light mixers

THE Dandie is a light, easily portable mixer for concrete footings, culverts, floors, and has also proved suitable for mortar mixing.

It is a Koehring mixer—Koehring designed and constructed—and this means that dependability and long service life are the first considerations, not lowest price. No it is not the lowest priced mixer, but is well within the price range for light mixers, making it the greatest *value* in light mixer field. It sets a new standard of efficiency and value for light mixers. Big production, standardization in every part, and automatic shop equipment keeps the price down!

Send Today for Catalog D 000

Get the details of construction—the liberal drum dimensions—double gear drum drive—the drum roller construction—universal bearings, mixing action—the two side discharge control—trouble-proof power—dust-proof housing. Get these details and you will see why the Dandie offers a remarkable value. Write for catalog D 000 today.

LANDIS AWARD UPHOLD

A victory for the Landis award in Chicago, and for the principle of arbitration, was gained in Chicago, July 22nd, when a special committee composed of the International presidents of the various building trades unions recommended a complete reorganization of the Chicago Building Trades Council on a basis of entire recognition of the Landis scale of wages. This report was made to the building trades department of the American Federation of Labor, after several days of investigation, in accordance with a resolution recommending such action adopted at the recent convention of the A. F. of L. at Cincinnati.

Landis-award building workers in thirteen trades in Chicago numbered over 16,000 during the week of July 22nd.

WHO WINS THE STRIKES?

Compilation made recently from U. S. Labor Bureau sources indicates that out of every hundred strikes in 1916, the employers won 30, the employees won 31 and 39 were compromised.

In 1920, the proportions were: won by employers, 38; won by employees, 21; compromised, 41. Figures for intervening years show a steady proportionate loss by employees from year to year.

The cause of strikes in 1920 were: wages, 1,511; wages and hours, 306; hours, 71; union matters, 849; miscellaneous and not reported, 372.

Strikes showed a falling off, in total hours wasted, during 1920. The peak strike year of the whole period was 1919.

WATER POWER DEVELOPMENTS EXCEED ALL RECORDS

There is more water power development under way at the present time than at any previous period in the Nation's history, the Federal Power Commission reported recently in reviewing the results of its two years of administration under the water power act.

Applications for development total 321 and involve approximately 20,000,000 horse power, or more than twice the existing water power installation of the country.

In the last year, after the first flood of applications had come in, they aggregated 6,000,000 horsepower of proposed installation. Up to June 30 last, the report said, the commission had authorized a total of sixty preliminary, or survey, permits and forty-nine licenses, eighteen of the latter for transmission lines, the permits involving an estimated installation of 2,386,000 horse power and the thirty-one licenses for power projects 1,932,000 horsepower.

Although it has been able to take final action on more than half of the applications for permits and licenses filed, the commission, the report said, has been forced to delay action on many important projects due to what was said to have proved to be a wholly inadequate personnel to handle the great amount of administrative detail and supervision required in the legislation.

TO BOND TO COMPLETE RECLAMATION WORK

The State Reclamation Board has set August 26th as the tentative date for the \$8,000,000 bond election in the seven counties affected by Assessment No. 6, which was validated by a special court of three Superior Judges that sat en banc at Yuba City.

This bond issue is made necessary by reason of the fact that the land owners in the district affected refused to pay the assessment which was levied to complete the work of the Sutter By-Pass. The counties in which the election will be held follow: Sacramento, Sutter, Yuba, Yolo, Butte, Colusa and Glenn.

Land owners in the assessment district have appealed to the State Supreme Court from the decision rendered by the special court which was appointed by Governor William D. Stephens, but the Reclamation Board claims the appeal will not be recognized as the law does not give the right of appeal.

The assessments in the various counties vary. In Glenn county the total is about \$47,000, while in Colusa county the total will reach about \$1,500,000, the assessment running from a small sum to as high as \$125,000 on the large holdings.

There are two large land owning companies in the district which will bear more than half the total assessment, one company alone having been assessed more than \$4,000,000.

Don't forget to go to the Annual Builders' Outing on September 2, 3 and 4 at Capitola by the Sea. Two thousand dollars in prizes. Famous Builders' Midnight Follies. Bathing Girls' Review. Hotel and Camping. Go by train or auto.

PRIZE AWARDED OFFERED FOR VITRIFIED CLAY PIPE PAPER

Preliminary announcement of cash prizes for the best paper entitled "Use of Vitrified Clay Pipe in Plumbing System," is made by S. E. Dibble, head of the heating and ventilating department of the College of Industries at Carnegie Institute of Technology. The total amount of prizes is \$400 dollars. The contest will be open to all practical plumbing and heating dealers, inspectors, etc., as well as to instructors and students in all educational institutions where drainage is taught.

Detailed announcements of the rules and regulations of the competition, and the amount of each prize in the various classes, will be made about September 1, 1922.

The contest is a move toward increasing building operations, having in view particularly the reduced cost of drainage work. It is advisable that competitors for these prizes obtain copies of Mr. Dibble's printed report of recent experiments on the use of bituminous jointing compounds for vitrified clay pipe. The experiments were conducted at Carnegie Institute of Technology. Copies of the report will be sent upon request by addressing R. S. Clark, office of the secretary, Carnegie Institute of Technology, Pittsburgh, Pa.

LUMBER CUT AGAIN ABOVE NORMAL RATE

One hundred and twenty-four mills reporting to the West Coast Lumbermen's Association for the week ending July 29, manufactured 83,511,334 feet lumber; sold 78,639,026 feet, and shipped 75,496,800 feet. Production for reporting mills was 4 per cent above normal. New business, 6 per cent below production. Shipments were 4 per cent below new business.

Thirty-four per cent of all new business taken during the week was for future water delivery. This amounted to 26,839,026 feet, of which 18,986,906 feet was for domestic cargo delivery and 7,902,120 feet for overseas shipment. New business for delivery by rail amounted to 1725 cars.

Thirty-one per cent of the week's lumber shipments moved by water. This amounted to 23,116,800 feet, of which 15,610,213 feet moved coastwise and intercoastal, and 7,506,587 feet export. Rail shipments amounted to 1746 cars.

Unfilled domestic cargo orders total 98,274,364 feet. Unfilled export orders 58,932,744 feet. Unfilled rail trade orders, 6260 cars.

In 30 weeks production has been 2,413,359,295 feet; new business, 2,421,312,163 feet; shipments, 2,285,917,504.

E. S. CIVIL SERVICE EXAMINATIONS

U. S. Civil Service Commission will consider applications for examinations for the position of "draftsman, architectural and structural steel," a position paying from \$1380 to \$1800 a year. Applications will be received up to August 29 for the position of "Appraisal Engineer," paying from \$3000 to \$4000 a year. Apply for Forms 1312 and 2118, respectively, from U. S. Civil Service with offices in principal cities.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

For highway construction during the current year the Bureau of Public Roads of the Department of Agriculture estimates that there will be available in the States approximately \$800,000,000, which includes the Federal as well as local funds. The States having available the largest amounts include California, with over \$53,000,000; Pennsylvania, with more than \$52,000,000; Illinois and New York, with more than \$47,000,000 each, and Texas, with almost \$43,000,000.

The Los Angeles city council has decided upon a new plan for initiating street improvements. It has instructed the public work committee and the city engineer to submit a list of unimproved streets in the city which should be improved, together with the type of pavement which the city engineer considers most suitable for each street. Property owners will then be given an opportunity to express their approval or disapproval of the city engineer's recommendations.

Movement of one of its southern camps and mill equipment and 4000 employees and their families to a new site near Kelso is announced by the Long-Bell Lumber Co., with head offices in Kansas City. The new mill site will require construction of many buildings and residences. It is planned to begin cutting on a 70,000-acre tract of Douglas fir. Work at the new site has already begun, according to the announcement of R. A. Long, president of the company.

The International Congress of Engineering, the first of its kind in Latin America, will be held under the auspices of the Brazilian government at Rio de Janeiro, Sept. 7-30, 1922. This will be in connection with the opening of the Brazilian international exposition, and other features of the celebration of the first Centennial of Brazilian independence. The exposition will continue until March 31, 1923.

G. H. Burchell, formerly located at 213 Washington St., Oakland, has moved to larger quarters at Myrtle and San Pablo Ave., and in addition to the manufacture of plaster, stucco, staff and artificial stone construction, will, through a new department, make artificial stone mantels, garden and lawn furniture.

The Douglas Fir Exploitation & Export Company has filed its answer to a complaint before the Federal Trade Commission denying conspiracy and asserting the company has been engaged exclusively in export trade within the Webb-Pomerene law, and that it does not come within the jurisdiction of the export trade act.

The Kern county supervisors have abandoned the proposal to construct 16 miles of paved highway to connect Maricopa with the State highway near Rose Station. Proceedings were dropped due to protests of property owners in district organized to finance the project which was estimated to cost \$465,000.

State Architect's Office preparing plans for manufacture of toys at Napa State Hospital. Building will cost \$15,000.

Southwest Builder, Los Angeles, says: By a practically unanimous vote more than 600 of the 1000 members of the Builders' Exchange of San Francisco voted at a recent meeting to uphold the "American Plan" or open shop in the building industry by refusing to abolish the rule which requires all contractors to secure a permit for purchase of building materials. This rule is the pivot of the open shop fight in San Francisco. To abandon it would be equivalent to quitting the fight. San Francisco has gone so far that she cannot now retrace her steps.

April, May and June brought a record of 94 permits for water appropriation from Oregon streams, according to Percy A. Copper, state engineer. Included in these permits are irrigation of 24,073 acres of land, development of 1200 horsepower, and the use of water for mining, municipal, domestic and other purposes. It is estimated that the cost of construction work in connection with the permits will be about \$1,008,000.

Alfred Lincoln has been made general superintendent of the logging activities of the Hapelen Lumber & Manufacturing Company, Tacoma, and is to have charge of operations for the company in Western Washington. Before entering the lumber business Lincoln was a railroad engineer.

Petitions are being circulated in Burlingame to have electrolier lighting system installed in Howard and Highland Aves., Middlefield Road and San Mateo Drive. About twenty-five standards will be installed.

Bids for furnishing twenty or more street car bodies, trucks, motor equipment and air brake equipment for the Municipal Railway System will be considered by the San Francisco Board of Public Works on September 6th.

Headquarters of the U. S. Division Engineer at Portland, Ore., will be moved to Burke Bldg., Seattle, Wash. Col. Edward H. Schultz, formerly district engineer at Seattle, becomes division engineer.

J. C. Perry, whose paint factory at Sunnyvale was destroyed by fire, is conferring with businessmen of San Rafael with a view to organizing a \$50,000 corporation and erecting a plant in that city.

Seventy new dwelling houses, exclusive of apartment buildings, have been erected in Reno, Nevada, since January 1. July building totaled, \$63,550. Total since January 1 to July 31, \$363,935.

Los Angeles Chamber of Commerce completing arrangements for the California Pageant of Progress and Industrial Exposition to be held in that city Aug. 20 to Sept. 9.

F. P. Trask, representing Dr. C. H. Schwartz of Berkeley, is seeking a site in Walnut Creek, Contra Costa County, on which to establish a plant for the manufacture of artificial silk.

ALONG THE LINE

Paul P. Witham, engineer formerly of Seattle, is now president of the Asia Development Company, an American firm with offices in Canton, China. The company is reported to have secured contract to make a survey and estimate the cost of a motor road from Chengtu to Chungking in Szechwan, a distance of about 265 miles.

Andrew M. Jensen and J. A. Ross, members of a civil engineering firm of Fresno, have brought suit against the Tranquillity Irrigation District, Fresno County, for \$3036.72, which they allege is due them on work done for the district.

Harvey J. Ryan of Stanford University is the nominee of the Pacific Coast convention of the American Institute of Electrical Engineers, in session at Vancouver, B. C., for the presidency of that organization.

W. S. Farley, San Francisco engineer and former city engineer of Martinez, will sue that city for approximately \$38,000, alleged due him for services in street improvement program.

H. H. Harris has been named assistant manager and chief engineer of the Harlan Drydock and Shipbuilding Company of Oakland.

According to reports of the city engineer's office about \$350,000 worth of street improvements will be put through in Santa Barbara this year.

Merced city trustees will call election to vote bonds of \$70,000 for sewer improvements and \$17,500 to purchase park lands.

The Western Irrigation Equipment Association will hold its annual convention in Sacramento on Sept. 2.

The Valley Electrical Co. of Fresno will have an extensive exhibit at the Fresno District Fair.

A. E. Cowell, county surveyor of Merced county, has resigned. Edgar Winton will probably fill the vacancy.

Yuba City at a recent election voted bonds of \$50,000 to construct sanitary sewer system.

Building permits granted by Modesto city council during July total: \$5, calling for improvements costing \$112,950.

M. H. Cavin has succeeded the Varney Bros. Lumber Co. at Heber, Cal.

Roy May, present Kings county surveyor, is a candidate for re-election.

Buildings in San Leandro for July totaled \$13,955.

Eureka, Calif., building permits for July, \$39,000.

JUNE BUILDING IN TWELFTH FEDERAL RESERVE DISTRICT

(As Reported by John Perrin, Federal Reserve Agent)

Building activity during June was exceeded only during April, 1922. Building permits issued in 20 principal cities during June numbered 10,165 with an estimated valuation of \$29,598,278, compared with 8201 permits with a valuation of \$15,450,694 issued in June, 1921, an increase of 195% or 23.8 per cent. in number, and of \$14,147,584, or 91.5 per cent. in value. The same 20 cities for the six months' period, January to June, 1922, report 69,482 permits issued with a valuation of \$157,287,598, compared with 48,224 permits issued in the corresponding period of 1921 with a valuation of \$92,890,706, an increase of 23.3 per cent. in number and 70.1 per cent. in value in 1922, compared with 1921. According to reports received by this bank, construction for residential purposes constitutes the greater part of present building activity in the larger cities of the district. In Boise, Los Angeles, Portland, Reno, Tacoma and Seattle, a shortage of apartment house buildings and schools is reported.

Figures recently compiled by the Bankers Economic Service indicate an accumulated shortage of buildings in the United States during the past 13 years, amounting to 21 per cent. of the estimated total normal volume of building in that period. The study shows that building operations in the Pacific States have been proportionately less than in any other section of the country during the past 10 years. The accumulated shortage being 34 per cent. The shortage of groups of states are as follows: Middle Western States, 9 per cent.; Southern States, 17 per cent.; New England States, 22 per cent.; Western States, 22 per cent.; Eastern States, 23 per cent.; Pacific States, 34 per cent.

STANDARDIZATION OF LUMBER SOUGHT TO ELIMINATE WASTE

The waste in the lumber industry in the nation is at least a billion dollars a year, William A. Durgin, personal representative of Herbert Hoover, Secretary of Commerce, informed the semi-annual conference of the West Coast Lumbermen's Association at a meeting in Tacoma, Wash., August 2. Durgin told the lumbermen that the loss could be greatly reduced through standardization of lumber and grades, and he declared if the plans of the Department of Commerce are followed billions of dollars will be saved to the nation in the coming years.

"The great cause of waste in the lumber industry, as in all industries," Durgin said, "is the universal prevalence of enormously excessive varieties. The sizes of sash and doors run well into the thousands," he said, "and in furniture the varieties run riot."

The lumbermen were told that simplified practice will reduce production costs, selling expenses, misadventures and cost to the ultimate consumer; and by reducing production costs open by a wider foreign market for lumber.

Manufacturing plants in New York City paid salaries and wages totaling \$1,131,994,492 in a year and turned \$2,801,619,388 worth of material into \$5,260,707,577 in finished products, say the last census reports.

That 37 radio apparatus manufacturers are infringing on each other's patents and 1000 other concerns are infringing on patents of older firms, is the report of recent investigations.

Capitola-by-the-Sea to Fete Builders Next Month---Elaborate Program is Prepared

Capitola-by-the-Sea has been selected by the San Francisco Builders' Exchange as the site to hold the annual "Builders' Day" outing. The festival will cover a three-day period, Sept. 2, 3 and 4, and will be held under the auspices of the San Francisco Builders' Exchange. During this period the State Convention of Builders' Exchanges of California will be held at Capitola-by-the-Sea, thereby assuring a representation from every section of the State.

The Committee on Arrangements reports more than \$2000 worth of prizes on hand. Games of all kinds will be features of the three-day session. A nail-driving contest will be held for the ladies and a marble-playing contest for young men over 60 years of

age. Bricklayers will be allowed to show their skill in contest of brick laying.

The "Builders' Midnight Follies," a stunt yet to be set, will be staged under the personal direction of Clarence E. Pratt, assisted by Charles Gompertz, president of the State Association of Builders' Exchanges; C. E. Reinhardt, R. B. Claghorn, Steve Guerin, Wm. Peary, Emil Hogberg, J. E. Crowe and George Dixon.

Accommodations have been arranged for those who attend and means of transportation will be by stage, auto and train, the latter on which very reasonable rates have been secured. Tents, cottages and hotel have been secured for living quarters.

BENT BROTHERS OF LOS ANGELES AWARDED BULLARD'S BAR PROJECT

Bent Brothers, 1714 Eagle Ave., Los Angeles, have been awarded contracts to construct the Bullard's Bar project in Yuba county for the Yuba development with offices in the Hobart Bldg., San Francisco. For the dam, Bent Brothers were awarded the contract at \$330,680 and the power house for \$12,984.

The present Bullard's dam is now 45 feet high. This will be raised to 175 ft., making a dam 500 ft. long on the crest, 41 ft. thick at the base and 6 ft. thick at the top. It will be of the constant-angle-arch-Jorgensen type. It will have an overflow crest nearly the entire length and a reinforced concrete bridge 750 ft. long, 12 ft. above the crest of the dam, with a 16-ft. roadway, supported on concrete piers.

Other bidders for the work were: F. Rolandi, W. A. Kraner, J. L. McLaughlin, Starr, Thebo & Anderton, Foundation Co., H. C. Vensano and Duncan-Harrelson, all of San Francisco.

The owners will furnish cement, steel, pipe, valves and dam equipment for the project, to be delivered f. o. b. damsite. Bids for the power house equipment are now being received by the owners, who also plan to construct 20,000 lin. ft. of roadway, 6.1 miles of transmission line, equipped with three copper wires, 2-gauge, porcelain insulators, using 20 poles to the mile, carrying 60,000 volts.

The Constant Angle Arch Dam Co., Hobart Bldg., San Francisco, are the designers.

ROAD BUILDERS OF THE WORLD TO MEET IN SPAIN

Roadmakers from around the world will meet in Seville, Spain, next May to exchange experiences and views for mutual benefit. The International Road Congress met first in Paris in 1908, and the last meeting was in 1914. The meeting will bring together delegates representing national and state governments and good roads' associations in the United States, Belgium, Canada, Australia, New Zealand, China, Japan, France, Great Britain, Italy, Holland, Sweden, Denmark, Switzerland, Argentina, Czechoslovakia, Spain, Portugal, Norway, Germany, Yugoslavia, Poland, Austria, Cuba, Chili, Brazil and other countries.

VICE BENEFITS INDUSTRY

An employment service for engineers of every variety of training and experience is conducted by the four national engineering societies of the United States. This service brings in touch with the various business men the service of 50,000 trained technical men who are members of the American Society of Civil Engineers, American Society of Mechanical Engineers, American Institute of Mining and Metallurgical Engineers and American Institute of Electrical Engineers.

One of the objects of the service is to show to the various commercial houses the aid which engineers are rendering to others in the same lines and to help these firms and corporations secure similar assistance.

Men of engineering training are prominent in all branches of commercial endeavor and their creative ability is recognized as being of great help in the building up of the nation's wealth.

This service is in a position to supply the readers of the American Contractor with engineers or technical men to secure positions.

It is under the direction of Mr. W. V. Brown and is located in the United Engineering Building, 29 West 39th St., New York City, and is free to both employer and to employee.

PERU WILL CONSTRUCT 2400 MILES OF RAILROAD

According to word from Victoria, B. C., Robin Dunsinn has signed a railroad contract with the Peruvian Government and a syndicate is now negotiating with New York bankers for the construction of 2400 miles of railroad to cost at least \$120,000,000.

The concession includes land grants, amounting to 50,000,000 acres, surface rights in perpetuity and oil and mineral rights for 33 years.

Terms of the concession involves immediate payment to the Peruvian Government of about \$5,000,000. This payment is to enable the Peruvian Government to free the tobacco monopoly from a first charge and to hand over this monopoly, together with 168 miles of railroads already completed or under construction, to Dunsinn, who will be empowered to collect the tobacco monopoly and to use the proceeds for guaranteeing interest on bonds to be issued to provide the necessary funds for the operation of the concession.

DECAY OF BUILDING TIMBERS INVESTIGATED

The timber formerly used in mill construction consisted in many instances of white pine and white oak, both of which are highly durable woods. In more recent years, however, these timbers have been supplanted largely by southern yellow pine, spruce, and hemlock. High-grade resinous longleaf pine has given good service under exacting conditions, but the inferior grades of pine, often of more rapid growth and frequently containing a high percentage of sapwood, have not proved satisfactory in parts of buildings where the conditions are favorable for decay.

The same investigator says that hemlock, put in green, lasted about two years. The bulletin cites a number of examples of large losses owing to rapid decay. The main purpose of the bulletin, however, is to report a technical and scientific study of the fungi causing all this damage made with a view to gaining a better understanding of the life processes of these plants and to determining under what conditions they thrive and are spread within buildings.

Considerable attention is paid to the spores, or "seeds," of these plants, the kinds that may be found within structures such as cotton mills, their abundance, their lengths of life under mild conditions and their possibilities of starting new centers of rot in the same or nearby buildings.

Scientific investigators, mill men, contractors and engineers interested in this technical discussion may obtain a copy of the bulletin by addressing the Department of Agriculture, Washington, D. C.

TRANSPORT PROBLEM TREATED IN BOOKLET

Fundamental problems involved in highway transport and highway economics are discussed at length by leading students from engineering and automotive fields in a new booklet now ready for distribution by the Highway Education Board.

Modification of truck design to fit the need, subsidizing of highway transport by the construction of market lanes, predictions of future traffic changes, and economical types of roads are only four of nearly two score problems raised and discussed authoritatively in the bulletin.

In addition a chart of the field of highway research prepared by Dr. W. K. Hatt, formerly of Purdue University, now director of highway research for the National Research Council, forms an instructive and suggestive part of the brochure.

The booklet itself is a report of a conference held on these subjects at the University of Maryland, attended by leading economists, engineers and manufacturers. It was edited by Professor C. J. Tilden, former director of the Highway Education Board, when it was known as the Highway and Transport Education Committee. After a year's leave of absence he has returned to Yale University, where he is professor of engineering mechanics. The conference was presided over by President Charles S. Howe, Case School of Applied Science, Cleveland. Features of the report include a paper by Thomas H. MacDonald, chief of the U. S. Bureau of Public Roads, and an analysis of highway legislation.

The bulletin is being distributed by the Highway Education Board, Willard Building, Washington.

Work Under Way on Ideal Section of Lincoln Highway in Indiana

The far-famed stretch of model road known as the Ideal Section of the Lincoln Highway is, after nearly two years of preliminary research and detailed work, now under construction in Lake County, Indiana.

The contracts for the construction were closed recently in Indianapolis, when Stone & Webster, Inc., of Boston, Mass., acting as agents for the Lincoln Highway Association, undertook to build a section of road which will cost, with all appurtenances, approximately \$100,000 a mile, at a price of \$33,000 per mile to the State of Indiana. Stone & Webster, under whose supervision the work will proceed, let the construction contract to J. C. O'Connor & Sons of Ft. Wayne, Ind. A-ready the work on this stretch, which will perhaps be one of the most talked about and studied section of highway in the world, is under way.

In addition to the \$33,000 per mile provided by the State, Lake County authorities have assured \$25,000 from county funds and steps have already been taken by the County Council and Commissioners to provide this sum as the county's share. The extra expense of the section beyond the sum supplied by the State and county, which is equivalent to what the construction of the usual State specifications would cost, will be met by the Lincoln Highway Association, through a special fund provided by the United States Rubber Company. It is expected that the paving work will be completed by the end of October, many details, including the lighting installation, the beautification of the right-of-way, etc., remaining for accomplishment next spring.

In the design of this unique section of the Lincoln Highway is embodied the mature thought of 15 of the foremost experts in highway engineering and construction and related problems in the United States, who, acting without recompense as the technical committee of the Lincoln Highway Association, developed the general plan which was carried to detailed completion through the collaboration of the engineering department of the Indiana State Highway Commission; C. Gray, State highway engineer; Lockwood, Greene & Co., engineers, and W. G. Thompson, late State highway engineer of New Jersey, the association's consulting highway engineer. Federal aid of \$20,000 per mile has been allowed

by the Bureau of Public Roads of the Department of Agriculture toward the construction, the development of which will be closely followed by the Federal authorities.

The ideas embodied in the design of the Ideal Section, which will stand for years at its central location on the Lincoln Highway as a model for the gradual evolution of the entire route as traffic volume increases, impress many important lessons through which the association hopes to inform and mould public opinion of the United States. The design calling for 40 feet of 10-in. reinforced concrete pavement, capable of carrying a traffic of 20,000 vehicles per 24-hour day, one-quarter of which are estimated to be heavily laden trucks, impresses the necessity of permanency in our modern highway investments on main routes of travel. The width makes for safety and facility of operation. The absence of drainage ditches at the side of the road further inculcates the safety idea, while the night illumination increases the road's efficiency by permitting a heavy volume of night traffic without danger. The beautification of the roadside is in line with steps now being taken by the most advanced highway departments, which are realizing that too little attention has been given in this country to the importance of a proportionately small expenditure to realize the greatest beauty of the roadside.

While it is not expected that many States can undertake, in the near future, improvements embodying all of the principal elements of the Ideal Section design, it is felt by the Lincoln Highway Association and the officials of the United States Rubber Company, which made the object lesson section possible, that the design will be suggestive and will tend to bring to the attention of the American public the vital necessity of adequacy in present day specifications, if the hundreds of millions which are now going into highway construction are to properly serve the America of today and tomorrow.

During the past fourteen-year period our fire losses were 28.1 per cent of the value of new building construction. In 1920, although an abnormal amount of building was done, the fire losses were 23.5 per cent of the value of new buildings.

DAILY PACIFIC BUILDER

The only daily newspaper in the West whose columns are devoted exclusively to Building News. Covers San Francisco and Bay Counties. \$1.25 per month, payable in advance. Send for sample copy.

NOTICE TO CONTRACTORS

(Cutter School Addition, Estimated Cost, \$15,000)

Notice is hereby given that the Board of Trustees of the Cutter School District, Tulare County, California, will receive sealed bids for the furnishing of all labor and materials necessary in the erection and completion of a two-room addition to present school building, according to plans and specifications prepared for same by the ERNEST J. KUMP CO., Architects, of the City of Fresno, and in strict accordance with bids and alternates asked for in specifications.

Said sealed bids will be received up to and including 10 A. M. of the 21st day of August, 1922, by the undersigned, Clerk of the Board, at the town of Cutler, County of Tulare, State of California.

Said sealed bids must be accompanied by a Certified Check in a sum equal to at least 10 per cent of the amount of bid to do the work mentioned and made payable to the undersigned, Clerk of the Board, as a guarantee that the bidder will execute proper contracts and bonds in case the contract is awarded to him by reason of his bid.

Plans and specifications can be obtained at the offices of the District's Architects.

All bids to be made out on blank forms furnished by the Architects.

The successful bidder will have to give a satisfactory bond in the sum of 50%, covering labor and materials, and an additional 20% bond for faithful performance of contract, as fully set forth in specifications.

The Board of Trustees as owners reserve the right to reject any or all bids or alternate bids or any part or parts of any bids or alternates received and reject the balance thereof. And to waive any informality in any bids or alternates received.

All bids to be addressed to J. P. O'NEAL, Clerk of Board of Trustees, Cutler School District, Tulare County, California.

BY ORDER OF SAID BOARD OF TRUSTEES:

J. P. O'NEAL,

Clerk of Board.

NOTICE TO CONTRACTORS

(Alameda County Hospital Additions)

Office of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until Tuesday, September 5th, 1922, at 10 o'clock A. M. (the day when said bids will be opened and the contract awarded) for the erection and completion of Additions and Alterations to the Isolation Ward, etc., located within the California Reformatory, Walks, at the County Hospital, near San Leandro, Alameda County, California.

Complete plans and specifications for work on file in the office of the County Clerk in the Hall of Records Building in Oakland where copies may be obtained by depositing twenty-five dollars. Contracts will be restricted as to the length of time these plans may be retained to ten days. Contractors failing to return said plans and specifications within said time limit will forfeit their deposit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, certified by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties failing to honor the contract be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

The Board reserves the right to reject any or all bids.

(Seal) GEO. E. GROSS, Clerk of the Board of Supervisors of the County of Alameda.

Dated: August 7, 1922.

NOTICE TO CONTRACTORS

(Los Molinos School)

Notice is hereby given that the undersigned as Trustees of the Los Molinos Grammar School District, Los Molinos, Tehama County, California, will receive up to and including 1:30 o'clock P. M. of Saturday, August 19, 1922, sealed bids for the construction of a Grammar School Building, also septic tank and drainage system, all to be on the property of the Los Molinos Grammar School District, Los Molinos, Tehama County, California, and in accordance to plans and specifications as prepared by Chester Cole, Architect, Chico, California.

Plans may be seen at the residence of J. M. Tingley, Los Molinos, California, Clerk of the Board of Trustees of the Los Molinos Grammar School, or at the architect's office, Chico, California.

Each bid shall be accompanied by a check certifying to a responsible bank for the amount of 10 per cent of bid as provided for in said specifications.

The Board of Trustees reserves the right to reject any or all bids or parts thereof and to waive any informality in any bid received.

All bids to be addressed to J. M. Tingley, Clerk of the Board, Bids will be opened at the old Grammar School Building.

J. M. TINGLEY, Clerk.

J. P. SUMMERS,

BERT HUDSON,

Trustees of the Los Molinos Grammar School District, Los Molinos, Tehama County, California.

NOTICE TO CONTRACTORS.

(Orosi High School Additions, Estimated Cost, \$65,000)

Notice is hereby given that the Board of Trustees of the Orosi Union High School District, of the town of Orosi, County of Tulare, State of California, will receive sealed bids for the furnishing of all labor and materials necessary in the erection and completion of Physical Education Building, Manual Arts and addition to present building, including heating system, according to plans and specifications prepared for same by the Ernest J. Kump Co., Architects, of the City of Fresno, and in strict accordance with the bids and alternate bids asked for in specifications.

Said sealed bids will be received up to and including 2:00 P. M. of the 21st day of August, 1922, by the undersigned, Clerk of the Board, at the town of Orosi, County of Tulare, State of California.

Said sealed bids must be accompanied by a Certified Check in a sum equal to at least 10% of the amount of bid to do the work mentioned and made payable to the undersigned, Clerk of the Board, as a guarantee that the bidder will execute the proper contract and bonds in case the contract is awarded to him by reason of his bid.

Plans and specifications are on file with the undersigned, Clerk of the Board, and additional copies may be obtained at the offices of the Architect.

All bids to be made out on blank forms furnished by the Architects.

The successful bidder will have to give a satisfactory bond in the sum of 50%, covering labor and materials, and an additional 20% bond covering faithful performance—as fully set forth in specifications.

The Board of Trustees, as owners, reserve the right to reject any or all bids or alternate bids, or any part or parts of any bids or alternate bids, and reject the balance thereof, and to waive any informality in any bids or alternates received.

All bids addressed to H. A. Collins, Clerk of Board of Trustees of the Orosi Union High School District, County of Tulare, State of California.

BY ORDER OF SAID BOARD OF TRUSTEES:

H. A. COLLINS,

Clerk of Board.

NOTICE TO CONTRACTORS

(Alameda School Addition)

Notice is hereby given that the Board of Trustees of the Alameda School District, County of Fresno, State of California, will receive sealed bids for the furnishing of all labor and material necessary in the erection, construction and completion of a 1-room frame addition to present school building, including works according to plans and specifications, which may be obtained at the offices of the district's architects, the Ernest J. Kump Company, 207-8 Rowell Bldg., Fresno, California, according to alternate bids asked for in specifications.

Said sealed bids will be received up to and including 3 P. M. of the 23d day of August, 1922, by the clerk of the board at the offices of the architects.

All bids must be accompanied by a 10% certified check or bidders' bond made payable to the clerk of the board.

The successful bidder will have to give a 50% bond covering labor, and material and 20% bond for faithful performance as set forth in specifications.

The board reserves the right to reject any and all bids or any part or parts thereof and to waive any informality in any bid received.

All bids to be addressed to Ivan B. Williams, clerk of the Board of Trustees, of the Alameda School District, Fresno County, California.

By order of the said Board of Trustees,

IVAN B. WILLIAMS,

Clerk.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned on August 22d, 1922, for constructing portions of the State Highway System as follows:

(1) Bids received until and opened at 4:00 P. M. for grading and construction of culverts in Wasioche County, from 2 miles North to 5 1/2 miles North of Reno—approximately 3.76 miles.

(2) Bids received until and opened at 4:00 P. M. for grading and paving asphalt macadam surface in Wasioche County, from Reno to Purdy—approximately 15.57 miles.

Plans may be examined and form of proposal, contract and specifications secured at office of undersigned; may also be examined at the County Clerk's office at Reno, may also be examined at the Division Engineer's office in Las Vegas, Elko or Reno, and District office of Bureau of Public Roads, Mills Building, San Francisco, California. Deposit of Fifteen Dollars (\$15.00) with the undersigned required for copy of plans, which will be refunded on their return in good condition. Bids must be in proposal form of Highway Department and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certified check from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in the sum as is required in and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

NOTICE TO CONTRACTORS

(Garage and Shop Building—Firebaugh School District)

The Board of Trustees of the Firebaugh Grammar School District, Firebaugh, California, will receive sealed bids until 7:00 o'clock P. M., August 21st, 1922, at the Firebaugh Grammar School, at which time and place said bids will be opened and read in public for furnishing the required labor and materials for erecting and completing the proposed new Garage and Shop Building, in accordance with plans and specifications prepared by Antonio Johnson, Architect, of Kingsburg, California.

A certified check for an amount not less than ten per cent (10%) of amount of bid should accompany each proposal, made payable to the order of: Mrs. P. E. G. Sellers, (Clerk of the Firebaugh Grammar School District, as a guarantee, that the bidder will, within ten (10) days after being notified of the acceptance of his bid enter into a contract with said Grammar School Board in accordance therewith, and shall furnish bonds as required by the specifications. Said check to be forfeited to the said Grammar School District should the bidder refuse to execute contract and furnish bond as above mentioned.

Plans and specifications for all the above work may be seen in the office of Antonio Johnson, Kingsburg, Calif. By order of the Board of Trustees, Firebaugh Grammar School District, Firebaugh, California, by Mrs. P. E. G. Sellers, Clerk of the Board of Trustees.

Dated: August 5th 1922.

BIDS WANTED FOR REDDING SCHOOL.

(Two-story Reinforced Concrete and Tile School. Estimated Cost, \$110,000)

NOTICE TO CONTRACTORS AND BUILDERS

Pursuant to an order made by the Board of Trustees of Redding School District, at Redding, County of Shasta, State of California, on the 28th day of July, 1922.

Notice is hereby given that sealed proposals will be received by the Clerk of the Board of Trustees of said Red-

ding School District, at Redding, Shasta County, California, up to and including 7 o'clock P. M., on the 16th day of August, 1922, on which day said proposals will be opened and examined, to build a school house situated upon the lots of said Redding School District in the City of Redding, County of Shasta, State of California, in accordance with the plans and specifications for said building adopted by said Board of Trustees at their meeting held on the 28th day of July, 1922.

Plans and specifications and detailed drawings complete are on file in the office of Woollett & Lamb, Flagelstein Bldg., Sacramento, California.

Proposals must be accompanied by a certified check in at least ten percent of the amount of any bid, which check to be forfeited to said school district in the event the said bid of such bidder shall be accepted and he shall fail to enter into a contract to construct such school house, within ten days from the date the contract is awarded, containing such terms, conditions and provisions as shall be required by said board and for the amount bid or proposed in said bid or proposal.

Bids must be addressed to the Clerk of said Board of Trustees, Redding School District, Redding, Shasta County, California, and endorsed "Bid to Construct School House for Redding School District, at Redding."

The Board of Trustees of said District reserves the right to reject any and all bids.

The successful bidder must, within ten days from the date the contract is awarded, enter into a good and sufficient bond to be approved by said Board of Trustees, payable to said Redding School District for its use, in the sum of fifty per cent of the amount estimated as the contract price, conditioned for the faithful performance of said contract according to the plans and specifications, and shall, at the same time, execute and deliver to said Board of Trustees a good and sufficient bond to be approved by said Board for not less than fifty per cent of the proposed contract price, which shall be conditioned that the contractor will pay all claims for material, labor or supplies furnished and used and furnished for the work in and about the construction of said building.

By order of the Board of Trustees of Redding School District, Redding, Shasta County, California, 1922.

Witness my hand this 28th day of July, 1922.

E. C. FRISBIE,
Clerk of the Board of Trustees of Redding School District, Redding, Shasta County, California.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on August 28, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

1. From the County line between the County of Northern Boundary and the County of Calistoga (IV-Nap-49-A), about eight and four-tenths (8.4) miles in length, to be graded.

2. Monterey County, between Anderson Canyon and Sur River (V-Mon-56-B), about thirteen and one-tenth (13.1) miles in length, to be graded.

3. Kern County, (VI-S. W. 34), between the County line between S. & M. and Maricopa (VI-Ker-57-A), about two and seven-tenths (2.7) miles in length, to be graded and paved with bituminized macadam.

4. Los Angeles County, between Saugus and 1/2 mile northwest of Castaic School (VII-LA-4-A and B), about nine and one-tenth (9.1) miles in length, to be paved with Portland cement concrete.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the

offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission
AUSTIN B. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary

Dated July 31, 1922

NOTICE TO CONTRACTORS

(Kerman High School)

The Board of Trustees of the Kerman Union High School District, Kerman, California, will receive sealed bids up until 2 o'clock P. M., August 19th, 1922, at the High School Building, Kerman, California, at which time and place said bids will be opened and read in public for furnishing the required labor and materials for erecting and completing the proposed new High School Building in accordance with plans and specifications prepared therefor by Anton Johnson, Architect, of Kingsburg, California. Bids will be received separately for the different segregated contracts, as follows:

CONTRACT No. I: For the Executing, Concrete, Carpentry Work, Millwork, Masonry Work, Terra Cotta and Cast Cement.

CONTRACT No. II: Sheet Metal.

CONTRACT No. III: Lathing and plastering.

CONTRACT No. V: Blackboards.

CONTRACT No. VI: Painting.

CONTRACT No. VII: Plumbing.

CONTRACT No. VIII: Electrical Wiring.

CONTRACT No. IX: Program Clock.

CONTRACT No. X: Heating.

CONTRACT No. XI: Hardware.

CONTRACT No. XII: Metal Lockers.

CONTRACT No. XIII: Acoustical Felt.

CONTRACT No. XIV: Lighting Fixtures.

CONTRACT No. XV: Venetian Blinds.

NOTE: Contractors may bid on any contract or any combination of contracts and the board reserves the right to avoid contracts accordingly.

Certified check or bidder's bond for an amount not less than ten per cent (10 per cent) of amount of bid should accompany each proposal, made payable to the order of Mrs. M. S. Meeker, Clerk, or the Kerman Union High School District, as a guarantee that the bidder will, within ten (10) days after being notified of the acceptance of his bid, enter into a contract with said High School Board in accordance therewith, and shall furnish bonds as required by the specifications. Said checks or bonds, if forfeited to the said High School District should the bidder refuse to execute contract and furnish bonds as above mentioned.

Plans and Specifications for all the above work may be seen in the office of Anton Johnson, Architect, Kingsburg, California.

A deposit of Twenty-five Dollars (\$25.00) will be required for the plans and specifications. This deposit to be refunded on the return of the plans and specifications accompanied with a bona-fide bid.

The Board of Trustees of the Kerman Union High School District reserves the right to reject any or all bids submitted.

By order of the Board of Trustees, Kerman Union High School District, by Mr. M. S. Meeker, Clerk.

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

PRESCOTT, Ariz.—Windser, Coleman & King, Snowflake, awarded contract to construct 90 ft. clear span single arch steel bridge over Lynx Creek on the Prescott to Humboldt highway. Pouring of concrete for caissons has started.

LOS ANGELES, Cal.—Harbor commission has filed with engineer of war department application for permission to make the following improvements: To widen wharf No. 1, piers No. 223 and 242, on east side of the east side of the east channel in Los Angeles outer harbor, the proposed addition to be 2481 ft. long by 22 ft. wide.

To widen the existing 330 ft. wharf extending s. e. from S. pierhead station 430, channelward a distance of 15 ft., and to continue the construction of the new wharf along the same line to point near U. S. pierhead station 424. To improve an area 70 ft. by about 215 ft. in the s. w. corner of Fish harbor, for the extension of boat ways and wharf near berth No. 258.

CALIFORNIA.—Until Sept. 5, 2 P. M. bids will be received by State Highway Commission to construct reinforced concrete bridge consisting of two 44-ft. reinforced concrete girder spans with necessary pier, abutments and wing walls in Mendocino county across East branch of Russian river, about 6 miles north of Ukiah. Austin B. Fletcher, state highway engineer. See call for bids under official proposal section in this issue.

NAPA, Napa Co., Cal.—County Surveyor Edw. P. Ball completes specifications for Strawn bridge and will present to supervisors for approval Aug. 22.

NAPA, Napa Co., Cal.—Harry Thorsen, St. Helena, at \$1795, awarded contract by supervisors to construct culverts as follows: (1) Extension of 2 ft. 6-in. by 2 ft. reinforced box culvert on West Linn St.; (2) reinforced concrete box culvert 63 ft. on Congress Springs Rd.; (3) reinforced concrete deck for bridge, 12 ft. on Struve Road; (4) extension 2 ft. 9-in. by 4 ft. 6-in. reinforced box culvert on road leading from Union Station to Brown's Valley.

SAN RAFAEL, Marin Co., Cal.—S. P. Brownlee, San Rafael, at \$4275, awarded contract by supervisors to construct reinforced concrete bridge over Pine gulch creek at Bolinas, involving 70 cu. yds. excavation; 250 yds. backfill; 135 cu. yds. reinforced concrete; 20 ft. 12-in. and 20-ft. 18-in. corrugated culvert.

QUINCY, Plumas Co., Cal.—Jenkins & Elton, 3560 Y St., Sacramento, awarded contract by supervisors to construct two 75-ft. riveted steel spans across Middle Fork of Feather river at Portola, involving 66,200 lbs. steel. Security Constr. Co. bid \$15,494 and A. W. Kitchen, \$16,959.

R. D. Tucker, Quincy, at \$2650, awarded contract to construct one 36-ft. span reinforced concrete girder deck bridge over Thompson Creek.

MARIPOSA, Mariposa Co., Cal.—Until September 6, bids will be received by Mariposa County Supervisors to construct steel bridge to replace structure at Bagby, 180-ft. span; concrete floor with 100-ft. approaches on which alternative bids are wanted for concrete and timber construction. Estimated cost, \$20,000. A. E. Cowell, Merced, Engineer.

SAN LUIS OBISPO, Cal.—Pacific Construction Co., 15 California St., San Francisco, at \$17,471, awarded contract by supervisors to construct plate girder steel bridge over Santa Rosa creek near Cambria. Other bids: Maino & Lane, \$17,938; Appleton & Davis, \$21,087; W. Ledbetter, \$21,560; Security Bridge Co., \$23,037.

Bids rejected to construct steel truss bridge over Cholame creek. Bids were: Maino & Lane, Paso Robles, \$21,371; Pacific Constr. Co., \$24,778; Appleton & Davis, \$28,722; Security Bridge Co., \$29,761; W. Ledbetter, \$29,330; Warren, Burch, Lowe Bldg., county surveyor.

Appleton & Davis, Atascadero, at \$1,442, awarded contract to construct reinforced concrete culverts on Templeton-Willow creek road and Templeton-Creston and Templeton-Vasa roads, involving 284 yds. excavation; 187 cu. yds. class A concrete; 12,500 lbs. reinforced steel. Wm. Ledbetter bid \$1,551.

MARTINEZ, Contra Costa Co., Cal.—Raisdon Iron Works, 20th and Indiana Sts., San Francisco, at \$3233, awarded contract by Associated Oil Co., to construct steel bridge, 131-ft. long, across Santa Fe right-of-way at Avon.

EUREKA, Humboldt Co., Cal.—Padgett & Kelly, Eureka, at \$33,000, awarded contract by supervisors to construct three steel bridges over Bluff, Athens and Slate creeks. Other bids: F. L. Smith, \$33,349; Mercer-Fraser, \$40,400.

MARYSVILLE, Yuba Co., Cal.—Until Aug. 21, 8 P. M., bids will be received by J. O. Wanzel, city manager, for Ellis Lake improvements, involving approximately 135,000 yds. of excavation. Plans on file in office of W. Meek, city engineer.

STOCKTON, San Joaquin Co., Cal.—City Engineer W. B. Hogan is preparing estimates of cost for the bridge over Mormon channel.

MARYSVILLE, Yuba Co., Cal.—Bent Bros., 1711 Eagle Ave., Los Angeles, at \$12,974 awarded contract by Yuba Development Co., Hobart Bldg., San Francisco, to construct a power house for Bullard Dam project and at \$330,630 to construct dam in connection with the project. Owners will furnish cement, steel, pipe, valves and dam equipment. Bids are now being taken by owners for power house equipment. Plans for the project prepared by Constant Angle Arch Dam Co., Hobart Bldg., San Francisco.

Martin, \$9872; Jenkins & Elton, \$9635; Shutes & Zinck, \$9500; Walter L. Proctor, \$9239; San Jose Paving Co., \$9600; Fredrickson Brothers & Shannon, \$10,150; M. B. White, \$9981; Rocca & Coletti, \$9560; Robert Beyrle, \$9580; James R. Johnson, \$8500.

MARTINEZ, Contra Costa Co., Cal.—County Surveyor R. R. Arnold completing specifications for three bridges in Road District 2, two on road between Moraga and Lafayette and one in Moore Canyon.

HANFORD, Kings Co., Cal.—County Surveyor Roy May preparing specifications for two concrete bridges over People's Ditch in Road District No. 3 and for one bridge over Lower Kings River Ditch.

STOCKTON, San Joaquin Co., Cal.—Until September 6, bids will be received by E. D. Graham, County Clerk, to construct 4 concrete bridges and culverts in Norton Lane, to replace present wooden structures, estimated cost, \$6,910 and for construction of 2 concrete bridges over Lone Tree creek on B. M. Bainbridge road north of Escalon. F. E. Quail, County Surveyor.

STOCKTON, San Joaquin Co., Cal.—Until September 5, 10 A. M., bids will be received by E. D. Graham, County Clerk, to construct Dry Creek Bridge, 640 ft. long, consisting of concrete piers and timber deck. Supervisors to receive concrete: 2 1/2 tons reinforcing steel; 86,000 ft. timber; 2200 lin. ft. concrete piling; 22 bents. Construction will be financed through Sacramento and San Joaquin counties. F. E. Quail, San Joaquin County Surveyor.

SACRAMENTO, Cal.—County Supervisors will shortly call bids to construct Paintersville and Steamboat Slough bridges, estimated to cost \$189,000 and \$135,900, respectively. Drury Butler, County Engineer.

FRESNO, Fresno Co., Cal.—Supervisors, D. M. Barnwell, Clerk, will receive bids until September 15 to construct bridge over Creek on dirt road near Claremont school; 100 ft. long. Chris P. Jensen, Cory Bldg., County Surveyor.

SACRAMENTO, Cal.—Jenkins & Elton, 3560 Y St., Sacramento, at \$7572, awarded contract by supervisors to reconstruct Benson Ferry bridge on Lower Stockton Road. Other bids: M. L. Isham & Co., \$8784; George Coleman, \$8960; E. M. Whipple & Co., \$9685.

IRRIGATION PROJECTS

MERCED. Merced Co., Cal.—Until Aug. 25, 11 a. m., bids will be received by W. D. Wagner, secretary, Merced Irrigation District, for the following improvements:

Constructing concrete structures on the Lake Yosemite-Lake Grand Canal for constructing nine reinforced concrete spillways; a reinforced concrete spillway and check structure and a reinforced concrete automatic check structure in the Lake Yosemite-Lake Grand Canal. Work consists of constructing:

SYMPHON No. 1, 200 ft. long, crossing Black Rascal creek.

SYMPHON No. 2, 2218 ft. long, crossing Bear creek.

SYMPHON No. 3, 46 ft. long, crossing Yosemite Highway.

SYMPHON No. 4, 50 ft. long, crossing files creek.

SYMPHON No. 5, 140 ft. long, crossing the Santa Fe railroad and the city road.

SYMPHON No. 6, 64 ft. long, crossing Owens creek.

SYMPHON No. 7, 60 ft. long, crossing files creek.

SYMPHON No. 8, 140 ft. long, crossing the Santa Fe railroad and the county road.

SYMPHON No. 9, 140 ft. long, crossing Jarvis creek.

All structures given above include transition structures at each end of the spillway proper.

SPILLWAY AND CHECK STRUCTURE. designed to spill excess water from the upper end of the Sympson No. 1.

AUTOMATIC CHECK STRUCTURE. near southwest corner of section 15, T. 7 S., 15 E., to regulate the height of water in the canal.

The spillways will contain approximately 500 cu. yds. of concrete and 20 tons of reinforcing steel, and the spillways and check structures will contain approximately 67 cu. yds. of concrete.

Large tons of reinforcing steel and 1000 ft. of 2-in. concrete lining.

Separate bids, same date, to construct three metal flumes on Lake Yosemite-Lake Grand Canal, together with timber supports. Flume No. 1 is semi-circular metallic flume about 11 ft. in diam. and 1216 ft. long, and is situated in the southwest quarter of section 24, T. 6 S., R. 14 E., M. D. B.

Flume No. 2 is semi-circular metallic flume, about 11 ft. in diam. and 6 ft. long, and is situated in the northwest quarter of section 8, T. 7 S., R. 15 E. The structure to support the flumes are about 20 feet high, and are of timber construction.

Separate bids, same date, to construct tunnel 1300 ft. long on Lake Yosemite-Lake Grand Canal, 10 by 10 ft. copies of specifications are available for a deposit of \$5 for each project.

C. Starr, chief engineer for district.

LANCASTER. Cal.—Until 8 p. m., Aug. 15, bids will be received by directors of Little Rock Creek Irrigation district, L. A. county, for furnishing and laying of 17,400 ft. 10-in., 35,500 ft. 12-in., and 8,500 ft. 16-in. concrete pipe.

Specifications and further information may be obtained from Clarence Scott, secretary. Work to be done under Sec. California Irrigation Dist. Act.

BUTTE COUNTY. Calif.—Reclamation District No. 777, Butte County, has plans with the State Reclamation Service for ditch construction and other drainage works; estimated cost, \$60,000.

FULLERTON. Cal.—G. R. Walker, architect, submitted low bid for ditches, at \$2250, to construct ornamental lighting system in E. Maple St., between S. Spadra Rd. and 320 ft. east of Corona Ave. Other bids were: P. Savoy, \$2385; A. C. Rice, \$2475; C. Sparks, \$2560; H. A. Walker, \$2360; D. Perry, \$2300; J. M. Leet, \$2727.

OROVILLE. Butte Co., Cal.—Until Aug. 28, 2:30 p. m., bids will be received by Charles Bloom, secretary, Drainage District No. 200 of Butte county, to construct drainage system. Wm. W. Green, Elgin, Calif., engineer for district. See entry for bids under official proposal section in this issue.

OAKDALE. Stanislaus Co., Cal.—Bonds of \$50,000 voted in Oakdale Irrigation District for drainage improvements: \$1100 to concrete line 100 ft. lateral; \$4750 to construct Young lateral; \$1850 to replace Dudley pipe line; \$1660 for pipe line near Riverbank; \$6000 to pipe part of town main; \$2100 to extend Crane lateral, etc.

LIGHTING SYSTEMS

BURLINGAME. San Mateo Co., Cal.—Property owners in Howard & Highland Aves., San Mateo Drive and Middlefield Road proposed to install electric lights; est. cost, \$1 front ft. C. A. Terello, city engineer.

MACHINERY

YUBA CITY. Sutter Co., Cal.—W. P. Boyce & Son, Woodland, awarded contract by Shell Oil Co. to construct tank and piping system for distributing plant here.

SANTA BARBARA. Cal.—Co. Counties Gas Co. will start work in 60 days on 6-in. high pressure gas main from Ventura to Santa Barbara, 30 miles.

The Diamond "J" Mixer

The Newest of The Barrel Type of Mixer

Rapid in Mixing Action---Easily Charged and
Discharged---Can be rapidly moved from
place to place---Always ready
to go to work

Barrel 33 Inches
From Ground
Easy to Feed

Rubber Tire Truck
Tracks With Auto
Quick to Move

Hook it right on behind your Auto

When a job is finished it is possible for one man to wheel it back of the auto and by the use of one bolt couple it ready for the road.

Contractors do not realize the yardage capacity and the money-making power of the Diamond "J" Mixer. It is capable of turning out from 25 to 30 yards of concrete per 8-hour day, with 4 to 5 men, and the concrete is as well mixed as can be done by any machine, regardless of size.

The Diamond "J" Mixer is adopted to nearly all

sizes and kinds of concrete jobs from the small repair jobs to the large basements and foundations. In fact, a number of contractors now prefer to have 2 or 3 of these small machines rather than one large machine. They can be used separately on small jobs, or two or more on the larger jobs.

The Diamond "J" is built strong throughout, made of the very best material, and will stand years of hard service.

The Diamond "J" Mixer complete with engine weighs about 775 pounds. Write for prices.

MINING ENGINEERS TO CONVENE IN SAN FRANCISCO

The American Institute of Mining and Metallurgical Engineers will hold its annual meeting in San Francisco from September 25 to September 29, according to the announcement of C. H. Fry, secretary of the San Francisco section. Mining experts from all parts of the country are expected to attend.

Col. Arthur S. Dwight, president of the Institute, will leave New York with a party of Eastern engineers ten days before the convention, traveling through Salt Lake City into Montana, where various mines are to be inspected.

Arriving in San Francisco September 24, headquarters will be established at the Palace Hotel. Special sessions are to be held during the week at the Engineers' Club, 57 Post Street.

WORLD'S LARGEST HIGH TENSION SWITCHES BEING INSTALLED

The largest high tension electric switches ever built are being installed by the Pacific Gas & Electric Co. in its Pitt river hydro-electric development. These switches, six in number, weigh upwards of 30 tons each and are nearly 18 ft. high. Approximately 2000 gallons of oil, used as an insulating medium, are required for each switch. While the switches are designed to operate on a 220,000-volt system, they have been subjected to a test of 350,000 volts, over 50 per cent higher than the normal operating voltage. The switches were specially built by the Westinghouse Electric & Manufacturing Co. of East Pittsburgh, Pa., with Pacific Coast offices in the First National Bank Bldg., San Francisco.

BUILDING IN U. S. REACHES UN- PRECEDENTED HIGH LEVEL

Building throughout the country reached the unprecedented high level of \$1,700,000,000 during the first half of 1922, against \$1,063,500,000 for the 1921 period. An unusually high proportion involved small operations with 40 per cent residential. Few skyscrapers and public utilities are doing only essential construction. Labor situation has had a restraining effect.

Following table shows percentages of residential, industrial, public works and utilities and business buildings under way June 30, 1920 to 1922, inclusive, as compared with total:

	(Percentage)
Residential	1922 1921 1920
Industrial	40 34 22 1/2
Public works and utilities	7 1/2 8 26
Business buildings	17 23 21
.....	16 1/2 11 17 1/2

As a result of relatively little construction for public works, utilities and industrial plants, large contractors are not receiving their customary percentage of gross business. Their operations in many instances are as low as 33 per cent of normal. One prominent engineer states that over 20 per cent of the work started since January 1 was of such magnitude as to justify his firm submitting estimates.

Inquiries for estimates on larger operations are coming in greater volume but actual construction is delayed pending stabilization of building industry. Indicative of the relatively small amount of large type construction being done is the fact that structural iron workers constitute perhaps the only class of building labor of which there is a surplus.

Labor in the building trade is inefficient and scarcer than ever. In New York City peak wages are still paid, a combination of all classes averaging \$1.09 an hour, against a country-wide figure of 90 cents which is a decrease of 12 1/2 per cent from the high point. Even at current rates, contractors in the metropolitan district are unable to keep their mechanics, small speculative builders continually raiding the market for bricklayers, plasterers and masons, offering as high as 50 per cent above the standard scale.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS TO ESTABLISH MUSEUM

Plans for the establishment of a national engineering museum, the first of the kind in the United States, are announced by the American Society of Mechanical Engineers. The collection, which will be a part of the Smithsonian Institution's National Museum at Washington, will be started with various models, drawings, diplomas and medals that once belong to Capt. John Ericsson and Cornelius H. DeLamater, builders of the Monitor, and the pioneer engineers of America, who were associated for fifty years in the DeLamater Iron Works, the largest institution of that kind in the United States half a century ago. All the engineering societies in America have accepted the Mechanical Engineering Society's invitation to participate in assembling material for the museum.

HIG OREGON IRRIGATION PROJECT IS RECOMMENDED

Utilization of the Deschutes river, Oregon, and its tributaries for irrigation of approximately 140,000 acres in the Deschutes basin, with incidental power development, is recommended to the Federal power commission in a report of a board of engineers composed of D. C. Henny, consulting engineer of the reclamation service; Col. J. B. Cavanaugh, army engineer corps, and F. F. Henshaw, district engineer, U. S. geological survey.

The board began its investigation more than a year ago to work out a policy to be followed by the Federal Government and the State of Oregon in using, reserving or disposing of public lands, waters, reservoirs and power sites contiguous to the Deschutes river, which best would serve the public interest.

By using the upper Deschutes for irrigation, an aggregate of 55,000 horsepower could be developed on the lower river, the engineers found, and if the upper Deschutes storage be used for power the aggregate horsepower would be increased to 613,000.

"The Pacific Coast," says the report, "is bound to become an industrial center in the future by reason of abundance of water power, even though the uses to which it may be put, considering the scarcity of certain raw materials, are as yet uncertain."

The report continues:

From the standpoint of economy the agricultural products which will ultimately be consumed should be raised locally, both to avoid long distance transportation and to build up communities in which the industrial and farming interests shall be reasonably balanced.

Value of irrigated land are steadily advancing, and it will be a question of a comparatively short time when all these irrigation units, if not feasible now, will become practicable to the extent of available water supply.

225,000 ENGINEERS, ARCHITECTS AND DRAFTSMEN IN UNITED STATES

According to the fourteenth census in 1920 there were 64,660 civil engineers and surveyors in the United States as compared with 52,033 in 1910. The total number in the professional technical class, according to the census report, was 224,957, made up of the following:

	1920.	1910.
Architects	18,185	16,613
Designers	15,410	11,788
Draftsmen	52,565	33,314
Inventors	2,376	2,347
Civil engineers and surveyors	64,660	52,033
Electrical	27,077	15,278
Mining	6,695	6,930
Mechanical (including all others)	37,689	14,514
Total	224,957	152,817

The above figures for 1920 include 7842 women for all but 178 of whom were designers, draftsmen or inventors. The total for 1910 includes 6283 women.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

That the greater part of the construction projects now under way will be forced to shut down for lack of construction materials unless the present coal priority order is modified is the statement made by the Associated General Contractor of America (Washington, D. C.), in a petition of protest to the Interstate Commerce Commission. It is the opinion of the contractors that the action of the commission is so drastic as to defeat its own purpose to keep industry in operation by practically shutting down the second largest industry in the country, upon which 11,000,000 people depend for their livelihood.

The contractors are in favor of priority for coal for the first four classes established by the commission, including special purposes, government uses, public utilities and domestic consumption, but contend that building materials are just as important to construction as coal is to other manufacturers, and should have equal place with it after the first four classes are served.

The petition calls attention to the fact that with the re-opening of the mines the demand for cars for coal will be not less than 320,444 cars per week, of the maximum 324,000 serviceable cars of these only 291,000 will be suitable for the loading and transportation of coal, leaving only 33,000 open-top cars railway strikes will be settled, and that the present priority order stands, the contractors estimate the probable demand and supply of open-top cars, weekly during August, September and October, will be as follows:

Commodity.	Demand.	Supply.	Per Cent Supplied.
Coal	320,000	291,000	91
Sand, stone and gravel	50,000	10,615	21
Ore	40,000	8,516	21
Iron and Steel	25,000	5,322	22
Miscellaneous	20,000	4,258	21
Limestone	10,000	2,129	21
Coke	10,000	2,129	21

Engineer C. E. Grunsky of San Francisco, in charge of the Gordon Valley water project for the city of Vallejo, will confer with officials of that city regarding his compensation for services. Under the present arrangement Grunsky's firm is being paid for engineering services rendered, while Grunsky, senior, is paid a retainer each month. City officials believe a saving could be made by accepting the percentage plan suggested by Grunsky some months ago. Grunsky intimated that he would ask 6 per cent of the project figure, minus the cost of purchase of lands and rights of way and legal fees. According to officials the 6 per cent would apply to approximately \$800,000, giving the firm a fee of \$48,000 for the entire job.

The San Francisco Electrical Development League has gone on record as endorsing the transportation franchise amendment sponsored by the California Real Estate Association. The amendment proposes to unify and simplify the control and regulation of electric railways and motor busses and trucks operated over the public highways, by giving the railroad commission sole franchise-granting power over these utilities.

Construction operations in Chicago under the "Landis award" fixing wages for the building crafts, which thirteen trades unions refused to accept, are going along merrily, according to the Chicago Association of Commerce. Contractors operating under the Landis award have started \$80,000,000 worth of building this year and have 16,000 men working in the thirteen "outlaw" trades.

F. G. Lingren, sales manager for the Denny-Renton Clay & Coal Co., Seattle, Wash., has resigned to accept a similar position with a clay products company in San Francisco, according to word from Seattle. Lingren was associated with the Denny-Renton Co. since its incorporation in 1905, the company at that time operating under the name of Denny Clay Co.

Luning Mineral Products Co.'s plant at Richmond suffers fire loss of \$30,000. The company manufactures paints and paint colorings.

The marble quarry near Pine Grove, Calif., closed for the past twenty-five years, has resumed operations under the direction of the original owners, George and Albert Dondero. The quarry was closed due to the cost of transporting of material. Improved facilities allow the reopening.

Construction on the first unit of the \$500,000 plant of the Washington Iron Works in Seattle, Wash., has been started by the Puget Sound Bridge & Dredging Co. First unit will consist of boiler shop, 70 by 570 ft., two stories in height, of steel construction, and will cost \$100,000.

Northern Clay Co. of Auburn, Wash., has contract to furnish terra cotta for \$2,569,000 Dexter Horton Bldg., to be erected in Seattle. Puget Sound Bridge & Dredging Co., Seattle, are general contractors.

W. H. Palmer and J. S. Fuimer have formed a partnership and will engage in the electrical contracting business in Santa Rosa. Storerooms will be opened at 717 Fourth St.

George W. Johnson, for nine years with Pacific Gas & Electric Co. at Marysville, has resigned to enter the electrical contracting business in Yuba City.

The U. S. Steel Corp., under date of Aug. 10, announces its unfilled tonnage increased 140,630 tons. The tonnage on July 31 totaled 5,776,161 tons, as against 5,635,531 on June 30 and 4,830,324 on July 31, 1921.

Klamath Falls, Ore., lumber mills and box shoo factories are working full shifts, 24 hours a day, to handle increased demand for product. From 500 to 1000 more men could be used, according to reports.

The California White & Sugar Pine Manufacturers' Association estimates a stand of 325 billion feet of timber in its territory, which extends from Klamath Falls, Ore., to the Tehachapi.

Auburn city trustees proposed to purchase electric lighting system of Bell Electric Company. Bonds will be voted.

ALONG THE LINE

Expenditure of approximately \$4,000,000 in the construction of a giant hydro-electric plant to serve the Northwest Electric Co., Portland, Ore., is announced by Herbert Fleishhacker, president of the company and San Francisco banker. Within sixty or ninety days the site of the plant will be selected and work commenced as soon as possible.

Charles Walter Tubby, Seattle, Wash., sales manager for the Worthington Pump and Machinery Corp., has been elected chairman of the Western Washington section of the American Society of Mechanical Engineers, of which Dean Dexter S. Kimball, of Cornell is president. Tubby succeeds Wallace L. Newell of Seattle.

The Penzoid Co., affiliated with the Pennsylvania American Refining Co., has purchased a two-acre site in Powell St., west of San Pablo, Oakland, and will construct storage tanks and warehouse.

Utah Construction Co., Phelan Bldg., San Francisco, at approximately \$350,000, awarded contract to construct six and one-half miles of spur track for Western Pacific Railway in vicinity of Stockton.

J. O. Wanzer, newly-appointed city manager of Marysville, rules that permits must be secured before building operations are started. Plans will be required with applications.

The Spencer Electric Co. has purchased the stock and fixtures of the California Electrical Construction Co. and has opened new quarters at 320 Twelfth St., Oakland.

C. R. McCormick & Co. have incorporated their Los Angeles organization under the name of Charles R. McCormick Lumber Co. of Los Angeles, with John Olsen as general manager.

Bids are being received by city trustees of Crescent City, Del Norte County, to improve about fifty blocks of streets, for which bonds of \$180,000 were voted.

Manteca city trustees ask State Railroad Commission to place valuation on Manteca waterworks. Proposed to vote bonds and purchase system for municipal operation.

City of Oakland will vote question of issuing bonds of \$538,000 to purchase Redwood Park. Election will be held August 29.

Alva J. Smith, representing Black & Veatch, eastern consulting engineers, has opened an office at 200 Fay Bldg., Los Angeles.

Senator Samuel Shorthridge will seek an appropriation of \$110,000 to purchase site and erect Federal building at Marysville, Cal.

NEW EXCAVATING MACHINE IN OPERATION AT LOS ANGELES

Street and highway contractors will be interested in a new excavating machine in operation in Los Angeles by the Continental Construction Co. of that city. The machine is the first of its kind to be seen here, although it has been in operation for six years in Chicago and the middle west. It weighs some 45,000 lbs., cuts a trench 6 ft. 6 ins. wide to a depth of 3 ft. or any less depth, by means of a revolving cylinder carried at the front end of the machine. This cylinder is equipped with scoops which elevate the material over the cylinder and drop it into an endless belt, which carries it into wagons or trucks alongside, similar to an elevating grader. These scoops are fitted with cutting teeth, both scoop and teeth being heavy cast manganese steel which are said to last for a year under ordinary working conditions. The machine is stoutly built of heavy structural steel beams, is driven by 45 h. p. Twin City gas engine, and is equipped with caterpillar tread. When broken in the machine is supposed to take care of 100 cu. yds. of material an hour. No preliminary plowing is required. The machine is being put to a rigid test on the job on which it is now engaged, the material being densely compacted granite boulders and oiled hardpan. The equipment is built by Koehring Machine Co., represented in California by Harron, Richard & McCone.

ELEVENTH NAVAL DISTRICT SEEKS \$9,500,000 FOR IMPROVEMENTS

Officers of the Eleventh Naval District will ask for appropriations totaling \$9,500,000 for enlarging various naval establishments at San Diego bay in the naval budget for 1923-24. Among the improvements proposed are two reinforced concrete wharves, each about 1000 ft. in length, at the destroyer repair base, a reinforced concrete wharf at the foot of E St. to serve the fleet administration building and naval storehouse and a wooden wharf at the naval training station at Loma Portal. A 2500-ton marine railway, duplicating the one now being erected at the destroyer repair base, is proposed. Construction of a large number of barracks, storehouses, shops, power plants and other improvements at the various naval stations is also contemplated. During the last 10 years the Government has spent about \$20,000,000 on permanent construction projects for the navy at San Diego.

BIDS ASKED FOR STATE PRINTERY CONSTRUCTION

Bids will be considered by the State Department of Public Works, George B. McDougall, State architect, to construct the State printery to be erected at Eleventh and O'Sts., Sacramento. The structure will be two stories in height, with basement, 161 by 154 feet. The basement and first story will be of reinforced concrete mushroom construction and the second story and roof of slow burning roof construction. The structure will have a composition roof with terra cotta tile parapets, skylights, steel sash for exterior windows, plastered exterior, terra cotta ornamentation, concrete stairways with iron railings, two freight elevators, offices and comfort rooms. The excavating, mason work, plastering, sheet metal work, roofing and rough carpenter work are included in the items for which bids are desired. Mechanical equipment will be to be done by day's labor.

BIG INCREASE MADE IN HIGHWAY CONTRACTS OVER 1. S.

Statistics compiled by highway information service, New York, show that for the first five months of 1922 a sum of \$35,258,000 more has been awarded for road and street construction in the United States than for the corresponding period in 1921. In May, 1922, contracts let amounted to \$9,626,000 more than the contracts let in May, 1921. The figures show that notwithstanding a late start this year the program of constructing better highways is progressing more rapidly than ever and that this favorable condition will continue until fall. Contracts awarded for road and street construction in the United States during the first five months of 1921 and 1922 were valued as follows:

	1921	1922
January	\$2,689,000	\$7,397,000
February	13,578,000	18,074,000
March	23,504,000	33,830,000
April	49,487,000	46,529,000
May	63,426,000	52,596,000

Total.....\$208,684,000 \$173,426,000

The figures showed also that average prices, January to May, 1922, for road materials were 20 per cent lower than for the same period in 1921, and that the amount of materials used, as well as labor employed, increased 50 per cent.

COMPETITION ON SELECTED BIDDERS TO FIGURE YOUR WORK?

The majority of architects have given much thought to the matter of calling contract bids in connection with the work they have planned. Many have found the practice of selecting a few responsible contracting firms and permitting only these concerns to figure the contracts satisfactory, while others feel that competition among bidders is curtailed through the employment of the practice of selecting bidders on the work.

It is decidedly not fair for an architect to be called upon to supply twenty-five or thirty sets of plans to prospective bidders on the average building project. His commission will not pay for the grief connected with such action and he may, in many cases, obtain figures that are so ridiculously low that a bonding house would be required to finish the work for the bankrupt contractor. The architect has become acquainted with the methods of certain responsible builders and he prefers to call in a few such men and let them offer bids for the contract. He knows that the work will proceed without delay and he is fairly sure that the owner has obtained the best possible bid on his building.

However, it has been found necessary to pass a law requiring that bids be advertised for on public buildings and improvement work. There, undoubtedly, was need for such a law. No one suffers through compliance with the law and through the added competition among the bidders very close figures are obtained.

"I find conditions in the Northwest very different from those obtaining in most localities," said a local bidder the other day. "I am equipped to handle building projects efficiently, but being a newcomer in the field I experience difficulty in obtaining plans to figure. The better known firms are called in by the architect, who, in many cases, advises me that he has all the bids he desires. It may be possible that on certain of those jobs I can give the owner a much better bid than the bid which is finally accepted."

Somehow it does not seem that the practice of selecting a few bidders and excluding others who may possibly be

In position to offer an exceptional bid on a particular contract is quite right. The more competition the better, providing, of course, that the bidders are responsible. The owner is entitled to unrestricted legitimate competition the same as the city, county, state or national governments are.

The practice of selecting bidders leads to insinuations unfounded insinuations—but statements, nevertheless, that are anything but beneficial to the building industry at large. Seattle Journal of Commerce.

NEW TYPE OF APARTMENT HOUSE FOR PARIS

To combat the housing shortage it is proposed to erect a hundred apartment houses in the form of towers around the boundaries of Paris known as the "fortifications" which would approach in height the greatest New York sky-scraper but would be separated by several hundred yards expanse of gardens. Each building would be designed to house 4000 people and all would be uniform in design in order to form a symmetrical frame for the capital. It was only recently that the Perisians, imbued with the idea confirmed by a city ordinance that the municipal beauty depended upon limiting the height of buildings to seven stories, considered the American type of sky-scraper vulgar, but housing difficulties have brought about a change of mind. The tower-house plan, is advocated by a famous architect and is likely to be accepted on account of the economy of the construction proposed. The plan provided for the use of "electric cement" invented during the war for heavy artillery bases which is ferro aluminum of limestone obtained through an electric furnace process. This new material is manufactured without the use of coal in Alpine hydro-electric plants and acquires in 24 hours the same hardness that Portland cement does in a month and this solidity increases with age.

JOINT FILLER IS DEVELOPED FOR CONCRETE

Unightly black lines, sometimes jagged and irregular, which mar the appearance of practically all concrete roads and which are due to the natural color of materials used to fill joints and cracks, will be avoided by the use of a material for the purpose developed in the laboratories of the U. S. Department of Agriculture, if tests by actual use prove as successful as expected.

This material has the same color as concrete, and when used to fill cracks and joints the surface has the appearance of a continuous and unbroken slab to the casual observer.

No particular advantage over other good materials is claimed for the preparation other than its color, and it is probable that the cost will be somewhat higher but not prohibitive.

For several weeks a section of road with expansion joints filled with this material has been under observation, and the results are entirely satisfactory, but a longer test will be necessary before it can be recommended for general use.

The mixture consists of approximately 12 parts rosin, 1 part crude rubber, with sufficient barium sulphate to give the desired color. In preparation the rubber is dissolved in gasoline, and the rosin is then mixed in with an application of heat, the coloring material being added as required. Any desired consistency can be obtained by varying the proportions. A material with remarkable adhesive properties is produced and which can be heated so that it will flow into the cracks and joints.

Building News Section

APARTMENT HOUSES

Plans Being Prepared

APT. HOUSE. Cost, \$22,000
SAN FRANCISCO. North Beach District.

Three-story and basement class C apt. house (six 4-room apts, with garage in basement).

Owner—Withheld.
Architect—Albert Fahre, 110 Sutter St., San Francisco.

Contract Awarded.

APARTMENTS. Cost, \$19,000
SAN FRANCISCO. S Washington St., 165 W Scott St.

Three-story and basement frame (5) apartments.

Owner—Miss A. G. Duffy, 2805 Washington St., San Francisco.
Architect & Contractor—K. Adler, 493 22nd Ave., San Francisco.

Owner Taking Sub-Figures.

APARTMENTS. Cost, \$90,000
SAN FRANCISCO. S Sutter 116-6 W Hyde St.

Four-story and basement reinforced concrete (32) apartments.

Owner—Louis D. Stoff, Sutter St. near Leavenworth St., San Francisco.
Architect—E. H. Denke, 1317 Hyde St., San Francisco.

Working Drawings Being Prepared.

APT. HOUSE. Cost, \$350,000
LOS ANGELES. Los Angeles Co., Cal. SE. Wilshire Blvd. and Berende St.

Ten-story class "A" reinf. concrete apartment house (145x175), 240 rooms (pressed brick and terra cotta facing).

Owner—A. C. Blumenthal, Loew State Bldg., Los Angeles.
Architect—Alex. E. Curlett and Caud Beelman, 408 Union Bank Bldg., Los Angeles.

Concrete Contract Awarded.

APARTMENTS. Cost, \$100,000
SAN FRANCISCO. SW. Geary and Jones Sts.

Six-story and basement Class C steel and reinforced concrete store and apartment house (25 2 and 3-room apartments and 4 stores).

Owner—S. & G. Gump Realty Co., Architect—Milton Latham, 452 Montgomery St., San Francisco.

Concrete work awarded to Adam Arras Co., 130 Jessie St., at \$14,980.

Figures are being taken for carpentry, mill work and plastering.

Contract to Be Awarded This Week.

APARTMENT HOUSE. Cost, \$400,000
SAN FRANCISCO. NE. Gough and Washington.

Eight-story and basement reinforced concrete apartment house (60 2-4 and 5-room apartments).

Owner—Crest View Apartments, Inc. Architect—Jos. L. Stewart, Claus Spreckels Bldg., San Francisco.

Contractor—Mason Bros., 251 Kearny, San Francisco.

Plans Completed.

APARTMENTS. Cost, \$13,000
SAN FRANCISCO. SE Eleventh Ave. and Geary.

Three-story and basement frame (4) apartments.

Owner—Jeanette Liebman, 113 9th Ave., San Francisco.
Architect—C. O. Clausen, Hearst Bldg., San Francisco.

Contract Awarded.

APARTMENTS. Cost, \$75,000
LOS ANGELES. Los Angeles Co., Cal. No. 360 South Burlington St.

Two-story brick and stucco apartment house, 50x71, with dance hall in basement.

Owner—Lila Lee.
Architect & Contractor—Arthur Heese, 1117 Hollingsworth Bldg., L. A.

Contract Awarded.

STORE & APT. HOUSE. Cost, \$25,000
SACRAMENTO. Sacramento Co., Cal. 120-122 1 St.

Three-story frame store and apartment house.

Owner—E. T. Berry, 2126 Howard St., San Francisco.
Architect—None.

Contractor—Capital Construction Co., 1405 K St., Sacramento.

Plan to Start Work in Sixty Days.

APARTMENTS. Cost, \$1,300,000
SAN FRANCISCO. NE Sacramento and Mason Sts., 137-6x275.

Eight-story and basement class A reinforced concrete community apartment house (47 apts. from 6 to 22 rooms each).

Owner—El Francisco Apartments, Inc., M. V. E. MacAdam Co.
Architect—Harry P. Merritt, 485 California St., San Francisco.

Contractor—Marcus Marcussen, 485 California St., San Francisco.

Many of the choicest apartments have been sold. Among the purchasers are Wm. G. Henshaw, Mrs. Wm. Younger, Chas. Rodolph, Mrs. A. V. Drury, Commander Martin J. Peterson, U. S. N. Misses. Eliz. and Grace Brown, Mrs. Downey Harvey, et al.

There will be a large garage in the basement. The entrance will be on the corner with ornamental iron gates, a garden, 30x100 with sunken pool, etc.

Plans Being Prepared.

APARTMENTS. Cost, \$70,000
LONG BEACH. Los Angeles Co., Cal. No. 319-323 W Fourth St.

Four-story apartment building (96

Owner—F. M. Butterfield, 919 E-17th St., Long Beach.

Plans Being Prepared—To Be Ready for sub-figures in Two Weeks.

APARTMENTS. Cost, \$65,000
SAN FRANCISCO. E. Leavenworth 80 ft. S. Ellis.

Five-story reinforced concrete (23 2-room apts.), 50x85.

Owner—Withheld.

Architect—A. H. Knoll, Hearst Bldg., San Francisco.

SPECIFICATIONS

Floors: Hardwood.

Heating: Steam.

Plumbing: Hot water heater.

Wall h-eds.

Electric elevator.

Contracts Awarded.

APARTMENTS. Cost, \$40,000
RICHMOND. Contra Costa Co., Cal. Cor. Solano Ave. and The Alameda.

Two-story apartment building with stores, 50x150.

Owner—W. & F. Partado and Chris Escobar, Mechanics Bank Bldg., Richmond.

Designer & General Contractor—E. A. F. Carson.

Plumbing and Heating—J. I. Collins.

Sheet Metal Work—Spiesch Bros.

Electrical Work—V. G. Elec. Co.

Grading & Concrete Work—Frank Ausz.

Painting—Frank McCauley.

Plastering—George Ingram.

Hardwood Stairs and Floors—C. Peterson.

Contract Awarded.

APARTMENTS. Cost, \$195,000
SAN FRANCISCO. NE Gough and Washington Streets.

Eight-story and basement reinforced concrete apartment house (60 3, 4 and 5-room apts.)

Owner—Crest View Apartments, Inc. Architect—Jos. L. Stewart, Claus Spreckels Bldg., San Francisco.

Contractor—Mason Bros., 251 Kearny St., San Francisco.

LONG BEACH, Los Angeles Co., Cal.

C. Schlusmeyer, manager Broadway Department Store, 411 Pine Ave., Long Beach, is reported having plans prepared by R. H. Walker, 35 American Ave., for a \$60,000 3-story, 60-room apartment building, to be erected at 5th St. and Pacific Ave., and an \$80,000 market building at 6th St. and Pacific Ave. on sites recently purchased from the Board of Education following the abandonment of the Pine Ave. School.

PORTERVILLE, Tulare Co., Cal.—W. J. Godley

will construct bungalow court in Thomas Acres, a new residence tract; will house ten families; estimated cost, \$25,000.

BANKS

Contracts Awarded.

BANK & OFFICE BLDG. Cost, \$200,000
WHITTIER, Los Angeles Co., Cal. Two-story and basement Class A bank and office building.

Owner—First National Bank.

Architect—John and Donald Parkinson.

Title Insurance Bldg., Los Angeles.

General contract to Macdonald & Douglas Bldg., Los Angeles, \$92,000.

Structural steel to Baker Iron Works.

Terra cotta to Gladding & McBean.

Crocker Bldg., San Francisco.

Contract Awarded.

BANK, STORE, OFFICE AND LODGE BLDG. Cost, \$—
REDONDO BEACH, L. A. Co., Cal. Pacific Ave. and El Paso.

Four-story brick bank, store, office and lodge bldg., 127x157.

Owner—Redondo Savings Bank.

Engineer—L. E. Pemberton, Redondo.

Contractor—Jay Thurber, Redondo.

The brick work was awarded to Dillon & Wilson.

Plans Being Prepared.

BANK. Cost, \$—
OAKLAND, Cal. College Ave. Two-story concrete brick and terra cotta branch bank.

Owner—Oakland Bank of Savings.

Architect—Reed & Corlett, Bank of Savings Bldg., Oakland.

General and Segregated Bids Wanted.

BANK. Cost, \$100,000

LOS ANOS, Merced Co., Cal. Sixth and Eye Sts.

Two-story Class A concrete bank and office building.

Owner—Bank of Los Banos.

Architect—H. H. Winer Co., 503 Market St., San Francisco.

BONDS

WHITTIER, Cal.—Blythe, Witter & Co., Los Angeles

were awarded the \$20,000 water bond issue by the city trustees at a premium of \$1381.80.

WHITTIER, Cal.—Blythe, Witter & Co., Los Angeles

have purchased the \$149,500 city sewer bond issue at a premium of \$815.25.

LIVE OAK, Santa Cruz Co., Cal.

Election will be held Sept. 1 in Live Oak School District to vote bonds of \$10,000 for school improvements. Trustees of district are: A. M. Foster, C. P. Baird, and Mrs. M. V. Keller.

REDDING, Shasta Co., Cal.—Shasta county

at November general election, will vote question to issue bonds of \$50,000 to finance construction of one or more memorial buildings for use of ex-service men.

SAN FRANCISCO—Finance Committee of Board of Supervisors proposes to call election to vote bonds of \$12,000,000 to purchase sites and construct additional school buildings also \$2,000,000 to reconstruct relief home buildings.

FRESNO, Fresno Co., Cal.—Bonds of \$82,000 voted to purchase sites for new school buildings.

SAN BERNARDINO, San Bernardino Co., Cal.—County supervisors will submit to voters at once proposition to bond county in sum of \$250,000 for a court house. The grand jury has insisted on immediate action as the present quarters are a menace to the records. The issue has been submitted to the people twice within the past two years. Tentative plans were prepared previously by Architect H. E. Jones, Katz Bldg. If the present issue is defeated, the supervisors must build a temporary fireproof building at the rear of the court house for safekeeping of documents.

OAKLEY, Contra Costa Co., Cal.—Election will be held September 4 in Oakley School District to vote bonds of \$15,000 to finance construction of a new school. Trustees of the district are J. Hall, K. Y. Mooney and O. M. Champlin.

Jas. T. Narbatt, 910 Macdonald Ave., Richmond, is the architect.

REEDLEY, Fresno Co., Cal.—Election held in Altamont Union High School District to vote bonds of \$85,000 to finance school improvements failed to carry. J. Ryland of Fresno are the architects.

COLUSA, Colusa Co., Cal.—Election will be held Sept. 12 in Colusa Union High School District to vote bonds of \$250,000 to finance construction of new high school plans for which are being completed by Architect W. H. Weeks, 369 Pine St., San Francisco.

FRESNO, Fresno Co., Cal.—Supervisors sell \$150,000 bond issue of Central Union High School District for premium of \$6808; proceeds of sale to finance construction of one-story administration building to contain 13 rooms. An architect will be selected within the next few days.

TRACY, San Joaquin Co., Cal.—City trustees propose to issue bonds of approximately \$136,000 for septic tank, fire equipment, water main extensions and other improvements. W. D. Harrington, city engineer.

SAN FRANCISCO—Supervisors adopt resolution to call election to vote bonds of \$12,000,000 to erect new schools and additions to standing buildings. In addition to school issue supervisors are pledged to place 15-cent tax rate to meet repairs, etc., to schools.

SAN FRANCISCO—Supervisors adopt resolutions to call election to vote bonds of \$2,000,000 for the erection of a new relief home.

MERCED, Merced Co., Cal.—Bonds of \$13,000 voted to finance paving streets in vicinity of John Muir and West side Grammar schools.

SANTA ROSA, Sonoma Co., Cal.—City Street Commissioner L. L. Miller proposes bond election for \$50,000 to finance construction of municipal asphalt plant.

OROVILLE, Butte Co., Cal.—Until Aug. 31 bids will be received by supervisors for purchase of \$6000 bond issue of Cohasset Union School District; proceeds of sale to finance school improvements.

DELANO, Kern Co., Cal.—City trustees sell \$25,000 water bond issue for premium of \$100; proceeds of sale to finance improvements to water system.

NAPA, Napa Co., Cal.—Bonds of \$650,000 voted, of which \$240,000 will purchase system of Napa City Water Co. and balance for improvement and extensions of city's water holdings in Milliken Canyon.

CHURCHES

Segregated Figures Being Taken.
CHURCH—Cost, \$125,000
SAN FRANCISCO, Funston Ave. and Clement St.
One-story and basement reinforced concrete church.
Owner—Fourth Church of Christ Scientist.
Architect—Carl Werner, Humboldt Bank Bldg., San Francisco.

Plans Being Prepared—Figures to Be Taken Shortly.
CHURCH—Cost, \$—
LOS ANGELES, Los Angeles Co., Cal.
Guirado St. near Euclid.
Hollow tile and concrete church (to seat 600, Sunday School to seat 400).
Owner—Eleventh Church of Christ Scientist.
Architect—A. F. Leicht, 1006 Hilberian Bldg., Los Angeles.

Preliminary Plans Being Prepared.
CHURCH—Cost, \$350,000
LOS ANGELES, Los Angeles Co., Cal.
Windsor Blvd. and Normandie Ave.
Church.
Owner—Wilshire Boulevard Christian Church.
Architect—Robert H. Orr, 3301 Van Nuys Bldg., Los Angeles.

Contracts Awarded.
CHURCH—Cost, \$22,258
ELK GROVE, Sacramento Co., Cal.
One and two-story concrete and frame church.
Owner—Federated Community.
Architect—F. A. S. Foale, Ochsner Bldg., Sacramento.
Contractor—Wm. C. Keating, Capitol National Bank Bldg., Sacramento.
Plumbing and heating awarded to Lupton, Hawley & Thing, 906 7th St., Sacramento.
Electrical work to Sterling Elec. Co., 1017 9th St., Sacramento.
Work has been started.

Plans Being Figured—Bids Close Aug. 26, 1922.
CHURCH & SCHOOL—Cost, \$200,000
SAN FRANCISCO, N. Filbert 137-6 E. Powell.
Three-story, basement and tower, reinforced concrete and steel church and school building.
Owner—Roman Catholic Archbishop.
Architect—Chas. Pantoni, 559 Montgomery St., San Francisco.
Figures are being taken as follows:
General contract, including concrete work, carpentry (rough and finish), sheet metal, hollow tile partitions, brick work, rough hardware, and setting finish hardware.
Electrical work.
Plumbing and heating.
Terra cotta work.
Plastering.
Roofing (tar and gravel or asbestos).
Painting.
Ornamental iron work.
Marble, terrazzo and travertine granite.

Plans Completed—Figures to Be Taken About Sept. 1, 1922.
CHURCH—Cost, \$185,000
LOS ANGELES, Adams & Figueroa Streets.
Reinforced concrete church building, tile roof and art glass.
Owner—St. Johns Episcopal Church, Los Angeles.
Architect—Pierpont Davis, 817 Santee St., Los Angeles.

Plans Being Prepared.
AUDITORIUM—Cost, \$40,000
LOS ANGELES, Los Angeles Co., Cal.
NE. Alvarado and Reservoir Sts.
Auditorium to seat 800, classrooms, social hall, kitchen, gymnasium, etc.
Frame and plas. constr., tile rfr., pine trim, staff work, art glass, hardwood fls., gas rad. htg., fan system of ventilating, indirect lighting, pipe organ, pews and opera chairs.
Owner—Echo Park M. E. Church, Los Angeles.
Architect—Arthur G. Lindey, 901 Wright and Callender Bldg., Los Angeles.

Bids opened.
CHURCH—Cost, \$—
RICHMOND, Contra Costa Co., Cal. NW
Nevan Ave. and 12th St.
One-story frame and stucco church.
Owner—First Church of Christ Scientist.
Architect—E. A. F. Carson, 542 24th St., Richmond.
K. J. Henning, 546 43rd St., Richmond, \$3975, including pews add \$275; T & G. partitions add \$40.
John Collins, \$4332 (include pews), T. & G. partitions, \$4288.
F. J. McCausland, \$4275.50; pews add \$271. T & G. partitions deduct \$75.
Carl Overea, \$4500 complete.
E. A. F. Carson, \$4704 complete.
Minor work, \$5234.87 (including pews); T & G. partitions deduct \$68.
Bids were taken under advisement.

Contracts Awarded.
AUDITORIUM—Cost, \$63,750
SAN JOSE, Santa Clara Co., Cal., 5th St. near Santa Clara.
One-story reinforced concrete building (auditorium).
Owner—Society of Practical Christianity.
Architect—Binder & Curtis, 255½ S. 1st St., San Jose.
General Contract—Frank Edmunds, 113 N. 5th St., San Jose.
Heaton, W. J. Enright, San Francisco, \$8311.
Bids for the gravel, cement, hardware, sheet metal and plumbing have been taken by the owners.

Contract Awarded.
MAUSOLEUM—Cost, \$8060
HOLY CROSS CEMETERY, SAN Mateo Co., Cal.
Bronze, marble, granite and concrete mausoleum.
Owner—Withheld.
Architect—Albert Fabre, 110 Sutter St., San Francisco.
Contractor—H. U. Realine, 429 Hearst Ave., San Francisco.

FACTORIES & WAREHOUSES

Figures to Be Taken August 15th.
WAREHOUSE—Cost, \$—
LOS ANGELES, Los Angeles Co., Cal.
Fourth and Alameda Streets.
Five-story reinforced concrete warehouse, 80x160.
Owner—DeKins Fireproof Storage Co., Engineer—Edw. T. Flaherty, 435 L. W. Biltmore Bldg., Los Angeles.

Contract Awarded.
ALTERATIONS, ETC.—\$21,000
SAN FRANCISCO, Block bounded by Quint Phelps, Jerrold & Kirkwood.
Move and make alterations and additions to sheep sheds and barns.
Owner—Legalatt & Hellwig - Norton Co., 1600 Fairfax Ave. San Francisco.
Engineer—Leland S. Rosener, Ins. Ex. Bldg., San Francisco.
Contractor—J. A. Bryant, 185 Stevenson St., San Francisco.

Sub-figures Being Taken.
LAUNDRY.—Cost, \$50,000
STOCKTON, San Joaquin Co., Cal. NE
Lafayette and California Sts.
One-story brick and concrete laundry building, 92x150.
Owner—Exclusive Laundry.
Architect and Contractor—Davis-Heller-Pearce Co., Delta Bldg., Stockton.

Contract Awarded.
PLATFORM—Cost, \$15,000
SUNNYVALE, Santa Clara Co., Cal.
Javel's Slough.
One-story frame and corrugated iron warehouse loading platform, pile wharf.
Owner—South Shore Port Co.
Designer & Contractor—Kemper Constr. Co., 628 Montgomery St., S. F.

Contract Awarded.
FACTORY—Cost, \$26,000
SAN FRANCISCO, Bryant near Second St.
Three-story R. C. Factory.
Owner—Louis R. Lurie, care Architect.
Architect—O'Brien Bros., Inc., 240 Montgomery, San Francisco.
Contractor—Vukobratovich & Bagge, 177 Stevenson St., San Francisco.

Contract Awarded.

ALTERATIONS AND ADD. Cost, 21,000
SAN FRANCISCO. Block bounded by
 Quint, Phelps, Jerrold and Kirk-
 wood.
 Move and make alterations and addi-
 tions for sheep shed and barns.
 Owner—Legallatt—Hewitt—Norton
 Co., 1600 Fairfax Ave., San Fran-
 cisco.

Engineer—Leland S. Rosener, Ins. Ex.
 Bldg., San Francisco.

Contractor—J. A. Bryant, 185 Steven-
 son St., San Francisco.

Foundation to Be Done By Day's

Laboi.
MFG. PLANT. Cost, \$—
SAN FRANCISCO. Adjoining 330 10th

St.
 Two or four-story brick manufactur-
 ing plant.

Owner—U. S. Metal Products Co., 330
 10th St.

Architect—Not selected.
 Work will be started immediately on
 the foundation.

Contract Awarded.

CLASS A BLDG. Cost, \$60,000
LOS ANGELES. Amelia Ducommun
 and Commercial Sts.
 One-story brick Class C building, 100

by 202
 Trustees—Bank of Italy, Los Angeles.

Official Proposals

NOTICE TO BIDDERS

LODI UNION HIGH SCHOOL BUILDING, LODI, CALIFORNIA

Bids Wanted For Grand Stand, Fence and Gates

Notice is hereby given by the Board of Trustees of the Lodi Union High School District that sealed bids will be received at the office of the Clerk of the Board of the said Lodi Union High School District at the High School Building in said city of Lodi, up to the hour of four o'clock P. M. on the 24th day of August, 1922, at which time all bids will be publicly opened. Said bids to be for the furnishing of labor and materials and erecting a Grand Stand and for fencing Athletic Grounds, all of which is to be on the present High School Site, in the City of Lodi, County of San Joaquin, State of California.

Bids will be for:
Construction of Grand Stand.
Construction of Fence and Gates, and shall be for all work according to plans and specifications which may be obtained at the office of Wright & Satterlee and S. Stone, Architects for the Board, Bank of Italy Building, Stockton, California, during business hours.

All bids must be accompanied by a certified check or certificate of deposit of 5 per cent of the amount of bid tendered, made payable to Perry O. Clark, Clerk of the Board of Trustees, and conditioned that the successful bidder shall enter into a contract in accordance with such bid, and file with said Board of Trustees an approved bond within six days after acceptance of his bid, which bonds shall be conditioned for the faithful fulfillment of the contract entered into, and for the protection of all persons performing labor or furnishing materials for the construction of said Grand Stand and Fence.

In case the said contractor shall fail to execute a bond acceptable to the Board within the said six days due notice having been given him, then shall the contractor forfeit all claim to the said amount, said certified check of 5% of his bid, and it shall become the property of the Lodi Union High School District.

All bids must be submitted upon forms obtained from the Architect.

Contractors must make a deposit of \$10 (ten) dollars with the Architect when taking plans and specifications from the office.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees,
W. S. NELSON, COMEYRY,
J. E. NELSON
FRED FERROTT,
THEO. BECKMAN,
PERRY O. CLARK, Clerk.

NOTE:—Date of Opening Bids Extended to August 26, 1922, at 2 P. M.

NOTICE TO CONTRACTORS

Kerman High School)

The Board of Trustees of the Kerman Union High School District, Kerman, California, will receive sealed bids up until 2 o'clock p. m. August the 19th, 1922, at the High School Building, Kerman, California, at which time and place said bids will be opened and read in public, for furnishing the required labor and materials for, and erecting and completing the proposed new High School Building in accordance with plans and specifications prepared therefore by Anton Johnson, Architect, of Kingsburg, California. Bids will be received separately for the different segregated contracts, as follows:

CONTRACT No. 1: For the Excavating, Concrete, Carpenter Work,

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Milwork, Masonry Work, Terra Cotta and Cast Cement.

CONTRACT No. II: Sheet Metal.

CONTRACT No. —: Lathing and Plastering.

CONTRACT No. V: Blackboards.

CONTRACT No. VI: Painting.

CONTRACT No. VII: Plumbing.

CONTRACT No. VIII: Electrical Wiring.

CONTRACT No. IX: Program Clock.

CONTRACT No. X: Heating.

CONTRACT No. XI: Hardware.

CONTRACT No. XII: Metal Lockers.

CONTRACT No. XIII: Acoustical Felt.

CONTRACT No. XIV: Lighting Fixtures.

CONTRACT No. XV: Venetian Blinds.

NOTE: Contractors may bid on any contract or any combination of contracts and the board reserves the right to avoid contracts accordingly. Certified check or bidder's bond for an amount not less than ten per cent (10 per cent) of amount of bid should accompany each proposal, made payable to the order of Mr. M. S. Meeker, Clerk, of the Kerman Union High School District, as a guarantee that the bidder will, within ten (10) days after being notified of the acceptance of his bid, enter into a contract with said High School Board in accordance therewith, and shall furnish bonds as required by the specifications. Said checks to be forfeited to the said High School District should the bidder refuse to execute contract and furnish bonds as above mentioned.

Plans and Specifications for all the above work may be seen in the office of Anton Johnson, Architect, Kingsburg, California.

A deposit of Twenty-five Dollars (\$25.00) will be required for the plans and specifications. This deposit to be refunded on the return of the plans and specifications accompanied with a bona-fide bid.

The Board of Trustees of the Kerman Union High School District reserves the right to reject any or all bids submitted.

By order of the Board of Trustees, Kerman Union High School District, by Mr. M. S. Meeker, Clerk.

NOTICE TO CONTRACTORS

(Palo Alto High School District Gymnasium, Etc.)

The High School Board of the Palo Alto Union High School District, Santa Clara County, California, will receive sealed proposals up until 7:30 o'clock P. M. August 30, 1922, at the present Union High School Building, Embarcadero Road and State Highway, Palo Alto, California, at which time and place said bids will be opened and read in public for furnishing the required

labor and materials for and erecting and completing the proposed new High School gymnasium, locker rooms, showers, etc., in accordance with plans and specifications thereto by Allison & Allison, 1165 Hilberian Bldg., Los Angeles, and Birge M. Clark, 600 Embarcadero Road, Palo Alto, California, associate architects.

Cashier's or certified check for bidder's bid for amount not less than five per cent of amount of bid shall accompany each proposal, drawn payable to the order of Walter H. Nichols, Clerk of the High School Board of the Palo Alto Union High School District, as a guarantee that the bidder will, if requested within five days after receiving notice of the acceptance of bid enter into a contract with said High School Board in accordance therewith and furnish the required bonds.

Said check or bond to be forfeited to the High School Board should the bidder fail to execute contract and bonds as above mentioned.

All bids to be made out on forms furnished by the architects.

Plans and specifications for all of the above work may be seen at the office of Birge M. Clark, Architect, 600 Embarcadero Road, Palo Alto, or at the office of Allison & Allison, Architects, 1465 Hilberian Bldg., Los Angeles.

Plans may be obtained from the office of Birge M. Clark, Architect, 600 Embarcadero Road, upon the deposit of \$15.00, which deposit will be refunded to the bidder when plans and specifications are returned in good condition.

The said High School Board reserves the right to reject any and all bids and waive any informality in any bid received.

By order of the High School Board of the Palo Alto Union High School District.

By WALTER H. NICHOLS, Clerk.

Dated August 11, 1922.

NOTICE TO BUILDING CONTRACTORS

(Del Monte School)

The Trustees of the Del Monte School District will receive sealed proposals up until 7:30 P. M. on the 28th day of August, 1922, at the Del Monte School District, Seaside, Calif., at which time and place said bids will be opened and read in public, for furnishing the required labor and material for erecting and completing a proposed one-room concrete school building, in accordance with plans and specifications prepared therefor by

Tuttle & Angel, Architect, 565 Lighthouse Ave., Pacific Grove, Calif.

A cashier's or certified check for an amount not less than 5 per cent of the amount of the bid shall accompany each proposal, drawn payable to the order of J. L. D. Roberts, clerk of the said Board of Trustees as a guarantee that the bidder will, after being notified of the acceptance of his bid, enter into a contract with said Board of Trustees, and furnish bonds as required by the specifications. Said check to be forfeited to the said School District, should the bidder fail to execute the contract and furnish bonds as above mentioned.

Plans and specifications for the above work may be seen and secured at the architect's office.

The said Board of Trustees reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees of the Del Monte School District, Seaside, California.

MARY F. CLIMSTED President.

J. L. D. ROBERTS, Clerk.

J. E. BENTLEY, Member.

Dated August 10th 1922.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock, on September 19, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Lassen County, across Susan River, near Fredonia (H-Las-29-B), a reinforced concrete bridge having a main arch span of 100 feet, and four foot girder spans with the necessary abutments, piers and retaining walls; also the construction of a railroad abutment.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.

AUSTIN B. FLETCHER,
State Highway Engineer.

R. A. MURRAY, Secretary.

Dated August 14, 1922.

NOTICE TO BUILDING CONTRACTORS

(Pacific Grove High School Gymnasium)

The Trustees of the Pacific Grove High School District will receive sealed proposals up until 8 P. M. on the 24th day of August, 1922, at the office of the Board, at the Pacific Grove High School Building, Pacific Grove, California, at which time and place said bids will be opened and read in public, for furnishing the required labor and material for erecting and completing a proposed new gymnasium building, in accordance with plans and specifications prepared therefor by Tuttle & Angel, Architects, 565

Lighthouse Ave., Pacific Grove, Calif.

Bids will be separately for the different contracts as follows:
First: The General Contract Work.
Second: The Hot Water and Heating contract.

A cashier's or certified check for an amount not less than 5% of the amount of bid shall accompany each proposal, drawn payable to the order of J. J. Williams, Clerk of said Board of Trustees, as a guarantee that the bidder will, after being notified of the acceptance of his bid, enter into a contract with said Board of Trustees, in accordance therewith and shall furnish bonds as required by the specifications. Said check to be forfeited to the said School District should the bidder fail to execute contract and furnish bonds as above mentioned.

Plans and specifications for the above work may be seen and secured at the architect's office.

The said Board of Trustees reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees of the Pacific Grove High School District, Pacific Grove, California.

Dated August 19th 1922.

H. G. JORGENSEN, President.

J. J. WILLIAMS, Clerk.

O. E. CHASE, Trustee.

NOTICE TO BIDDERS

The Turlock Irrigation District in Stanislaus and Merced Counties, Transformers and Switches

Sealed proposals will be received at the office of the Turlock Irrigation District at Turlock, California, until September 3, 1922, at 2 P. M. o'clock, for furnishing

4—1000 K. V. A.—66 KV and 4—2000 K. V. A. 66 KV insulated water cooled transformers.

2 outdoor oil switches.

3 outdoor air break line switches.

Complete specifications and forms of contract and bond for the proposed work will be furnished upon application. The contract will be let to the lowest responsible bidder, but the Board reserves the right to reject any and all bids.

Each proposal must be accompanied by a certified check for five (5) per cent of the amount of the bid, payable to the order of the Treasurer of the Turlock District for the benefit of said District, as an earnest money. The bidder will, if successful, execute a satisfactory contract and furnish a bond in the sum of twenty-five (25) per cent of the amount of his bid for the faithful performance of the work in accordance with the specifications, said bond to be subject to the approval of said Board.

The proposal must be marked "Proposals for Transformers and— or Switches" and addressed "Anna Sorenson, Secretary, Turlock Irrigation District, Turlock, California."

Done in pursuance of orders of the Board of Directors of the Turlock Irrigation District, this 17th day of August, 1922.

ANNA SORENSON,

Secretary Turlock Irrigation District.

NOTICE TO BIDDERS

Notice is hereby given to bidders that bids for the finishing of certain portions of the Sonora Union High School Gymnasium building as per plans on file in the office of Chas. H. Segerstrom, Sonora, Cal., also at the office of Davis-Heller-Pearce Co., Architects, Delta Bldg., Stockton, Calif., will be opened on Saturday, August 19, 1922, at 2 o'clock P. M. at the office of Chas. H. Segerstrom, Sonora, Calif.

The Board reserves the right to reject any and all proposals or proposals received.

A check for 10% of the amount of the bid must accompany each bid.

Dated at Sonora, Calif., August 4th, 1922.

By order of the Board of Trustees of the Sonora Union High School District, Tuolumne County, Calif.
CHAS. H. SEGERSTROM,
Clerk Board of Trustees of the Sonora Union High School District, Tuolumne County, Calif.

Saturday, August 19, 1922

BIDS WANTED FOR GENERAL WORK FOR STATE PRINTERY**NOTICE TO CONTRACTORS**

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief Division of Architecture, Forum Bldg., Sacramento, California, up to and including 10 o'clock A. M., Monday, September 11, 1922, said bids then and there to be publicly opened and read for furnishing all plant, materials and doing the work required for the complete GENERAL WORK for the STATE PRINTERY, SACRAMENTO, CALIFORNIA, in accordance with plans and specifications, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Such bids will be received for the General Work and must be submitted on forms prepared and furnished by said Division of Architecture.

Cash, a bidder's bond made payable to the "State of California," or a certified check made payable to the State Engineer, Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid must be enclosed with each bid.

A deposit of Twenty-five (\$25.00) Dollars will be required of plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

The construction work of said State Printery has been placed on a days' labor basis and on said basis the said General Work, as a sub-division of said construction, is to be let by contract.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, State Printery, Sacramento, California, STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE."

Geo. E. McDougall,

A. E. FLETCHER,
Director of Public Works

NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received by the Board of School Trustees of the Buttonwillow School District, of the County of Kern, State of California, up until two o'clock on the 29th day of August, 1922, at the office of the Architect, said office located in the Brower Building, Bakersfield, California, for the furnishing of all materials and labor necessary to build and complete a one-story

Masonry and Frame School Building for the Board of School Trustees of the Buttonwillow School District, County of Kern, California, as per plans and specifications prepared by Orville L. Clark, Architect, offices 101 Brower Building, Bakersfield, California, which plans and specifications may be obtained at said Architect's office.

Each bid shall be made out on a form to be obtained at the Architect's office and must be accompanied by a certified or cashier's check in the amount of ten per cent (10%) of bid made payable to the order of Clerk of Board of School Trustees of the Buttonwillow School District. Bids shall be sealed and filed with the Architect for said Board of School Trustees of the Buttonwillow School District, at the above-mentioned specified time.

The above mentioned check shall be given as evidence that the bidder will enter into contract, if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested to do so by the Board of School Trustees.

The successful bidder will be required to furnish two bonds of a surety company satisfactory to the Board of School Trustees of the Buttonwillow School District, one covering an amount equal to fifty per cent (50%) of the contract price, and one equal to twenty-five per cent (25%) of the contract price.

The Board of School Trustees reserves the right to reject any or all bids.

Dated this 11th day of August, 1922.

W. F. SMITH,

J. H. JONES,

Trustees of the Buttonwillow School District.

NOTICE TO CONTRACTORS

(Kern County Union High School Class Room Building)

Sealed Bids will be received until 8 P. M., August 24, 1922, by the Board of Trustees of the Kern County Union High School, Kern County, California, for furnishing all materials and labor for the erection and completion of a Frame Class Room Building, Kern County Union High School, Bakersfield, California.

Plans for said building may be had at the office of Charles H. Biggar, Architect, 405-6 Bank of Italy Building, Bakersfield, California, and the work will be erected under his supervision.

All bids must be accompanied by a certified check in the amount of at least ten per cent (10%) of the amount bid, such check to be made payable to the Kern County Union High School District, and said check will be held as evidence of good faith that the successful bidder will enter into a contract for the work proposed that will be satisfactory to the Board of Trustees, and in addition thereto furnish good and sufficient bonds therefor.

Time will be the essence of this contract, and consideration of time required in the contractor's proposal will be the chief element in awarding the above work. Forfeiture and bonus clause of \$50.00 per day will be included.

The Board reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees, Kern County Union High School, Kern County, California.

ERWIN W. OWEN, President.

BOYCE R. FITZGERALD, Clerk.

TREASURY DEPARTMENT, SUPERVISOR, Architect's Office, Washington, D. C. August 10, 1922.—SEALED PROPOSALS will be opened in this office at 3 p. m., Oct. 2, 1922, for the construction of the United States Postoffice and Courthouse at Cordova, Alaska. Drawings and specifications may be obtained after August 21, 1922, from J. W. Roberts, Supervising Superintendent, 403 F. O. Bldg., San Francisco, Calif.; from the Custodian of the site at Cordova, Alaska, or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

NOTICE TO BIDDERS (School Furniture)

Notice is hereby given that the Board of Trustees of the Modesto High School, District, of Stanislaus County, California, will, at the offices of said board at the High School building on "H" Street, Modesto, California on the 29th day of August, 1922, at 8:00 p. m. of that day, receive and consider sealed bids for supplying the following:

180 Tablet Arm Chairs.

100 Vienna Chairs.

12 Teachers' Chairs.

Bids will not be considered unless guaranteeing delivery by September 6, 1922.

Bidders are asked to submit samples. All bids must be sealed and filed with the Clerk of the Board of Trustees prior to 8 p. m. on the 29th day of August, 1922, and be accompanied by a certified check on some solvent bank of the State of California for ten per cent of the amount of the bid submitted, which check is required as guarantee that the successful bidder will, within two days after the notice of the award of the contract to him, enter into a satisfactory contract with the Board of Trustees, the amount thereof to be retained as liquidated damages in event said contract is not entered into by such contractor.

The Board of Education reserves the right to accept and reject any and all bids.

Dated this 15th day of August, 1922.

KATHLEEN G. PIEWETT,
Clerk of the Board of Trustees of the Modesto High School District.

BRIDGES, DAMS & HARBOR WORK

OROVILLE, Butte Co., Cal.—Until Aug. 31 bids will be received by C. F. Belding, county clerk, to construct bridges as follows:

Over east channel, Butte creek, on Goodspeed Road, involving 84.8 cu. yds. A rein. conc.; 69 cu. yds. excavation; 46 cu. yds. backfill.

Over Mud creek on Hicks Lane, involving 152 cu. yds. A rein. conc.; 91 cu. yds. excavation; 65 cu. yds. backfill.

Over west channel, Butte creek, involving 245.4 cu. yds. A rein. conc.; 130 cu. yds. excavation; 100 cu. yds. backfill.

Over Wyman ravine on Watt Colony Road, involving 84.8 cu. yds. A rein. conc.; 62 cu. yds. excavation; 40 cu. yds. backfill.

Over overflow channel on Rock creek, on Keffer Road, involving 58.9 cu. yds. A rein. conc.; 30 cu. yds. excavation; 21 cu. yds. backfill. Harry H. Hume, county surveyor.

CALIFORNIA—Until Sept. 11, 2 p. m., bids will be received by state highway commission to construct reinforced concrete bridge having a main span of 100 ft. and four 15-ft. girder spans with necessary abutments, piers and retaining walls; also the construction of a railroad abutment, in Lassen county, across Susan river, near Fredonia. Austin B. Fletcher, state highway engineer. See call for bids under official proposal section in this issue.

VALLEJO, Solano Co., Cal.—Assemblyman Robt. B. McPherson announces that Marin county farmers are backing a movement to erect a dam across Soнома creek, just above the point where it would be necessary to build a bridge as a connecting link in the Vallejo-Marin county highway. Surveys have been completed. Plans include construction of dam to water 30,000 acres now being watered by private enterprise.

WILLOWS, Glenn Co., Cal.—Until Sept. 12, 10 a. m., bids will be received by W. H. Sale, county clerk, to construct rein. conc. "Murdock" bridge over Hamblin creek, 4 miles north-west of Orland in Road District 2. Bayard Knock, county surveyor.

SAN FRANCISCO—Board of Public Works requests supervisors to authorize preparation of plans to construct rock fill or bulkhead along the boulevard to complete that part of the Marina Blvd., extending from Steiner St. to the Presidio. Estimated cost, \$45,000, to be paid from county road funds.

YUBA CITY, Sutter Co., Cal.—Until Sept. 5, 2 p. m., bids will be received by supervisors to construct six reinforced concrete bridges, each about 40 ft. long, over main canal in District 700, on Long Bridge-Tarke road. E. von Geldren, county surveyor.

RIVERSIDE, Cal.—City Engineer Lee Nofzger and J. P. Kemmerer, deputy county surveyor of San Bernardino county, have recommended to city council repairs to Victoria Ave. bridge. Strengthening of the deck and reinforcing throughout will be included in the work.

AUBURN, Placer Co., Cal.—Until Aug. 31, bids will be received by A. S. Fleming, county clerk to construct bridge over Con Creek at Tucker bridge site.

SANTA BARBARA, Santa Barbara Co., Cal.—E. H. Hunt awarded contract by supervisors at \$2470.50 to construct rein. conc. bridge with stone railing and two abutments across Santa Monica Creek on the Foothill Road. Other bids were: A. A. Lemmon, \$3571; J. P. Arredui, \$3482.40; P. J. Cooney, \$3729; Fred Moore, \$4145.55.

MARIPOSA, Cal.—Until Sept. 6, bids will be received by Mariposa county supervisors for bridge at Bagley to replace structure destroyed by fire. Steel span 130 ft., with concrete floor, with 100 ft. approaches on which alternate bids will be asked for timber and concrete construction. Estimated cost, \$20,000. A. B. Cowell, Merced, engineer.

OAKDALE, Stanislaus Co., Cal.—Plans for Melones reservoir, proposed to be built by the Oakdale and South Joaquin Irrigation districts, are ready for consideration. A special meeting will be called to consider the plans when A. J. Wiley, consulting engineer for both districts, will be present.

STOCKTON, San Joaquin Co., Cal.—Until Sept. 6, 10 a. m., bids will be received by Eugene D. Graham, county clerk, to construct 640-ft. conc. steel and wood trestle bridge over Dry creek to be financed by San Joaquin and Sacramento counties, involving 239 cu. yds. conc.; 22½ tons rein. steel; \$6,000 ft. timber; 2200 lin. ft. conc. piling.

Separate bids, same date, to const. 2 rein. conc. bridges on Lone Tree road, involving 226.41 cu. yds. conc.; 16,330 lbs. steel.

Separate bids, same date, 2 bridges and culverts on Norton Lane road, involving 230.70 cu. yds. conc.; 1700 lbs. rein. steel. F. E. Quail, county surveyor.

VISALIA, Tulare Co., Cal.—Until Sept. 5, 2 p. m., bids will be received by G. R. Prestidge, county clerk, to construct reinforced concrete bridge over Sand Creek canal, involving 48.95 yds. Class A and 42.46 yds. Class B concrete. Laurence Moye, county surveyor.

PORTLAND, Ore.—Grant-Smith Co., Railway Exchange Bldg., Portland, at \$26,787, submits low bid to Dist. Eng. U. S. Bureau of Public Works, Department of Agriculture, to construct two bridges on Alsea river road in Siuslaw National Forest.

PORTLAND, Ore.—Until Aug. 24 bids will be received by public dock commission, foot of Stark St., to construct 330x178 ft. extension to Pier No. 1 at Municipal Terminal No. 4. Bids for superstructure will be asked at a later date.

OAKLAND, Cal.—Alameda county supervisors appropriate \$2000 to cover cost of preparing plans for proposed tide across Oakland estuary. Plans will be prepared by George A. Posey, county surveyor.

PHOENIX, Ariz.—Until 2:30 p. m., Aug. 30, bids will be received by Thos. Maddock, state engineer, for 130 ft. steel span bridge at Rio Puerco, near Allantown, Apache county. Work will involve approximately 300 cu. yds. excavation, 115 cu. yds. concrete, 55,000 lbs. structural steel, and 18,000 ft. E. M. Plans and specifications may be obtained upon payment of \$5. Certified check, 5%.

LOS ANGELES, Cal.—City council authorizes City Engineer John A. Griffin to proceed with construction of wooden bridge, 175 ft. long with 24-ft. roadway, across the Arroyo Seco, at San Pasqual Ave.

SALEM, Ore.—Until Aug. 29 bids will be received by State highway commission, Multnomah County Courthouse, Portland, for bridge construction as follows:

Baker County: Old Oregon Trail, one 45 ft. reinforced concrete span over Powder river near Baker creek, approx. 205 cu. yds. conc.; 23,000 lbs. metal reinforcement, 195 lin. ft. conc. hand rail. Gilliam County: Oregon - Washington Highway. Two rein. conc. bridges over Willow creek near Heppner Junction, approx. 155 yds. conc.; 19,000 lbs. metal reinforcement, 38,000 lbs. structural steel, 1300 lin. ft. piling, one 40-ft. "A" frame span.

Lincoln County: Newport - Corvallis Highway. One 80-ft. steel span with timber approach over the Yaquina river at Eddyville creek, approx. 135 cu. yds. conc.; 16,000 lbs. metal reinforcement, 55,000 lbs. structural steel, 450 lin. ft. piling.

Linn County: Pacific Highway. One wooden truss span over Callopolia river, approx. 195 cu. yds. conc.; 2500 lbs. metal reinforcing and one 120-ft. covered floor wood truss span.

Yamhill County: McMinnville - Tillamook Highway. One 80-ft. steel span over Willamina river at Willamina, approx. 115 cu. yds. of conc.; 15,000 lbs. metal reinforcement, 55,000 lbs. structural steel, 135 lin. ft. standard wooden trestle.

REDDING, Shasta Co., Cal.—Bids will be asked shortly by county supervisors to construct following bridges: concrete girder bridge over Daley creek on Cottonwood-Gas Point road; concrete girder bridge over Fall river near Glenburn; combination wood and steel bridge over Cow creek at Bell school house; wooden bridge over Flat creek between Keswick and new town of Mathewson. C. R. Weigel, county surveyor.

SANTA CLARA, Sonoma Co., Cal.—D. E. Albers, 475 Ellis St., Santa Rosa, at \$1790, awarded contract to construct concrete bridge at Station 150+38 on Sebastopol-Freestone highway, involving 16 cu. yds. reinforced conc. W. L. Proctor bid \$1840.

SAN MATEO, San Mateo Co., Cal.—A. Mattson, San Bruno, at \$4510, awarded contract by city trustees to construct rein. conc. bridge in Chester way.

PUREKA, Humboldt Co., Cal.—Fred M. Kay, County Clerk, instructed to advertise for bids to construct concrete girder bridge over small creek at the foot of Hydiesville rd. on Bridgeville road; a concrete girder bridge over Robner creek, ½ mile outside of Portuna and a wooden truss bridge and road grading on Dverville-Matole road. A. J. Logan, County Surveyor.

MARTINEZ, Contra Costa Co., Cal.—Bent Bros., 1714 Eagle St., Los Angeles, have a contract to construct two circular reinf. concr. oil reservoirs for the Shell Oil Co. of California, with headquarters at San Francisco. They will have about 750,000 gals. capacity each and will be partly excavated and partly banked with concr. lining reinforced with steel mesh; wood roofs. Contract amounts to about \$75,000.

SAN LUIS OBISPO, Cal.—Malno & Lane, San Luis Obispo, at \$7507, awarded contract by council to construct concrete bridge over Stenner creek at Villa St.

CALIFORNIA—D. A. Foley, Altin, Minn., at \$124,088, awarded contract by State highway commission to construct reinforced concrete girder bridge over San Gabriel river near Azusa, Los Angeles county.

IRRIGATION PROJECTS

OROVILLE, Butte Co., Cal.—Butte county supervisors rescind former action refusing to approve second assessment of Reclamation District No. 833, to finance construction work in district, and have passed resolution ratifying the assessment. Approximately \$1,000,000 will be spent in improvements.

MANTECA, San Joaquin Co., Cal.—Due to error in advertising notices, directors of South San Joaquin Irrigation District postpone election to vote \$170,000 loan from Aug. 31 to Sept. 5. Funds will be used to finance construction in district.

OREGON—Utilization of the Deschutes River, Ore., and its tributaries for irrigation approximately 140,000 acres in the Deschutes Basin, with incidental power development, is recommended to the Federal power commission in a report made by a board of engineers composed of D. C. Henry, consulting engineer of the Reclamation Service; Col. J. B. Cavanaugh, Army Service Corps, and F. E. Henshaw, district engineer, U. S. Geological Survey, under the Deschutes project for irrigation an aggregate of 55,000 horsepower could be developed on the lower river, according to the engineers, and if the upper Deschutes storage be used for power the aggregate horsepower would be increased to 613,000.

LIGHTING SYSTEMS

SAN BERNARDINO, Cal.—City Engineer C. J. Johnson preparing plans and specifications for an ornamental lighting system on E St., between Mill and Third Sts. There will be 22 three-light posts in business section and 52 one-light posts in residential district. Estimated cost, \$20,000.

LOMPOC, Cal.—Plans and specifications have been adopted by city trustees for one-year post lighting system. Work involves 42 posts; complete. Bids will be called for soon.

KOEHRING

the Heavy Duty
Mixer

Mixer Price vs Yardage Costs

Two vastly different things!

What's the value of price saving if you fail to get the heavy duty construction which means continuous, uninterrupted performance—lowest cost yardage?

On the job, not on the sales floor, is where your mixer demonstrates its profit and loss worth—and no margin of price can ever compensate for the higher cost of yardage, the loss of breakdowns, delays and fast depreciation.

Mixer heavy duty construction is too vital to your profit to be trifled with, either by you to save a few dollars in purchase price, or by the Koehring Company to meet price competition which is always the penalty of quality leadership.

KOEHRING CAPACITIES

Pavers: 7, 14, 21, 32 cu. ft. mixed concrete steam and gasoline, multi-plane traction, loading derricks, power discharge chute. Write for catalog P 000.

Construction Mixers: 10, 14, 21, 28 cu. ft. mixed concrete, steam and gasoline, power charging skip, batch hoppers. Write for catalog C 000.

Dandie Mixers: 4 and 7 cu. ft. mixed concrete, steam or gasoline, low charging platform, power charging skip, and light duty hoist. Write for catalog D 000.

BILLION FEET OF LUMBER IN SIX MONTHS SHIPPING RECORD

The extraordinary total of a billion board feet of lumber was shipped from Washington state to domestic and foreign markets in the first six months of this year. This is almost three times the total shipments for a corresponding period of 1921. Figures showing the foregoing total are furnished by Pacific Lumber Inspection bureau.

Foreign shipments totaled 340,290,445 feet and domestic shipments, 706,824,055 feet, of a total of 1,041,114,500 feet for the first six months of this year. Foreign shipments last year were 126,980,581 for the corresponding period; 297,610,131 feet were sent to domestic markets, bringing the total from January to the end of June in 1921 to 424,590,712 feet.

The following markets received Washington lumber:			
Foreign	1921	1922	
Japan	49,676,735	224,822,057	
Australia	12,905,585	39,344,611	
China	30,162,473	37,026,619	
South America	20,907,922	17,987,447	
United Kingdom	5,952,958	8,509,522	
South Africa		3,918,362	
India	848,807	3,109,847	
Cuba	541,702	2,176,235	
Mexico	2,480,709	2,047,741	
Central America		1,817,901	
New Zealand		30,150	
So. Sea Islands	655,118		
	126,980,581	340,290,445	

Domestic—		
California	205,309,519	489,596,188
Atlantic coast	67,360,331	181,046,826
Hawaii	23,843,358	27,642,326
Alaska	1,081,583	2,080,394
Panama	15,360	458,321
	297,610,131	700,824,055

Summary—		
	1921	1922
Foreign	126,980,581	340,290,445
	297,610,131	700,824,055
Grand total	424,590,712	1,041,114,500

2,500,000 Men Engaged in Building Trades, According to Latest Statistics

Acting upon the need for knowledge of the membership in the building trades unions and of the total number of men engaged in these trades in the United States, the Associated General Contractors of America has made an investigation and determined the following figures. The first table shows the average members in good standing in 1922, according to the best available information:

Asbestos Workers, Int'l Ass'n of Heat and Frost Insulators	2,100
Bricklayers, Masons and Plasterers Int'l Union of America	69,999
Bridge and Structural Iron Workers' Int'l Ass'n	16,000
Carpenters and Joiners, United Brotherhood of	312,000
Electrical Workers of America Int'l Brotherhood of	142,000
Elevator Constructors' Int'l Union	3,846
Engineers, Int'l Union of Steam Granite Cutters, Int'l Ass'n of ..	10,250
Hod Carriers, Building and Common Laborers' Int'l Union	46,002
Lather's Int'l Union Wood, wire and Metal	8,001
Marble, Slate and Stone Polishers, Rubbers and Sawyers, Tile and Marble Setters' Helpers, L. A.	1,568
Metal Workers, Int'l Alliance Amalgamated Sheet	24,999
Painters' Decorators and Paperhangers, Brotherhood of	99,274
Plasterers, Operative and Cement Finishers' Int'l Ass'n	24,715
Plumbers and Steam Fitters, United Association of	35,000
United Slate, Tile and Composition Roofers, Lamp and Waterproof Workers' Ass'n	3,000
Stone Cutters' Ass'n, Journeymen	4,602
	\$21,156

Information in regard to the total number of men engaged in the building trades is in an unsatisfactory condition. The following tabulation, based on figures from the 1920 census, shows a total of nearly 2,500,000 men in the building trades:

Brick and Stone Masons	131,257
Carpenters	887,208
Cement Finishers	7,621
Electricians	212,945
Painters, Glaziers and Varnishers (building)	248,394
Paperhangers	18,338
Plumbers	58,249
Plumbers and Gas and Steam Fitters	206,715
Roofers and Slaters	11,378
Stone Cutters	22,096
Structural Iron Workers (building)	18,836
Coppersmiths	5,232
Tinsmiths and Sheet Metal Workers	69,725
Laborers, building, general and not specified	608,075
Total	2,486,069
